12-inch	\$ 3,362.62	\$ 4.8059	First 2,250,000	\$ 4.8834	Over 2,250,000		

Low Income Surcharge: (\$0.0077)

The surcharge will be added to the highest clock commodity rate (residential, apartment, industrial and commercial customers only), and will change upon the Company's annual reconciliation of number of participants and top tier usage.

Low Income Programs details are noted in the Terms and Conditions section for General Water Service.

GENERAL WATER SERVICE

(continued)

Terms and Conditions

Water service provided under this rate schedule is subject to this District's Rules and Regulations applicable to Water Service and may be subject to this District's Service Charges set forth in Rate Schedule Service Charges and adjustor mechanisms included in the Company's tariffs on file with the Arizona Corporation Commission.

Water service under this Schedule is for the exclusive use of the Customer and water shall not be resold or provided to others.

In addition to the collection of regular rates, the utility will collect from its customers a proportionate share of any privilege, sales, use and franchise tax. Per Commission Rule 14-2-409(D)(5).

A 1½% late payment penalty will be applied to account balances not paid within fifteen (15) days after the postmark date of the bill in accordance with Arizona Administrative Code R14-2-310.C.

Low Income Program- Monthly Low Income Credit of \$10.00 is available in the Chaparral City Water district. Requires the completion of a Low Income Program Application. Program is restricted to the first 250 eligible residential customers on 3/4 inch meters in the Chaparral City Water district. Applicants must swear that he/she has annual income below the threshold. The threshold is below 150% of the federal low income guidelines as periodically revised. Applicant may not be claimed as a dependent on another person's tax return. Applicant must reapply each time moving residences. Refusal or failure to provide acceptable documentation of eligibility, upon request, shall result in removal from the low income program. Rebilling of customers under the otherwise applicable rate schedule may occur for periods of ineligibility previously billed under the low income tariff. Annual income means the value of all money and non-cash benefits available for living expenses, from all sources, both taxable and non-taxable, before deductions, for all people who live with the applicant.

Service Line and Meter Installation Charges

As provided for in the EPCOR Water Arizona Inc.'s Chaparral City Water District Rule No. 4 (B), the Company will charge the customer, as a refundable advance in aid of construction, an amount for each meter and service line as specified below:

Service Line and Meter Installation Charges:

Meter Size	Service Line Charge	Meter Installation Charge
5/8" x 3/4- inch Meter	\$4,000.00	\$165.00
3/4- inch Meter	\$4,000.00	\$185.00
1- inch Meter	\$4,000.00	\$220.00
1-1/2 - inch Meter	\$4,000.00	\$325.00
2- inch Turbine Meter	\$4,000.00	\$385.00
2- inch Compound Meter	\$4,000.00	\$1,050.00
3- inch Turbine Meter	\$4,000.00	\$1,065.00
3- inch Compound Meter	\$4,000.00	\$1,665.00
4- inch Turbine Meter	\$4,000.00	\$1,335.00
4- inch Compound Meter	\$4,000.00	\$2,445.00
6- inch Turbine Meter	\$4,000.00	\$2,665.00
6- inch Compound Meter	\$4,000.00	\$3,700.00
Over 6" Meter	\$4,000.00	At Cost

Terms and conditions:

An applicant for water service shall pay to the Company, as a refundable advance in aid on construction the full cost to provide the new service line and meter.

In addition to the collection of regular rates, the utility will collect from its customers a proportionate share of any privilege, sales, use, and franchise tax, per Commission Rule 14-2-409D(5).

All advance and/or contributions are to include labor, materials, overheads, and all applicable taxes, including all gross-up taxes for income taxes, if applicable.

CROSS-CONNECTION OR BACKFLOW TARIFF

PURPOSE:

The purpose of this tariff is to protect EPCOR Water Arizona, Inc.'s Chaparral City Water District's ("Company") water from the possibility of contamination caused by the backflow of contaminants that may be present on the customer's premises by requiring the installation and periodic testing of backflow-prevention assemblies pursuant to the provisions of Arizona Administrative Code ("A.A.C.") R-14-2-405.B.6 and A.A.C. R18-4-215.

REQUIREMENTS:

In accordance with the Rules of the Arizona Corporation Commission ("Commission") and the Arizona Department of Environmental Quality ("ADEQ"), specifically A.A.C. R14-2-405.B.6 and A.A.C. R18-4-215 relating to backflow prevention:

1. The Company may require a customer to pay for and have installed a backflow-prevention assembly if A.A.C. R18-4-215.B or .C applies.
2. A backflow-prevention assembly required to be installed by the customer under Paragraph 1 of this tariff shall comply with the requirements set forth in A.C.C. R18-4-215.D and E.
3. Subject to the provision of A.A.C. R14-2-407 and 410, and in accordance with Paragraphs 1 and 7 of this tariff, the Company may terminate service or deny service to a customer who fails to install a backflow-prevention assembly as required by this tariff.
4. The Company shall give any existing customer who is required to install a backflow-prevention assembly written notice of said requirement. If A.A.C. R14-2-410.B.1.a. is **not** applicable, the customer shall be given thirty (30) days from the time such written notice is received in which to comply with this notice. If the customer can show good cause as to why he cannot install the backflow-prevention assembly within thirty (30) days, the Company or Commission Staff may suspend this requirement for a reasonable period of time.

CROSS-CONNECTION OR BACKFLOW TARIFF
(continued)

5. Testing shall be in conformance with the requirements of A.A.C. R18-4-215.F. The Company may require the customer to pay to have the backflow-prevention assembly tested as long as the Company does not require an unreasonable number of tests
6. The customer shall provide the Company with records of installation and testing. For each backflow-prevention assembly, these records must include:
 - a. assembly identification number and description;
 - b. location;
 - c. date(s) of test(s);
 - d. description of repairs and recommendations for repairs made by tester; and
 - e. the tester's name and certification number.
7. In the event the backflow-prevention assembly does not function properly or fails any test, and an obvious hazard as contemplated under A.A.C. R14-2-410.B.1.a. exists, the Company may terminate service immediately and without notice. The backflow-prevention assembly shall be repaired or replaced by the customer and retested.
8. In the event the backflow-prevention assembly does not function properly or fails any test, or in the event that a customer fails to comply with any testing requirement, and A.A.C. R14-2-410.B1.a. is **not** applicable, the backflow-prevention assembly shall be repaired or replaced within fourteen (14) days of the initial discovery of the deficiency in the assembly or its function. Failure to remedy the deficiency or dysfunction of the assembly, or failure to retest, shall be grounds for termination of water service in accordance with A.A.C. R14-2-410.

CURTAILMENT TARIFF

CURTAILMENT PLAN FOR CHAPARRAL CITY WATER DISTRICT
(Template 063004)

ADEQ Public Water System No: 04-07-531

EPCOR Water Arizona, Inc. ("Company"), is authorized to curtail water service to all customers within its certificated area under the terms and conditions listed in this tariff.

This curtailment plan shall become part of the Arizona Department of Environmental Quality Emergency Operations Plan for the Company.

The Company shall notify its customers of this new tariff as part of its next regularly scheduled billing after the effective date of the tariff or no later than sixty (60) days after the effective date of the tariff.

The Company shall provide a copy of the curtailment tariff to any customer, upon request.

Stage 1 Exists When:

Company is able to maintain water storage in the system at 100 percent of capacity and there are no known problems with its well production or water storage in the system.

Restrictions: Under Stage 1, Company is deemed to be operating normally and no curtailment is necessary.

Notice Requirements: Under Stage 1, no notice is necessary.

Stage 2 Exists When:

- a. Company's water storage or well production has been less than 80 percent of capacity for at least 48 consecutive hours, and
- b. Company has identified issues such as a steadily declining water table, increased draw down threatening pump operations, or poor water production, creating a reasonable belief the Company will be unable to meet anticipated water demand on a sustained basis.

Restrictions: Under Stage 2, the Company may request the customers to voluntarily employ water conservation measures to reduce water consumption by approximately 50 percent. Outside watering should be limited to essential water, dividing outside watering on some uniform basis (such as even and odd days) and eliminating outside watering on weekends and holidays.

Chaparral City Water District
(Name of Service Area)

CURTAILMENT TARIFF
(continued)

Notice Requirements: Under Stage 2, the Company is required to notify customers by delivering written notice door to door at each service address, or by United States first class mail to the billing address or, at the Company's option, both. Such notice shall notify the customers of the general nature of the problem and the need to conserve water.

Stage 3 Exists When:

- a. Company's total water storage or well production has been less than 50 percent of capacity for at least 24 consecutive hours, and
- b. Company has identified issues such as a steadily declining water table, increased draw down threatening pump operations, or poor water production, creating a reasonable belief the Company will be unable to meet anticipated water demand on a sustained basis.

Restrictions: Under Stage 3, Company shall request the customers to voluntarily employ water conservation measures to reduce daily consumption by approximately 50 percent. All outside watering should be eliminated, except livestock, and indoor water conservation techniques should be employed whenever possible. Standpipe service shall be suspended.

Notice Requirements:

1. Company is required to notify customers by delivering written notice to each service address, or by United States first class mail to the billing address or, at the Company's option, both. Such Notice shall notify the customers of the general nature of the problem and the need to conserve water.
2. Beginning with Stage 3, Company shall post at least five (5) signs showing the curtailment stage. Signs shall be posted at the well and/or pump sites located within the Chaparral City Water District.
3. Company shall notify the Consumer Services Section of the Utilities Division of the Corporation Commission at least 12 hours prior to entering Stage 3.

Once Stage 3 has been reached, the Company must begin to augment the supply of water by either hauling or through an emergency interconnect with an approved water supply in an attempt to maintain the curtailment at a level no higher than Stage 3 until a permanent solution has been implemented.

(continued)

Stage 4 Exists When:

- a. Company's total water storage or well production has been less than 25 percent of capacity for at least 12 consecutive hours, and
- b. Company has identified issues such as a steadily declining water table, increased draw down threatening pump operations, or poor water production, creating a reasonable belief the Company will be unable to meet anticipated water demand on a sustained basis.

Restrictions: Under Stage 4, Company shall inform the customers of a mandatory restriction to employ water conservation measures to reduce daily consumption. Failure to comply will result in customer disconnection. The following uses of water shall be prohibited:

- ◆ Irrigation of outdoor lawns, trees, shrubs, or any plant life is prohibited
- ◆ Washing of any vehicle is prohibited
- ◆ The use of water for dust control or any outdoor cleaning uses is prohibited
- ◆ The use of drip or misting systems of any kind is prohibited
- ◆ The filling of any swimming pool, spas, fountains or ornamental pools is prohibited
- ◆ The use of construction water is prohibited
- ◆ Restaurant patrons shall be served water only upon request
- ◆ Any other water intensive activity is prohibited

The Company's operation of its standpipe service is prohibited. The addition of new service lines and meter installations is prohibited.

Notice Requirements:

1. Company is required to notify customers by delivering written notice to each service address, or by United States first class mail to the billing address or, at the Company's option, both. Such notice shall notify the customers of the general nature of the problem and the need to conserve water.
2. Beginning with Stage 4, Company shall post at least eight (8) signs showing the curtailment stage. Signs shall be posted at the well and/or pump sites located within the Chaparral City Water District
3. Company shall notify the Consumer Services Section of the Utilities Division of the Corporation Commission at least 12 hours prior to entering Stage 4.

CURTAILMENT TARIFF
(continued)

Customers who fail to comply with the above restrictions will be given a written notice to end all outdoor use. Failure to comply within two (2) working days of receipt of the notice will result in temporary loss of service until an agreement can be made to end unauthorized use of outdoor water. To restore service, the customer shall be required to pay all authorized reconnection fees. If a customer believes he/she has been disconnected in error, the customer may contact the Commission's Consumer Services Section at 1-800-222-7000 to initiate an investigation.

Once Stage 4 has been reached, the Company must augment the supply of water by hauling or through an emergency interconnect from an approved supply or must otherwise provide emergency drinking water for its customers until a permanent solution has been implemented.

**CUSTOMER WATER CONSUMPTION INFORMATION SHARING
WITH FOUNTAIN HILLS SANITARY DISTRICT, WASTEWATER PROVIDER**

Chaparral City Water Company ("Company") is authorized to share water consumption information of individual customers with Fountain Hills Sanitary District ("Sanitary District"), a municipal provider of wastewater service for common customers purchasing water from the Company and wastewater from the Sanitary District. The purpose of this Tariff, and the authorized provision of customer water consumption information, is to assist the Sanitary District in billing for wastewater utility services. The Sanitary District agrees that it is only authorized to use such water consumption information for purposes of wastewater services billing and is not authorized to disclose such information to any other party except as may be required by law.

The Company entered into an Agreement with the Sanitary District for providing individual water consumption data, in a form materially similar to the standard form agreement. The Agreement was subject to Arizona Corporation Commission ("Commission") review as set forth in Section 4 of the agreement.

The Company shall notify all water utility customers affected by an agreement between the Company and the Sanitary District pursuant to this Tariff, by means of a billing insert during the first billing cycle immediately after said tariff is approved.

Local and/or Regional Messaging Program Tariff – BMP 1.1**PURPOSE**

A program for the Company to actively participate in a water conservation campaign with local or regional advertising (Modified Non-Per Capita Conservation Program BMP Category 1: Public Awareness/Public Relations 1.1: Local and/or Regional Messaging Program).

REQUIREMENTS

The requirements of this tariff are governed by Rules of the Arizona Corporation Commission and were adapted from the Arizona Department of Water Resources' Required Public Education Program and Best Management Practices in the Modified Non-Per Capita Conservation Program.

1. The Company or designated representative shall actively participate in water conservation campaign with local and/or regional advertising.
2. The campaign shall promote ways for customers to save water.
3. The Company shall facilitate the campaign through one or more of the following avenues (not an all inclusive list):
 - a. Television commercials
 - b. Radio commercials
 - c. Websites
 - d. Promotional materials
 - e. Vehicle signs
 - f. Bookmarks
 - g. Magnets
4. The Company shall keep a record of the following information and make it available to the Commission upon request:
 - a. A description of the messaging program implemented and program dates.
 - b. The number of customers reached (or an estimate).
 - c. Costs of Program implementation.

Youth Conservation Education Program Tariff – BMP 2.2**PURPOSE**

A program for the Company to promote water conservation by increasing students' understanding of water resources and the need to conserve (Modified Non-Per Capita Conservation Program BMP Category 2: Conservation Education and Training 2.2: Youth Conservation Education Program).

REQUIREMENTS

The requirements of this tariff are governed by Rules of the Arizona Corporation Commission and were adapted from the Arizona Department of Water Resources' Required Public Education Program and Best Management Practices in the Modified Non-Per Capita Conservation Program.

1. The Company or designated representative shall work with schools in its service area to increase students' understanding of water resources and to promote water conservation.
2. The Company shall provide a combination of instructional assistance, education materials, teacher education, classroom presentations, and field trips to water related facilities.
3. The Company shall provide the following teacher resources.
 - a. Offer Project WET (Water Education for Teachers) workshops to teachers twice yearly. In lieu of Project WET the Company may market its Water Conservation Assembly Program to all schools within its service area. The Water Conservation Assembly Program will focus on teaching students about water resources and water conservation. The assembly itself will be an interactive water conservation discussion.
 - b. Provide free resource materials and information upon request.
 - c. Provide in-classroom presentations upon request.
4. The Company shall make available free take home educational materials for elementary school students.
5. The Company shall keep a record of the following information and make it available upon request.
 - a. A description of the youth conservation education process implemented.
 - b. The number of students reached (or an estimate).
 - c. A description of the written water conservation material provided free to students.
 - d. Costs of the Youth Conservation Education Program implementation.

New Homeowner Landscape Information Tariff – BMP 2.3**PURPOSE**

A program for the Company to promote the conservation of water by providing a landscape information package for the purpose of educating its new customers about low water use landscaping (Modified Non-Per Capita Conservation Program BMP Category 2: Conservation Education and Training 2.3: New Homeowner Landscape Information).

REQUIREMENTS:

The requirements of this tariff are governed by Rules of the Arizona Corporation Commission and were adapted from the Arizona Department of Water Resources' Required Public Education Program and Best Management Practices in the Modified Non-Per Capita Conservation Program.

1. Upon establishment of water service the Company shall offer and make available upon request a free "Homeowner Landscape Packet" to each new customer in the Company's service area. The packet will include at a minimum: a cover letter describing the water conservation expectations for all customers in the Company's service area, applicable rate tariffs, a basic interior/exterior water saving pamphlet, xeriscape landscape information, a list of low water use trees, plants, shrubs, etc., watering guidelines, and a rain water harvesting pamphlet.
2. Upon customer request, the Company shall provide:
 - a. On-site consultations on low water use landscaping and efficient watering practices.
 - b. A summary of water saving options.
3. The Company shall keep a record of the number of packets provided to new customers and make it available to the Commission upon request.

Residential Audit Program Tariff – BMP 3.1

PURPOSE

A program for the Company to promote water conservation by providing customers with information on performing water audits to determine conservation opportunities at their residence (Modified Non-Per Capita Conservation Program BMP Category 3: Outreach Services 3.1: Residential Audit Program).

REQUIREMENTS

The requirements of this tariff are governed by Rules of the Arizona Corporation Commission and were adapted from the Arizona Department of Water Resources' Required Public Education Program and Best Management Practices in the Modified Non-Per Capita Conservation Program.

1. The Company shall offer self-audit information.
2. The Company or designated representative shall provide all customers that request them with a self-audit kit.
3. The kit shall include detailed instructions and tools for completing the water audit including information on how to check their water meter. The audit kit shall include but not be limited to information on checking the following components: irrigation system, pool, water features, toilets, faucets and shower.
4. If requested, the Company shall assist the customer in a self-water audit and assist the customer in determining what might be causing high water usage as well as supply customer with information regarding water conservation and landscape watering guidelines. As part of the water audit, and if requested to do so by the customer, the Company shall confirm the accuracy of the customer meter (applicable meter testing fees shall apply).
5. The Company shall keep a record of the following information and make it available to the Commission upon request:
 - a. A description of the water conservation material provided in the kit.
 - b. The number of kits provided to customers.
 - c. Implementation costs of the Residential Audit Program.

Residential Interior Retrofit Program Tariff – BMP 3.4**PURPOSE**

A program for the Company to promote water conservation by providing residential customers free or low cost plumbing fixtures for their residence (Modified Non-Per Capita Conservation Program BMP Category 3: Outreach Services 3.4: Residential Interior Retrofit Program).

REQUIREMENTS

The requirements of this tariff are governed by Rules of the Arizona Corporation Commission and were adapted from the Arizona Department of Water Resources' Required Public Education Program and Best Management Practices in the Modified Non-Per Capita Conservation Program.

1. The Company or designated representative shall provide to residential customers that request them that live in homes built prior to the adoption of the 1990 Uniform Plumbing Code free or low cost low water use fixtures such as faucets, faucet aerators, low flow shower heads, toilets and toilet dams. The Company must offer the fixtures/fixture retrofits to all residential customers meeting the above criteria unless the Company can demonstrate that targeting certain portions of its water service area is likely to yield the highest participation and/or potential water savings.
2. The fixtures or retrofit kit shall include detailed instructions for installing the retrofit fixtures.
3. The Company shall select appropriate communications channels to advertise the program.
4. The Company shall keep a record of the following information and make it available to the Commission upon request:
 - d. A description of the Residential Interior Retrofit Program including a description of the fixtures provided to customers and estimated water savings as a result of Program implementation.
 - e. The number of retrofit fixtures requested by customers and the number of fixtures provided.
 - f. Costs of the Residential Interior Retrofit Program.

Customer High Water Use Inquiry Resolution Tariff – BMP 3.6

PURPOSE

A program for the Company to assist its customers with their high water-use inquiries and complaints (Modified Non-Per Capita Conservation Program BMP Category 3: Outreach Services 3.6: Customer High Water Use Inquiry Resolution).

REQUIREMENTS

The requirements of this tariff are governed by Rules of the Arizona Corporation Commission and were adapted from the Arizona Department of Water Resources' Required Public Education Program and Best Management Practices in the Modified Non-Per Capita Conservation Program.

1. The Company shall handle high water use inquiries as calls are received.
2. Calls shall be taken by a customer service representative who has been trained on typical causes of high water consumption as well as leak detection procedures that customers can perform themselves.
3. Upon request by the customer or when the Company determines it is warranted, a trained Field Technician shall be sent to the customer's residence to verify consumption and conduct a leak detection inspection and further assist the customer with water conservation measures.
4. The Company shall follow up on every customer inquiry or complaint and keep a record of inquiries and follow-up activities. The Company shall make this information available to the Commission upon request.

Customer High Water Use Notification Tariff – BMP 3.7**PURPOSE**

A program for the Company to monitor and notify customers when water use seems to be abnormally high and provide information that could benefit those customers and promote water conservation (Modified Non-Per Capita Conservation Program BMP Category 3: Outreach Services Program 3.7: Customer High Water Use Notification).

REQUIREMENTS

The requirements of this tariff are governed by Rules of the Arizona Corporation Commission and were adapted from the Arizona Department of Water Resources' Required Public Education Program and Best Management Practices in the Modified Non-Per Capita Conservation Program.

1. The Company shall track water usage for each customer and notify the customer if water use seems excessive for that particular billing for that time of the year.
2. The Company shall identify customers with high consumption, verify the high consumption, and investigate each instance to determine the possible cause.
3. The Company shall contact the high water use customers via telephone, email, by mail or in person. The Company shall contact the customer as soon as practical in order to minimize the possible loss of water. The customer will not be required to do anything to receive this notification.
4. In the notification the Company shall explain some of the most common water usage problems and common solutions and points of contact for dealing with the issues.
5. In the notification, the customer will be reminded of possible high water-consumption occurrences, such as:
 - a. Leaks, running toilets, or valves or flappers that need to be replaced.
 - b. Irrigation system valves or sprinkler heads which may be leaking.
 - c. Sprinklers that may be watering the house, sidewalk, or street, etc. increasing irrigation requirements.
 - d. Leaking pool or spas and possible leaks around pumps.
 - e. More people in the home than usual taking baths and showers.
 - f. Doing more loads of laundry than usual.
 - g. Doing a landscape project or starting a new lawn.
 - h. Washing vehicles more often than usual.

Leak Detection Program Tariff – BMP 4.1**PURPOSE**

A program for the Company to systematically evaluate its water distribution system to identify and repair leaks (Modified Non-Per Capita Conservation Program Best Management Practice Category 4: Physical System Evaluation and Improvement 4.1 Leak Detection Program).

REQUIREMENTS

The requirements of this tariff are governed by Rules of the Arizona Corporation Commission and were adapted from the Arizona Department of Water Resources' Required Public Education Program and Best Management Practices in the Modified Non-Per Capita Conservation Program.

On a systematic basis, the Company shall perform leak detection inspections of its distribution system to identify and fix leaks.

This program shall be implemented through a strategy of targeting certain portions of the water service area which will yield the highest potential for water savings first.

1. The Company shall implement comprehensive leak detection and repair program to attain and maintain a goal of less than 10 percent unaccounted for water loss in its system(s). The program must include auditing procedures, in-field leak detection and repair efforts. The Company shall take whatever practical steps are necessary to ensure that its water system is operating at optimal efficiency.
2. On a systematic basis, at least every two years (annually for smaller systems), the Company shall visually inspect its above ground water distribution system (to include hydrants, valves, tanks, pumps, etc. in the distribution system) to identify and repair leaks. Detection shall be followed by repair or in some cases replacement. Repair vs. replacement will depend upon site-specific leakage rates and costs.
3. Leak Detection efforts should focus on the portion of the distribution system with the greatest expected problems, including:
 - a. areas with a history of excessive leak and break rates;
 - b. areas where leaks and breaks can result in the heaviest property damage;
 - c. areas where system pressure is high;
 - d. areas exposed to stray current and traffic vibration;

- e. areas near stream crossings; and,
 - f. areas where loads on pipe may exceed design loads.
4. The Company shall keep accurate and detailed records concerning its leak detection and repair/rehabilitation program and the associated costs. Records of repairs shall include: possible causes of leak; estimated amount of water lost; and date of repair. These records shall be made available to the Commission upon request.
 5. The Company shall maintain a complete set of updated distribution system maps.
 6. The Company shall conduct a water audit annually which includes the following steps to determine how efficient each water system is operating and where the losses might be.
 - a. Use coordinated monthly source and service meter readings to calculate how much water enters and leaves the system during the 12-month review period.
 - b. Track and estimate any unmetered authorized uses.
 - c. Calculate the total amount of leakage using the following formula:

$$\text{Unaccounted for water (\%)} = \left[\frac{\text{Production and/or purchased water minus metered use \& estimated authorized un-metered use}}{\text{Production and/or purchased water}} \right] \times 100\%$$
 - d. Authorized un-metered uses may include firefighting, main flushing, process water for water treatment plants, etc. Water losses include all water that is not identified as authorized metered water use or authorized un-metered use.
 - e. Determine possible reasons for leakage, including physical leaks and unauthorized uses.
 - f. Analyze results to determine the improvements needed, such as, better accounting practices, leak survey or replacing old distribution pipes.
 7. The Company shall keep accurate and detailed records concerning its annual water audit results. These records shall be made available to the Commission upon request.

Meter Repair and/or Replacement Tariff – BMP 4.2

PURPOSE

A program for the Company to systematically assess all in-service water meters (including Company production meters) in its water service area to identify under-registering meters for repair or replacement (Modified Non-Per Capita Conservation Program Best Management Practice Category 4: Physical System Evaluation and Improvement 4.2 Meter Repair and/or Replacement Program).

REQUIREMENTS

The requirements of this tariff are governed by Rules of the Arizona Corporation Commission and were adapted from the Arizona Department of Water Resources' Required Public Education Program and Best Management Practices in the Modified Non-Per Capita Conservation Program.

1. On a systematic basis, the Company will replace all 2-inch and smaller in-service water meters at least once every twelve years.
2. The Company will test all meters that have caused a meter reading complaint to be filed with the Arizona Corporation Commission.
3. Meters larger than 2-inch shall be tested for one of the following reasons:
 - a. A meter reading complaint is filed with the Company by a customer or Arizona Corporation Commission Staff,
 - b. A meter has been in service for five years.
4. The test will be accomplished by one of the following:
 - a. Having the meter pulled and having a Company Technician physically inspect each meter and its fittings for leaks, registers which may have become loose or are not properly attached to the meter and could be under-registering or other broken parts which need repair.
 - b. Utilizing equipment to verify that all electronic components are within manufacturer specifications and are operating properly.
5. In addition, meters shall be randomly selected for flow testing utilizing a flow through detector testing meter.
6. All replacement water meters shall register in gallons:
 - a. All new 1-inch and smaller meters that are installed will register usage in 1 gallon increments,
 - b. All new 1-1/2-inch through 4-inch meters that are installed will register in 10 gallon increments, and
 - c. All new 6-inch and larger meters that are installed will register in 100 gallon increments.
7. The Company shall keep records on the number of meters that were replaced and make this information available to the Commission upon request.

Water System Tampering Tariff – BMP 5.2**PURPOSE**

The purpose of this tariff is to promote the conservation of groundwater by enabling the Company to bring an action for damages or to enjoin any activity against a person who tampers with the water system.

REQUIREMENTS:

The requirements of this tariff are governed by Rules of the Arizona Corporation Commission, specifically Arizona Administrative Code (“AAC”) R14-2-410 and the Arizona Department of Water Resources’ Required Public Education Program and Best Management Practices in the Modified Non-Per Capita Conservation Program.

1. In support of the Company’s water conservation goals, the Company may bring an action for damages or to enjoin any activity against a person who: (1) makes a connection or reconnection with property owned or used by the Company to provide utility service without the Company’s authorization or consent; (2) prevents a Company meter or other device used to determine the charge for utility services from accurately performing its measuring function; (3) tampers with property owned or used by the Company; or (4) uses or receives the Company’s services without the authorization or consent of the Company and knows or has reason to know of the unlawful diversion, tampering or connection. If the Company’s action is successful, the Company may recover as damages three times the amount of actual damages.
2. Compliance with the provisions of this tariff will be a condition of service.
3. The Company shall make available to all its customers a complete copy of this tariff and AAC R14-2-410. The customers shall follow and abide by this tariff.
4. If a customer is connected to the Company water system and the Company discovers that the customer has taken any of the actions listed in No. 1 above, the Company may terminate service per AAC R14-2-410.
5. If a customer believes he/she has been disconnected in error, the customer may contact the Commission’s Consumer Services Section at 1-800-222-7000 to initiate an investigation.

COMMON FACILITIES HOOK-UP FEE

I. Purpose and Applicability.

The purpose of the Common Facilities hook-up fees payable to EPCOR Water Arizona, Inc. ("the Company") pursuant to this tariff is to equitably apportion the costs of constructing additional common water facility infrastructure to provide water production, delivery, treatment, storage and pressure among all new service connections. These charges are applicable to all new service connections established after the effective date of this tariff. The charges are one-time charges and are payable as a condition to Company's establishment of service, as more particularly provided below.

II. Definitions.

Unless the context otherwise requires, the definitions set forth in R14-2-401 of the Arizona Corporation Commission's ("Commission") rules and regulations governing water utilities shall apply interpreting this tariff schedule.

"Applicant" means any party entering into an agreement with the Company for the installation of water facilities to serve new service connections, and may include developers and/or builders of new residential subdivisions.

"Main Extension Agreement" means any agreement whereby an Applicant, Developer and/or Builder agrees to advance the costs of the installation of water facilities, which may include Common Facilities, to the Company to serve new service connections, or install water facilities to serve new service connections and transfer ownership of such water facilities to the Company, in either case which agreement shall require the approval of the Commission pursuant to A.A.C. R14-2-406, and shall have the same meaning as "Water Facilities Agreement" or "Line Extension Agreement."

"Common Facilities" means all wells, storage tanks, production, treatment, booster pumps, pressure tanks, transmission mains and related appurtenances, including engineering and design costs constructed for the benefit of the entire water system and not for the exclusive use of the Applicant's development.

"Service Connection" means and includes all service connections for single-family residential or other uses, regardless of meter size.

Decision No. XXXXX

COMMON FACILITIES HOOK-UP FEE
(continued)

III. Common Facilities Hook-Up Fee.

For each new service connection, the Company shall collect an off-site hook-up fee derived as follows:

COMMON FACILITIES HOOK-UP FEE TABLE		
Meter Size	Size Factor	Total Fee
5/8" x 3/4 "	1	\$1,680.00
3/4"	1.5	\$2,520.00
1"	2.5	\$4,200.00
1-1/2 "	5	\$8,400.00
2"	8	\$13,440.00
3"	16	\$26,880.00
4"	25	\$42,000.00
6" or larger	50	\$84,000.00

IV. Terms and Conditions.

(A) Assessment of One Time Common Facilities Hook-Up Fee: The Common Facilities hook-up fee may be assessed only once per parcel, service connection, or lot within a subdivision (similar to meter and service line installation charge).

(B) Use of Common Facilities Hook-Up Fee: Common Facilities hook-up fees may only be used to pay for capital items of Common Facilities, or for repayment of loans obtained for installation of Common Facilities. Common Facilities hook-up fees shall not be used for repairs, maintenance, or operational purposes.

(C) Time of Payment:

1) In the event that the Applicant that will be constructing improvements is required to enter into a Main Extension Agreement, payment of the Common Facilities hook-up fees required hereunder shall be made by the Applicant no later than within 15 calendar days after receipt of notification from the Company that the Utilities Division of the Arizona Corporation Commission has approved the Main Extension Agreement in accordance with R14-2-406(M).

COMMON FACILITIES HOOK-UP FEE
(Continued)

- 2) In the event that the Applicant for service is not required to enter into a Main Extension Agreement, the charges hereunder shall be due and payable at the time the meter and service line installation fee is due and payable.
- (D) Common Facilities Construction By Developer: Company and Applicant may agree to construction of Common Facilities necessary to serve a particular development by Applicant which facilities are then conveyed to Company. In that event, Company shall credit the total cost of such Common Facilities as an offset to Common Facilities hook-up fees due under this Tariff. If the total cost of the Common Facilities constructed by Applicant conveyed to Company is less than the applicable Common Facilities hook-up fees under this Tariff, Applicant shall pay the remaining amount of Common Facilities hook-up fees owed hereunder. If the total cost of the Common Facilities constructed by Applicant, Developer or Builder and conveyed to Company is more than the applicable Common Facilities hook-up fees under this Tariff, Applicant be refunded the difference upon acceptance of the Common Facilities by the Company. The refund may be paid in installments over a period of time pursuant to an agreement between the Company and the developer on a case by case basis. The Company and Applicant may agree to construction of additional facilities that are not Common Facilities, the cost of which shall not be subject to off-set under this paragraph IV.D, but which will be subject to refund under R14-2-406(D).
- (E) Failure to Pay Charges; Delinquent Payments: The Company will not be obligated to provide water service to any Applicant or other applicant for service in the event that such Applicant or other applicant for service has not paid in full all charges hereunder. Under no circumstances will the Company set a meter or otherwise allow service to be established if the entire amount of any payment has not been paid.
- (F) Large Subdivision Projects: In the event that the Applicant is engaged in the development of a residential subdivision containing more than 150 lots, the Company may, in its discretion, agree to payment of Common Facilities hook-up fees in installments. Such installments may be based on the residential subdivision development's phasing, and should attempt to equitably apportion the payment of charges hereunder based on the Applicant's construction schedule and water service requirements.
- (G) Off-Site Hook-Up Fees Non-refundable: The amounts collected by the Company pursuant to this Common Facilities Hook-Up Fee Tariff shall be non-refundable contributions in aid of construction.

COMMON FACILITIES HOOK-UP FEE
(Continued)

(H) Use of Off-Site Hook-Up Fees Received: All funds collected by the Company as Common Facilities hook-up fees shall be deposited into a separate interest bearing trust account and used solely for the purposes of paying for the costs of Common Facilities, including repayment of loans obtained for the installation of Common Facilities that will benefit the entire water system.

(I) Common Facilities Hook-Up Fee in Addition to On-Site Facilities: The Common Facilities hook-up fee shall be in addition to any costs associated with the construction of on-site facilities or other additional facilities under Paragraph IV.D, above, under a Main Extension Agreement.

(J) Disposition of Excess Funds: After all necessary and desirable Common Facilities are constructed utilizing funds collected pursuant to the Common Facilities hook-up fees, or if the Common Facilities hook-up fee has been terminated by order of the Arizona Corporation Commission, any funds remaining in the trust shall be refunded. The manner of the refund shall be determined by the Commission at the time a refund becomes necessary.

(K) Fire Flow Requirements: In the event the Applicant for service has fire flow requirements that require additional facilities beyond those facilities whose costs were included in the Common Facilities hook-up fee, and which are contemplated to be constructed using the proceeds of the Common Facilities hook-up fee, the Company may require the Applicant to install such additional facilities as are required to meet those additional fire flow requirements, as a non-refundable contribution, in addition to paying the Common Facilities hook-up fee.

(L) Status Reporting Requirements to the Commission: The Company shall submit a calendar year Common Facilities hook-up fee status report each January 31 to Docket Control for the prior twelve (12) month period, beginning January 31, 2018, until the Common Facilities hook-up fee tariff is no longer in effect. This status report shall contain a list of all customers that have paid the Common Facilities hook-up fee tariff, the amount each has paid, the amount of money spent from the account, the amount of interest earned on the tariff account, and a list of all facilities that have been installed with the tariff funds during the 12-month period.

LARGE WATER-USERS

Any development with a projected average daily water demand greater than 1,700 gallons per day per acre is considered to be a Large User. Large Users will be required to provide an additional renewable water supply source to Utility to meet the demands of the development that are greater than 1,700 gallons per day per acre. Examples of a renewable water supply source include surface water or a groundwater well with long-term storage credits. The renewable water supply source must be approved by Utility, and must have the appropriately allocated water rights that will be conveyed to Utility. The cost to provide a renewable water supply source to Utility will not be credited as an offset to the Common Facilities Hook-Up Fee because such costs will be due to the exclusive need for additional water by the Large User; however, the cost of that portion of a renewable water supply source that is in excess of the Large User's needs will be credited as an offset to the Common Facilities Hook-Up Fee.

Large Users may be required to enter into an agreement with Utility that will define terms and conditions, and will include fees that will be charged to Large Users for over usage. Fees will incur if Large Users use water in excess of the supply source provided, which will be reviewed by Utility on an annual basis. Continued excessive use could result in Utility requiring the Large User to develop and implement a water use reduction plan or, as a last resort, court action.

ADJUSTOR MECHANISMS

PURCHASED WATER ADJUSTOR MECHANISM ("PWAM")

The PWAM allows the Company to pass through purchased water costs incurred by the Company to its customers. Details can be found in the Company's Purchased Water Adjustor Mechanism Plan of Administration.

Applicability

Applicable to all customers served by this service area.

PWAM Surcharge Rate for all Customers:

All usage per 1,000 gallons per month \$X.XXXX *

* Rate consists of \$X.XXXX per 1,000 gallons of usage to recover the over/under collection of prior years' surcharge and \$X.XXXX per 1,000 gallons of usage for the collection of current annual purchased water charges.

Terms and Conditions

The Company will annually file with the Commission by March 1 the proposed annual PWAM surcharge for the current calendar year. The filing shall contain a summary of all purchased water costs, total collections from the surcharge, and the updated surcharge amounts. All documentation to support the proposed surcharge will be included.

As part of each annual filing, the Company will perform a reconciliation for the prior reporting period comparing the amounts recovered from / refunded to customers to the amount of increase / decrease in water expenses due to changes in rates for that same period resulting in either an under / (over) recovery. This true-up will be included in the annual calculation.

The annual PWAM surcharge will be calculated based on the historic consumption of the applicable customers from the previous twelve months.

The revised PWAM surcharge will be effective on June 1 of each year.

The PWAM surcharge will appear on each applicable customer's bill as a separate line item.

All rates in this Schedule shall be subject to their proportionate part of any taxes or other governmental imposts that are assessed directly or indirectly on the basis of revenues derived from this Schedule.

ADJUSTOR MECHANISMS
(continued)

POWER COST ADJUSTOR MECHANISM ("PCAM")

The PCAM allows the Company to pass through purchase power costs for any gas or electric service provider supplying retail service to the Company to its customers. Details can be found in the Company's Power Cost Adjustor Mechanism Plan of Administration.

Applicability
Applicable to all customers served by this service area.

PCAM Surcharge Rate for all Customers:
All usage per 1,000 gallons per month \$X.XXXX *

* Rate consists of \$X.XXXX per 1,000 gallons of usage to recover the over/under collection of prior years' surcharge and \$X.XXXX per 1,000 gallons of usage for the collection of current power charges.

Terms and Conditions

The Company will annually file with the Commission by March 1 the proposed annual PCAM surcharge for the current calendar year. The filing shall contain a summary of all gas and electrical costs, total collections from the surcharge, and the updated surcharge amount. All documentation to support the proposed surcharge will be included.

As part of each annual filing, the Company will perform a reconciliation for the prior reporting period comparing the amounts recovered from/refunded to customers to the amount of increase/decrease in power expenses due to changes in rates for that same period resulting in either an under / (over) recovery. This true-up will be included in the annual calculation.

The annual PCAM surcharge will be calculated based on the historic consumption of the applicable customers from the previous twelve months.

The revised PCAM surcharge will be effective on June 1 of each year.

The PCAM surcharge will appear on each applicable customer bill as a separate line item.

All rates in this Schedule shall be subject to their proportionate part of any taxes or other governmental imposts that are assessed directly or indirectly on the basis of revenues derived from this Schedule.

ADJUSTOR MECHANISMS
(continued)

SYSTEM IMPROVEMENT BENEFIT MECHANISM ("SIB")

The SIB provides for recovery of the capital costs (return on investment, income taxes and depreciation expense) associated with distribution system improvement projects listed in SIB Plant Table I that have been verified to be complete, net of associated retirements and placed in service per SIB Table II. Details can be found in the Company's System Improvement Benefit Mechanism Plan of Administration.

Availability

Applicable to all customers served by this service area.

Schedule of Charges:

Meter Size	SIB Surcharge	SIB Efficiency Credit	NET SIB Surcharge
5/8" x 3/4" meter	\$ x.XX	\$ (x.XX)	\$ x.XX
3/4" meter	\$ x.XX	\$ (x.XX)	\$ x.XX
1" meter	\$ x.XX	\$ (x.XX)	\$ x.XX
1½" meter	\$ x.XX	\$ (x.XX)	\$ x.XX
2" meter	\$ x.XX	\$ (x.XX)	\$ x.XX
3" meter	\$ x.XX	\$ (x.XX)	\$ x.XX
4" meter	\$ x.XX	\$ (x.XX)	\$ x.XX
6" meter	\$ x.XX	\$ (x.XX)	\$ x.XX
8" meter	\$ x.XX	\$ (x.XX)	\$ x.XX
10" meter	\$ x.XX	\$ (x.XX)	\$ x.XX

Terms and Conditions

Once a SIB is approved in a decision, the Company must file with Docket Control semi-annual status reports.

The annual SIB surcharge will be calculated based on the historic system improvements of the eligible projects from the previous twelve months.

Once a SIB surcharge is implemented the Company must file annually to true-up its SIB Surcharge collections over the preceding twelve months with the SIB Authorized Revenues for that period and establish a surcharge or credit to true up over or under collections. Filings dates for these annual true-ups shall be as established in the Decision.

The SIB surcharge, SIB efficiency credit and net SIB surcharge will all appear as separate line items on each applicable customer bill.

All rates in this Schedule shall be subject to their proportionate part of any taxes or other governmental imposts that are assessed directly or indirectly on the basis of revenues derived from this Schedule.

ADJUSTOR MECHANISMS
(continued)

PROPERTY TAX ADJUSTOR MECHANISM ("PTAM")

The PTAM allows the Company to pass through to its customers the increases or decreases in property tax expenses that result from changes to the assessment ratio or property tax rate. Pass through costs will be divided equally between residential and non-residential customer classes to collect the total increase over a 12-month period. Details can be found in the Company's Property Tax Adjustor Mechanism Plan of Administration.

Applicability
Applicable to all customers served by this service area.

PTAM Surcharge Rate for all Customers:
All usage per 1,000 gallons per month \$X.XXXX *

* Rate consists of \$X.XXXX per 1,000 gallons of usage to recover the over/under collection of prior years' surcharge and \$X.XXXX per 1,000 gallons of usage for the collection of current power charges.

Terms and Conditions

The Company will annually file with the Commission by March 1 the proposed annual PTAM surcharge for the current calendar year. The filing shall detail how the Company's property tax expenses were calculated by parcel by year. These calculations will include full cash value, assessment ratio, and tax rates by parcel. All documentation to support the proposed surcharge will be included.

As part of each annual filing, the Company will perform a reconciliation for the prior reporting period comparing the amounts recovered from/refunded to customers to the amount of increase/decrease in property tax expenses due to changes in rates for that same period resulting in either an under / (over) recovery. This true-up will be included in the annual calculation.

The revised PTAM surcharge will be effective on June 1 of each year.

The PTAM surcharge will appear on each applicable customer bill as a separate line item.

All rates in this Schedule shall be subject to their proportionate part of any taxes or other governmental imposts that are assessed directly or indirectly on the basis of revenues derived from this Schedule.

BILLING ADJUSTMENT TARIFF

1. **PURPOSE**

1.1. To outline EPCOR's general procedure on adjusting customer water utility bills.

2. **SCOPE**

2.1. This procedure pertains to billing adjustments for accounts with lost meters, stopped meters, and other situations where usage has been identified or service received but not billed (or under billed). Parameters within this procedure do not necessarily apply to situations where customer tampering, theft, or other actions that prevent access to the water meter are involved.

3. **PROCEDURE**

3.1. **Timeframe** – In cases where accounts have been identified as having water usage but have not been billed (or have been under billed), EPCOR will adjust the bill for the period identified not to exceed two years from the point of customer notification or adjustment generation. Customers will be provided the ability to spread their payments for the adjustment amount over the same time period for which the usage occurred. EPCOR will have the option of spreading the payment term beyond the original usage period, depending on the circumstances, with approval from the Customer Service Manager or Customer Service Director.

3.2. **Estimated Usage for Stopped Meters** – Usage for stopped meters will generally be calculated based on historical usage for similar timeframes. If the customer has had changes in their usage pattern based on conservation efforts, economic factors, leak repairs, or changes to the number of occupants, these *may* be considered in adjusting the usage estimate from historical data. There may be cases where the usage is monitored or a period of time after the meter has been replaced to determine the appropriate billing adjustment amount.

3.3. **Meter Accuracy Corrections** – If any meter after testing is found to be more than 3% inaccurate, either fast or slow, proper correction between 3% and the amount of the error shall be made of previous readings and adjusted bills shall be rendered according to the following terms:

3.3.1. For the period of 3 months immediately preceding the removal of such meter from service for test or from the time the meter was in service since last tested, but not exceeding 3 months since the meter shall have been shown to be in error by such test, or

3.3.2. From the date the error occurred, if the date of the cause can be definitely fixed.

3.3.3. No adjustment shall be made by the utility except to the customer last served by the meter tested.

BILLING ADJUSTMENT TARIFF
(continued)

- 3.4. **Managing Large and/or Extended Adjustments** – Bill adjustment amounts over \$2,500 that extend beyond two billing cycles will be reviewed by EPCOR and communication with the customer will be attempted prior to posting the bill to the customer account. Three unsuccessful attempts to contact the customer via the contact means provided on the customer account shall release the bill to the customer's account for posting.
- 3.5. **Customer Appeals** – Customers may appeal adjustment decisions in writing or by contacting a customer care representative the appeal will be escalated to the appropriate party and a determination will be made within 90 days.
- 3.6. **Exceptions** – It is recognized that there may be specific situations or unique circumstances where there is a management decision not to adjust a customer or group of customers.

STATEMENT OF CHARGES

GENERAL WATER SERVICE

I. RATES

On July 30, 2014, in Decision No. 74585 the Arizona Corporation Commission (“Commission”) issued an Order approving the rates and charges in Sections A.1, B.1, C.1 and D.1 to have become effective on July 30, 2014:

A. GENERAL RESIDENTIAL, COMMERCIAL AND INDUSTRIAL SERVICE (All Classes)

Availability

Available for all metered residential, commercial and industrial customers served by this service area.

Schedule of Charges:

Meter Size	Monthly Service Charge	Tier One		Tier Two		Tier Three	
		Commodity Rate (per 1,000 gallons)	First Tier (Gallons)	Commodity Rate (per 1,000 gallons)	Second Tier (Gallons)	Commodity Rate (per 1,000 gallons)	Third Tier (Gallons)
Residential / Commercial							
3/4 inch - Residential Only Low Income	\$ 13.00	\$ 4.5471	First 3,000	\$ 4.8059	3,001 to 9,000	\$ 4.8834	Over 9,000
3/4 inch	\$ 23.00	\$ 4.5471	First 3,000	\$ 4.8059	3,001 to 9,000	\$ 4.8834	Over 9,000

GENERAL WATER SERVICE

(continued)

Terms and Conditions

Water service provided under this rate schedule is subject to this District's Rules and Regulations applicable to Water Service and may be subject to this District's Service Charges set forth in Rate Schedule Service Charges and adjustor mechanisms included in the Company's tariffs on file with the Arizona Corporation Commission.

Water service under this Schedule is for the exclusive use of the Customer and water shall not be resold or provided to others.

In addition to the collection of regular rates, the utility will collect from its customers a proportionate share of any privilege, sales, use and franchise tax. Per Commission Rule 14-2-409(D)(5).

A 1½% late payment penalty will be applied to account balances not paid within fifteen (15) days after the postmark date of the bill in accordance with Arizona Administrative Code R14-2-310.C.

Low Income Program- Monthly Low Income Credit of \$10.00 is available in the Chaparral City Water district. Requires the completion of a Low Income Program Application. Program is restricted to the first 250 eligible residential customers on 3/4 inch meters in the Chaparral City Water district. Applicants must swear that he/she has annual income below the threshold. The threshold is below 150% of the federal low income guidelines as periodically revised. Applicant may not be claimed as a dependent on another person's tax return. Applicant must reapply each time moving residences. Refusal or failure to provide acceptable documentation of eligibility, upon request, shall result in removal from the low income program. Rebilling of customers under the otherwise applicable rate schedule may occur for periods of ineligibility previously billed under the low income tariff. Annual income means the value of all money and non-cash benefits available for living expenses, from all sources, both taxable and non-taxable, before deductions, for all people who live with the applicant.

An applicant for water service shall pay to the Company, as a refundable advance in aid on construction the full cost to provide the new service line and meter.

In addition to the collection of regular rates, the utility will collect from its customers a proportionate share of any privilege, sales, use, and franchise tax, per Commission Rule 14-2-409D(5).

All advance and/or contributions are to include labor, materials, overheads, and all applicable taxes, including all gross-up taxes for income taxes, if applicable.

~~PART ONE, SECTION IV~~

~~IV. PERMITTED COSTS~~

- ~~A. Costs shall be verified by invoice.~~
- ~~B. For services that are provided by the Company at cost, cost shall include labor, materials, other charges incurred, and overhead. However, prior to any such service being provided, the estimated cost of such service will be provided by the Company to the customer. After review of the cost estimate, the customer will pay the amount of the estimated cost to the Company.~~
- ~~C. In the event that the actual costs less than the estimated cost, the Company will refund the excess to the customer within 30 days after completion of the provision of the service or after Company's receipt of invoices, time sheets or other related documents, whichever is later.~~
- ~~D. In the event the actual cost is more than the estimated cost, the Company will bill the customer for the amount due within 30 days after completion of the provision of the service or after the Company's receipt of invoices, time sheets or other related documents, whichever is later. The amount so billed will be due and payable 30 days after the invoice date.~~
- ~~E. At the customer's request, the Company shall make available to the customer all invoices, time sheets or related documents that support the cost for providing such service.~~
- ~~F. Permitted costs shall include all State or Federal income taxes that are or may be payable by the Company as a result of any tariff or contract for water facilities under which the Customer advances or contributes funds or facilities to the Company.~~

PART TWO

STATEMENT OF TERMS AND CONDITIONS

~~The Company has adopted the Rules and Regulations established by the Commission as the basis for its operating procedures. A.C.R.R. R14-2-401 through A.C.R.R. R14-2-411 will be control the Company's procedures and policies, unless this tariff or a specific Commission order provides otherwise.~~

~~I. FIRE HYDRANT AND INTERIOR FIRE SPRINKLER SERVICE~~

~~The Company will provide Fire Protection Service under the following conditions:~~

~~A. Facility Specifications~~

~~The size, location, number, and technical specifications of facilities used to provide Fire Protection Service shall be prescribed by the Fire Protection Service Customer, developer, or any authorized agency having jurisdiction over those facilities, so long as:~~

- ~~1. Those facilities do not adversely affect the Company's ability to provide other service, and~~
- ~~2. The maximum diameter of the fire protection service connection is not larger than the diameter of the main to which the service is connected, and~~
- ~~3. In the case of a fire hydrant, that the facilities are located in the public right-of-way, and~~
- ~~4. In the case of a fire sprinkler system, that the sprinkler system is separate from the other service facilities, unless the Company has specifically approved an integrated system and Company approved check valves are installed.~~

C. Interruptible Service; Company's Liability Limitations

~~The Company will exercise reasonable diligence to provide continuous water service to fire hydrant and interior fire sprinkler service customers. Fire Protection Service is conditioned upon the express understanding that THE COMPANY DOES NOT GUARANTEE OR INSURE UNINTERRUPTED OR REGULAR WATER SERVICE, NOR DOES THE COMPANY REPRESENT THE PRESENCE OF ADEQUATE PRESSURE, VOLUME, OR FIRE FLOW AVAILABLE ANYWHERE ON ITS WATER SYSTEM BY OFFERING FIRE PROTECTION SERVICE AS SPECIFIED HEREIN.~~

~~Fire Protection Service is further conditioned on the Fire Protection Services Customer agreeing TO HOLD HARMLESS AND INDEMNIFY THE COMPANY from and against any and all liability, loss, damage or expense the Company may incur as a result of claims, demands, costs or judgment against the Company including, but not limited to, loss of or damage to property or injury or to death of persons, arising, directly or indirectly, out of the Company's providing of water service, or any activities or operations related thereto, or any breach by the Fire Protection Service Customer of the terms, covenants or conditions of this Tariff Schedule. The Company shall be entitled to recover its reasonable attorneys' fees should the Fire Protection Service Customer fail to comply with this provision. This provision applies to, and regardless of, any negligence or alleged negligence on the part of the Company, its employees, servants or agents.~~

PART TWO, SECTION II

II. CROSS-CONNECTION CONTROL AND/OR BACKFLOW PREVENTION TARIFF

PURPOSE:

The purpose of this tariff is to protect EPCOR Water Arizona, Inc.'s the water system and facilities of Chaparral City Water District's Company ("~~the~~ Company") water from the possibility of contamination caused by the backflow of contaminants that may be present on the customer's premises by requiring the installation and periodic testing of backflow-prevention assemblies pursuant to the provisions of Arizona Administrative Code ("A.A.C.") R-14-2-405.B.6 and A.A.C. R18-4-~~215~~. ~~This tariff is applicable to all customers served by the Company who meet the requirements set forth below.~~

REQUIREMENTS:

In accordance with the ~~Rules and regulations~~ of the Arizona Corporation Commission ("Commission") and the Arizona Department of Environmental Quality ("ADEQ"), ~~specifically including~~ A.A.C. R14-2-405.B.6 and A.A.C. R18-4-~~215~~ relating to backflow prevention:

1. The Company may require a customer to pay for and have installed a backflow-prevention assembly if whenever A.A.C. R18-4-~~215~~.B or .C applies.
2. A backflow-prevention assembly required to be installed by the customer under Paragraph 1 of this tariff shall must comply with the requirements set forth in A.A.C. R18-4-~~215~~.D and E, ~~which rules are incorporated herein by this reference.~~
3. Subject to the provision of A.A.C. R14-2-407 and ~~R14-2-410~~, and in accordance with ~~P~~ paragraphs 1 and 7 of this tariff, the Company may terminate service or deny service to a customer who fails to install a backflow-prevention assembly as required by this tariff.
4. The Company shall give any existing customer who is required to install a backflow-prevention assembly written notice of said requirement. If A.A.C. R14-2-410.B.1.a. is **not** applicable, the customer shall be given have thirty (30) days from the time such written notice is received in which to comply with this notice. If the customer can show good cause as to why ~~she or he~~ cannot install the backflow-prevention assembly device within thirty (30) days, the Company or Commission Staff, in its discretion, may suspend this requirement for a reasonable period of time, ~~which shall not exceed ninety (90) days.~~

(continued)

5. ~~The testing of any backflow prevention assembly and related equipment must comply shall be in conformance~~ with the requirements ~~set forth in~~ of A.A.C. R14-2-415.F. The Company may require the customer to pay to have the backflow-prevention assembly tested as long as the Company does not require an unreasonable number of tests necessary to ensure that it is functioning properly. ~~The Company may also require the customer to pay for any repairs to a backflow prevention assembly.~~
6. The customer shall provide the Company with ~~all records relating to the~~ installation ~~and testing and repair of each backflow prevention assembly.~~ For each backflow-prevention assembly, these records must include:
- ~~The~~ assembly identification number and description ~~(e.g., manufacturer and model number);~~
 - ~~Its~~ location;
 - ~~The~~ date(s) of ~~all~~ test(s);
 - ~~A~~ description of repairs and recommendations for repairs made by tester; and
 - ~~The~~ tester's name, ~~employer, address~~ and certification number.
7. In the event the backflow-prevention assembly does not function properly or fails any test, ~~or in the event that a customer fails to comply with any testing requirement,~~ and an obvious hazard as contemplated under A.A.C. R14-2-410.B.1.a. ~~may~~ exists, the Company may terminate service immediately and without notice. The backflow-prevention assembly ~~must~~ shall be repaired or replaced by the customer, ~~at the customer's expense,~~ and ~~the assembly retested before service may be restored.~~
8. In the event the backflow-prevention assembly does not function properly or fails any test, or in the event that a customer fails to comply with any testing requirement, and ~~there is no possibility of a hazard as contemplated under~~ A.A.C. R14-2-410.B.1.a. is not applicable, the backflow-prevention assembly shall be repaired or replaced within fourteen (14) days of the initial discovery of the deficiency in the assembly or its function. ~~The customer's failure to remedy the deficiency or~~ dysmal function of the assembly, or failure to retest ~~the assembly to ensure that it is properly functioning,~~ shall be grounds for termination of water service in accordance with A.A.C. R14-2-410.

PART TWO, SECTION III

III. WATER SERVICE CURTAILMENT TARIFF

CURTAILMENT PLAN FOR CHAPARRAL CITY WATER DISTRICT

(Template 063004)

ADEQ Public Water System No: 04-07-531

EPCOR Water Arizona, Inc. ("Company"), is authorized to curtail water service to all customers within its certificated area under the terms and conditions listed in this tariff.

This curtailment plan shall become part of the Arizona Department of Environmental Quality Emergency Operations Plan for the Company.

The Company shall notify its customers of this new tariff as part of its next regularly scheduled billing after the effective date of the tariff or no later than sixty (60) days after the effective date of the tariff.

The Company shall provide a copy of the curtailment tariff to any customer, upon request.

Stage 1 Exists When:

Company is able to maintain water storage in the system at 100 percent of capacity and there are no known problems with its well production or water storage in the system.

Restrictions: Under Stage 1, Company is deemed to be operating normally and no curtailment is necessary.

Notice Requirements: Under Stage 1, no notice is necessary.

Stage 2 Exists When:

a. Company's water storage or well production has been less than 80 percent of capacity for at least 48 consecutive hours, and

b. Company has identified issues such as a steadily declining water table, increased draw down threatening pump operations, or poor water production, creating a reasonable belief the Company will be unable to meet anticipated water demand on a sustained basis.

Restrictions: Under Stage 2, the Company may request the customers to voluntarily employ water conservation measures to reduce water consumption by approximately 50 percent. Outside watering should be limited to essential water, dividing outside watering on some uniform basis (such as even and odd days) and eliminating outside watering on weekends and holidays.

CURTAILMENT TARIFF
(continued)

Stage 4 Exists When:

- a. Company's total water storage or well production has been less than 25 percent of capacity for at least 12 consecutive hours, and
- b. Company has identified issues such as a steadily declining water table, increased draw down threatening pump operations, or poor water production, creating a reasonable belief the Company will be unable to meet anticipated water demand on a sustained basis.

Restrictions: Under Stage 4, Company shall inform the customers of a mandatory restriction to employ water conservation measures to reduce daily consumption. Failure to comply will result in customer disconnection. The following uses of water shall be prohibited:

- ◆ Irrigation of outdoor lawns, trees, shrubs, or any plant life is prohibited
- ◆ Washing of any vehicle is prohibited
- ◆ The use of water for dust control or any outdoor cleaning uses is prohibited
- ◆ The use of drip or misting systems of any kind is prohibited
- ◆ The filling of any swimming pool, spas, fountains or ornamental pools is prohibited
- ◆ The use of construction water is prohibited
- ◆ Restaurant patrons shall be served water only upon request
- ◆ Any other water intensive activity is prohibited

The Company's operation of its standpipe service is prohibited. The addition of new service lines and meter installations is prohibited.

Notice Requirements:

1. Company is required to notify customers by delivering written notice to each service address, or by United States first class mail to the billing address or, at the Company's option, both. Such notice shall notify the customers of the general nature of the problem and the need to conserve water.
2. Beginning with Stage 4, Company shall post at least eight (8) signs showing the curtailment stage. Signs shall be posted at the well and/or pump sites located within the Chaparral City Water District
3. Company shall notify the Consumer Services Section of the Utilities Division of the Corporation Commission at least 12 hours prior to entering Stage 4.

CURTAILMENT TARIFF
(continued)

Customers who fail to comply with the above restrictions will be given a written notice to end all outdoor use. Failure to comply within two (2) working days of receipt of the notice will result in temporary loss of service until an agreement can be made to end unauthorized use of outdoor water. To restore service, the customer shall be required to pay all authorized reconnection fees. If a customer believes he/she has been disconnected in error, the customer may contact the Commission's Consumer Services Section at 1-800-222-7000 to initiate an investigation.

Once Stage 4 has been reached, the Company must augment the supply of water by hauling or through an emergency interconnect from an approved supply or must otherwise provide emergency drinking water for its customers until a permanent solution has been implemented.

APPLICABILITY:

~~_____ To all customers served by Chaparral City Water Company ("Company") where the Company determines that temporary water shortages might lead to water system outages, whether caused by drought, fire or other disaster, diminishing supplies, contamination, equipment failure, increased demands or other causes.~~

PURPOSE:

~~_____ To implement procedures to cause all customers, regardless of customer class, to reduce water use by compliance with specified water conservation measures and other actions required to reduce each customer's normal water use.~~

NOTICE OF CURTAILMENT IMPLEMENTATION:

~~_____ The Company will notify customers of the need to curtail water use, the stage of curtailment implemented, and the extent of curtailment required, by using one or more of the most appropriate methods listed below, as determined by the Company:~~

- ~~1. _____ A notice published in a local newspaper of general circulation that serves the targeted area.~~
- ~~2. _____ A bill insert or a notice on the customer's monthly bill.~~
- ~~3. _____ Radio and television announcements in the targeted area.~~
- ~~4. _____ Signs, leaflets, or other means of providing public notice as determined by the Company.~~

~~_____ The Company will notify the customers when such curtailment is no longer needed.~~

- ~~1. No washing of streets, sidewalks, driveways, parking lots, service station aprons or other exterior features.~~
- ~~2. No washing of automobiles, trucks, trailers, trailer houses or any type of mobile equipment.~~
- ~~3. Exterior landscape watering not more frequently than once every 2 days.~~
- ~~4. Exterior landscape automatic watering timers reduced from their normal duration setting.~~
- ~~5. No filling of swimming or wading pools.~~
- ~~6. Restaurants to serve drinking water only upon request.~~
- ~~7. Hotels, motels and other temporary lodging facilities to notify their customers that towels and linens will be washed upon request only, and that their water use should be limited.~~
- ~~8. Use of water from fire hydrants only in case of fire.~~
- ~~9. Do not waste water. EXAMPLES: Do not let water run down streets and repair nay leaking plumbing fittings.~~
- ~~10. Reduce other water uses such that the targeted reduction from the customer's historic water use is achieved.~~

Stage Two:

~~Voluntary water use reduction by customers of more than 25%, as specified by the Company, by adhering to the practices listed under Stage One and the following practices:~~

- ~~1. Exterior landscape watering not more frequently than once every 3 days.~~
- ~~2. Exterior landscape automatic watering timers further reduced from their normal duration setting.~~
- ~~3. Reduce other water uses such that the targeted reduction from the customer's historic water use is achieved.~~
- ~~4. No use of construction water services for dust control, soil compaction, or similar purposes, unless required by the Maricopa County Environmental Services Department, the Arizona Department of Environmental Quality, or other agency with jurisdiction over air quality.~~

Stage Three:

~~Mandatory water use reduction by customers to a level specified by the Company to meet health and safety requirements, by adhering to the practices listed under Stage One and Stage Two and the following practices:~~

PART TWO, SECTION III (Cont.)

- 1. Exterior landscape watering not more frequently than once every 4 days.
- 2. Exterior landscape automotive watering timers reduced from their normal duration setting.
- 3. Reduce other water uses such that the targeted water use reduction is achieved.
- 4. No use of construction water services.
- 5. Have on hand a minimum of a 3-day emergency supply of drinking water.

Stage Four:

Mandatory water use reductions by customers, when Stage Three conditions are expected to last longer than two months, by adhering to the practices listed under Stage One through Stage Three, together with the Targeted Water use Reduction Levels set forth below.

EXEMPTIONS AND APPEALS:

Reduction under Stages One, Two, Three and Four do not apply to water directly used for public health and safety purposes.

A customer who wishes an exemption from the targeted water use reduction must submit a written request to the Company within ten days of the Company's notice of curtailment. Following review of the request, the Company will decide whether the targeted water use reduction for that customer should be changed. The Company's decision shall be final.

TARGETED WATER USE REDUCTION LEVEL:

All water bills rendered during a Stage Four curtailment will show the customer's targeted water use reduction percentage, together with all other information the Company considers necessary for the customer to achieve the targeted water use reduction level. If the water bill shows that the customer used water above the targeted water use level, the water bill will include a notice to the customer to end all outdoor water use and that failure to comply will result in temporary loss of service. If the customer exceeds the targeted water use level in the following month, the water bill for that month will include a notice to the customer that water service will be terminated for failure to comply with the curtailment procedures imposed by the Company during supply shortages unless the customer agrees to take actions satisfactory to the Company to end unauthorized use of water. A customer's water service will not be terminated for this type of failure to comply without first receiving notice from the Company of its intent to terminate service.

PART TWO, SECTION IV

IV. CUSTOMER WATER CONSUMPTION INFORMATION SHARING WITH FOUNTAIN HILLS SANITARY DISTRICT, WASTEWATER PROVIDER

Chaparral City Water Company ("Company") is authorized to share water consumption information of individual customers with Fountain Hills Sanitary District ("Sanitary District"), a municipal provider of wastewater service for common customers purchasing water from the Company and wastewater from the Sanitary District. The purpose of this Tariff, and the authorized provision of customer water consumption information, is to assist the Sanitary District in billing for wastewater utility services. The Sanitary District agrees that it is only authorized to use such water consumption information for purposes of wastewater services billing and is not authorized to disclose such information to any other party except as may be required by law.

The Company entered into an Agreement with the Sanitary District for providing individual water consumption data, in a form materially similar to the standard form agreement. The Agreement was subject to Arizona Corporation Commission ("Commission") review as set forth in Section 4 of the agreement.

The Company shall notify all water utility customers affected by an agreement between the Company and the Sanitary District pursuant to this Tariff, by means of a billing insert during the first billing cycle immediately after said tariff is approved.

PART THREE**BEST MANAGEMENT PRACTICES TARIFFS****Local and/or Regional Messaging Program Tariff – BMP 1.1****PURPOSE**

A program for the Company to actively participate in a water conservation campaign with local or regional advertising (Modified Non-Per Capita Conservation Program BMP Category 1: Public Awareness/Public Relations 1.1: Local and/or Regional Messaging Program).

REQUIREMENTS

The requirements of this tariff are governed by Rules of the Arizona Corporation Commission and were adapted from the Arizona Department of Water Resources' Required Public Education Program and Best Management Practices in the Modified Non-Per Capita Conservation Program.

1. The Company or designated representative shall actively participate in water conservation campaign with local and/or regional advertising.
2. The campaign shall promote ways for customers to save water.
3. The Company shall facilitate the campaign through one or more of the following avenues (not an all inclusive list):
 - a. Television commercials
 - b. Radio commercials
 - c. Websites
 - d. Promotional materials
 - e. Vehicle signs
 - f. Bookmarks
 - g. Magnets
4. The Company shall keep a record of the following information and make it available to the Commission upon request:
 - a. A description of the messaging program implemented and program dates.
 - b. The number of customers reached (or an estimate).
 - c. Costs of Program implementation.

PART THREE (Cont.)**Youth Conservation Education Program Tariff – BMP 2.2****PURPOSE**

A program for the Company to promote water conservation by increasing students' understanding of water resources and the need to conserve (Modified Non-Per Capita Conservation Program BMP Category 2: Conservation Education and Training 2.2: Youth Conservation Education Program).

REQUIREMENTS

The requirements of this tariff are governed by Rules of the Arizona Corporation Commission and were adapted from the Arizona Department of Water Resources' Required Public Education Program and Best Management Practices in the Modified Non-Per Capita Conservation Program.

1. The Company or designated representative shall work with schools in its service area to increase students' understanding of water resources and to promote water conservation.
2. The Company shall provide a combination of instructional assistance, education materials, teacher education, classroom presentations, and field trips to water related facilities.
3. The Company shall provide the following teacher resources.
 - a. Offer Project WET (Water Education for Teachers) workshops to teachers twice yearly. In lieu of Project WET the Company may market its Water Conservation Assembly Program to all schools within its service area. The Water Conservation Assembly Program will focus on teaching students about water resources and water conservation. The assembly itself will be an interactive water conservation discussion.
 - b. Provide free resource materials and information upon request.
 - c. Provide in-classroom presentations upon request.
4. The Company shall make available free take home educational materials for elementary school students.
5. The Company shall keep a record of the following information and make it available upon request.
 - a. A description of the youth conservation education process implemented.
 - b. The number of students reached (or an estimate).
 - c. A description of the written water conservation material provided free to students.
 - d. Costs of the Youth Conservation Education Program implementation.

PART THREE (Cont.)**New Homeowner Landscape Information Tariff – BMP 2.3****PURPOSE**

A program for the Company to promote the conservation of water by providing a landscape information package for the purpose of educating its new customers about low water use landscaping (Modified Non-Per Capita Conservation Program BMP Category 2: Conservation Education and Training 2.3: New Homeowner Landscape Information).

REQUIREMENTS:

The requirements of this tariff are governed by Rules of the Arizona Corporation Commission and were adapted from the Arizona Department of Water Resources' Required Public Education Program and Best Management Practices in the Modified Non-Per Capita Conservation Program.

1. Upon establishment of water service the Company shall offer and make available upon request a free "Homeowner Landscape Packet" to each new customer in the Company's service area. The packet will include at a minimum: a cover letter describing the water conservation expectations for all customers in the Company's service area, applicable rate tariffs, a basic interior/exterior water saving pamphlet, xeriscape landscape information, a list of low water use trees, plants, shrubs, etc., watering guidelines, and a rain water harvesting pamphlet.
2. Upon customer request, the Company shall provide:
 - a. On-site consultations on low water use landscaping and efficient watering practices.
 - b. A summary of water saving options.
3. The Company shall keep a record of the number of packets provided to new customers and make it available to the Commission upon request.

PART THREE (Cont.)**Residential Audit Program Tariff – BMP 3.1****PURPOSE**

A program for the Company to promote water conservation by providing customers with information on performing water audits to determine conservation opportunities at their residence (Modified Non-Per Capita Conservation Program BMP Category 3: Outreach Services 3.1: Residential Audit Program).

REQUIREMENTS

The requirements of this tariff are governed by Rules of the Arizona Corporation Commission and were adapted from the Arizona Department of Water Resources' Required Public Education Program and Best Management Practices in the Modified Non-Per Capita Conservation Program.

1. The Company shall offer self-audit information.
2. The Company or designated representative shall provide all customers that request them with a self-audit kit.
3. The kit shall include detailed instructions and tools for completing the water audit including information on how to check their water meter. The audit kit shall include but not be limited to information on checking the following components: irrigation system, pool, water features, toilets, faucets and shower.
4. If requested, the Company shall assist the customer in a self-water audit and assist the customer in determining what might be causing high water usage as well as supply customer with information regarding water conservation and landscape watering guidelines. As part of the water audit, and if requested to do so by the customer, the Company shall confirm the accuracy of the customer meter (applicable meter testing fees shall apply).
5. The Company shall keep a record of the following information and make it available to the Commission upon request:
 - a. A description of the water conservation material provided in the kit.
 - b. The number of kits provided to customers.
 - c. Implementation costs of the Residential Audit Program.

A program for the Company to promote water conservation by providing residential customers free or low cost plumbing fixtures for their residence (Modified Non-Per Capita Conservation Program BMP Category 3: Outreach Services 3.4: Residential Interior Retrofit Program).

REQUIREMENTS

The requirements of this tariff are governed by Rules of the Arizona Corporation Commission and were adapted from the Arizona Department of Water Resources' Required Public Education Program and Best Management Practices in the Modified Non-Per Capita Conservation Program.

- ~~2.1.~~ The Company or designated representative shall provide to residential customers that request them that live in homes built prior to the adoption of the 1990 Uniform Plumbing Code free or low cost low water use fixtures such as faucets, faucet aerators, low flow shower heads, toilets and toilet dams. The Company must offer the fixtures/fixture retrofits to all residential customers meeting the above criteria unless the Company can demonstrate that targeting certain portions of its water service area is likely to yield the highest participation and/or potential water savings.
2. The fixtures or retrofit kit shall include detailed instructions for installing the retrofit fixtures.
3. The Company shall select appropriate communications channels to advertise the program.
4. The Company shall keep a record of the following information and make it available to the Commission upon request:
 - d. A description of the Residential Interior Retrofit Program including a description of the fixtures provided to customers and estimated water savings as a result of Program implementation.
 - e. The number of retrofit fixtures requested by customers and the number of fixtures provided.
 - f. Costs of the Residential Interior Retrofit Program.

PART THREE (Cont.)**Customer High Water Use Inquiry Resolution Tariff – BMP 3.6****PURPOSE**

A program for the Company to assist its customers with their high water-use inquiries and complaints (Modified Non-Per Capita Conservation Program BMP Category 3: Outreach Services 3.6: Customer High Water Use Inquiry Resolution).

REQUIREMENTS

The requirements of this tariff are governed by Rules of the Arizona Corporation Commission and were adapted from the Arizona Department of Water Resources' Required Public Education Program and Best Management Practices in the Modified Non-Per Capita Conservation Program.

1. The Company shall handle high water use inquiries as calls are received.
2. Calls shall be taken by a customer service representative who has been trained on typical causes of high water consumption as well as leak detection procedures that customers can perform themselves.
3. Upon request by the customer or when the Company determines it is warranted, a trained Field Technician shall be sent to the customer's residence to verify consumption and conduct a leak detection inspection and further assist the customer with water conservation measures.
4. The Company shall follow up on every customer inquiry or complaint and keep a record of inquiries and follow-up activities. The Company shall make this information available to the Commission upon request.

PART THREE (Cont.)**Customer High Water Use Notification Tariff – BMP 3.7****PURPOSE**

A program for the Company to monitor and notify customers when water use seems to be abnormally high and provide information that could benefit those customers and promote water conservation (Modified Non-Per Capita Conservation Program BMP Category 3: Outreach Services Program 3.7: Customer High Water Use Notification).

REQUIREMENTS

The requirements of this tariff are governed by Rules of the Arizona Corporation Commission and were adapted from the Arizona Department of Water Resources' Required Public Education Program and Best Management Practices in the Modified Non-Per Capita Conservation Program.

1. The Company shall track water usage for each customer and notify the customer if water use seems excessive for that particular billing for that time of the year.
2. The Company shall identify customers with high consumption, verify the high consumption, and investigate each instance to determine the possible cause.
3. The Company shall contact the high water use customers via telephone, email, by mail or in person. The Company shall contact the customer as soon as practical in order to minimize the possible loss of water. The customer will not be required to do anything to receive this notification.
4. In the notification the Company shall explain some of the most common water usage problems and common solutions and points of contact for dealing with the issues.
5. In the notification, the customer will be reminded of possible high water-consumption occurrences, such as:
 - a. Leaks, running toilets, or valves or flappers that need to be replaced.
 - b. Irrigation system valves or sprinkler heads which may be leaking.
 - c. Sprinklers that may be watering the house, sidewalk, or street, etc. increasing irrigation requirements.
 - d. Leaking pool or spas and possible leaks around pumps.
 - e. More people in the home than usual taking baths and showers.
 - f. Doing more loads of laundry than usual.
 - g. Doing a landscape project or starting a new lawn.
 - h. Washing vehicles more often than usual.

PART THREE (Cont.)**Leak Detection Program Tariff – BMP 4.1****PURPOSE**

A program for the Company to systematically evaluate its water distribution system to identify and repair leaks (Modified Non-Per Capita Conservation Program Best Management Practice Category 4: Physical System Evaluation and Improvement 4.1 Leak Detection Program).

REQUIREMENTS

The requirements of this tariff are governed by Rules of the Arizona Corporation Commission and were adapted from the Arizona Department of Water Resources' Required Public Education Program and Best Management Practices in the Modified Non-Per Capita Conservation Program.

On a systematic basis, the Company shall perform leak detection inspections of its distribution system to identify and fix leaks.

This program shall be implemented through a strategy of targeting certain portions of the water service area which will yield the highest potential for water savings first.

1. The Company shall implement comprehensive leak detection and repair program to attain and maintain a goal of less than 10 percent unaccounted for water loss in its system(s). The program must include auditing procedures, in-field leak detection and repair efforts. The Company shall take whatever practical steps are necessary to ensure that its water system is operating at optimal efficiency.
2. On a systematic basis, at least every two years (annually for smaller systems), the Company shall visually inspect its above ground water distribution system (to include hydrants, valves, tanks, pumps, etc. in the distribution system) to identify and repair leaks. Detection shall be followed by repair or in some cases replacement. Repair vs. replacement will depend upon site-specific leakage rates and costs.
3. Leak Detection efforts should focus on the portion of the distribution system with the greatest expected problems, including:
 - a. areas with a history of excessive leak and break rates;
 - b. areas where leaks and breaks can result in the heaviest property damage;
 - c. areas where system pressure is high;
 - d. areas exposed to stray current and traffic vibration;

Leak Detection Program Tariff – BMP 4.1 (Cont.) (Continued)

- ~~a-e.~~ areas near stream crossings; and,
~~b-f.~~ areas where loads on pipe may exceed design loads.

~~5-4.~~ The Company shall keep accurate and detailed records concerning its leak detection and repair/rehabilitation program and the associated costs. Records of repairs shall include: possible causes of leak; estimated amount of water lost; and date of repair. These records shall be made available to the Commission upon request.

~~6-5.~~ The Company shall maintain a complete set of updated distribution system maps.

~~7-6.~~ The Company shall conduct a water audit annually which includes the following steps to determine how efficient each water system is operating and where the losses might be.

- a. Use coordinated monthly source and service meter readings to calculate how much water enters and leaves the system during the ~~12-month~~ 12-month review period.
- b. Track and estimate any unmetered authorized uses.
- c. Calculate the total amount of leakage using the following formula:

$$\text{Unaccounted for water (\%)} = \left[\frac{\text{(Production and/or purchased water minus metered use \& estimated authorized un-metered use)}}{\text{(Production and/or purchased water)}} \right] \times 100\%$$

- d. Authorized un-metered uses may include firefighting, main flushing, process water for water treatment plants, etc. Water losses include all water that is not identified as authorized metered water use or authorized un-metered use.
 - e. Determine possible reasons for leakage, including physical leaks and unauthorized uses.
 - f. Analyze results to determine the improvements needed, such as, better accounting practices, leak survey or replacing old distribution pipes.
7. The Company shall keep accurate and detailed records concerning its annual water audit results. These records shall be made available to the Commission upon request.

ALL SERVICE AREAS:W 02113A 13 0118**PART THREE (Cont.)****Meter Repair and/or Replacement Tariff – BMP 4.2****PURPOSE**

A program for the Company to systematically assess all in-service water meters (including Company production meters) in its water service area to identify under-registering meters for repair or replacement (Modified Non-Per Capita Conservation Program Best Management Practice Category 4: Physical System Evaluation and Improvement 4.2 Meter Repair and/or Replacement Program).

REQUIREMENTS

The requirements of this tariff are governed by Rules of the Arizona Corporation Commission and were adapted from the Arizona Department of Water Resources' Required Public Education Program and Best Management Practices in the Modified Non-Per Capita Conservation Program.

1. On a systematic basis, the Company will replace all 2-inch and smaller in-service water meters at least once every twelve years.
2. The Company will test all meters that have caused a meter reading complaint to be filed with the Arizona Corporation Commission.
3. Meters larger than 2-inch shall be tested for one of the following reasons:
 - a. A meter reading complaint is filed with the Company by a customer or Arizona Corporation Commission Staff.
 - b. A meter has been in service for five years.
4. The test will be accomplished by one of the following:
 - a. Having the meter pulled and having a Company Technician physically inspect each meter and its fittings for leaks, registers which may have become loose or are not properly attached to the meter and could be under-registering or other broken parts which need repair.
 - b. Utilizing equipment to verify that all electronic components are within manufacturer specifications and are operating properly.
5. In addition, meters shall be randomly selected for flow testing utilizing a flow through detector testing meter.
6. All replacement water meters shall register in gallons:
 - a. All new 1-inch and smaller meters that are installed will register usage in 1 gallon increments.
 - b. All new 1-1/2-inch through 4-inch meters that are installed will register in 10 gallon increments, and
 - c. All new 6-inch and larger meters that are installed will register in 100 gallon increments.

7. The Company shall keep records on the number of meters that were replaced and make this information available to the Commission upon request.

1. On a systematic basis, the Company will inspect 100 percent of its 1-inch and smaller in-service water meters at least once every ten years for one of the following reasons (whichever occurs first):

a. A meter reading complaint is filed with the Company by a customer or Arizona Corporation Commission Staff,

b. A meter has registered 1,000,000 gallons of usage,

c. A meter has been in service for ten years.

2. Meters larger than 1 inch shall be inspected for one of the following reasons:

a. A meter reading complaint is filed with the Company by a customer or Arizona Corporation Commission Staff,

b. A meter has been in service for five years.

3. The inspection will be accomplished by having a Company Technician physically inspect each meter and its fittings for leaks, registers which may have become loose or are not properly attached to the meter and could be under registering or other broken parts which need repair. In addition, meters shall be randomly selected for flow testing to identify potentially under registering meters.

4. The Company shall also replace or reprogram any water meters that do not register in gallons. Upon the effective date of this tariff, the Company shall install all replacement meters with new:

a. 1 inch and smaller meters that register in 1 gallon increments,

b. 1 1/2 inch through 4 inch meters that register in 10 gallon increments, and

c. 6 inch and larger meters that register in 100 gallon increments.

ALL SERVICE AREAS:W 02113A 13 0118**PART THREE (Cont.)****Water System Tampering Tariff** ~~**AFTER SYSTEM TAMPERING TARIFF – BMP**~~**5.2****PURPOSE**

The purpose of this tariff is to promote the conservation of groundwater by enabling the Company to bring an action for damages or to enjoin any activity against a person who tampers with the water system.

REQUIREMENTS:

The requirements of this tariff are governed by Rules of the Arizona Corporation Commission, specifically Arizona Administrative Code ("AAC") R14-2-410 and the Arizona Department of Water Resources' Required Public Education Program and Best Management Practices in the Modified Non-Per Capita Conservation Program.

1. In support of the Company's water conservation goals, the Company may bring an action for damages or to enjoin any activity against a person who: (1) makes a connection or reconnection with property owned or used by the Company to provide utility service without the Company's authorization or consent; (2) prevents a Company meter or other device used to determine the charge for utility services from accurately performing its measuring function; (3) tampers with property owned or used by the Company; or (4) uses or receives the Company's services without the authorization or consent of the Company and knows or has reason to know of the unlawful diversion, tampering or connection. If the Company's action is successful, the Company may recover as damages three times the amount of actual damages.
2. Compliance with the provisions of this tariff will be a condition of service.
3. The Company shall make available to all its customers a complete copy of this tariff and AAC R14-2-410. The customers shall follow and abide by this tariff.
4. If a customer is connected to the Company water system and the Company discovers that the customer has taken any of the actions listed in No. 1 above, the Company may terminate service per AAC R14-2-410.
5. If a customer believes he/she has been disconnected in error, the customer may contact the Commission's Consumer Services Section at 1-800-222-7000 to initiate an investigation.

PART FOUR**COMMON OFF-SITE FACILITIES HOOK-UP FEE****I. Purpose and Applicability.**

The purpose of the Common Facilities off-site hook-up fees payable to EPCOR Water Arizona, Inc. Chaparral City Water Company (“the Company”) pursuant to this tariff is to equitably apportion the costs of constructing additional common water off-site facilities infrastructure to provide water production, delivery, treatment, storage and pressure among all new service connections. These charges are applicable to all new service connections established after the effective date of this tariff. The charges are one-time charges and are payable as a condition to Company’s establishment of service, as more particularly provided below.

II. Definitions.

Unless the context otherwise requires, the definitions set forth in A.C.C. R14-2-401 of the Arizona Corporation Commission’s (“Commission”) rules and regulations governing water utilities shall apply ~~in~~ interpreting this tariff schedule.

“Applicant” means any party entering into an agreement with the Company for the installation of water facilities to serve new service connections, and may include dDevelopers and/or bBuilders of new residential subdivisions.

~~“Company” means Chaparral City Water Company, Inc. an Arizona public service corporation.~~

“Main Extension Agreement” means any agreement whereby an Applicant, Developer and/or Builder agrees to advance the costs of the installation of water facilities, which may include Common Facilities, to the Company to serve new service connections, or install water facilities to serve new service connections and transfer ownership of such water facilities to the Company, in either case which agreement shall require the approval of the Commission pursuant to A.A.C. R14-2-406, and shall have the same meaning as “Water Facilities Agreement” or “Line Extension Agreement.”

~~“Common Off-Site Facilities” means all wells, storage tanks, production, treatment, and related appurtenances necessary for proper operation, including engineering and design costs. Off-site facilities may also include booster pumps, pressure tanks, transmission mains and related appurtenances, including engineering and design costs constructed necessary for proper operation, if these facilities are not for the exclusive use of the applicant and will for the benefit the entire water system and not for the exclusive use of the Applicant’s development.~~

COMMON FACILITIES HOOK-UP FEE
(continued)

III. Off-Site Common Facilities Hook-Up Fee.

For each new service connection, the Company shall collect an off-site hook-up fee derived as follows:

<u>COMMON FACILITIES HOOK-UP FEE TABLE</u>		
Meter Size	Size Factor	Total Fee
5/8" x 3/4 "	<u>1</u>	<u>\$1,680.00****</u>
3/4"	<u>1.5</u>	<u>\$2,520.00****</u>
1"	<u>2.5</u>	<u>\$4,200.00****</u>
1-1/2 "	<u>5</u>	<u>\$8,400.00****</u>
2"	<u>8</u>	<u>\$13,440.00***</u> *
3"	<u>16</u>	<u>\$26,880.00***</u> *
4"	<u>25</u>	<u>\$42,000.00***</u> *
6" or larger	<u>50</u>	<u>\$84,000.00***</u> *

~~**** The fee shall be variable, fixed on January 1 of each calendar year, computed by dividing \$369,404.50 by the number of hook-ups during the previous calendar year. However, in no event shall the hook-up fee be higher than \$1,000 nor less than \$500.~~

~~2006 filing New water installations. May be assessed only once per parcel, service connection, or lot within a subdivision. Purpose is to equitably apportion the costs of construction of additional off-site facilities to provide water production, delivery, storage, and pressure among all new service connections.~~

IV. Terms and Conditions.

(A) ~~Assessment of One Time Common Facilities~~Off-Site Hook-Up Fee: The Common off-site~~Facilities~~ hook-up fee may be assessed only once per parcel, service connection, or lot within a subdivision (similar to meter and service line installation charge).

COMMON FACILITIES HOOK-UP FEE
(Continued)

- ~~b. For those connecting to an existing main that was installed pursuant to a Main Extension Agreement that was approved by the Arizona Corporation Commission~~
- 2) In the event that the Applicant, ~~Developer or Builder~~ for service is not required to enter into a Main Extension Agreement, the charges hereunder shall be due and payable at the time the meter and service line installation fee is due and payable.
- (D) Off-Site Common Facilities Construction By Developer: Company and Applicant, ~~Developer or Builder~~ may agree to construction of Common off-site F facilities necessary to serve a particular development by Applicant, ~~Developer or Builder~~, which facilities are then conveyed to Company. In that event, Company shall credit the total cost of such Common off-site F facilities as an offset to Common off-site Facilities hook-up fees due under this Tariff. If the total cost of the Common off-site F facilities constructed by Applicant, ~~Developer or Builder~~ and conveyed to Company is less than the applicable Common off-site Facilities hook-up fees under this Tariff, Applicant, ~~Developer or Builder~~ shall pay the remaining amount of Common Facilities off-site hook-up fees owed hereunder. If the total cost of the Common off-site F facilities constructed by Applicant, Developer or Builder and conveyed to Company is more than the applicable Common Facilities off-site hook-up fees under this Tariff, Applicant, ~~Developer or Builder shall not be entitled to any refunds be refunded the difference upon acceptance of the Common Facilities by the Company. The refund may be paid in installments over a period of time pursuant to an agreement between the Company and the developer on a case by case basis. The Company and Applicant may agree to construction of additional facilities that are not Common Facilities, the cost of which shall not be subject to off-set under this paragraph IV.D, but which will be subject to refund under R14-2-406(D).~~
- (E) Failure to Pay Charges; Delinquent Payments: The Company will not be obligated to provide water service to any ~~Developer or, Builder Applicant~~ or other applicant for service in the event that ~~the Developer, Buildersuch Applicant~~ or other applicant for service has not paid in full all charges hereunder. Under no circumstances will the Company set a meter or otherwise allow service to be established if the entire amount of any payment has not been paid.

COMMON FACILITIES HOOK-UP FEE
(Continued)

(H) Use of Off-Site Hook-Up Fees Received: All funds collected by the Company as Common Facilities~~off-site~~ hook-up fees shall be deposited into a separate interest bearing trust account and used solely for the purposes of paying for the costs of Common~~off-site~~ Facilities, including repayment of loans obtained for the installation of Common ~~off-site~~ Facilities that will benefit the entire water system.

(I) Off-Site Common Facilities Hook-Up Fee in Addition to On-Site Facilities: The Common Facilities~~off-site~~ hook-up fee shall be in addition to any costs associated with the construction of on-site facilities or other additional facilities under Paragraph IV.D, above, under a Main Extension Agreement.

(J) Disposition of Excess Funds: After all necessary and desirable Common~~off-site~~ Facilities are constructed utilizing funds collected pursuant to the Common Facilities~~off-site~~ hook-up fees, or if the Common Facilities~~off-site~~ hook-up fee has been terminated by order of the Arizona Corporation Commission, any funds remaining in the trust shall be refunded. The manner of the refund shall be determined by the Commission at the time a refund becomes necessary.

(K) Fire Flow Requirements: In the event the Applicant for service has fire flow requirements that require additional facilities beyond those facilities whose costs were included in the Common Facilities~~off-site~~ hook-up fee, and which are contemplated to be constructed using the proceeds of the Common Facilities~~off-site~~ hook-up fee, the Company may require the Applicant to install such additional facilities as are required to meet those additional fire flow requirements, as a non-refundable contribution, in addition to paying the Common Facilities~~off-site~~ hook-up fee.

(L) Status Reporting Requirements to the Commission: The Company shall submit a calendar year Common Facilities hook-up fee status report each January 31 to Docket Control for the prior twelve (12) month period, beginning January 31, 2018, until the Common Facilities hook-up fee tariff is no longer in effect. This status report shall contain a list of all customers that have paid the Common Facilities hook-up fee tariff, the amount each has paid, the amount of money spent from the account, the amount of interest earned on the tariff account, and a list of all facilities that have been installed with the tariff funds during the 12-month period.

COMMON FACILITIES HOOK-UP FEE (WATER)

(continued)

LARGE WATER-USERS

Any development with a projected average daily water demand greater than 1,700 gallons per day per acre is considered to be a Large User. Large Users will be required to provide an additional renewable water supply source to Utility to meet the demands of the development that are greater than 1,700 gallons per day per acre. Examples of a renewable water supply source include surface water or a groundwater well with long-term storage credits. The renewable water supply source must be approved by Utility, and must have the appropriately allocated water rights that will be conveyed to Utility. The cost to provide a renewable water supply source to Utility will not be credited as an offset to the Common Facilities Hook-Up Fee because such costs will be due to the exclusive need for additional water by the Large User; however, the cost of that portion of a renewable water supply source that is in excess of the Large User's needs will be credited as an offset to the Common Facilities Hook-Up Fee.

Large Users may be required to enter into an agreement with Utility that will define terms and conditions, and will include fees that will be charged to Large Users for over usage. Fees will incur if Large Users use water in excess of the supply source provided, which will be reviewed by Utility on an annual basis. Continued excessive use could result in Utility requiring the Large User to develop and implement a water use reduction plan or, as a last resort, court action.

ADJUSTOR MECHANISMS

PURCHASED WATER ADJUSTOR MECHANISM ("PWAM")

The PWAM allows the Company to pass through purchased water costs incurred by the Company to its customers. Details can be found in the Company's Purchased Water Adjustor Mechanism Plan of Administration.

Applicability

Applicable to all customers served by this service area.

PWAM Surcharge Rate for all Customers:

All usage per 1,000 gallons per month \$X.XXXX *

* Rate consists of \$X.XXXX per 1,000 gallons of usage to recover the over/under collection of prior years' surcharge and \$X.XXXX per 1,000 gallons of usage for the collection of current annual purchased water charges.

Terms and Conditions

The Company will annually file with the Commission by March 1 the proposed annual PWAM surcharge for the current calendar year. The filing shall contain a summary of all purchased water costs, total collections from the surcharge, and the updated surcharge amounts. All documentation to support the proposed surcharge will be included.

As part of each annual filing, the Company will perform a reconciliation for the prior reporting period comparing the amounts recovered from / refunded to customers to the amount of increase / decrease in water expenses due to changes in rates for that same period resulting in either an under / (over) recovery. This true-up will be included in the annual calculation.

The annual PWAM surcharge will be calculated based on the historic consumption of the applicable customers from the previous twelve months.

The revised PWAM surcharge will be effective on June 1 of each year.

The PWAM surcharge will appear on each applicable customer's bill as a separate line item.

All rates in this Schedule shall be subject to their proportionate part of any taxes or other governmental imposts that are assessed directly or indirectly on the basis of revenues derived from this Schedule.

ADJUSTOR MECHANISMS
(continued)

POWER COST ADJUSTOR MECHANISM ("PCAM")

The PCAM allows the Company to pass through purchase power costs for any gas or electric service provider supplying retail service to the Company to its customers. Details can be found in the Company's Power Cost Adjustor Mechanism Plan of Administration.

Applicability
Applicable to all customers served by this service area.

PCAM Surcharge Rate for all Customers:
All usage per 1,000 gallons per month \$X.XXXX *

* Rate consists of \$X.XXXX per 1,000 gallons of usage to recover the over/under collection of prior years' surcharge and \$X.XXXX per 1,000 gallons of usage for the collection of current power charges.

Terms and Conditions

The Company will annually file with the Commission by March 1 the proposed annual PCAM surcharge for the current calendar year. The filing shall contain a summary of all gas and electrical costs, total collections from the surcharge, and the updated surcharge amount. All documentation to support the proposed surcharge will be included.

As part of each annual filing, the Company will perform a reconciliation for the prior reporting period comparing the amounts recovered from/refunded to customers to the amount of increase/decrease in power expenses due to changes in rates for that same period resulting in either an under / (over) recovery. This true-up will be included in the annual calculation.

The annual PCAM surcharge will be calculated based on the historic consumption of the applicable customers from the previous twelve months.

The revised PCAM surcharge will be effective on June 1 of each year.

The PCAM surcharge will appear on each applicable customer bill as a separate line item.

All rates in this Schedule shall be subject to their proportionate part of any taxes or other governmental imposts that are assessed directly or indirectly on the basis of revenues derived from this Schedule.

ADJUSTOR MECHANISMS
(continued)

SYSTEM IMPROVEMENT BENEFIT MECHANISM ("SIB")

The SIB provides for recovery of the capital costs (return on investment, income taxes and depreciation expense) associated with distribution system improvement projects listed in SIB Plant Table I that have been verified to be complete, net of associated retirements and placed in service per SIB Table II. Details can be found in the Company's System Improvement Benefit Mechanism Plan of Administration.

Availability
Applicable to all customers served by this service area.

Schedule of Charges:

<u>Meter Size</u>	<u>SIB Surcharge</u>	<u>SIB Efficiency Credit</u>	<u>NET SIB Surcharge</u>
<u>5/8" x 3/4" meter</u>	<u>\$ x.xx</u>	<u>\$ (x.xx)</u>	<u>\$ x.xx</u>
<u>3/4" meter</u>	<u>\$ x.xx</u>	<u>\$ (x.xx)</u>	<u>\$ x.xx</u>
<u>1" meter</u>	<u>\$ x.xx</u>	<u>\$ (x.xx)</u>	<u>\$ x.xx</u>
<u>1½" meter</u>	<u>\$ x.xx</u>	<u>\$ (x.xx)</u>	<u>\$ x.xx</u>
<u>2" meter</u>	<u>\$ x.xx</u>	<u>\$ (x.xx)</u>	<u>\$ x.xx</u>
<u>3" meter</u>	<u>\$ x.xx</u>	<u>\$ (x.xx)</u>	<u>\$ x.xx</u>
<u>4" meter</u>	<u>\$ x.xx</u>	<u>\$ (x.xx)</u>	<u>\$ x.xx</u>
<u>6" meter</u>	<u>\$ x.xx</u>	<u>\$ (x.xx)</u>	<u>\$ x.xx</u>
<u>8" meter</u>	<u>\$ x.xx</u>	<u>\$ (x.xx)</u>	<u>\$ x.xx</u>
<u>10" meter</u>	<u>\$ x.xx</u>	<u>\$ (x.xx)</u>	<u>\$ x.xx</u>

Terms and Conditions
Once a SIB is approved in a decision, the Company must file with Docket Control semi-annual status reports.

The annual SIB surcharge will be calculated based on the historic system improvements of the eligible projects from the previous twelve months.

Once a SIB surcharge is implemented the Company must file annually to true-up its SIB Surcharge collections over the preceding twelve months with the SIB Authorized Revenues for that period and establish a surcharge or credit to true up over or under collections. Filings dates for these annual true-ups shall be as established in the Decision.

The SIB surcharge, SIB efficiency credit and net SIB surcharge will all appear as separate line items on each applicable customer bill.

All rates in this Schedule shall be subject to their proportionate part of any taxes or other governmental imposts that are assessed directly or indirectly on the basis of revenues derived from this Schedule.

ADJUSTOR MECHANISMS
(continued)

PROPERTY TAX ADJUSTOR MECHANISM ("PTAM")

The PTAM allows the Company to pass through to its customers the increases or decreases in property tax expenses that result from changes to the assessment ratio or property tax rate. Pass through costs will be divided equally between residential and non-residential customer classes to collect the total increase over a 12-month period. Details can be found in the Company's Property Tax Adjustor Mechanism Plan of Administration.

Applicability
Applicable to all customers served by this service area.

PTAM Surcharge Rate for all Customers:
All usage per 1,000 gallons per month \$X.XXXX *

* Rate consists of \$X.XXXX per 1,000 gallons of usage to recover the over/under collection of prior years' surcharge and \$X.XXXX per 1,000 gallons of usage for the collection of current power charges.

Terms and Conditions

The Company will annually file with the Commission by March 1 the proposed annual PTAM surcharge for the current calendar year. The filing shall detail how the Company's property tax expenses were calculated by parcel by year. These calculations will include full cash value, assessment ratio, and tax rates by parcel. All documentation to support the proposed surcharge will be included.

As part of each annual filing, the Company will perform a reconciliation for the prior reporting period comparing the amounts recovered from/refunded to customers to the amount of increase/decrease in property tax expenses due to changes in rates for that same period resulting in either an under / (over) recovery. This true-up will be included in the annual calculation.

The revised PTAM surcharge will be effective on June 1 of each year.

The PTAM surcharge will appear on each applicable customer bill as a separate line item.

All rates in this Schedule shall be subject to their proportionate part of any taxes or other governmental imposts that are assessed directly or indirectly on the basis of revenues derived from this Schedule.

BILLING ADJUSTMENT TARIFF

1. PURPOSE

1.1. To outline EPCOR's general procedure on adjusting customer water utility bills.

2. SCOPE

2.1. This procedure pertains to billing adjustments for accounts with lost meters, stopped meters, and other situations where usage has been identified or service received but not billed (or under billed). Parameters within this procedure do not necessarily apply to situations where customer tampering, theft, or other actions that prevent access to the water meter are involved.

3. PROCEDURE

3.1. **Timeframe** – In cases where accounts have been identified as having water usage but have not been billed (or have been under billed), EPCOR will adjust the bill for the period identified not to exceed two years from the point of customer notification or adjustment generation. Customers will be provided the ability to spread their payments for the adjustment amount over the same time period for which the usage occurred. EPCOR will have the option of spreading the payment term beyond the original usage period, depending on the circumstances, with approval from the Customer Service Manager or Customer Service Director.

3.2. **Estimated Usage for Stopped Meters** – Usage for stopped meters will generally be calculated based on historical usage for similar timeframes. If the customer has had changes in their usage pattern based on conservation efforts, economic factors, leak repairs, or changes to the number of occupants, these *may* be considered in adjusting the usage estimate from historical data. There may be cases where the usage is monitored or a period of time after the meter has been replaced to determine the appropriate billing adjustment amount.

3.3. **Meter Accuracy Corrections** – If any meter after testing is found to be more than 3% inaccurate, either fast or slow, proper correction between 3% and the amount of the error shall be made of previous readings and adjusted bills shall be rendered according to the following terms:

3.3.1. For the period of 3 months immediately preceding the removal of such meter from service for test or from the time the meter was in service since last tested, but not exceeding 3 months since the meter shall have been shown to be in error by such test, or

3.3.2. From the date the error occurred, if the date of the cause can be definitely fixed.

3.3.3. No adjustment shall be made by the utility except to the customer last served by the meter tested.

BILLING ADJUSTMENT TARIFF
(continued)

3.4. Managing Large and/or Extended Adjustments – Bill adjustment amounts over \$2,500 that extend beyond two billing cycles will be reviewed by EPCOR and communication with the customer will be attempted prior to posting the bill to the customer account. Three unsuccessful attempts to contact the customer via the contact means provided on the customer account shall release the bill to the customer's account for posting.

3.5. Customer Appeals – Customers may appeal adjustment decisions in writing or by contacting a customer care representative the appeal will be escalated to the appropriate party and a determination will be made within 90 days.

3.6. Exceptions – It is recognized that there may be specific situations or unique circumstances where there is a management decision not to adjust a customer or group of customers.

FACTORS FOR ALLOCATING COST OF SERVICE TO CUSTOMER CLASS

FACTOR A. ALLOCATION OF COMMODITY COSTS.

Factors are based on the pro forma test year average daily consumption for each customer classification.

Classification	Average Daily Consumption, 1000 Gallons	Allocation Factor
(1)	(2)	(5)
Residential	644	0.8484
Commercial	115	0.1516
Total	<u>759</u>	<u>1.0000</u>

FACTOR B. ALLOCATION OF MAXIMUM DAY DEMAND COSTS - TREATMENT AND PUMPING.

Factors are based on the maximum day demand for each customer classification.

Customer Classification	Average Daily Consumption, 1000 Gallons	Peak Day Factor	Rate of Flow, 1000 Gallons Per Day	Allocation Factor
(1)	(2)	(3)	(4)=(2)x(3)	(5)
Residential	644	3.00	1,928	0.8712
Commercial	115	2.48	285	0.1288
Total	<u>759</u>		<u>2,213</u>	<u>1.0000</u>

FACTOR C. ALLOCATION OF MAXIMUM HOUR DEMAND COSTS.

Factors are based on the maximum hour demand for each customer classification.

Customer Classification	Average Hourly Consumption, 1000 Gallons	Peak Hour Factor	Rate of Flow, 1000 Gallons Per Hour	Allocation Factor
(1)	(2)	(3)	(4)=(2)x(3)	(5)
Residential	27	4.96	133	0.8709
Commercial	5	4.11	20	0.1291
Total	<u>32</u>		<u>153</u>	<u>1.0000</u>

EPCOR WATER ARIZONA INC.
HAVASU WATER DISTRICT
FACTORS FOR ALLOCATING COST OF SERVICE TO CUSTOMER CLASS

FACTOR D. ALLOCATION OF COSTS ASSOCIATED WITH METERS

Factors are based on the relative cost of meters by size and customer classification

<u>Customer Classification</u> (1)	<u>5/8" Equivalents</u> (2)	<u>Allocation Factor</u> (3)
Residential	14,606	0.9869
Commercial	194	0.0131
Total	<u>14,800</u>	<u>1.0000</u>

FACTOR E. ALLOCATION OF COSTS ASSOCIATED WITH SERVICES

Factors are based on the relative cost of meters by size and customer classification

<u>Customer Classification</u> (1)	<u>3/4" Equivalents</u> (2)	<u>Allocation Factor</u> (3)
Residential	4,808	0.9780
Commercial	108	0.0220
Total	<u>4,916</u>	<u>1.0000</u>

FACTOR F. ALLOCATION OF BILLING AND COLLECTING COSTS.

Factors are based on the total number of customers.

<u>Customer Classification</u> (1)	<u>Total Customers</u> (2)	<u>Allocation Factor</u> (3)
Residential	4,808	0.9780
Commercial	108	0.0220
Total	<u>4,916</u>	<u>1.0000</u>

37 (b) After hours service charge: After regular working hours, Saturdays, Sundays, or holidays if at the customer's request or for
38 the customer's convenience.

39 (c) Monthly minimum times number of months disconnected from the system at the same location where the same customer
40 had ordered a service disconnection within the preceding 12-month period. In the event that customer is also a wastewater
41 customer, the customer will only be charged for water reconnection.

42 (d) New customers choosing to enroll in Automated Meter Opt Out at the time of establishing new service will only pay the
43 Automated Meter Opt Out Establishment Fee and will be subject to the Monthly Manual Read Fee.

44 (e) Current customers choosing to enroll in Automated Meter Opt Out will pay the Automated Meter Opt Out Establishment Fee
45 and will be subject to the Monthly Manual Read Fee.

46

47 IN ADDITION TO THE COLLECTION OF REGULAR RATES, THE UTILITY WILL COLLECT FROM ITS CUSTOMERS A
48 PROPORTIONATE SHARE OF ANY PRIVILEGE, SALES, USE, AND FRANCHISE TAX. PER COMMISSION RULE 14-2-
49 409(D)(5).

GENERAL WATER RATE
(continued)

Terms and Conditions

Water service provided under this rate schedule is subject to this District's Rules and Regulations applicable to Water Service and may be subject to this District's Service Charges set forth in Rate Schedule Service Charges and adjustors mechanisms included in the Company's tariffs on file with the Arizona Corporation Commission.

Water service under this Schedule is for the exclusive use of the Customer and water shall not be resold or provided to others.

In addition to the collection of regular rates, the utility will collect from its customers a proportionate share of any privilege, sales, use, and franchise tax. Per Commission Rule 14-2-409D(5).

A 1½% late payment penalty will be applied to account balances not paid within fifteen (15) days after the postmark date of the bill in accordance with Arizona Administrative Code R14-2-310.C.

Low Income Program – Monthly Low Income Credit of \$10.00 is available in the Havasu Water. Requires the completion of a Low Income Program Application. Program is restricted to the first 100 eligible residential customers on 5/8 x 3/4 inch meters in the Havasu Water district. Applicants must swear that he/she has annual income below the threshold. The threshold is below 150% of the federal low income guidelines as periodically revised. Applicant may not be claimed as a dependent on another person's tax return. Applicant must reapply each time moving residences. Refusal or failure to provide acceptable documentation of eligibility, upon request, shall result in removal from the low income program. Rebilling of customers under the otherwise applicable rate schedule may occur for periods of ineligibility previously billed under the low income tariff. Annual income means the value of all money and non-cash benefits available for living expenses, from all sources, both taxable and non-taxable, before deductions, for all people who live with the applicant.

SERVICE CHARGES
(continued)

Service Line and Meter Installation Charges

As provided for in EPCOR Water Arizona, Inc.'s Havasu Water District Rule No. 4 (B), the Company will charge the customer, as a refundable advance in aid of construction, an amount for each meter and service line as specified below:

Service Line and Meter Installation Charges:

Meter Size	Service Line Charge	Meter Installation Charge
5/8" x 3/4- inch Meter	\$4,000	\$165.00
3/4- inch Meter	\$4,000	\$185.00
1- inch Meter	\$4,000	\$220.00
1-1/2 - inch Meter	\$4,000	\$325.00
2- inch Turbine Meter	\$4,000	\$385.00
2- inch Compound Meter	\$4,000	\$1,050.00
3- inch Turbine Meter	\$4,000	\$1,065.00
3- inch Compound Meter	\$4,000	\$1,665.00
4- inch Turbine Meter	\$4,000	\$1,335.00
4- inch Compound Meter	\$4,000	\$2,445.00
6- inch Turbine Meter	\$4,000	\$2,665.00
6- inch Compound Meter	\$4,000	\$3,700.00
Over 6" Meter	At Cost	At Cost

Terms and Conditions

An applicant for water service shall pay to the Company, as a refundable advance in aid of construction the full cost to provide the new service line and meter.

In addition to the collection of regular rates, the utility will collect from its customers a proportionate share of any privilege, sales, use, and franchise tax. Per Commission Rule 14-2-409.D.5.

All advances and/or contributions are to include labor, materials, overheads, and all applicable taxes, including all gross-up taxes for income taxes, if applicable.

COMMON FACILITIES HOOK-UP FEE

I. Purpose and Applicability

The purpose of the Common Facilities hook-up fee payable to EPCOR Water Arizona Inc. (“the Company”) pursuant to this tariff is to equitably apportion the costs of constructing additional common water facility infrastructure to provide water production, delivery, treatment, storage and pressure among all new service connections. These charges are applicable to all new service connections established after the effective date of this tariff. The charges are one-time charges and are payable as a condition to the Company’s establishment of service, as more particularly provided below.

II. Definitions

Unless the context otherwise requires, the definitions set forth in R-14-2-401 of the Arizona Corporation Commission’s (“Commission”) rules and regulations governing water utilities shall apply interpreting this tariff schedule.

“Applicant” means any party entering into an agreement with the Company for the installation of water facilities to serve new service connections, and may include developers and/or builders of new residential subdivisions.

“Main Extension Agreement” means any agreement whereby an Applicant, Developer and/or Builder agrees to advance the costs of the installation of water facilities, which may include Common Facilities, to the Company to serve new service connections, or install water facilities to serve new service connections and transfer ownership of such water facilities to the Company, in either case which agreement shall require the approval of the Commission pursuant to A.A.C. R-14-2-406, and shall have the same meaning as “Water Facilities Agreement” or “Line Extension Agreement.”

“Common Facilities” means all wells, storage tanks, production, treatment, booster pumps, pressure tanks, transmission mains and related appurtenances, including engineering and design costs, constructed for the benefit of the water system and not for the exclusive use of the Applicant’s development.

“Service Connection” means and includes all service connections for single-family residential or other uses, regardless of meter size.

5/8" x 3/4"	1	\$1,680.00
3/4"	1.5	\$2,520.00
1"	2.5	\$4,200.00
1-1/2"	5	\$8,400.00
2"	8	\$13,440.00
3"	16	\$26,880.00
4"	25	\$42,000.00
6" or larger	50	\$84,000.00

IV. Terms and Conditions

(A) Assessment of One Time Common Facilities Hook-up Fee: The Common Facilities hook-up fee may be assessed only once per parcel, service connection, or lot within a subdivision (similar to meter and service line installation charge).

(B) Use of Common Facilities Hook-up Fee: Common Facilities hook-up fees may only be used to pay for capital items of Common Facilities, or for repayment of loans obtained for installation of Common Facilities. Common Facilities hook-up fees shall not be used for repairs, maintenance, or operational purposes.

(C) Time of Payment:

1) In the event that the Applicant that will be constructing improvements is required to enter into a Main Extension Agreement, payment of the Common Facilities hook-up fees required hereunder shall be made by the Applicant no later than within 15 calendar days after receipt of notification from the Company that the Utilities Division of the Arizona Corporation Commission has approved the Main Extension Agreement in accordance with R-14-2-406(M).

COMMON FACILITIES HOOK-UP FEE

(continued)

2) In the event that the Applicant for service is not required to enter into a Main Extension Agreement, the charges hereunder shall be due and payable at the time the meter and service line installation fee is due and payable.

(D) Common Facilities Construction by Developer: The Company and Applicant may agree to construction of Common Facilities necessary to serve a particular development by Applicant which facilities are then conveyed to the Company. In that event, Company shall credit the total cost of such Common Facilities as an offset to the Common Facilities hook-up fees due under this Tariff. If the total cost of the Common Facilities constructed by Applicant and conveyed to Company is less than the applicable Common Facilities hook-up fee due under this Tariff, Applicant shall pay the remaining amount of the Common Facilities hook-up fees owed hereunder. If the total cost of the Common Facilities contributed by Applicant, Developer or Builder and conveyed to Company is more than the applicable Common Facilities hook-up fees under this Tariff, Applicant shall be refunded the difference upon acceptance of the Common Facilities by the Company. The refund may be paid in installments over a period of time pursuant to an agreement between the company and the developer on a case by case basis. The Company and Applicant may agree to construction of additional facilities that are not Common Facilities, the cost of which shall not be subject to off-set under this paragraph IV.D, but which will be subject to refund under R14-2-406(D).

(E) Failure to Pay Charges: Delinquent Payments: The Company will not be obligated to provide water service to any Applicant or other applicant for service in the event that such Applicant or other applicant for service has not paid in full all charges hereunder. Under no circumstances will the Company set a meter or otherwise allow service to be established if the entire amount of any payment has not been paid.

(F) Large Subdivision Projects: In the event that the Applicant is engaged in the development of a residential subdivision containing more than 150 lots, and is a party to a Main Extension Agreement with the Company for such development, the Company may, in its discretion, agree to payment of the Common Facilities hook-up fees in installments. Such installments may be based on the residential subdivision development's phasing, and should attempt to equitably apportion the payment of charges hereunder based on the Applicant's construction schedule and water service requirements.

(G) Common Facilities Hook-Up Fees Non-refundable: The amounts collected by the Company pursuant to the Common Facilities hook-up fee tariff shall be non-refundable contributions in aid of construction

COMMON FACILITIES HOOK-UP FEE

(continued)

(H) Use of Common Facilities Hook-Up Fees Received: All funds collected by the Company as Common Facilities hook-up fees shall be deposited into a separate interest bearing trust account and used solely for the purposes of paying for the costs of the Common Facilities, including repayment of loans obtained for the installation of Common Facilities that will benefit the entire water system.

(I) Common Facilities Hook-up Fee in Addition to On-site Facilities: The Common Facilities hook-up fee shall be in addition to any costs associated with the construction of on-site facilities or other additional facilities under Paragraph IV.D, above, under a Main Extension Agreement.

(J) Disposition of Excess Funds: After all necessary and desirable Common Facilities are constructed utilizing funds collected pursuant to the Common Facilities hook-up fees, or if the Common Facilities hookup fee has been terminated by order of the Arizona Corporation Commission, any funds remaining in the trust shall be refunded. The manner of the refund shall be determined by the Commission at the time a refund becomes necessary.

(K) Fire Flow Requirements: In the event the Applicant has fire flow requirements that require additional facilities beyond those facilities whose costs were included in the Common Facilities hook-up fee, and which are contemplated to be constructed using the proceeds of the Common Facilities hook-up fee, the Company may require the Applicant to install such additional facilities as are required to meet those additional fire flow requirements, as a non-refundable contribution, in addition to paying the Common Facilities hook-up fee.

(L) Status Reporting Requirements to the Commission: The Company shall submit a calendar year Common Facilities hook-up fee status report each January 31 to Docket Control for the prior twelve (12) month period, beginning January 31, 2018, until the Common Facilities hook-up fee tariff is no longer in effect. This status report shall contain a list of all customers that have paid the Common Facilities hook-up fee tariff, the amount each has paid, the amount of money spent from the account, the amount of interest earned on the tariff account, and a list of all facilities that have been installed with the tariff funds during the 12-month period.

LARGE WATER-USERS

Any development with a projected average daily water demand greater than 1,700 [SLM1] gallons per day per acre is considered to be a Large User. Large Users will be required to provide an additional renewable water supply source to Utility to meet the demands of the development that are greater than 1,700 gallons per day per acre. Examples of a renewable water supply source include surface water or a groundwater well with long-term storage credits. The renewable water supply source must be approved by Utility, and must have the appropriately allocated water rights that will be conveyed to Utility. The cost to provide a renewable water supply source to Utility will not be credited as an offset to the Common Facilities Hook-Up Fee because such costs will be due to the exclusive need for additional water by the Large User; however, the cost of that portion of a renewable water supply source that is in excess of the Large User's needs will be credited as an offset to the Common Facilities Hook-Up Fee.

Large Users may be required to enter into an agreement with Utility that will define terms and conditions, and will include fees that will be charged to Large Users for over usage. Fees will incur if Large Users use water in excess of the supply source provided, which will be reviewed by Utility on an annual basis. Continued excessive use could result in Utility requiring the Large User to develop and implement a water use reduction plan or, as a last resort, court action.

CURTAILMENT PLAN FOR HAVASU WATER DISTRICT
(Template 063004)

ADEQ Public Water System No: 04-08-015

EPCOR Water Arizona Inc. ("Company"), is authorized to curtail water service to all customers within its certificated area under the terms and conditions listed in this tariff.

This curtailment plan shall become part of the Arizona Department of Environmental Quality Emergency Operations Plan for the Company.

The Company shall notify its customers of this new tariff as part of its next regularly scheduled billing after the effective date of the tariff or no later than sixty (60) days after the effective date of the tariff.

The Company shall provide a copy of the curtailment tariff to any customer, upon request.

Stage 1 Exists When:

Company is able to maintain water storage in the system at 100 percent of capacity and there are no known problems with its well production or water storage in the system.

Restrictions: Under Stage 1, Company is deemed to be operating normally and no curtailment is necessary.

Notice Requirements: Under Stage 1, no notice is necessary.

Stage 2 Exists When:

- a. Company's water storage or well production has been less than 80 percent of capacity for at least 48 consecutive hours, and
- b. Company has identified issues such as a steadily declining water table, increased draw down threatening pump operations, or poor water production, creating a reasonable belief the Company will be unable to meet anticipated water demand on a sustained basis.

Restrictions: Under Stage 2, the Company may request the customers to voluntarily employ water conservation measures to reduce water consumption by approximately 50 percent. Outside watering should be limited to essential water, dividing outside watering on some uniform basis (such as even and odd days) and eliminating outside watering on weekends and holidays.

Decision No. 69983 (Administratively Approved)

CURTAILMENT TARIFF
(continued)

Notice Requirements: Under Stage 2, the Company is required to notify customers by delivering written notice door to door at each service address, or by United States first class mail to the billing address or, at the Company's option, both. Such notice shall notify the customers of the general nature of the problem and the need to conserve water.

Stage 3 Exists When:

- a. Company's total water storage or well production has been less than 50 percent of capacity for at least 24 consecutive hours, and
- b. Company has identified issues such as a steadily declining water table, increased draw down threatening pump operations, or poor water production, creating a reasonable belief the Company will be unable to meet anticipated water demand on a sustained basis.

Restrictions: Under Stage 3, Company shall request the customers to voluntarily employ water conservation measures to reduce daily consumption by approximately 50 percent. All outside watering should be eliminated, except livestock, and indoor water conservation techniques should be employed whenever possible. Standpipe service shall be suspended.

Notice Requirements:

- 1. Company is required to notify customers by delivering written notice to each service address, or by United States first class mail to the billing address or, at the Company's option, both. Such Notice shall notify the customers of the general nature of the problem and the need to conserve water.
- 2. Beginning with Stage 3, Company shall post at least two (2) signs showing the curtailment stage. Signs shall be posted at the well and/or pump sites located within the Havasu Water District.
- 3. Company shall notify the Consumer Services Section of the Utilities Division of the Corporation Commission at least 12 hours prior to entering Stage 3.

Once Stage 3 has been reached, the Company must begin to augment the supply of water by either hauling or through an emergency interconnect with an approved water supply in an attempt to maintain the curtailment at a level no higher than Stage 3 until a permanent solution has been implemented.

CURTAILMENT TARIFF
(continued)

Stage 4 Exists When:

- a. Company's total water storage or well production has been less than 25 percent of capacity for at least 12 consecutive hours, and
- b. Company has identified issues such as a steadily declining water table, increased draw down threatening pump operations, or poor water production, creating a reasonable belief the Company will be unable to meet anticipated water demand on a sustained basis.

Restrictions: Under Stage 4, Company shall inform the customers of a mandatory restriction to employ water conservation measures to reduce daily consumption. Failure to comply will result in customer disconnection. The following uses of water shall be prohibited:

- ◆ Irrigation of outdoor lawns, trees, shrubs, or any plant life is prohibited
- ◆ Washing of any vehicle is prohibited
- ◆ The use of water for dust control or any outdoor cleaning uses is prohibited
- ◆ The use of drip or misting systems of any kind is prohibited
- ◆ The filling of any swimming pool, spas, fountains or ornamental pools is prohibited
- ◆ The use of construction water is prohibited
- ◆ Restaurant patrons shall be served water only upon request
- ◆ Any other water intensive activity is prohibited

The Company's operation of its standpipe service is prohibited. The addition of new service lines and meter installations is prohibited.

Notice Requirements:

1. Company is required to notify customers by delivering written notice to each service address, or by United States first class mail to the billing address or, at the Company's option, both. Such notice shall notify the customers of the general nature of the problem and the need to conserve water.
2. Beginning with Stage 4, Company shall post at least two (2) signs showing the curtailment stage. Signs shall be posted at the well and/or pump sites located within the Havasu Water District
3. Company shall notify the Consumer Services Section of the Utilities Division of the Corporation Commission at least 12 hours prior to entering Stage 4.

CURTAILMENT TARIFF
(continued)

Customers who fail to comply with the above restrictions will be given a written notice to end all outdoor use. Failure to comply within two (2) working days of receipt of the notice will result in temporary loss of service until an agreement can be made to end unauthorized use of outdoor water. To restore service, the customer shall be required to pay all authorized reconnection fees. If a customer believes he/she has been disconnected in error, the customer may contact the Commission's Consumer Services Section at 1-800-222-7000 to initiate an investigation.

Once Stage 4 has been reached, the Company must augment the supply of water by hauling or through an emergency interconnect from an approved supply or must otherwise provide emergency drinking water for its customers until a permanent solution has been implemented.

Local and/or Regional Messaging Program Tariff – BMP 1.1**PURPOSE**

A program for the Company to actively participate in a water conservation campaign with local or regional advertising (Modified Non-Per Capita Conservation Program BMP Category 1: Public Awareness/Public Relations 1.1: Local and/or Regional Messaging Program).

REQUIREMENTS

The requirements of this tariff are governed by Rules of the Arizona Corporation Commission and were adapted from the Arizona Department of Water Resources' Required Public Education Program and Best Management Practices in the Modified Non-Per Capita Conservation Program.

1. The Company or designated representative shall actively participate in water conservation campaign with local and/or regional advertising.
2. The campaign shall promote ways for customers to save water.
3. The Company shall facilitate the campaign through one or more of the following avenues (not an all inclusive list):
 - a. Television commercials
 - b. Radio commercials
 - c. Websites
 - d. Promotional materials
 - e. Vehicle signs
 - f. Bookmarks
 - g. Magnets
4. The Company shall keep a record of the following information and make it available to the Commission upon request:
 - a. A description of the messaging program implemented and program dates.
 - b. The number of customers reached (or an estimate).
 - c. Costs of Program implementation.

Youth Conservation Education Program Tariff – BMP 2.2**PURPOSE**

A program for the Company to promote water conservation by increasing students' understanding of water resources and the need to conserve (Modified Non-Per Capita Conservation Program BMP Category 2: Conservation Education and Training 2.2: Youth Conservation Education Program).

REQUIREMENTS

The requirements of this tariff are governed by Rules of the Arizona Corporation Commission and were adapted from the Arizona Department of Water Resources' Required Public Education Program and Best Management Practices in the Modified Non-Per Capita Conservation Program.

1. The Company or designated representative shall work with schools in its service area to increase students' understanding of water resources and to promote water conservation.
2. The Company shall provide a combination of instructional assistance, education materials, teacher education, classroom presentations, and field trips to water related facilities.
3. The Company shall provide the following teacher resources.
 - a. Offer Project WET (Water Education for Teachers) workshops to teachers twice yearly. In lieu of Project WET the Company may market its Water Conservation Assembly Program to all schools within its service area. The Water Conservation Assembly Program will focus on teaching students about water resources and water conservation. The assembly itself will be an interactive water conservation discussion.
 - b. Provide free resource materials and information upon request.
 - c. Provide in-classroom presentations upon request.
4. The Company shall make available free take home educational materials for elementary school students.
5. The Company shall keep a record of the following information and make it available upon request.
 - a. A description of the youth conservation education process implemented.
 - b. The number of students reached (or an estimate).
 - c. A description of the written water conservation material provided free to students.
 - d. Costs of the Youth Conservation Education Program implementation.

New Homeowner Landscape Information Tariff – BMP 2.3**PURPOSE**

A program for the Company to promote the conservation of water by providing a landscape information package for the purpose of educating its new customers about low water use landscaping (Modified Non-Per Capita Conservation Program BMP Category 2: Conservation Education and Training 2.3: New Homeowner Landscape Information).

REQUIREMENTS:

The requirements of this tariff are governed by Rules of the Arizona Corporation Commission and were adapted from the Arizona Department of Water Resources' Required Public Education Program and Best Management Practices in the Modified Non-Per Capita Conservation Program.

1. Upon establishment of water service the Company shall offer and make available upon request a free "Homeowner Landscape Packet" to each new customer in the Company's service area. The packet will include at a minimum: a cover letter describing the water conservation expectations for all customers in the Company's service area, applicable rate tariffs, a basic interior/exterior water saving pamphlet, xeriscape landscape information, a list of low water use trees, plants, shrubs, etc., watering guidelines, and a rain water harvesting pamphlet.
2. Upon customer request, the Company shall provide:
 - a. On-site consultations on low water use landscaping and efficient watering practices.
 - b. A summary of water saving options.
3. The Company shall keep a record of the number of packets provided to new customers and make it available to the Commission upon request.

Residential Audit Program Tariff – BMP 3.1**PURPOSE**

A program for the Company to promote water conservation by providing customers with information on performing water audits to determine conservation opportunities at their residence (Modified Non-Per Capita Conservation Program BMP Category 3: Outreach Services 3.1: Residential Audit Program).

REQUIREMENTS

The requirements of this tariff are governed by Rules of the Arizona Corporation Commission and were adapted from the Arizona Department of Water Resources' Required Public Education Program and Best Management Practices in the Modified Non-Per Capita Conservation Program.

1. The Company shall offer self-audit information.
2. The Company or designated representative shall provide all customers that request them with a self-audit kit.
3. The kit shall include detailed instructions and tools for completing the water audit including information on how to check their water meter. The audit kit shall include but not be limited to information on checking the following components: irrigation system, pool, water features, toilets, faucets and shower.
4. If requested, the Company shall assist the customer in a self-water audit and assist the customer in determining what might be causing high water usage as well as supply customer with information regarding water conservation and landscape watering guidelines. As part of the water audit, and if requested to do so by the customer, the Company shall confirm the accuracy of the customer meter (applicable meter testing fees shall apply).
5. The Company shall keep a record of the following information and make it available to the Commission upon request:
 - a. A description of the water conservation material provided in the kit.
 - b. The number of kits provided to customers.
 - c. Implementation costs of the Residential Audit Program.

Residential Interior Retrofit Program Tariff – BMP 3.4**PURPOSE**

A program for the Company to promote water conservation by providing residential customers free or low cost plumbing fixtures for their residence (Modified Non-Per Capita Conservation Program BMP Category 3: Outreach Services 3.4: Residential Interior Retrofit Program).

REQUIREMENTS

The requirements of this tariff are governed by Rules of the Arizona Corporation Commission and were adapted from the Arizona Department of Water Resources' Required Public Education Program and Best Management Practices in the Modified Non-Per Capita Conservation Program.

1. The Company or designated representative shall provide to residential customers that request them that live in homes built prior to the adoption of the 1990 Uniform Plumbing Code free or low cost low water use fixtures such as faucets, faucet aerators, low flow shower heads, toilets and toilet dams. The Company must offer the fixtures/fixture retrofits to all residential customers meeting the above criteria unless the Company can demonstrate that targeting certain portions of its water service area is likely to yield the highest participation and/or potential water savings.
2. The fixtures or retrofit kit shall include detailed instructions for installing the retrofit fixtures.
3. The Company shall select appropriate communications channels to advertize the program.
4. The Company shall keep a record of the following information and make it available to the Commission upon request:
 - a. A description of the Residential Interior Retrofit Program including a description of the fixtures provided to customers and estimated water savings as a result of Program implementation.
 - b. The number of retrofit fixtures requested by customers and the number of fixtures provided.
 - c. Costs of the Residential Interior Retrofit Program.

Customer High Water Use Inquiry Resolution Tariff – BMP 3.6**PURPOSE**

A program for the Company to assist its customers with their high water-use inquiries and complaints (Modified Non-Per Capita Conservation Program BMP Category 3: Outreach Services 3.6: Customer High Water Use Inquiry Resolution).

REQUIREMENTS

The requirements of this tariff are governed by Rules of the Arizona Corporation Commission and were adapted from the Arizona Department of Water Resources' Required Public Education Program and Best Management Practices in the Modified Non-Per Capita Conservation Program.

1. The Company shall handle high water use inquiries as calls are received.
2. Calls shall be taken by a customer service representative who has been trained on typical causes of high water consumption as well as leak detection procedures that customers can perform themselves.
3. Upon request by the customer or when the Company determines it is warranted, a trained Field Technician shall be sent to the customer's residence to verify consumption and conduct a leak detection inspection and further assist the customer with water conservation measures.
4. The Company shall follow up on every customer inquiry or complaint and keep a record of inquiries and follow-up activities. The Company shall make this information available to the Commission upon request.

Customer High Water Use Notification Tariff – BMP 3.7**PURPOSE**

A program for the Company to monitor and notify customers when water use seems to be abnormally high and provide information that could benefit those customers and promote water conservation (Modified Non-Per Capita Conservation Program BMP Category 3: Outreach Services Program 3.7: Customer High Water Use Notification).

REQUIREMENTS

The requirements of this tariff are governed by Rules of the Arizona Corporation Commission and were adapted from the Arizona Department of Water Resources' Required Public Education Program and Best Management Practices in the Modified Non-Per Capita Conservation Program.

1. The Company shall track water usage for each customer and notify the customer if water use seems excessive for that particular billing for that time of the year.
2. The Company shall identify customers with high consumption, verify the high consumption, and investigate each instance to determine the possible cause.
3. The Company shall contact the high water use customers via telephone, email, by mail or in person. The Company shall contact the customer as soon as practical in order to minimize the possible loss of water. The customer will not be required to do anything to receive this notification.
4. In the notification the Company shall explain some of the most common water usage problems and common solutions and points of contact for dealing with the issues.
5. In the notification, the customer will be reminded of possible high water-consumption occurrences, such as:
 - a. Leaks, running toilets, or valves or flappers that need to be replaced.
 - b. Irrigation system valves or sprinkler heads which may be leaking.
 - c. Sprinklers that may be watering the house, sidewalk, or street, etc. increasing irrigation requirements.
 - d. Leaking pool or spas and possible leaks around pumps.
 - e. More people in the home than usual taking baths and showers.
 - f. Doing more loads of laundry than usual.
 - g. Doing a landscape project or starting a new lawn.
 - h. Washing vehicles more often than usual.

Leak Detection Program Tariff – BMP 4.1**PURPOSE**

A program for the Company to systematically evaluate its water distribution system to identify and repair leaks (Modified Non-Per Capita Conservation Program Best Management Practice Category 4: Physical System Evaluation and Improvement 4.1 Leak Detection Program).

REQUIREMENTS

The requirements of this tariff are governed by Rules of the Arizona Corporation Commission and were adapted from the Arizona Department of Water Resources' Required Public Education Program and Best Management Practices in the Modified Non-Per Capita Conservation Program.

On a systematic basis, the Company shall perform leak detection inspections of its distribution system to identify and fix leaks.

This program shall be implemented through a strategy of targeting certain portions of the water service area which will yield the highest potential for water savings first.

1. The Company shall implement a comprehensive leak detection and repair program to attain and maintain a goal of less than 10 percent unaccounted for water loss in its system(s). The program must include auditing procedures, in-field leak detection and repair efforts. The Company shall take whatever practical steps are necessary to ensure that its water system is operating at optimal efficiency.
2. On a systematic basis, at least every two years (annually for smaller systems), the Company shall visually inspect its above ground water distribution system (to include hydrants, valves, tanks, pumps, etc. in the distribution system) to identify and repair leaks. Detection shall be followed by repair or in some cases replacement. Repair vs. replacement will depend upon site-specific leakage rates and costs.
3. Leak Detection efforts should focus on the portion of the distribution system with the greatest expected problems, including:
 - a. areas with a history of excessive leak and break rates;
 - b. areas where leaks and breaks can result in the heaviest property damage;
 - c. areas where system pressure is high;
 - d. areas exposed to stray current and traffic vibration;
 - e. areas near stream crossings; and,
 - f. areas where loads on pipe may exceed design loads.
4. The Company shall keep accurate and detailed records concerning its leak detection and repair/rehabilitation program and the associated costs. Records of repairs shall include: possible causes of leak; estimated amount of water lost; and date of repair. These records shall be made available to the Commission upon request.

Leak Detection Program Tariff – BMP 4.1

(continued)

5. The Company shall maintain a complete set of updated distribution system maps.
6. The Company shall conduct a water audit annually which includes the following steps to determine how efficient each water system is operating and where the losses might be.
- Use coordinated monthly source and service meter readings to calculate how much water enters and leaves the system during the 12-month review period.
 - Track and estimate any unmetered authorized uses.
 - Calculate the total amount of leakage using the following formula:

$$\text{Unaccounted for water (\%)} = \left[\frac{\text{(Production and/or purchased water minus metered use \& estimated authorized un-metered use)}}{\text{(Production and/or purchased water)}} \right] \times 100\%$$
 - Authorized un-metered uses may include firefighting, main flushing, process water for water treatment plants, etc. Water losses include all water that is not identified as authorized metered water use or authorized un-metered use.
 - Determine possible reasons for leakage, including physical leaks and unauthorized uses.
 - Analyze results to determine the improvements needed, such as, better accounting practices, leak survey or replacing old distribution pipes.
7. The Company shall keep accurate and detailed records concerning its annual water audit results. These records shall be made available to the Commission upon request.

Meter Repair and/or Replacement Tariff – BMP 4.2

PURPOSE

A program for the Company to systematically assess all in-service water meters (including Company production meters) in its water service area to identify under-registering meters and to repair or replace them (Modified Non-Per Capita Conservation Program Best Management Practice Category 4: Physical System Evaluation and Improvement 4.2 Meter Repair and/or Replacement Program).

REQUIREMENTS

The requirements of this tariff are governed by Rules of the Arizona Corporation Commission and were adapted from the Arizona Department of Water Resources' Required Public Education Program and Best Management Practices in the Modified Non-Per Capita Conservation Program.

1. On a systematic basis, the Company will replace all 2-inch and smaller in-service water meters at least once every twelve years.
2. The Company will test all meters that have caused a meter reading complaint to be filed with the Arizona Corporation Commission.
3. Meters larger than 2-inch shall be tested for one of the following reasons:
 - a. A meter reading complaint is filed with the Company by a customer or Arizona Corporation Commission Staff,
 - b. A meter has been in service for five years.
4. The test will be accomplished by one of the following:
 - a. Having the meter pulled and having a Company Technician physically inspect each meter and its fittings for leaks, registers which may have become loose or are not properly attached to the meter and could be under-registering or other broken parts which need repair.
 - b. Utilizing equipment to verify that all electronic components are within manufacturer specifications and are operating properly.
5. In addition, meters shall be randomly selected for flow testing utilizing a flow through detector testing meter.
6. All replacement water meters shall register in gallons:
 - a. All new 1-inch and smaller meters that are installed will register usage in 1 gallon increments,
 - b. All new 1-1/2-inch through 4-inch meters that are installed will register in 10 gallon increments, and
 - c. All new 6-inch and larger meters that are installed will register in 100 gallon increments.
7. The Company shall keep records on the number of meters that were replaced and make this information available to the Commission upon request.

WATER SYSTEM TAMPERING TARIFF – BMP 5.2**PURPOSE**

The purpose of this tariff is to promote the conservation of groundwater by enabling the Company to bring an action for damages or to enjoin any activity against a person who tampers with the water system.

REQUIREMENTS:

The requirements of this tariff are governed by Rules of the Arizona Corporation Commission, specifically Arizona Administrative Code ("AAC") R14-2-410 and the Arizona Department of Water Resources' Required Public Education Program and Best Management Practices in the Modified Non-Per Capita Conservation Program.

1. In support of the Company's water conservation goals, the Company may bring an action for damages or to enjoin any activity against a person who: (1) makes a connection or reconnection with property owned or used by the Company to provide utility service without the Company's authorization or consent; (2) prevents a Company meter or other device used to determine the charge for utility services from accurately performing its measuring function; (3) tampers with property owned or used by the Company; or (4) uses or receives the Company's services without the authorization or consent of the Company and knows or has reason to know of the unlawful diversion, tampering or connection. If the Company's action is successful, the Company may recover as damages three times the amount of actual damages.
2. Compliance with the provisions of this tariff will be a condition of service.
3. The Company shall make available to all its customers a complete copy of this tariff and AAC R14-2-410. The customers shall follow and abide by this tariff.
4. If a customer is connected to the Company water system and the Company discovers that the customer has taken any of the actions listed in No. 1 above, the Company may terminate service per AAC R14-2-410.
5. If a customer believes he/she has been disconnected in error, the customer may contact the Commission's Consumer Services Section at 1-800-222-7000 to initiate an investigation.

WATER SERVICE TERMINATION AGREEMENT
WITH LAKE HAVASU CITY

EPCOR Water Arizona, Inc. ("Company") has been granted a variance from Arizona Corporation Commission Rule A.A.C. R14-2-410.A.2 for the limited purpose of entering into a Water Services Termination Agreement ("Agreement") with Lake Havasu City ("City"), a municipal provider of wastewater service, for common customers purchasing water from the Company and wastewater from the City. The purpose of this Tariff, and the authorized variance from A.A.C. R14-2-410.A.2, is to assist the City in collecting delinquent payments for wastewater utility service provided to common customers of the Company.

As per the Agreement, the Company is authorized to charge Lake Havasu City the following fees:

Fee Schedule:

Disconnect Fee \$80.00
(Turn-off and Turn-on service included)

Disconnect Cancellation Fee \$20.00
(When City cancels a termination request after noon (12 pm) on the date service is scheduled to be shut off)

Monthly Lost Revenue Fee \$xx.xx
(Based on Lake Havasu City District rates effective mm dd yyyy using average revenue from 5/8" to 1" metered residential Customers, including an applied combined state and federal tax rate of 39%)

Terms and Conditions

The Company shall comply with the terms and conditions of the Agreement.
The Agreement with the City is attached to and incorporated into this tariff.

**CUSTOMER WATER CONSUMPTION INFORMATION SHARING
WITH LAKE HAVASU CITY, WASTEWATER PROVIDER**

EPCOR Water Arizona, Inc. ("EWAZ" or "Company") is authorized to share water consumption information of individual customers with Lake Havasu City ("the City"), a municipal provider of wastewater service for common customers purchasing water from EWAZ and wastewater from the City. The purpose of this Tariff, and the authorized provision of customer water consumption information, is to assist the City in billing for wastewater utility services. City agrees that it is only authorized to use such water consumption information for purposes of wastewater services billing and is not authorized to disclose such information to any other party except as may be required by law.

EWAZ entered into an Agreement with the City for providing individual water consumption data, in a form materially similar to the standard form agreement. The Agreement was subject to Arizona Corporation Commission ("Commission") review as set forth in Section 6 of the agreement.

EWAZ shall notify all water utility customers affected by the agreement between the Company and the City pursuant to this Tariff, by means of a billing insert during the first billing cycle immediately after said tariff is approved.

CROSS-CONNECTION OR BACKFLOW TARIFF

PURPOSE:

The purpose of this tariff is to protect EPCOR Water Arizona, Inc.'s Havasu Water District's ("Company") water from the possibility of contamination caused by the backflow of contaminants that may be present on the customer's premises by requiring the installation and periodic testing of backflow prevention assemblies pursuant to the provisions of the Arizona Administrative Code ("A.A.C.") R14-2-405.B.6 and A.A.C. R18-4-215.

REQUIREMENTS:

In compliance with the Rules of the Arizona Corporation Commission ("Commission") and the Arizona Department of Environmental Quality ("ADEQ"), specifically A.A.C. R14-2-405.B.6 and A.A.C. R18-4-215 relating to backflow prevention:

1. The Company may require a customer to pay for and to have installed a backflow-prevention assembly if A.A.C. R18-4-215.B or C applies.
2. A backflow-prevention assembly required to be installed by the customer under Paragraph 1 of this tariff shall comply with the requirements set forth in A.A.C. R18-4-215.D and E.
3. Subject to the provisions of A.A.C. R14-2-407 and 410, and in accordance with Paragraphs 1 and 7 of this tariff, the Company may terminate service or may deny service to a customer who fails to install a backflow-prevention assembly as required by this tariff.
4. The Company shall give any existing customer who is required to install a backflow-prevention assembly written notice of said requirement. If A.A.C. R14-2-410.B.1.a. is **not** applicable, the customer shall be given thirty (30) days from the time such written notice is received in which to comply with this notice. If the customer can show good cause as to why he cannot install the backflow-prevention assembly within thirty (30) days, the Company or Commission Staff may suspend this requirement for a reasonable period of time.

Decision No. Administratively Approved

CROSS-CONNECTION OR BACKFLOW TARIFF
(continued)

5. Testing shall be in conformance with the requirements of A.A.C. R18-4-215.F. The Company may require the customer to pay to have the backflow-prevention assembly tested as long as the Company does not require an unreasonable number of tests.
6. The customer shall provide the Company with records of installation and testing. For each backflow-prevention assembly, these records shall include:
 - a. assembly identification number and description;
 - b. location
 - c. date(s) of test(s);
 - d. description of repairs and recommendations for repairs made by tester; and
 - e. the tester's name and certificate number.
7. In the event the backflow-prevention assembly does not function properly or fails any test, and an obvious hazard as contemplated under A.A.C. R14-2-410.B.1.a. exists, the Company may terminate service immediately and without notice. The backflow-prevention assembly shall be repaired or replaced by the customer and retested.
8. In the event the backflow-prevention assembly does not function properly or fails any test, or in the event that a customer fails to comply with the testing requirement, and A.A.C. R14-2-410.B.1.a. is **not** applicable, the backflow prevention assembly shall be repaired or replaced within fourteen (14) days of the initial discovery of the deficiency in the assembly or its function. Failure to remedy the deficiency or dysfunction of the assembly, or failure to retest, shall be grounds for termination of water service in accordance with A.A.C R14-2-410.

ADJUSTOR MECHANISMS

PURCHASED WATER ADJUSTOR MECHANISM ("PWAM")

The PWAM allows the Company to pass through purchased water costs incurred by the Company to its customers. Details can be found in the Company's Purchased Water Adjustor Mechanism Plan of Administration.

Applicability

Applicable to all customers served by this service area.

PWAM Surcharge Rate for all Customers:

All usage per 1,000 gallons per month \$X.XXXX *

* Rate consists of \$X.XXXX per 1,000 gallons of usage to recover the over/under collection of prior years' surcharge and \$X.XXXX per 1,000 gallons of usage for the collection of current annual purchased water charges.

Terms and Conditions

The Company will annually file with the Commission by March 1 the proposed annual PWAM surcharge for the current calendar year. The filing shall contain a summary of all purchased water costs, total collections from the surcharge, and the updated surcharge amounts. All documentation to support the proposed surcharge will be included.

As part of each annual filing, the Company will perform a reconciliation for the prior reporting period comparing the amounts recovered from / refunded to customers to the amount of increase / decrease in water expenses due to changes in rates for that same period resulting in either an under / (over) recovery. This true-up will be included in the annual calculation.

The annual PWAM surcharge will be calculated based on the historic consumption of the applicable customers from the previous twelve months.

The revised PWAM surcharge will be effective on June 1 of each year.

The PWAM surcharge will appear on each applicable customer's bill as a separate line item.

All rates in this Schedule shall be subject to their proportionate part of any taxes or other governmental imposts that are assessed directly or indirectly on the basis of revenues derived from this Schedule.

ADJUSTOR MECHANISMS
(continued)

POWER COST ADJUSTOR MECHANISM ("PCAM")

The PCAM allows the Company to pass through purchase power costs for any gas or electric service provider supplying retail service to the Company to its customers. Details can be found in the Company's Power Cost Adjustor Mechanism Plan of Administration.

Applicability

Applicable to all customers served by this service area.

PCAM Surcharge Rate for all Customers:

All usage per 1,000 gallons per month \$X.XXXX *

* Rate consists of \$X.XXXX per 1,000 gallons of usage to recover the over/under collection of prior years' surcharge and \$X.XXXX per 1,000 gallons of usage for the collection of current power charges.

Terms and Conditions

The Company will annually file with the Commission by March 1 the proposed annual PCAM surcharge for the current calendar year. The filing shall contain a summary of all gas and electrical costs, total collections from the surcharge, and the updated surcharge amount. All documentation to support the proposed surcharge will be included.

As part of each annual filing, the Company will perform a reconciliation for the prior reporting period comparing the amounts recovered from/refunded to customers to the amount of increase/decrease in power expenses due to changes in rates for that same period resulting in either an under / (over) recovery. This true-up will be included in the annual calculation.

The annual PCAM surcharge will be calculated based on the historic consumption of the applicable customers from the previous twelve months.

The revised PCAM surcharge will be effective on June 1 of each year.

The PCAM surcharge will appear on each applicable customer bill as a separate line item.

All rates in this Schedule shall be subject to their proportionate part of any taxes or other governmental imposts that are assessed directly or indirectly on the basis of revenues derived from this Schedule.

SYSTEM IMPROVEMENT BENEFIT MECHANISM ("SIB")

The SIB provides for recovery of the capital costs (return on investment, income taxes and depreciation expense) associated with distribution system improvement projects listed in SIB Plant Table I that have been verified to be complete, net of associated retirements and placed in service per SIB Table II. Details can be found in the Company's System Improvement Benefit Mechanism Plan of Administration.

Availability

Applicable to all customers served by this service area.

Schedule of Charges:

Meter Size	SIB Surcharge	SIB Efficiency Credit	NET SIB Surcharge
5/8" x 3/4" meter	\$ x.xx	\$ (x.xx)	\$ x.xx
3/4" meter	\$ x.xx	\$ (x.xx)	\$ x.xx
1" meter	\$ x.xx	\$ (x.xx)	\$ x.xx
1½" meter	\$ x.xx	\$ (x.xx)	\$ x.xx
2" meter	\$ x.xx	\$ (x.xx)	\$ x.xx
3" meter	\$ x.xx	\$ (x.xx)	\$ x.xx
4" meter	\$ x.xx	\$ (x.xx)	\$ x.xx
6" meter	\$ x.xx	\$ (x.xx)	\$ x.xx
8" meter	\$ x.xx	\$ (x.xx)	\$ x.xx
10" meter	\$ x.xx	\$ (x.xx)	\$ x.xx

Terms and Conditions

Once a SIB is approved in a decision, the Company must file with Docket Control semi-annual status reports.

The annual SIB surcharge will be calculated based on the historic system improvements of the eligible projects from the previous twelve months.

Once a SIB surcharge is implemented the Company must file annually to true-up its SIB Surcharge collections over the preceding twelve months with the SIB Authorized Revenues for that period and establish a surcharge or credit to true up over or under collections. Filings dates for these annual true-ups shall be as established in the Decision.

The SIB surcharge, SIB efficiency credit and net SIB surcharge will all appear as separate line items on each applicable customer bill.

All rates in this Schedule shall be subject to their proportionate part of any taxes or other governmental imposts that are assessed directly or indirectly on the basis of revenues derived from this Schedule.

ADJUSTOR MECHANISMS
(continued)

PROPERTY TAX ADJUSTOR MECHANISM ("PTAM")

The PTAM allows the Company to pass through to its customers the increases or decreases in property tax expenses that result from changes to the assessment ratio or property tax rate. Pass through costs will be divided equally between residential and non-residential customer classes to collect the total increase over a 12-month period. Details can be found in the Company's Property Tax Adjustor Mechanism Plan of Administration.

Applicability

Applicable to all customers served by this service area.

PTAM Surcharge Rate for all Customers:

All usage per 1,000 gallons per month \$X.XXXX *

* Rate consists of \$X.XXXX per 1,000 gallons of usage to recover the over/under collection of prior years' surcharge and \$X.XXXX per 1,000 gallons of usage for the collection of current power charges.

Terms and Conditions

The Company will annually file with the Commission by March 1 the proposed annual PTAM surcharge for the current calendar year. The filing shall detail how the Company's property tax expenses were calculated by parcel by year. These calculations will include full cash value, assessment ratio, and tax rates by parcel. All documentation to support the proposed surcharge will be included.

As part of each annual filing, the Company will perform a reconciliation for the prior reporting period comparing the amounts recovered from/refunded to customers to the amount of increase/decrease in property tax expenses due to changes in rates for that same period resulting in either an under / (over) recovery. This true-up will be included in the annual calculation.

The revised PTAM surcharge will be effective on June 1 of each year.

The PTAM surcharge will appear on each applicable customer bill as a separate line item.

BILLING ADJUSTMENT TARIFF

1. PURPOSE

1.1. To outline EPCOR's general procedure on adjusting customer water utility bills.

2. SCOPE

2.1. This procedure pertains to billing adjustments for accounts with lost meters, stopped meters, and other situations where usage has been identified or service received but not billed (or under billed). Parameters within this procedure do not necessarily apply to situations where customer tampering, theft, or other actions that prevent access to the water meter are involved.

3. PROCEDURE

3.1. **Timeframe** – In cases where accounts have been identified as having water usage but have not been billed (or have been under billed), EPCOR will adjust the bill for the period identified not to exceed two years from the point of customer notification or adjustment generation. Customers will be provided the ability to spread their payments for the adjustment amount over the same time period for which the usage occurred. EPCOR will have the option of spreading the payment term beyond the original usage period, depending on the circumstances.

3.2. **Estimated Usage for Stopped Meters** – Usage for stopped meters will generally be calculated based on historical usage for similar time frames. If the customer has had changes in their usage pattern based on conservation efforts, economic factors, leak repairs, or changes to the number of occupants, these *may* be considered in adjusting the usage estimate from historical data. There may be cases where the usage is monitored or a period of time after the meter has been replaced to determine the appropriate billing adjustment amount.

3.3. **Meter Accuracy Corrections** – If any meter after testing is found to be more than 3% inaccurate, either fast or slow, proper correction between 3% and the amount of the error shall be made of previous readings and adjusted bills shall be rendered according to the following terms in accordance with the following terms:

3.3.1. For the period of 3 months immediately preceding the removal of such meter from service for test or from the time the meter was in service since last tested, but not exceeding 3 months since the meter shall have been shown to be in error by such test, or

3.3.2. From the date the error occurred, if the date of the cause can be definitely fixed.

3.3.3. No adjustment shall be made by the utility except to the customer last served by the meter tested.

BILLING ADJUSTMENT TARIFF (continued)

- 3.4. **Managing Large and/or Extended Adjustments** – Bill adjustment amounts over \$2,500 that extend beyond two billing cycles will be reviewed by EPCOR and communication with the customer will be attempted prior to posting the bill to the customer account. Three unsuccessful attempts to contact the customer via the contact means provided on the customer account shall release the bill to the customer's account for posting
- 3.5. **Customer Appeals** – Customers may appeal adjustment decisions in writing or by contacting a customer care representative, the appeal will be escalated to the appropriate party and a determination will be made within 90 days.
- 3.6. **Exceptions** – It is recognized that there may be specific situations or unique circumstances where there is a management decision not to adjust a customer or group of customers.

GENERAL WATER RATE
(continued)

Terms and Conditions

Water service provided under this rate schedule is subject to this District's Rules and Regulations applicable to —Water Service and may be subject to this District's Service Charges set forth in Rate Schedule Service Charges and adjustors mechanisms included in the Company's tariffs on file with the Arizona Corporation Commission.

Water service under this Schedule is for the exclusive use of the Customer and water shall not be resold or provided to others.

In addition to the collection of regular rates, the utility will collect from its customers a proportionate share of any privilege, sales, use, and franchise tax. Per Commission Rule 14-2-409D(5).

A 1½% late payment penalty will be applied to account balances not paid within ~~fifteen~~twenty-five (1525) days after the postmark date of the bill in accordance with Arizona Administrative Code R14-2-310.C Rule 8 (H) of EPCOR Water Arizona, Inc.'s Havasu Water District Rules and Regulations.

Low Income Program – Monthly Low Income Credit of \$10.00 is available in the Havasu Water ~~bringing the basic charge down from \$29.00 to \$19.0~~. Requires the completion of a Low Income Program Application. Program is restricted to the first 100 eligible residential customers on 5/8 x 3/4 inch meters in the Havasu Water district. Applicants must swear that he/she has annual income below the threshold. The threshold is below 150% of the federal low income guidelines as periodically revised. Applicant may not be claimed as a dependent on another person's tax return. Applicant must reapply each time moving residences. Refusal or failure to provide acceptable documentation of eligibility, upon request, shall result in removal from the low income program. Rebilling of customers under the otherwise applicable rate schedule may occur for periods of ineligibility previously billed under the low income tariff. Annual income means the value of all money and non-cash benefits available for living expenses, from all sources, both taxable and non-taxable, before deductions, for all people who live with the applicant.

<u>6"</u>	<u>50</u>	<u>\$43,500</u>
<u>8" or larger</u>	<u>80</u>	<u>\$69,600</u>

IV. Terms and Conditions

~~(A) Assessment of One Time AIHUF Charge: The AIHUF may be assessed only once per service connection, or lot within a platted subdivision (similar to service line and meter installation charges). However, this provision does not exempt from the AIHUF, any newly created parcel(s) which are the result of further subdivision of a lot or land parcel and which do not have a service connection.~~

~~(B) Use of AIHUF: AIHUF may only be used to pay for capital items of arsenic treatment facilities (including engineering and design costs for such facilities), or for repayment of loans obtained for installation of arsenic treatment facilities. AIHUF shall not be used for expenses, maintenance, or operational purposes.~~

ARSENIC IMPACT HOOK-UP FEE

-(continued)

~~(C) Time of Payment:~~

- ~~(1) In the event that the Applicant is required to enter into a main extension agreement, whereby the Applicant agrees to advance the costs of installing mains, valves, fittings, hydrants and other on-site improvements in order to extend service in accordance with R-14-2-406(B), payment of the charges required hereunder shall be made by the Applicant within 15 calendar days after receipt of notification from the Company that the Utilities Division of the Commission has approved the main extension agreement in accordance with R-14-2-406(M).~~
- ~~(2) In the event the Applicant is not required to enter into a main extension agreement, the charges hereunder shall be due and payable at the time the service line and meter installation charge is due and payable.~~

~~(D) Failure to Pay Charges, Delinquent Payments: Under no circumstances will the Company set a meter or otherwise allow service to be established if the Applicant has not paid in full all charges as provided by this AIHUF tariff.~~

~~(E) AIHUF Non-refundable: The amounts collected by the Company pursuant to the AIHUF shall be non-refundable advances in aid of construction.~~

~~(F) Use of Charges Received: All funds collected by the company pursuant to the hookup fee shall be treated as an offset to the costs of arsenic treatment facilities (including engineering and design costs for such facilities) in the ACRM step one and step two increases and in rate base in any future ratemaking proceeding. The company shall maintain on its books an accounting of the arsenic treatment facilities hookup fees collected pursuant to this tariff and an accounting of the arsenic treatment facilities constructed subsequent to adoption of this tariff.~~

~~(G) AIHUF in Addition to Other Charges: The AIHUF shall be in addition to any costs associated with a main extension agreement for on-site facilities, and are in addition to the amounts to be advanced pursuant to charges authorized under other sections of this tariff.~~

~~(H) Disposition of Excess Funds: After all necessary funds are collected to pay for all Arizona Department of Environmental Quality required arsenic treatment facilities or the AIHUF has been terminated by order of the Commission, any funds not necessary to pay for arsenic treatment facilities remaining in the trust shall be refunded. The manner of the refund shall be determined by the Commission at the time a refund becomes necessary.~~

COMMON FACILITIES HOOK-UP FEE

I. Purpose and Applicability

The purpose of the Common Facilities hook-up fee payable to EPCOR Water Arizona Inc. ("the Company") pursuant to this tariff is to equitably apportion the costs of constructing additional common water facility infrastructure to provide water production, delivery, treatment, storage and pressure among all new service connections. These charges are applicable to all new service connections established after the effective date of this tariff. The charges are one-time charges and are payable as a condition to the Company's establishment of service, as more particularly provided below.

II. Definitions

Unless the context otherwise requires, the definitions set forth in R-14-2-401 of the Arizona Corporation Commission's ("Commission") rules and regulations governing water utilities shall apply interpreting this tariff schedule.

"Applicant" means any party entering into an agreement with the Company for the installation of water facilities to serve new service connections, and may include developers and/or builders of new residential subdivisions.

"Main Extension Agreement" means any agreement whereby an Applicant, Developer and/or Builder agrees to advance the costs of the installation of water facilities, which may include Common Facilities, to the Company to serve new service connections, or install water facilities to serve new service connections and transfer ownership of such water facilities to the Company, in either case which agreement shall require the approval of the Commission pursuant to A.A.C. R-14-2-406, and shall have the same meaning as "Water Facilities Agreement" or "Line Extension Agreement."

"Common Facilities" means all wells, storage tanks, production, treatment, booster pumps, pressure tanks, transmission mains and related appurtenances, including engineering and design costs, constructed for the benefit of the water system and not for the exclusive use of the Applicant's development.

COMMON FACILITIES HOOK-UP FEE
(continued)

III. Common Facilities Water Hook-up Fee

For each new service connection, the Company shall collect a Common Facilities hook-up fee derived from the following table:

<u>COMMON FACILITIES HOOK-UP FEE TABLE</u>		
<u>Meter Size</u>	<u>Size Factor</u>	<u>Fee</u>
<u>5/8" x 3/4"</u>	<u>1</u>	<u>\$1,680.00</u>
<u>3/4"</u>	<u>1.5</u>	<u>\$2,520.00</u>
<u>1"</u>	<u>2.5</u>	<u>\$4,200.00</u>
<u>1-1/2"</u>	<u>5</u>	<u>\$8,400.00</u>
<u>2"</u>	<u>8</u>	<u>\$13,440.00</u>
<u>3"</u>	<u>16</u>	<u>\$26,880.00</u>
<u>4"</u>	<u>25</u>	<u>\$42,000.00</u>
<u>6" or larger</u>	<u>50</u>	<u>\$84,000.00</u>

IV. Terms and Conditions

(A) Assessment of One Time Common Facilities Hook-up Fee: The Common Facilities hook-up fee may be assessed only once per parcel, service connection, or lot within a subdivision (similar to meter and service line installation charge).

(B) Use of Common Facilities Hook-up Fee: Common Facilities hook-up fees may only be used to pay for capital items of Common Facilities, or for repayment of loans obtained for installation of Common Facilities. Common Facilities hook-up fees shall not be used for repairs, maintenance, or operational purposes.

(C) Time of Payment:

1) In the event that the Applicant that will be constructing improvements is required to enter into a Main Extension Agreement, payment of the Common Facilities hook-up fees required hereunder shall be made by the Applicant no later than within 15 calendar days after receipt of notification from the Company that the Utilities Division of the Arizona Corporation Commission has approved the Main Extension Agreement in accordance with R-14-2-406(M).

COMMON FACILITIES HOOK-UP FEE
(continued)

2) In the event that the Applicant for service is not required to enter into a Main Extension Agreement, the charges hereunder shall be due and payable at the time the meter and service line installation fee is due and payable.

(D) Common Facilities Construction by Developer: The Company and Applicant may agree to construction of Common Facilities necessary to serve a particular development by Applicant which facilities are then conveyed to the Company. In that event, Company shall credit the total cost of such Common Facilities as an offset to the Common Facilities hook-up fees due under this Tariff. If the total cost of the Common Facilities constructed by Applicant and conveyed to Company is less than the applicable Common Facilities hook-up fee due under this Tariff, Applicant shall pay the remaining amount of the Common Facilities hook-up fees owed hereunder. If the total cost of the Common Facilities contributed by Applicant, Developer or Builder and conveyed to Company is more than the applicable Common Facilities hook-up fees under this Tariff, Applicant shall be refunded the difference upon acceptance of the Common Facilities by the Company. The refund may be paid in installments over a period of time pursuant to an agreement between the Company and the developer on a case by case basis. The Company and Applicant may agree to construction of additional facilities that are not Common Facilities, the cost of which shall not be subject to off-set under this paragraph IV.D, but which will be subject to refund under R14-2-406(D).

(E) Failure to Pay Charges; Delinquent Payments: The Company will not be obligated to provide water service to any Applicant or other applicant for service in the event that such Applicant or other applicant for service has not paid in full all charges hereunder. Under no circumstances will the Company set a meter or otherwise allow service to be established if the entire amount of any payment has not been paid.

(F) Large Subdivision Projects: In the event that the Applicant is engaged in the development of a residential subdivision containing more than 150 lots, and is a party to a Main Extension Agreement with the Company for such development, the Company may, in its discretion, agree to payment of the Common Facilities hook-up fees in installments. Such installments may be based on the residential subdivision development's phasing, and should attempt to equitably apportion the payment of charges hereunder based on the Applicant's construction schedule and water service requirements.

(G) Common Facilities Hook-Up Fees Non-refundable: The amounts collected by the Company pursuant to the Common Facilities hook-up fee tariff shall be non-refundable contributions in aid of construction

COMMON FACILITIES HOOK-UP FEE

(continued)

(H) Use of Common Facilities Hook-Up Fees Received: All funds collected by the Company as Common Facilities hook-up fees shall be deposited into a separate interest bearing trust account and used solely for the purposes of paying for the costs of the Common Facilities, including repayment of loans obtained for the installation of Common Facilities that will benefit the entire water system.

(I) Common Facilities Hook-up Fee in Addition to On-site Facilities: The Common Facilities hook-up fee shall be in addition to any costs associated with the construction of on-site facilities or other additional facilities under Paragraph IV.D, above, under a Main Extension Agreement.

(J) Disposition of Excess Funds: After all necessary and desirable Common Facilities are constructed utilizing funds collected pursuant to the Common Facilities hook-up fees, or if the Common Facilities hookup fee has been terminated by order of the Arizona Corporation Commission, any funds remaining in the trust shall be refunded. The manner of the refund shall be determined by the Commission at the time a refund becomes necessary.

(K) Fire Flow Requirements: In the event the Applicant has fire flow requirements that require additional facilities beyond those facilities whose costs were included in the Common Facilities hook-up fee, and which are contemplated to be constructed using the proceeds of the Common Facilities hook-up fee, the Company may require the Applicant to install such additional facilities as are required to meet those additional fire flow requirements, as a non-refundable contribution, in addition to paying the Common Facilities hook-up fee.

(L) Status Reporting Requirements to the Commission: The Company shall submit a calendar year Common Facilities hook-up fee status report each January 31 to Docket Control for the prior twelve (12) month period, beginning January 31, 2018, until the Common Facilities hook-up fee tariff is no longer in effect. This status report shall contain a list of all customers that have paid the Common Facilities hook-up fee tariff, the amount each has paid, the amount of money spent from the account, the amount of interest earned on the tariff account, and a list of all facilities that have been installed with the tariff funds during the 12-month period.

COMMON FACILITIES HOOK-UP FEE

(continued)

LARGE WATER-USERS

Any development with a projected average daily water demand greater than 1,700 [SLM1] gallons per day per acre is considered to be a Large User. Large Users will be required to provide an additional renewable water supply source to Utility to meet the demands of the development that are greater than 1,700 gallons per day per acre. Examples of a renewable water supply source include surface water or a groundwater well with long-term storage credits. The renewable water supply source must be approved by Utility, and must have the appropriately allocated water rights that will be conveyed to Utility. The cost to provide a renewable water supply source to Utility will not be credited as an offset to the Common Facilities Hook-Up Fee because such costs will be due to the exclusive need for additional water by the Large User; however, the cost of that portion of a renewable water supply source that is in excess of the Large User's needs will be credited as an offset to the Common Facilities Hook-Up Fee.

Large Users may be required to enter into an agreement with Utility that will define terms and conditions, and will include fees that will be charged to Large Users for over usage. Fees will incur if Large Users use water in excess of the supply source provided, which will be reviewed by Utility on an annual basis. Continued excessive use could result in Utility requiring the Large User to develop and implement a water use reduction plan or, as a last resort, court action.

CURTAILMENT PLAN FOR HAVASU WATER DISTRICT

(Template 063004)

ADEQ Public Water System No: 04-08-01507-099

EPCOR Water Arizona Inc. ("Company"), is authorized to curtail water service to all customers within its certificated area under the terms and conditions listed in this tariff.

This curtailment plan shall become part of the Arizona Department of Environmental Quality Emergency Operations Plan for the Company.

The Company shall notify its customers of this new tariff as part of its next regularly scheduled billing after the effective date of the tariff or no later than sixty (60) days after the effective date of the tariff.

The Company shall provide a copy of the curtailment tariff to any customer, upon request.

Stage 1 Exists When:

Company is able to maintain water storage in the system at 100 percent of capacity and there are no known problems with its well production or water storage in the system.

Restrictions: Under Stage 1, Company is deemed to be operating normally and no curtailment is necessary.

Notice Requirements: Under Stage 1, no notice is necessary.

Stage 2 Exists When:

- a. Company's water storage or well production has been less than 80 percent of capacity for at least 48 consecutive hours, and
- b. Company has identified issues such as a steadily declining water table, increased draw down threatening pump operations, or poor water production, creating a reasonable belief the Company will be unable to meet anticipated water demand on a sustained basis.

Restrictions: Under Stage 2, the Company may request the customers to voluntarily employ water conservation measures to reduce water consumption by approximately 50 percent. Outside watering should be limited to essential water, dividing outside watering on some uniform basis (such as even and odd days) and eliminating outside watering on weekends and holidays.

CURTAILMENT TARIFF
(continued)

Notice Requirements: Under Stage 2, the Company is required to notify customers by delivering written notice door to door at each service address, or by United States first class mail to the billing address or, at the Company's option, both. Such notice shall notify the customers of the general nature of the problem and the need to conserve water.

Stage 3 Exists When:

- a. Company's total water storage or well production has been less than 50 percent of capacity for at least 24 consecutive hours, and
- b. Company has identified issues such as a steadily declining water table, increased draw down threatening pump operations, or poor water production, creating a reasonable belief the Company will be unable to meet anticipated water demand on a sustained basis.

Restrictions: Under Stage 3, Company shall request the customers to voluntarily employ water conservation measures to reduce daily consumption by approximately 50 percent. All outside watering should be eliminated, except livestock, and indoor water conservation techniques should be employed whenever possible. Standpipe service shall be suspended.

Notice Requirements:

1. Company is required to notify customers by delivering written notice to each service address, or by United States first class mail to the billing address or, at the Company's option, both. Such Notice shall notify the customers of the general nature of the problem and the need to conserve water.
2. Beginning with Stage 3, Company shall post at least two (2) signs showing the curtailment stage. Signs shall be posted at the well and/or pump sites located within the Havasu Water District.
3. Company shall notify the Consumer Services Section of the Utilities Division of the Corporation Commission at least 12 hours prior to entering Stage 3.

Once Stage 3 has been reached, the Company must begin to augment the supply of water by either hauling or through an emergency interconnect with an approved water supply in an attempt to maintain the curtailment at a level no higher than Stage 3 until a permanent solution has been implemented.

CURTAILMENT TARIFF
(continued)

Stage 4 Exists When:

- a. Company's total water storage or well production has been less than 25 percent of capacity for at least 12 consecutive hours, and
- b. Company has identified issues such as a steadily declining water table, increased draw down threatening pump operations, or poor water production, creating a reasonable belief the Company will be unable to meet anticipated water demand on a sustained basis.

Restrictions: Under Stage 4, Company shall inform the customers of a mandatory restriction to employ water conservation measures to reduce daily consumption. Failure to comply will result in customer disconnection. The following uses of water shall be prohibited:

- ◆ Irrigation of outdoor lawns, trees, shrubs, or any plant life is prohibited
- ◆ Washing of any vehicle is prohibited
- ◆ The use of water for dust control or any outdoor cleaning uses is prohibited
- ◆ The use of drip or misting systems of any kind is prohibited
- ◆ The filling of any swimming pool, spas, fountains or ornamental pools is prohibited
- ◆ The use of construction water is prohibited
- ◆ Restaurant patrons shall be served water only upon request
- ◆ Any other water intensive activity is prohibited

The Company's operation of its standpipe service is prohibited. The addition of new service lines and meter installations is prohibited.

Notice Requirements:

1. Company is required to notify customers by delivering written notice to each service address, or by United States first class mail to the billing address or, at the Company's option, both. Such notice shall notify the customers of the general nature of the problem and the need to conserve water.
2. Beginning with Stage 4, Company shall post at least two (2) signs showing the curtailment stage. Signs shall be posted at the well and/or pump sites located within the Havasu Water District
3. Company shall notify the Consumer Services Section of the Utilities Division of the Corporation Commission at least 12 hours prior to entering Stage 4.

CURTAILMENT TARIFF
(continued)

Customers who fail to comply with the above restrictions will be given a written notice to end all outdoor use. Failure to comply within two (2) working days of receipt of the notice will result in temporary loss of service until an agreement can be made to end unauthorized use of outdoor water. To restore service, the customer shall be required to pay all authorized reconnection fees. If a customer believes he/she has been disconnected in error, the customer may contact the Commission's Consumer Services Section at 1-800-222-7000 to initiate an investigation.

Once Stage 4 has been reached, the Company must augment the supply of water by hauling or through an emergency interconnect from an approved supply or must otherwise provide emergency drinking water for its customers until a permanent solution has been implemented.

Local and/or Regional Messaging Program Tariff – BMP 1.1

PURPOSE

A program for the Company to actively participate in a water conservation campaign with local or regional advertizing (Modified Non-Per Capita Conservation Program BMP Category 1: Public Awareness/Public Relations 1.1: Local and/or Regional Messaging Program).

REQUIREMENTS

The requirements of this tariff are governed by Rules of the Arizona Corporation Commission and were adapted from the Arizona Department of Water Resources' Required Public Education Program and Best Management Practices in the Modified Non-Per Capita Conservation Program.

1. The Company or designated representative shall actively participate in water conservation campaign with local and/or regional advertising.
2. The campaign shall promote ways for customers to save water.
3. The Company shall facilitate the campaign through one or more of the following avenues (not an all inclusive list):
 - a. Television commercials
 - b. Radio commercials
 - c. Websites
 - d. Promotional materials
 - e. Vehicle signs
 - f. Bookmarks
 - g. Magnets
4. The Company shall keep a record of the following information and make it available to the Commission upon request:
 - a. A description of the messaging program implemented and program dates.
 - b. The number of customers reached (or an estimate).
 - c. Costs of Program implementation.

Youth Conservation Education Program Tariff – BMP 2.2**PURPOSE**

A program for the Company to promote water conservation by increasing students' understanding of water resources and the need to conserve (Modified Non-Per Capita Conservation Program BMP Category 2: Conservation Education and Training 2.2: Youth Conservation Education Program).

REQUIREMENTS

The requirements of this tariff are governed by Rules of the Arizona Corporation Commission and were adapted from the Arizona Department of Water Resources' Required Public Education Program and Best Management Practices in the Modified Non-Per Capita Conservation Program.

1. The Company or designated representative shall work with schools in its service area to increase students' understanding of water resources and to promote water conservation.
2. The Company shall provide a combination of instructional assistance, education materials, teacher education, classroom presentations, and field trips to water related facilities.
3. The Company shall provide the following teacher resources.
 - a. Offer Project WET (Water Education for Teachers) workshops to teachers twice yearly. In lieu of Project WET the Company may market its Water Conservation Assembly Program to all schools within its service area. The Water Conservation Assembly Program will focus on teaching students about water resources and water conservation. The assembly itself will be an interactive water conservation discussion.
 - b. Provide free resource materials and information upon request.
 - c. Provide in-classroom presentations upon request.
4. The Company shall make available free take home educational materials for elementary school students.
5. The Company shall keep a record of the following information and make it available upon request.
 - a. A description of the youth conservation education process implemented.
 - b. The number of students reached (or an estimate).
 - c. A description of the written water conservation material provided free to students.
 - d. Costs of the Youth Conservation Education Program implementation.

New Homeowner Landscape Information Tariff – BMP 2.3

PURPOSE

A program for the Company to promote the conservation of water by providing a landscape information package for the purpose of educating its new customers about low water use landscaping (Modified Non-Per Capita Conservation Program BMP Category 2: Conservation Education and Training 2.3: New Homeowner Landscape Information).

REQUIREMENTS:

The requirements of this tariff are governed by Rules of the Arizona Corporation Commission and were adapted from the Arizona Department of Water Resources' Required Public Education Program and Best Management Practices in the Modified Non-Per Capita Conservation Program.

1. Upon establishment of water service the Company shall offer and make available upon request a free "Homeowner Landscape Packet" to each new customer in the Company's service area. The packet will include at a minimum: a cover letter describing the water conservation expectations for all customers in the Company's service area, applicable rate tariffs, a basic interior/exterior water saving pamphlet, xeriscape landscape information, a list of low water use trees, plants, shrubs, etc., watering guidelines, and a rain water harvesting pamphlet.
2. Upon customer request, the Company shall provide:
 - a. On-site consultations on low water use landscaping and efficient watering practices.
 - b. A summary of water saving options.
3. The Company shall keep a record of the number of packets provided to new customers and make it available to the Commission upon request.

Residential Audit Program Tariff – BMP 3.1**PURPOSE**

A program for the Company to promote water conservation by providing customers with information on performing water audits to determine conservation opportunities at their residence (Modified Non-Per Capita Conservation Program BMP Category 3: Outreach Services 3.1: Residential Audit Program).

REQUIREMENTS

The requirements of this tariff are governed by Rules of the Arizona Corporation Commission and were adapted from the Arizona Department of Water Resources' Required Public Education Program and Best Management Practices in the Modified Non-Per Capita Conservation Program.

1. The Company shall offer self-audit information.
2. The Company or designated representative shall provide all customers that request them with a self-audit kit.
3. The kit shall include detailed instructions and tools for completing the water audit including information on how to check their water meter. The audit kit shall include but not be limited to information on checking the following components: irrigation system, pool, water features, toilets, faucets and shower.
4. If requested, the Company shall assist the customer in a self-water audit and assist the customer in determining what might be causing high water usage as well as supply customer with information regarding water conservation and landscape watering guidelines. As part of the water audit, and if requested to do so by the customer, the Company shall confirm the accuracy of the customer meter (applicable meter testing fees shall apply).
5. The Company shall keep a record of the following information and make it available to the Commission upon request:
 - a. A description of the water conservation material provided in the kit.
 - b. The number of kits provided to customers.
 - c. Implementation costs of the Residential Audit Program.

Residential Interior Retrofit Program Tariff – BMP 3.4**PURPOSE**

A program for the Company to promote water conservation by providing residential customers free or low cost plumbing fixtures for their residence (Modified Non-Per Capita Conservation Program BMP Category 3: Outreach Services 3.4: Residential Interior Retrofit Program).

REQUIREMENTS

The requirements of this tariff are governed by Rules of the Arizona Corporation Commission and were adapted from the Arizona Department of Water Resources' Required Public Education Program and Best Management Practices in the Modified Non-Per Capita Conservation Program.

1. The Company or designated representative shall provide to residential customers that request them that live in homes built prior to the adoption of the 1990 Uniform Plumbing Code free or low cost low water use fixtures such as faucets, faucet aerators, low flow shower heads, toilets and toilet dams. The Company must offer the fixtures/fixture retrofits to all residential customers meeting the above criteria unless the Company can demonstrate that targeting certain portions of its water service area is likely to yield the highest participation and/or potential water savings.
2. The fixtures or retrofit kit shall include detailed instructions for installing the retrofit fixtures.
3. The Company shall select appropriate communications channels to advertize the program.
4. The Company shall keep a record of the following information and make it available to the Commission upon request:
 - a. A description of the Residential Interior Retrofit Program including a description of the fixtures provided to customers and estimated water savings as a result of Program implementation.
 - b. The number of retrofit fixtures requested by customers and the number of fixtures provided.
 - c. Costs of the Residential Interior Retrofit Program.

Customer High Water Use Inquiry Resolution Tariff – BMP 3.6

PURPOSE

A program for the Company to assist its customers with their high water-use inquiries and complaints (Modified Non-Per Capita Conservation Program BMP Category 3: Outreach Services 3.6: Customer High Water Use Inquiry Resolution).

REQUIREMENTS

The requirements of this tariff are governed by Rules of the Arizona Corporation Commission and were adapted from the Arizona Department of Water Resources' Required Public Education Program and Best Management Practices in the Modified Non-Per Capita Conservation Program.

1. The Company shall handle high water use inquiries as calls are received.
2. Calls shall be taken by a customer service representative who has been trained on typical causes of high water consumption as well as leak detection procedures that customers can perform themselves.
3. Upon request by the customer or when the Company determines it is warranted, a trained Field Technician shall be sent to the customer's residence to verify consumption and conduct a leak detection inspection and further assist the customer with water conservation measures.
4. The Company shall follow up on every customer inquiry or complaint and keep a record of inquiries and follow-up activities. The Company shall make this information available to the Commission upon request.

Customer High Water Use Notification Tariff – BMP 3.7

PURPOSE

A program for the Company to monitor and notify customers when water use seems to be abnormally high and provide information that could benefit those customers and promote water conservation (Modified Non-Per Capita Conservation Program BMP Category 3: Outreach Services Program 3.7: Customer High Water Use Notification).

REQUIREMENTS

The requirements of this tariff are governed by Rules of the Arizona Corporation Commission and were adapted from the Arizona Department of Water Resources' Required Public Education Program and Best Management Practices in the Modified Non-Per Capita Conservation Program.

1. The Company shall track water usage for each customer and notify the customer if water use seems excessive for that particular billing for that time of the year.
2. The Company shall identify customers with high consumption, verify the high consumption, and investigate each instance to determine the possible cause.
3. The Company shall contact the high water use customers via telephone, email, by mail or in person. The Company shall contact the customer as soon as practical in order to minimize the possible loss of water. The customer will not be required to do anything to receive this notification.
4. In the notification the Company shall explain some of the most common water usage problems and common solutions and points of contact for dealing with the issues.
5. In the notification, the customer will be reminded of possible high water-consumption occurrences, such as:
 - a. Leaks, running toilets, or valves or flappers that need to be replaced.
 - b. Irrigation system valves or sprinkler heads which may be leaking.
 - c. Sprinklers that may be watering the house, sidewalk, or street, etc. increasing irrigation requirements.
 - d. Leaking pool or spas and possible leaks around pumps.
 - e. More people in the home than usual taking baths and showers.
 - f. Doing more loads of laundry than usual.
 - g. Doing a landscape project or starting a new lawn.
 - h. Washing vehicles more often than usual.

Customer High Water Use Notification Tariff – BMP 3.7
(Continued)

- 6. The Company shall offer water conservation information that could benefit the customer, such as, but not limited to, audit programs, publications, and rebate programs.
- 7. The Company shall assist the customer in determining what might be causing the high water usage as well as offer the customer information regarding water conservation and landscape watering guidelines. The Company shall confirm the accuracy of the customer meter if requested to do so by the customer (applicable meter testing fees shall apply).
- 8. The type of notification, the timing of the notification (i.e., how long after high water use was discovered by the Company), and the criteria used for determining which customers are notified shall be recorded. The Company shall make this information available to the Commission upon request.

Leak Detection Program Tariff – BMP 4.1**PURPOSE**

A program for the Company to systematically evaluate its water distribution system to identify and repair leaks (Modified Non-Per Capita Conservation Program Best Management Practice Category 4: Physical System Evaluation and Improvement 4.1 Leak Detection Program).

REQUIREMENTS

The requirements of this tariff are governed by Rules of the Arizona Corporation Commission and were adapted from the Arizona Department of Water Resources' Required Public Education Program and Best Management Practices in the Modified Non-Per Capita Conservation Program.

On a systematic basis, the Company shall perform leak detection inspections of its distribution system to identify and fix leaks.

This program shall be implemented through a strategy of targeting certain portions of the water service area which will yield the highest potential for water savings first.

1. The Company shall implement a comprehensive leak detection and repair program to attain and maintain a goal of less than 10 percent unaccounted for water loss in its system(s). The program must include auditing procedures, in-field leak detection and repair efforts. The Company shall take whatever practical steps are necessary to ensure that its water system is operating at optimal efficiency.
2. On a systematic basis, at least every two years (annually for smaller systems), the Company shall visually inspect its above ground water distribution system (to include hydrants, valves, tanks, pumps, etc. in the distribution system) to identify and repair leaks. Detection shall be followed by repair or in some cases replacement. Repair vs. replacement will depend upon site-specific leakage rates and costs.
3. Leak Detection efforts should focus on the portion of the distribution system with the greatest expected problems, including:
 - a. areas with a history of excessive leak and break rates;
 - b. areas where leaks and breaks can result in the heaviest property damage;
 - c. areas where system pressure is high;
 - d. areas exposed to stray current and traffic vibration;
 - e. areas near stream crossings; and,
 - f. areas where loads on pipe may exceed design loads.
4. The Company shall keep accurate and detailed records concerning its leak detection and repair/rehabilitation program and the associated costs. Records of repairs shall include: possible causes of leak; estimated amount of water lost; and date of repair. These records shall be made available to the Commission upon request.

Leak Detection Program Tariff – BMP 4.1
(continued)

- 5. The Company shall maintain a complete set of updated distribution system maps.
- 6. The Company shall conduct a water audit annually which includes the following steps to determine how efficient each water system is operating and where the losses might be.
 - a. Use coordinated monthly source and service meter readings to calculate how much water enters and leaves the system during the 12-month review period.
 - b. Track and estimate any unmetered authorized uses.
 - c. Calculate the total amount of leakage using the following formula:

$$\text{Unaccounted for water (\%)} = \left[\frac{\text{Production and/or purchased water minus metered use \& estimated authorized un-metered use}}{\text{Production and/or purchased water}} \right] \times 100\%$$
 - d. Authorized un-metered uses may include firefighting, main flushing, process water for water treatment plants, etc. Water losses include all water that is not identified as authorized metered water use or authorized un-metered use.
 - e. Determine possible reasons for leakage, including physical leaks and unauthorized uses.
 - f. Analyze results to determine the improvements needed, such as, better accounting practices, leak survey or replacing old distribution pipes.
- 7. The Company shall keep accurate and detailed records concerning its annual water audit results. These records shall be made available to the Commission upon request.

Meter Repair and/or Replacement Tariff – BMP 4.2

PURPOSE

A program for the Company to systematically assess all in-service water meters (including Company production meters) in its water service area to identify under-registering meters and to repair or replace them (Modified Non-Per Capita Conservation Program Best Management Practice Category 4: Physical System Evaluation and Improvement 4.2 Meter Repair and/or Replacement Program).

REQUIREMENTS

The requirements of this tariff are governed by Rules of the Arizona Corporation Commission and were adapted from the Arizona Department of Water Resources' Required Public Education Program and Best Management Practices in the Modified Non-Per Capita Conservation Program.

1. On a systematic basis, the Company will replace all 2-inch and smaller in-service water meters at least once every ~~fifteen~~twelve years.
2. The Company will test all meters that have caused a meter reading complaint to be filed with the Arizona Corporation Commission.
3. Meters larger than 2-inch shall be tested for one of the following reasons:
 - a. A meter reading complaint is filed with the Company by a customer or Arizona Corporation Commission Staff,
 - b. A meter has been in service for five years.
4. The test will be accomplished by one of the following:
 - a. Having the meter pulled and having a Company Technician physically inspect each meter and its fittings for leaks, registers which may have become loose or are not properly attached to the meter and could be under-registering or other broken parts which need repair.
 - b. Utilizing equipment to verify that all electronic components are within manufacturer specifications and are operating properly.
5. In addition, meters shall be randomly selected for flow testing utilizing a flow through detector testing meter.
6. All replacement water meters shall register in gallons:
 - a. All new 1-inch and smaller meters that are installed will register usage in 1 gallon increments,
 - b. All new 1-1/2-inch through 4-inch meters that are installed will register in 10 gallon increments, and
 - c. All new 6-inch and larger meters that are installed will register in 100 gallon increments.
7. The Company shall keep records on the number of meters that were replaced and make this information available to the Commission upon request.

WATER SYSTEM TAMPERING TARIFF – BMP 5.2

PURPOSE

The purpose of this tariff is to promote the conservation of groundwater by enabling the Company to bring an action for damages or to enjoin any activity against a person who tampers with the water system.

REQUIREMENTS:

The requirements of this tariff are governed by Rules of the Arizona Corporation Commission, specifically Arizona Administrative Code (“AAC”) R14-2-410 and the Arizona Department of Water Resources’ Required Public Education Program and Best Management Practices in the Modified Non-Per Capita Conservation Program.

1. In support of the Company’s water conservation goals, the Company may bring an action for damages or to enjoin any activity against a person who: (1) makes a connection or reconnection with property owned or used by the Company to provide utility service without the Company’s authorization or consent; (2) prevents a Company meter or other device used to determine the charge for utility services from accurately performing its measuring function; (3) tampers with property owned or used by the Company; or (4) uses or receives the Company’s services without the authorization or consent of the Company and knows or has reason to know of the unlawful diversion, tampering or connection. If the Company’s action is successful, the Company may recover as damages three times the amount of actual damages.
2. Compliance with the provisions of this tariff will be a condition of service.
3. The Company shall make available to all its customers a complete copy of this tariff and AAC R14-2-410. The customers shall follow and abide by this tariff.
4. If a customer is connected to the Company water system and the Company discovers that the customer has taken any of the actions listed in No. 1 above, the Company may terminate service per AAC R14-2-410.
5. If a customer believes he/she has been disconnected in error, the customer may contact the Commission’s Consumer Services Section at 1-800-222-7000 to initiate an investigation.

WATER SERVICE TERMINATION AGREEMENT
WITH LAKE HAVASU CITY

EPCOR Water Arizona, Inc. ("Company") has been granted a variance from Arizona Corporation Commission Rule A.A.C. R14-2-410.A.2 for the limited purpose of entering into a Water Services Termination Agreement ("Agreement") with Lake Havasu City ("City"), a municipal provider of wastewater service, for common customers purchasing water from the Company and wastewater from the City. The purpose of this Tariff, and the authorized variance from A.A.C. R14-2-410.A.2, is to assist the City in collecting delinquent payments for wastewater utility service provided to common customers of the Company.

As per the Agreement, the Company is authorized to charge Lake Havasu City the following fees:

Fee Schedule:

Disconnect Fee \$80.00
(Turn-off and Turn-on service included)

Disconnect Cancellation Fee \$20.00
(When City cancels a termination request after noon (12 pm) on the date service is scheduled to be shut off)

Monthly Lost Revenue Fee **\$85.49xx.xx**
(Based on Lake Havasu City District rates effective ~~January 1, 2014~~mm dd yyyy using average revenue from 5/8" to 1" metered residential Customers, including an applied combined state and federal tax rate of 39%)

Terms and Conditions

The Company shall comply with the terms and conditions of the Agreement.
The Agreement with the City is attached to and incorporated into this tariff.

**CUSTOMER WATER CONSUMPTION INFORMATION SHARING
WITH LAKE HAVASU CITY, WASTEWATER PROVIDER**

EPCOR Water Arizona, Inc. ("EWAZ" or "Company") is authorized to share water consumption information of individual customers with Lake Havasu City ("the City"), a municipal provider of wastewater service for common customers purchasing water from EWAZ and wastewater from the City. The purpose of this Tariff, and the authorized provision of customer water consumption information, is to assist the City in billing for wastewater utility services. City agrees that it is only authorized to use such water consumption information for purposes of wastewater services billing and is not authorized to disclose such information to any other party except as may be required by law.

EWAZ entered into an Agreement with the City for providing individual water consumption data, in a form materially similar to the standard form agreement. The Agreement was subject to Arizona Corporation Commission ("Commission") review as set forth in Section 6 of the agreement.

EWAZ shall notify all water utility customers affected by the agreement between the Company and the City pursuant to this Tariff, by means of a billing insert during the first billing cycle immediately after said tariff is approved.

CROSS-CONNECTION OR BACKFLOW TARIFF

PURPOSE:

The purpose of this tariff is to protect EPCOR Water Arizona, Inc.'s Havasu Water District's ("Company") water from the possibility of contamination caused by the backflow of contaminants that may be present on the customer's premises by requiring the installation and periodic testing of backflow prevention assemblies pursuant to the provisions of the Arizona Administrative Code ("A.A.C.") R14-2-405.B.6 and A.A.C. R18-4-215.

REQUIREMENTS:

In compliance with the Rules of the Arizona Corporation Commission ("Commission") and the Arizona Department of Environmental Quality ("ADEQ"), specifically A.A.C. R14-2-405.B.6 and A.A.C. R18-4-215 relating to backflow prevention:

1. The Company may require a customer to pay for and to have installed a backflow-prevention assembly if A.A.C. R18-4-215.B or C applies.
2. A backflow-prevention assembly required to be installed by the customer under Paragraph 1 of this tariff shall comply with the requirements set forth in A.A.C. R18-4-215.D and E.
3. Subject to the provisions of A.A.C. R14-2-407 and 410, and in accordance with Paragraphs 1 and 7 of this tariff, the Company may terminate service or may deny service to a customer who fails to install a backflow-prevention assembly as required by this tariff.
4. The Company shall give any existing customer who is required to install a backflow-prevention assembly written notice of said requirement. If A.A.C. R14-2-410.B.1.a. is **not** applicable, the customer shall be given thirty (30) days from the time such written notice is received in which to comply with this notice. If the customer can show good cause as to why he cannot install the backflow-prevention assembly within thirty (30) days, the Company or Commission Staff may suspend this requirement for a reasonable period of time.

CROSS-CONNECTION OR BACKFLOW TARIFF
(continued)

5. Testing shall be in conformance with the requirements of A.A.C. R18-4-215.F. The Company may require the customer to pay to have the backflow-prevention assembly tested as long as the Company does not require an unreasonable number of tests.

6. The customer shall provide the Company with records of installation and testing. For each backflow-prevention assembly, these records shall include:

- a. assembly identification number and description;
- b. location
- c. date(s) of test(s);
- d. description of repairs and recommendations for repairs made by tester; and
- e. the tester's name and certificate number.

7. In the event the backflow-prevention assembly does not function properly or fails any test, and an obvious hazard as contemplated under A.A.C. R14-2-410.B.1.a. exists, the Company may terminate service immediately and without notice. The backflow-prevention assembly shall be repaired or replaced by the customer and retested.

8. In the event the backflow-prevention assembly does not function properly or fails any test, or in the event that a customer fails to comply with the testing requirement, and A.A.C. R14-2-410.B.1.a. is **not** applicable, the backflow prevention assembly shall be repaired or replaced within fourteen (14) days of the initial discovery of the deficiency in the assembly or its function. Failure to remedy the deficiency or dysfunction of the assembly, or failure to retest, shall be grounds for termination of water service in accordance with A.A.C R14-2-410.

ADJUSTOR MECHANISMS

PURCHASED WATER ADJUSTOR MECHANISM ("PWAM")

The PWAM allows the Company to pass through purchased water costs incurred by the Company to its customers. Details can be found in the Company's Purchased Water Adjustor Mechanism Plan of Administration.

Applicability

Applicable to all customers served by this service area.

PWAM Surcharge Rate for all Customers:

All usage per 1,000 gallons per month \$X.XXXX *

* Rate consists of \$X.XXXX per 1,000 gallons of usage to recover the over/under collection of prior years' surcharge and \$X.XXXX per 1,000 gallons of usage for the collection of current annual purchased water charges.

Terms and Conditions

The Company will annually file with the Commission by March 1 the proposed annual PWAM surcharge for the current calendar year. The filing shall contain a summary of all purchased water costs, total collections from the surcharge, and the updated surcharge amounts. All documentation to support the proposed surcharge will be included.

As part of each annual filing, the Company will perform a reconciliation for the prior reporting period comparing the amounts recovered from / refunded to customers to the amount of increase / decrease in water expenses due to changes in rates for that same period resulting in either an under / (over) recovery. This true-up will be included in the annual calculation.

The annual PWAM surcharge will be calculated based on the historic consumption of the applicable customers from the previous twelve months.

The revised PWAM surcharge will be effective on June 1 of each year.

The PWAM surcharge will appear on each applicable customer's bill as a separate line item.

All rates in this Schedule shall be subject to their proportionate part of any taxes or other governmental imposts that are assessed directly or indirectly on the basis of revenues derived from this Schedule.

POWER COST ADJUSTOR MECHANISM ("PCAM")

The PCAM allows the Company to pass through purchase power costs for any gas or electric service provider supplying retail service to the Company to its customers. Details can be found in the Company's Power Cost Adjustor Mechanism Plan of Administration.

Applicability

Applicable to all customers served by this service area.

PCAM Surcharge Rate for all Customers:

All usage per 1,000 gallons per month \$X.XXXX *

* Rate consists of \$X.XXXX per 1,000 gallons of usage to recover the over/under collection of prior years' surcharge and \$X.XXXX per 1,000 gallons of usage for the collection of current power charges.

Terms and Conditions

The Company will annually file with the Commission by March 1 the proposed annual PCAM surcharge for the current calendar year. The filing shall contain a summary of all gas and electrical costs, total collections from the surcharge, and the updated surcharge amount. All documentation to support the proposed surcharge will be included.

As part of each annual filing, the Company will perform a reconciliation for the prior reporting period comparing the amounts recovered from/refunded to customers to the amount of increase/decrease in power expenses due to changes in rates for that same period resulting in either an under / (over) recovery. This true-up will be included in the annual calculation.

The annual PCAM surcharge will be calculated based on the historic consumption of the applicable customers from the previous twelve months.

The revised PCAM surcharge will be effective on June 1 of each year.

The PCAM surcharge will appear on each applicable customer bill as a separate line item.

All rates in this Schedule shall be subject to their proportionate part of any taxes or other governmental imposts that are assessed directly or indirectly on the basis of revenues derived from this Schedule.

SYSTEM IMPROVEMENT BENEFIT MECHANISM ("SIB")

The SIB provides for recovery of the capital costs (return on investment, income taxes and depreciation expense) associated with distribution system improvement projects listed in SIB Plant Table I that have been verified to be complete, net of associated retirements and placed in service per SIB Table II. Details can be found in the Company's System Improvement Benefit Mechanism Plan of Administration.

Availability

Applicable to all customers served by this service area.

Schedule of Charges:

<u>Meter Size</u>	<u>SIB Surcharge</u>	<u>SIB Efficiency Credit</u>	<u>NET SIB Surcharge</u>
<u>5/8" x 3/4" meter</u>	<u>\$ x.xx</u>	<u>\$ (x.xx)</u>	<u>\$ x.xx</u>
<u>3/4" meter</u>	<u>\$ x.xx</u>	<u>\$ (x.xx)</u>	<u>\$ x.xx</u>
<u>1" meter</u>	<u>\$ x.xx</u>	<u>\$ (x.xx)</u>	<u>\$ x.xx</u>
<u>1½" meter</u>	<u>\$ x.xx</u>	<u>\$ (x.xx)</u>	<u>\$ x.xx</u>
<u>2" meter</u>	<u>\$ x.xx</u>	<u>\$ (x.xx)</u>	<u>\$ x.xx</u>
<u>3" meter</u>	<u>\$ x.xx</u>	<u>\$ (x.xx)</u>	<u>\$ x.xx</u>
<u>4" meter</u>	<u>\$ x.xx</u>	<u>\$ (x.xx)</u>	<u>\$ x.xx</u>
<u>6" meter</u>	<u>\$ x.xx</u>	<u>\$ (x.xx)</u>	<u>\$ x.xx</u>
<u>8" meter</u>	<u>\$ x.xx</u>	<u>\$ (x.xx)</u>	<u>\$ x.xx</u>
<u>10" meter</u>	<u>\$ x.xx</u>	<u>\$ (x.xx)</u>	<u>\$ x.xx</u>

Terms and Conditions

Once a SIB is approved in a decision, the Company must file with Docket Control semi-annual status reports.

The annual SIB surcharge will be calculated based on the historic system improvements of the eligible projects from the previous twelve months.

Once a SIB surcharge is implemented the Company must file annually to true-up its SIB Surcharge collections over the preceding twelve months with the SIB Authorized Revenues for that period and establish a surcharge or credit to true up over or under collections. Filings dates for these annual true-ups shall be as established in the Decision.

The SIB surcharge, SIB efficiency credit and net SIB surcharge will all appear as separate line items on each applicable customer bill.

All rates in this Schedule shall be subject to their proportionate part of any taxes or other governmental imposts that are assessed directly or indirectly on the basis of revenues derived from this Schedule.

ADJUSTOR MECHANISMS {
(continued)

PROPERTY TAX ADJUSTOR MECHANISM ("PTAM")

The PTAM allows the Company to pass through to its customers the increases or decreases in property tax expenses that result from changes to the assessment ratio or property tax rate. Pass through costs will be divided equally between residential and non-residential customer classes to collect the total increase over a 12-month period. Details can be found in the Company's Property Tax Adjustor Mechanism Plan of Administration.

Applicability
Applicable to all customers served by this service area.

PTAM Surcharge Rate for all Customers:
All usage per 1,000 gallons per month \$X.XXXX *

* Rate consists of \$X.XXXX per 1,000 gallons of usage to recover the over/under collection of prior years' surcharge and \$X.XXXX per 1,000 gallons of usage for the collection of current power charges.

Terms and Conditions

The Company will annually file with the Commission by March 1 the proposed annual PTAM surcharge for the current calendar year. The filing shall detail how the Company's property tax expenses were calculated by parcel by year. These calculations will include full cash value, assessment ratio, and tax rates by parcel. All documentation to support the proposed surcharge will be included.

As part of each annual filing, the Company will perform a reconciliation for the prior reporting period comparing the amounts recovered from/refunded to customers to the amount of increase/decrease in property tax expenses due to changes in rates for that same period resulting in either an under / (over) recovery. This true-up will be included in the annual calculation.

The revised PTAM surcharge will be effective on June 1 of each year.

The PTAM surcharge will appear on each applicable customer bill as a separate line item.

All rates in this Schedule shall be subject to their proportionate part of any taxes or other governmental imposts that are assessed directly or indirectly on the basis of revenues derived from this Schedule.

BACK BILLING BILLING ADJUSTMENT TARIFF

1. PURPOSE

1.1. To outline EPCOR's general procedure on back billing adjusting customer water utility accounts bills.

2. SCOPE

2.1. This procedure pertains to billing adjustments for accounts with lost meters, stopped meters, and other situations where usage has been identified or service received but not billed (or under billed). Parameters within this procedure do not necessarily apply to situations where customer tampering, theft, or other actions that prevent access to the water meter are involved.

3. PROCEDURE

3.1. **Timeframe** – In cases where accounts have been identified as having water usage but have not been billed (or have been under billed), EPCOR will adjust the bill for the period identified not to exceed two years from the point of customer notification or adjustment generation. Customers will be provided the ability to spread their payments for the adjustment amount over the same time period for which the usage occurred. EPCOR will have the option of spreading the payment term beyond the original usage period, depending on the circumstances.

3.2. **Estimated Usage for Stopped Meters** – Usage for stopped meters will generally be calculated based on historical usage for similar time frames. If the customer has had changes in their usage pattern based on conservation efforts, economic factors, leak repairs, or changes to the number of occupants, these may be considered in adjusting the usage estimate from historical data. There may be cases where the usage is monitored or a period of time after the meter has been replaced to determine the appropriate billing adjustment amount.

3.3. **Meter Accuracy Corrections** – If any meter after testing is found to be more than 3% inaccurate, either fast or slow, proper correction between 3% and the amount of the error shall be made of previous readings and adjusted bills shall be rendered according to the following terms in accordance with the following terms:

3.3.1. For the period of 3 months immediately preceding the removal of such meter from service for test or from the time the meter was in service since last tested, but not exceeding 3 months since the meter shall have been shown to be in error by such test, or

3.3.2. From the date the error occurred, if the date of the cause can be definitely fixed.

3.3.3. No adjustment shall be made by the utility except to the customer last served by the meter tested.

BILLING ADJUSTMENT TARIFF (continued)

3.4. Managing Large and/or Extended Adjustments – Bill adjustment amounts over \$2,500 that extend beyond two billing cycles will be reviewed by EPCOR and communication with the customer will be attempted prior to posting the bill to the customer account. Three unsuccessful attempts to contact the customer via the contact means provided on the customer account shall release the bill to the customer’s account for posting

4.1.3.5. Customer Appeals – Customers may appeal adjustment decisions in writing or by contacting a customer care representative, the appeal will be escalated to the appropriate party and a determination will be made within 90 days.

4.2.3.6. Exceptions – It is recognized that there may be specific situations or unique circumstances where there is a management decision not to adjust a customer or group of customers.

EPCOR WATER ARIZONA INC.
MOHAVE WATER DISTRICT
FACTORS FOR ALLOCATING COST OF SERVICE TO CUSTOMER CLASS

FACTOR A. ALLOCATION OF COMMODITY COSTS.

Factors are based on the pro forma test year average daily consumption for each customer classification.

Classification (1)	Average Daily Consumption, 1000 Gallons (2)	Allocation Factor (5)
Residential	3,313	0.7448
Commercial	956	0.2149
Other Public Authority	179	0.0403
Private Fire	0	0.0000
Hydrant	0	0.0000
Total	<u>4,448</u>	<u>1.0000</u>

FACTOR B. ALLOCATION OF MAXIMUM DAY DEMAND COSTS - TREATMENT AND PUMPING.

Factors are based on the maximum day demand for each customer classification.

Customer Classification (1)	Average Daily Consumption, 1000 Gallons (2)	Peak Day Factor (3)	Rate of Flow, 1000 Gallons Per Day (4)=(2)x(3)	Allocation Factor (5)
Residential	3,313	3.00	9,924	0.7776
Commercial	956	2.48	2,374	0.1860
Other Public Authority	179	2.59	465	0.0364
Private Fire	0	0.00	0	0.0000
Hydrant	0	0.00	0	0.0000
Total	<u>4,448</u>		<u>12,763</u>	<u>1.0000</u>

FACTOR C. ALLOCATION OF MAXIMUM HOUR DEMAND COSTS.

Factors are based on the maximum hour demand for each customer classification.

Customer Classification (1)	Average Hourly Consumption, 1000 Gallons (2)	Peak Hour Factor (3)	Rate of Flow, 1000 Gallons Per Hour (4)=(2)x(3)	Allocation Factor (5)
Residential	138	4.96	684	0.7776

FACTORS FOR ALLOCATING COST OF SERVICE TO CUSTOMER CLASS

FACTOR D. ALLOCATION OF COSTS ASSOCIATED WITH METERS

Factors are based on the relative cost of meters by size and customer classification

<u>Customer Classification</u> (1)	<u>5/8" Equivalents</u> (2)	<u>Allocation Factor</u> (3)
Residential	16,015	0.9110
Commercial	1,423	0.0809
Other Public Authority	142	0.0081
Private Fire	0	0.0000
Hydrant	0	0.0000
Total	<u>17,580</u>	<u>1.0000</u>

FACTOR E. ALLOCATION OF COSTS ASSOCIATED WITH SERVICES

Factors are based on the relative cost of meters by size and customer classification

<u>Customer Classification</u> (1)	<u>3/4" Equivalents</u> (2)	<u>Allocation Factor</u> (3)
Residential	15,778	0.9225
Commercial	883	0.0516
Other Public Authority	64	0.0037
Private Fire	150	0.0088
Hydrant	229	0.0134
Total	<u>17,104</u>	<u>1.0000</u>

FACTOR F. ALLOCATION OF BILLING AND COLLECTING COSTS.

Factors are based on the total number of customers.

<u>Customer Classification</u> (1)	<u>Total Customers</u> (2)	<u>Allocation Factor</u> (3)
Residential	15,778	0.9224
Commercial	882	0.0516
Other Public Authority	64	0.0038
Private Fire	151	0.0088
Hydrant	229	0.0134
Total	<u>17,105</u>	<u>1.0000</u>

GENERAL WATER RATE
(continued)

Terms and Conditions

Water service provided under this rate schedule is subject to this District's Rules and Regulations applicable to Water Service and may be subject to this District's Miscellaneous Service Charges set forth in Rate Schedule Service Charges and adjustor mechanisms included in the Company's tariff on file with the Arizona Corporation Commission.

Water service under this Schedule is for the exclusive use of the Customer and water shall not be resold or provided to others.

In addition to the collection of regular rates, the utility will collect from its customers a proportionate share of any privilege, sales, use, and franchise tax. Per Commission Rule 14-2-409D(5).

A 1½% late payment penalty will be applied to account balances not paid within fifteen (15) days after the postmark date of the bill in accordance with Arizona Administrative Code R14-2-310.C.

** Low Income Program – Monthly Low Income Credit of \$10.00 is available in the Mohave Water District. Requires the completion of a Low Income Program Application. Program is restricted to the first 475 eligible residential customers on 5/8 x 3/4 inch meters in the Mohave Water district. Applicants must swear that he/she has annual income below the threshold. The threshold is below 150% of the federal low income guidelines as periodically revised. Applicant may not be claimed as a dependent on another person's tax return. Applicant must reapply each time moving residences. Refusal or failure to provide acceptable documentation of eligibility, upon request, shall result in removal from the low income program. Rebilling of customers under the otherwise applicable rate schedule may occur for periods of ineligibility previously billed under the low income tariff. Annual income means the value of all money and non-cash benefits available for living expenses, from all sources, both taxable and non-taxable, before deductions, for all people who live with the applicant.

Other Public Authority (OPA) - National, state, or local governmental agencies or public schools.

PRIVATE FIRE PROTECTION
(continued)

Terms and Conditions (continued)

3. The maximum diameter of the service connection will not be more than the diameter of the main to which the service is connected. The maximum diameter of a fire hydrant connection will not be more than the diameter of the main to which the fire hydrant is connected.
4. The customer's installation must be such as to separate effectively the fire sprinkler system from that of the customer's regular water service. As a part of the sprinkler service installation, there shall be a detector check or other similar device acceptable to the Company that will indicate the use of water. Any unauthorized use will be charged for at the regular established rate for general metered service, and may be grounds for the Company's discontinuing the fire sprinkler service without liability to the Company.
5. There shall be no cross-connection between the fire sprinkler system supplied by water through the Company's fire sprinkler service to any other source of supply without the specific approval of the Company. This specific approval will require, at the customer's expense, a special double check valve installation or other device acceptable to the Company. Any such unauthorized cross-connection may be grounds for immediately discontinuing the sprinkler system service without liability to the Company.
6. The Company will supply only such water at such pressure as may be available from time to time as the result of its normal operations of the system. The Company shall not be liable to any party at any time under any circumstances for any damages resulting from high or low water pressure, failure of water supply or malfunction, failure or inadequacy of equipment, regardless of the cause of any such pressure, malfunction, failure or inadequacy.
7. Other Public Authority (OPA) National, state, or local governmental agencies or public schools.

SERVICE CHARGES

This District is authorized to charge the following Service Charges:

As provided for in EPCOR Water Arizona, Inc.'s Mohave Water District's Rules and Regulations, Rule No. 2 (D), the Company will charge the following rates for Water Utility service:

Establishment or Re-Establishment of Service (c)	\$35.00
Reconnection of Service (Delinquent)	\$35.00
Meter Test (If Correct)	\$35.00
Meter Reread (If Correct)	\$25.00
NSF Check	\$25.00
Automated Meter Opt Outs	
Establishment Fee	\$35.00
Monthly Manual Read Fee	\$25.00
Late Charge, per month	1.5%
Deferred Payment, per month	1.5%
Deposit Requirement (Residential)	(a)
Deposit Requirement (Non-Residential)	(a)
Deposit Interest	(a)
After Hours Service Charge (b)	\$35.00

(a) Per ACC Rules R14-2-403(B)

(b) After hours service charge: After regular working hours, Saturdays, Sundays and holidays if at the customer's request or for the customer's convenience.

(c) Monthly minimum times number of months disconnected from the system at the same location where the same customer had ordered a service disconnection within the preceding 12-month period. In the event that customer is also a wastewater customer the customer will only be charged for water reconnection.

In addition to the collection of regular rates, the utility will collect from its customers a proportionate share of any privilege, sales, use and franchise tax. Per Commission Rule 14-2-409(D)(5).

Service Line and Meter Installation Charges

As provided for in Rule No. 4 (B) of EPCOR Water Arizona Inc.'s Mohave Water District's Rules and Regulations, the Company will charge the customer, as a refundable advance in aid of construction, an amount for each meter and service line as specified below:

Service Line and Meter Installation Charges:

Meter Size	Service Line Charge	Meter Installation Charge
5/8" x 3/4- inch Meter	\$4,000.00	\$165.00
3/4- inch Meter	\$4,000.00	\$185.00
1- inch Meter	\$4,000.00	\$220.00
1-1/2 - inch Meter	\$4,000.00	\$325.00
2- inch Turbine Meter	\$4,000.00	\$385.00
2- inch Compound Meter	\$4,000.00	\$1,050.00
3- inch Turbine Meter	\$4,000.00	\$1,065.00
3- inch Compound Meter	\$4,000.00	\$1,665.00
4- inch Turbine Meter	\$4,000.00	\$1,335.00
4- inch Compound Meter	\$4,000.00	\$2,445.00
6- inch Turbine Meter	\$4,000.00	\$2,665.00
6- inch Compound Meter	\$4,000.00	\$3,700.00
Over 6" Meter	\$4,000.00	At Cost

Terms and Conditions

An applicant for water service shall pay to the Company, as a refundable advance in aid of construction the full cost to provide the new service line and meter.

In addition to the collection of regular rates, the utility will collect from its customers a proportionate share of any privilege, sales, use, and franchise tax. Per Commission Rule 14-2-409(D)(5).

All advances and/or contributions are to include labor, materials, overheads, and all applicable taxes, including all gross-up taxes for income taxes, if applicable.

COMMON FACILITIES HOOK-UP FEE

I. Purpose and Applicability

The purpose of the Common Facilities hook-up fee payable to EPCOR Water Arizona, Inc. (“the Company”) pursuant to this tariff is to equitably apportion the costs of constructing additional common water facility infrastructure to provide water production, delivery, treatment, storage and pressure among all new service connections. These charges are applicable to all new service connections established after the effective date of this tariff. The charges are one-time charges and are payable as a condition to the Company’s establishment of service, as more particularly provided below.

II. Definitions

Unless the context otherwise requires, the definitions set forth in R-14-2-401 of the Arizona Corporation Commission’s (“Commission”) rules and regulations governing water utilities shall apply interpreting this tariff schedule.

“Applicant” means any party entering into an agreement with the Company for the installation of water facilities to serve new service connections, and may include developers and/or builders of new residential subdivisions.

“Main Extension Agreement” means any agreement whereby an Applicant, Developer and/or Builder agrees to advance the costs of the installation of water facilities, which may include Common Facilities, to the Company to serve new service connections, or install water facilities to serve new service connections and transfer ownership of such water facilities to the Company, in either case which agreement shall require the approval of the Commission pursuant to A.A.C. R-14-2-406, and shall have the same meaning as “Water Facilities Agreement” or “Line Extension Agreement.”

“Common Facilities” means all wells, storage tanks, production, treatment, booster pumps, pressure tanks, transmission mains and related appurtenances, including engineering and design costs, constructed for the benefit of the entire water system and not for the exclusive use of the Applicant’s development.

“Service Connection” means and includes all service connections for single-family residential or other uses, regardless of meter size.

COMMON FACILITIES HOOK-UP FEE
(continued)

III. Common Facilities Water Hook-up Fee

For each new service connection, the Company shall collect a Common Facilities hook-up fee derived from the following table:

COMMON FACILITIES HOOK-UP FEE TABLE		
Meter Size	Size Factor	Total Fee
5/8" x 3/4"	1	\$1,680.00
3/4"	1.5	\$2,520.00
1"	2.5	\$4,200.00
1-1/2"	5	\$8,400.00
2"	8	\$13,440.00
3"	16	\$26,880.00
4"	25	\$42,000.00
6" or larger	50	\$84,000.00

IV. Terms and Conditions

(A) Assessment of One Time Common Facilities Hook-up Fee: The Common Facilities hook-up fee may be assessed only once per parcel, service connection, or lot within a subdivision (similar to meter and service line installation charge).

(B) Use of Common Facilities Hook-up Fee: Common Facilities hook-up fees may only be used to pay for capital items of Common Facilities, or for repayment of loans obtained for installation of Common Facilities. Common Facilities hook-up fees shall not be used for repairs, maintenance, or operational purposes.

(C) Time of Payment:

1) In the event that the Applicant that will be constructing improvements is required to enter into a Main Extension Agreement, payment of the Common Facilities hook-up fees required hereunder shall be made by the Applicant no later than within 15 calendar days after receipt of notification from the Company that the Utilities Division of the Arizona Corporation Commission has approved the Main Extension Agreement in accordance with R-14-2-406(M).

COMMON FACILITIES HOOK-UP FEE

(continued)

2) In the event that the Applicant for service is not required to enter into a Main Extension Agreement, the charges hereunder shall be due and payable at the time the meter and service line installation fee is due and payable.

(D) Common Facilities Construction by Developer: The Company and Applicant may agree to construction of Common Facilities necessary to serve a particular development by Applicant which facilities are then conveyed to the Company. In that event, Company shall credit the total cost of such Common Facilities as an offset to the Common Facilities hook-up fees due under this Tariff. If the total cost of the Common Facilities constructed by Applicant and conveyed to Company is less than the applicable Common Facilities hook-up fee due under this Tariff, Applicant shall pay the remaining amount of the Common Facilities hook-up fees owed hereunder. If the total cost of the Common Facilities contributed by Applicant, Developer or Builder and conveyed to Company is more than the applicable Common Facilities hook-up fees under this Tariff, Applicant shall be refunded the difference upon acceptance of the Common Facilities by the Company. The refund may be paid in installments over a period of time pursuant to an agreement between the Company and the developer on a case by case basis. The Company and Applicant may agree to construction of additional facilities that are not Common Facilities, the cost of which shall not be subject to off-set under this paragraph IV.D, but which will be subject to refund under R14-2-406(D).

(E) Failure to Pay Charges; Delinquent Payments: The Company will not be obligated to provide water service to any Applicant or other applicant for service in the event that such Applicant or other applicant for service has not paid in full all charges hereunder. Under no circumstances will the Company set a meter or otherwise allow service to be established if the entire amount of any payment has not been paid.

(F) Large Subdivision Projects: In the event that the Applicant is engaged in the development of a residential subdivision containing more than 150 lots, and is a party to a Main Extension Agreement with the Company for such development, the Company may, in its discretion, agree to payment of the Common Facilities hook-up fees in installments. Such installments may be based on the residential subdivision development's phasing, and should attempt to equitably apportion the payment of charges hereunder based on the Applicant's construction schedule and water service requirements.

(G) Common Facilities Hook-Up Fees Non-refundable: The amounts collected by the Company pursuant to the Common Facilities hook-up fee tariff shall be non-refundable contributions in aid of construction.

(Name of Service Area)

COMMON FACILITIES HOOK-UP FEE
(continued)

(H) Use of Common Facilities Hook-Up Fees Received: All funds collected by the Company as Common Facilities hook-up fees shall be deposited into a separate interest bearing trust account and used solely for the purposes of paying for the costs of the Common Facilities, including repayment of loans obtained for the installation of Common Facilities that will benefit the entire water system.

(I) Common Facilities Hook-up Fee in Addition to On-site Facilities: The Common Facilities hook-up fee shall be in addition to any costs associated with the construction of on-site facilities or other additional facilities under Paragraph IV.D, above, under a Main Extension Agreement.

(J) Disposition of Excess Funds: After all necessary and desirable Common Facilities are constructed utilizing funds collected pursuant to the Common Facilities hook-up fees, or if the Common Facilities hookup fee has been terminated by order of the Arizona Corporation Commission, any funds remaining in the trust shall be refunded. The manner of the refund shall be determined by the Commission at the time a refund becomes necessary.

(K) Fire Flow Requirements: In the event the Applicant has fire flow requirements that require additional facilities beyond those facilities whose costs were included in the Common Facilities hook-up fee, and which are contemplated to be constructed using the proceeds of the Common Facilities hook-up fee, the Company may require the Applicant to install such additional facilities as are required to meet those additional fire flow requirements, as a non-refundable contribution, in addition to paying the Common Facilities hook-up fee.

(L) Status Reporting Requirements to the Commission: The Company shall submit a calendar year Common Facilities hook-up fee status report each January 31 to Docket Control for the prior twelve (12) month period, beginning January 31, 2018, until the Common Facilities hook-up fee tariff is no longer in effect. This status report shall contain a list of all customers that have paid the Common Facilities hook-up fee tariff, the amount each has paid, the amount of money spent from the account, the amount of interest earned on the tariff account, and a list of all facilities that have been installed with the tariff funds during the 12-month period.

LARGE WATER-USERS

Any development with a projected average daily water demand greater than 1,700 gallons per day per acre is considered to be a Large User. Large Users will be required to provide an additional renewable water supply source to Utility to meet the demands of the development that are greater than 1,700 gallons per day per acre. Examples of a renewable water supply source include surface water or a groundwater well with long-term storage credits. The renewable water supply source must be approved by Utility, and must have the appropriately allocated water rights that will be conveyed to Utility. The cost to provide a renewable water supply source to Utility will not be credited as an offset to the Common Facilities Hook-Up Fee because such costs will be due to the exclusive need for additional water by the Large User; however, the cost of that portion of a renewable water supply source that is in excess of the Large User's needs will be credited as an offset to the Common Facilities Hook-Up Fee.

Large Users may be required to enter into an agreement with Utility that will define terms and conditions, and will include fees that will be charged to Large Users for over usage. Fees will incur if Large Users use water in excess of the supply source provided, which will be reviewed by Utility on an annual basis. Continued excessive use could result in Utility requiring the Large User to develop and implement a water use reduction plan or, as a last resort, court action.

CURTAILMENT TARIFF

CURTAILMENT PLAN FOR MOHAVE WATER DISTRICT
(Template 063004)

ADEQ Public Water System No: 04-08-032, 04-08-037, 04-08-062, 04-08-137, 04-08-163, 04-08-333

EPCOR Water Arizona Inc. ("Company"), is authorized to curtail water service to all customers within its certificated area under the terms and conditions listed in this tariff.

This curtailment plan shall become part of the Arizona Department of Environmental Quality Emergency Operations Plan for the Company.

The Company shall notify its customers of this new tariff as part of its next regularly scheduled billing after the effective date of the tariff or no later than sixty (60) days after the effective date of the tariff.

The Company shall provide a copy of the curtailment tariff to any customer, upon request.

Stage 1 Exists When:

Company is able to maintain water storage in the system at 100 percent of capacity and there are no known problems with its well production or water storage in the system.

Restrictions: Under Stage 1, Company is deemed to be operating normally and no curtailment is necessary.

Notice Requirements: Under Stage 1, no notice is necessary.

Stage 2 Exists When:

- Company's water storage or well production has been less than 80 percent of capacity for at least 48 consecutive hours, and
- Company has identified issues such as a steadily declining water table, increased draw down threatening pump operations, or poor water production, creating a reasonable belief the Company will be unable to meet anticipated water demand on a sustained basis.

Restrictions: Under Stage 2, the Company may request the customers to voluntarily employ water conservation measures to reduce water consumption by approximately 50 percent. Outside watering should be limited to essential water, dividing outside watering on some uniform basis (such as even and odd days) and eliminating outside watering on weekends and holidays.

(Name of Service Area)

CURTAILMENT TARIFF
(continued)

Notice Requirements: Under Stage 2, the Company is required to notify customers by delivering written notice door to door at each service address, or by United States first class mail to the billing address or, at the Company's option, both. Such notice shall notify the customers of the general nature of the problem and the need to conserve water.

Stage 3 Exists When:

- a. Company's total water storage or well production has been less than 50 percent of capacity for at least 24 consecutive hours, and
- b. Company has identified issues such as a steadily declining water table, increased draw down threatening pump operations, or poor water production, creating a reasonable belief the Company will be unable to meet anticipated water demand on a sustained basis.

Restrictions: Under Stage 3, Company shall request the customers to voluntarily employ water conservation measures to reduce daily consumption by approximately 50 percent. All outside watering should be eliminated, except livestock, and indoor water conservation techniques should be employed whenever possible. Standpipe service shall be suspended.

Notice Requirements:

1. Company is required to notify customers by delivering written notice to each service address, or by United States first class mail to the billing address or, at the Company's option, both. Such Notice shall notify the customers of the general nature of the problem and the need to conserve water.
2. Beginning with Stage 3, Company shall post at least four (4) signs showing the curtailment stage. Signs shall be posted at the well and/or pump sites located within the Mohave Water District.
3. Company shall notify the Consumer Services Section of the Utilities Division of the Corporation Commission at least 12 hours prior to entering Stage 3.

Once Stage 3 has been reached, the Company must begin to augment the supply of water by either hauling or through an emergency interconnect with an approved water supply in an attempt to maintain the curtailment at a level no higher than Stage 3 until a permanent solution has been implemented.

CURTAILMENT TARIFF
(continued)

Stage 4 Exists When:

- a. Company's total water storage or well production has been less than 25 percent of capacity for at least 12 consecutive hours, and
- b. Company has identified issues such as a steadily declining water table, increased draw down threatening pump operations, or poor water production, creating a reasonable belief the Company will be unable to meet anticipated water demand on a sustained basis.

Restrictions: Under Stage 4, Company shall inform the customers of a mandatory restriction to employ water conservation measures to reduce daily consumption. Failure to comply will result in customer disconnection. The following uses of water shall be prohibited:

- ◆ Irrigation of outdoor lawns, trees, shrubs, or any plant life is prohibited
- ◆ Washing of any vehicle is prohibited
- ◆ The use of water for dust control or any outdoor cleaning uses is prohibited
- ◆ The use of drip or misting systems of any kind is prohibited
- ◆ The filling of any swimming pool, spas, fountains or ornamental pools is prohibited
- ◆ The use of construction water is prohibited
- ◆ Restaurant patrons shall be served water only upon request
- ◆ Any other water intensive activity is prohibited

The Company's operation of its standpipe service is prohibited. The addition of new service lines and meter installations is prohibited.

Notice Requirements:

1. Company is required to notify customers by delivering written notice to each service address, or by United States first class mail to the billing address or, at the Company's option, both. Such notice shall notify the customers of the general nature of the problem and the need to conserve water.
2. Beginning with Stage 4, Company shall post at least four (4) signs showing the curtailment stage. Signs shall be posted at the well and/or pump sites located within the Mohave Water District
3. Company shall notify the Consumer Services Section of the Utilities Division of the Corporation Commission at least 12 hours prior to entering Stage 4.

CURTAILMENT TARIFF
(continued)

Customers who fail to comply with the above restrictions will be given a written notice to end all outdoor use. Failure to comply within two (2) working days of receipt of the notice will result in temporary loss of service until an agreement can be made to end unauthorized use of outdoor water. To restore service, the customer shall be required to pay all authorized reconnection fees. If a customer believes he/she has been disconnected in error, the customer may contact the Commission's Consumer Services Section at 1-800-222-7000 to initiate an investigation.

Once Stage 4 has been reached, the Company must augment the supply of water by hauling or through an emergency interconnect from an approved supply or must otherwise provide emergency drinking water for its customers until a permanent solution has been implemented.

Local and/or Regional Messaging Program Tariff – BMP 1.1

PURPOSE

A program for the Company to actively participate in a water conservation campaign with local or regional advertising (Modified Non-Per Capita Conservation Program BMP Category 1: Public Awareness/Public Relations 1.1: Local and/or Regional Messaging Program).

REQUIREMENTS

The requirements of this tariff are governed by Rules of the Arizona Corporation Commission and were adapted from the Arizona Department of Water Resources' Required Public Education Program and Best Management Practices in the Modified Non-Per Capita Conservation Program.

1. The Company or designated representative shall actively participate in water conservation campaign with local and/or regional advertising.
2. The campaign shall promote ways for customers to save water.
3. The Company shall facilitate the campaign through one or more of the following avenues (not an all inclusive list):
 - a. Television commercials
 - b. Radio commercials
 - c. Websites
 - d. Promotional materials
 - e. Vehicle signs
 - f. Bookmarks
 - g. Magnets
4. The Company shall keep a record of the following information and make it available to the Commission upon request:
 - a. A description of the messaging program implemented and program dates.
 - b. The number of customers reached (or an estimate).
 - c. Costs of Program implementation.

Youth Conservation Education Program Tariff – BMP 2.2

PURPOSE

A program for the Company to promote water conservation by increasing students' understanding of water resources and the need to conserve (Modified Non-Per Capita Conservation Program BMP Category 2: Conservation Education and Training 2.2: Youth Conservation Education Program).

REQUIREMENTS

The requirements of this tariff are governed by Rules of the Arizona Corporation Commission and were adapted from the Arizona Department of Water Resources' Required Public Education Program and Best Management Practices in the Modified Non-Per Capita Conservation Program.

1. The Company or designated representative shall work with schools in its service area to increase students' understanding of water resources and to promote water conservation.
2. The Company shall provide a combination of instructional assistance, education materials, teacher education, classroom presentations, and field trips to water related facilities.
3. The Company shall provide the following teacher resources.
 - a. Offer Project WET (Water Education for Teachers) workshops to teachers twice yearly. In lieu of Project WET the Company may market its Water Conservation Assembly Program to all schools within its service area. The Water Conservation Assembly Program will focus on teaching students about water resources and water conservation. The assembly itself will be an interactive water conservation discussion.
 - b. Provide free resource materials and information upon request.
 - c. Provide in-classroom presentations upon request.
4. The Company shall make available free take home educational materials for elementary school students.
5. The Company shall keep a record of the following information and make it available upon request.
 - a. A description of the youth conservation education process implemented.
 - b. The number of students reached (or an estimate).
 - c. A description of the written water conservation material provided free to students.
 - d. Costs of the Youth Conservation Education Program implementation.

New Homeowner Landscape Information Tariff – BMP 2.3

PURPOSE

A program for the Company to promote the conservation of water by providing a landscape information package for the purpose of educating its new customers about low water use landscaping (Modified Non-Per Capita Conservation Program BMP Category 2: Conservation Education and Training 2.3: New Homeowner Landscape Information).

REQUIREMENTS:

The requirements of this tariff are governed by Rules of the Arizona Corporation Commission and were adapted from the Arizona Department of Water Resources' Required Public Education Program and Best Management Practices in the Modified Non-Per Capita Conservation Program.

1. Upon establishment of water service the Company shall offer and make available upon request a free "Homeowner Landscape Packet" to each new customer in the Company's service area. The packet will include at a minimum: a cover letter describing the water conservation expectations for all customers in the Company's service area, applicable rate tariffs, a basic interior/exterior water saving pamphlet, xeriscape landscape information, a list of low water use trees, plants, shrubs, etc., watering guidelines, and a rain water harvesting pamphlet.
2. Upon customer request, the Company shall provide:
 - a. On-site consultations on low water use landscaping and efficient watering practices.
 - b. A summary of water saving options.
3. The Company shall keep a record of the number of packets provided to new customers and make it available to the Commission upon request.

Residential Audit Program Tariff – BMP 3.1

PURPOSE

A program for the Company to promote water conservation by providing customers with information on performing water audits to determine conservation opportunities at their residence (Modified Non-Per Capita Conservation Program BMP Category 3: Outreach Services 3.1: Residential Audit Program).

REQUIREMENTS

The requirements of this tariff are governed by Rules of the Arizona Corporation Commission and were adapted from the Arizona Department of Water Resources' Required Public Education Program and Best Management Practices in the Modified Non-Per Capita Conservation Program.

1. The Company shall offer self-audit information.
2. The Company or designated representative shall provide all customers that request them with a self-audit kit.
3. The kit shall include detailed instructions and tools for completing the water audit including information on how to check their water meter. The audit kit shall include but not be limited to information on checking the following components: irrigation system, pool, water features, toilets, faucets and shower.
4. If requested, the Company shall assist the customer in a self-water audit and assist the customer in determining what might be causing high water usage as well as supply customer with information regarding water conservation and landscape watering guidelines. As part of the water audit, and if requested to do so by the customer, the Company shall confirm the accuracy of the customer meter (applicable meter testing fees shall apply).
5. The Company shall keep a record of the following information and make it available to the Commission upon request:
 - a. A description of the water conservation material provided in the kit.
 - b. The number of kits provided to customers.
 - c. Implementation costs of the Residential Audit Program.

Customer High Water Use Inquiry Resolution Tariff – BMP 3.6

PURPOSE

A program for the Company to assist its customers with their high water-use inquiries and complaints (Modified Non-Per Capita Conservation Program BMP Category 3: Outreach Services 3.6: Customer High Water Use Inquiry Resolution).

REQUIREMENTS

The requirements of this tariff are governed by Rules of the Arizona Corporation Commission and were adapted from the Arizona Department of Water Resources' Required Public Education Program and Best Management Practices in the Modified Non-Per Capita Conservation Program.

1. The Company shall handle high water use inquiries as calls are received.
2. Calls shall be taken by a customer service representative who has been trained on typical causes of high water consumption as well as leak detection procedures that customers can perform themselves.
3. Upon request by the customer or when the Company determines it is warranted, a trained Field Technician shall be sent to the customer's residence to verify consumption and conduct a leak detection inspection and further assist the customer with water conservation measures.
4. The Company shall follow up on every customer inquiry or complaint and keep a record of inquiries and follow-up activities. The Company shall make this information available to the Commission upon request.

Leak Detection Program Tariff – BMP 4.1**PURPOSE**

A program for the Company to systematically evaluate its water distribution system to identify and repair leaks (Modified Non-Per Capita Conservation Program Best Management Practice Category 4: Physical System Evaluation and Improvement 4.1 Leak Detection Program).

REQUIREMENTS

The requirements of this tariff are governed by Rules of the Arizona Corporation Commission and were adapted from the Arizona Department of Water Resources' Required Public Education Program and Best Management Practices in the Modified Non-Per Capita Conservation Program.

On a systematic basis, the Company shall perform leak detection inspections of its distribution system to identify and fix leaks.

This program shall be implemented through a strategy of targeting certain portions of the water service area which will yield the highest potential for water savings first.

1. The Company shall implement a comprehensive leak detection and repair program to attain and maintain a goal of less than 10 percent unaccounted for water loss in its system(s). The program must include auditing procedures, in-field leak detection and repair efforts. The Company shall take whatever practical steps are necessary to ensure that its water system is operating at optimal efficiency.
2. On a systematic basis, at least every two years (annually for smaller systems), the Company shall visually inspect its above ground water distribution system (to include hydrants, valves, tanks, pumps, etc. in the distribution system) to identify and repair leaks. Detection shall be followed by repair or in some cases replacement. Repair vs. replacement will depend upon site-specific leakage rates and costs.
3. Leak Detection efforts should focus on the portion of the distribution system with the greatest expected problems, including:
 - a. areas with a history of excessive leak and break rates;
 - b. areas where leaks and breaks can result in the heaviest property damage;
 - c. areas where system pressure is high;
 - d. areas exposed to stray current and traffic vibration;
 - e. areas near stream crossings; and,
 - f. areas where loads on pipe may exceed design loads.

Leak Detection Program Tariff – BMP 4.1**(continued)**

4. The Company shall keep accurate and detailed records concerning its leak detection and repair/rehabilitation program and the associated costs. Records of repairs shall include: possible causes of leak; estimated amount of water lost; and date of repair. These records shall be made available to the Commission upon request.
5. The Company shall maintain a complete set of updated distribution system maps.
6. The Company shall conduct a water audit annually which includes the following steps to determine how efficient each water system is operating and where the losses might be.
 - a. Use coordinated monthly source and service meter readings to calculate how much water enters and leaves the system during the 12 month review period.
 - b. Track and estimate any unmetered authorized uses.
 - c. Calculate the total amount of leakage using the following formula:

$$\text{Unaccounted for water (\%)} = \frac{[(\text{Production and/or purchased water minus metered use \& estimated authorized un-metered use}) / (\text{Production and/or purchased water})] \times 100\%}{1}$$
 - d. Authorized un-metered uses may include firefighting, main flushing, process water for water treatment plants, etc. Water losses include all water that is not identified as authorized metered water use or authorized un-metered use.
 - e. Determine possible reasons for leakage, including physical leaks and unauthorized uses.
 - f. Analyze results to determine the improvements needed, such as, better accounting practices, leak survey or replacing old distribution pipes.
7. The Company shall keep accurate and detailed records concerning its annual water audit results. These records shall be made available to the Commission upon request.

Meter Repair and/or Replacement Tariff – BMP 4.2**PURPOSE**

A program for the Company to systematically assess all in-service water meters (including Company production meters) in its water service area to identify under-registering meters and to repair or replace them (Modified Non-Per Capita Conservation Program Best Management Practice Category 4: Physical System Evaluation and Improvement 4.2 Meter Repair and/or Replacement Program).

REQUIREMENTS

The requirements of this tariff are governed by Rules of the Arizona Corporation Commission and were adapted from the Arizona Department of Water Resources' Required Public Education Program and Best Management Practices in the Modified Non-Per Capita Conservation Program.

1. On a systematic basis, the Company will replace all 2-inch and smaller in-service water meters at least once every twelve years.
2. The Company will test all meters that have caused a meter reading complaint to be filed with the Arizona Corporation Commission.
3. Meters larger than 2-inch shall be tested for one of the following reasons:
 - a. A meter reading complaint is filed with the Company by a customer or Arizona Corporation Commission Staff,
 - b. A meter has been in service for five years.
4. The test will be accomplished by one of the following:
 - a. Having the meter pulled and having a Company Technician physically inspect each meter and its fittings for leaks, registers which may have become loose or are not properly attached to the meter and could be under-registering or other broken parts which need repair.
 - b. Utilizing equipment to verify that all electronic components are within manufacturer specifications and are operating properly.
5. In addition, meters shall be randomly selected for flow testing utilizing a flow through detector testing meter.
6. All replacement water meters shall register in gallons:
 - a. All new 1-inch and smaller meters that are installed will register usage in 1 gallon increments,
 - b. All new 1-1/2-inch through 4-inch meters that are installed will register in 10 gallon increments, and
 - c. All new 6-inch and larger meters that are installed will register in 100 gallon increments.
7. The Company shall keep records on the number of meters that were replaced and make this information available to the Commission upon request.

Water System Tampering Tariff – BMP 5.2

PURPOSE

The purpose of this tariff is to promote the conservation of groundwater by enabling the Company to bring an action for damages or to enjoin any activity against a person who tampers with the water system.

REQUIREMENTS:

The requirements of this tariff are governed by Rules of the Arizona Corporation Commission, specifically Arizona Administrative Code ("AAC") R14-2-410 and the Arizona Department of Water Resources' Required Public Education Program and Best Management Practices in the Modified Non-Per Capita Conservation Program.

1. In support of the Company's water conservation goals, the Company may bring an action for damages or to enjoin any activity against a person who: (1) makes a connection or reconnection with property owned or used by the Company to provide utility service without the Company's authorization or consent; (2) prevents a Company meter or other device used to determine the charge for utility services from accurately performing its measuring function; (3) tampers with property owned or used by the Company; or (4) uses or receives the Company's services without the authorization or consent of the Company and knows or has reason to know of the unlawful diversion, tampering or connection. If the Company's action is successful, the Company may recover as damages three times the amount of actual damages.
2. Compliance with the provisions of this tariff will be a condition of service.
3. The Company shall make available to all its customers a complete copy of this tariff and AAC R14-2-410. The customers shall follow and abide by this tariff.
4. If a customer is connected to the Company water system and the Company discovers that the customer has taken any of the actions listed in No. 1 above, the Company may terminate service per AAC R14-2-410.
5. If a customer believes he/she has been disconnected in error, the customer may contact the Commission's Consumer Services Section at 1-800-222-7000 to initiate an investigation.

TARIFF

WATER SERVICES TERMINATION AGREEMENT WITH THE CITY OF BULLHEAD CITY

EPCOR Water Arizona Inc. ("Company") has been granted a variance from Arizona Corporation Commission Rule A.A.C. R14-2-410.A.2 for the limited purpose of entering into a Water Service Termination Agreement ("Agreement") with the City of Bullhead City ("City"), a municipal provider of wastewater service, for common customers purchasing water from the Company and wastewater from the City. The purpose of this Tariff, and the authorized variance from A.A.C. R14-2-410.A.2, is to assist the City in collecting delinquent payments for wastewater utility service provided to common customers of the Company.

The Company shall comply with the terms and conditions of the Agreement.

The Agreement with the City is attached to and incorporated into this tariff.

CROSS-CONNECTION OR BACKFLOW TARIFF

PURPOSE:

The purpose of this tariff is to protect EPCOR Water Arizona, Inc.’s Mohave Water District’s (“Company”) water from the possibility of contamination caused by the backflow of contaminants that may be present on the customer’s premises by requiring the installation and periodic testing of backflow prevention assemblies pursuant to the provisions of the Arizona Administrative Code (“A.A.C.”) R14-2-405.B.6 and A.A.C. R18-4-215.

REQUIREMENTS:

In compliance with the Rules of the Arizona Corporation Commission (“Commission”) and the Arizona Department of Environmental Quality (“ADEQ”), specifically A.A.C. R14-2-405.B.6 and A.A.C. R18-4-215 relating to backflow prevention:

1. The Company may require a customer to pay for and to have installed a backflow-prevention assembly if A.A.C. R18-4-215.B or C applies.
2. A backflow-prevention assembly required to be installed by the customer under Paragraph 1 of this tariff shall comply with the requirements set forth in A.A.C. R18-4-215.D and E.
3. Subject to the provisions of A.A.C. R14-2-407 and 410, and in accordance with Paragraphs 1 and 7 of this tariff, the Company may terminate service or may deny service to a customer who fails to install a backflow-prevention assembly as required by this tariff.
4. The Company shall give any existing customer who is required to install a backflow-prevention assembly written notice of said requirement. If A.A.C. R14-2-410.B.1.a. is **not** applicable, the customer shall be given thirty (30) days from the time such written notice is received in which to comply with this notice. If the customer can show good cause as to why he cannot install the backflow-prevention assembly within thirty (30) days, the Company or Commission Staff may suspend this requirement for a reasonable period of time.

CROSS-CONNECTION OR BACKFLOW TARIFF
(continued)

5. Testing shall be in conformance with the requirements of A.A.C. R18-4-215.F. The Company may require the customer to pay to have the backflow-prevention assembly tested as long as the Company does not require an unreasonable number of tests.

6. The customer shall provide the Company with records of installation and testing. For each backflow-prevention assembly, these records shall include:

- a. assembly identification number and description;
- b. location
- c. date(s) of test(s);
- d. description of repairs and recommendations for repairs made by tester; and
- e. the tester's name and certificate number.

7. In the event the backflow-prevention assembly does not function properly or fails any test, and an obvious hazard as contemplated under A.A.C. R14-2-410.B.1.a. exists, the Company may terminate service immediately and without notice. The backflow-prevention assembly shall be repaired or replaced by the customer and retested.

8. In the event the backflow-prevention assembly does not function properly or fails any test, or in the event that a customer fails to comply with the testing requirement, and A.A.C. R14-2-410.B.1.a. is not applicable, the backflow prevention assembly shall be repaired or replaced within fourteen (14) days of the initial discovery of the deficiency in the assembly or its function. Failure to remedy the deficiency or dysfunction of the assembly, or failure to retest, shall be grounds for termination of water service in accordance with A.A.C R14-2-410.

ADJUSTOR MECHANISMS

PURCHASED WATER ADJUSTOR MECHANISM ("PWAM")

The PWAM allows the Company to pass through purchased water costs incurred by the Company to its customers. Details can be found in the Company's Purchased Water Adjustor Mechanism Plan of Administration.

Applicability

Applicable to all customers served by this service area.

PWAM Surcharge Rate for all Customers:

All usage per 1,000 gallons per month \$X.XXXX *

* Rate consists of \$X.XXXX per 1,000 gallons of usage to recover the over/under collection of prior years' surcharge and \$X.XXXX per 1,000 gallons of usage for the collection of current annual purchased water charges.

Terms and Conditions

The Company will annually file with the Commission by March 1 the proposed annual PWAM surcharge for the current calendar year. The filing shall contain a summary of all purchased water costs, total collections from the surcharge, and the updated surcharge amounts. All documentation to support the proposed surcharge will be included.

As part of each annual filing, the Company will perform a reconciliation for the prior reporting period comparing the amounts recovered from / refunded to customers to the amount of increase / decrease in water expenses due to changes in rates for that same period resulting in either an under / (over) recovery. This true-up will be included in the annual calculation.

The annual PWAM surcharge will be calculated based on the historic consumption of the applicable customers from the previous twelve months.

The revised PWAM surcharge will be effective on June 1 of each year.

The PWAM surcharge will appear on each applicable customer's bill as a separate line item.

All rates in this Schedule shall be subject to their proportionate part of any taxes or other governmental imposts that are assessed directly or indirectly on the basis of revenues derived from this Schedule.

ADJUSTOR MECHANISMS
(continued)

POWER COST ADJUSTOR MECHANISM ("PCAM")

The PCAM allows the Company to pass through purchase power costs for any gas or electric service provider supplying retail service to the Company to its customers. Details can be found in the Company's Power Cost Adjustor Mechanism Plan of Administration.

Applicability

Applicable to all customers served by this service area.

PCAM Surcharge Rate for all Customers:

All usage per 1,000 gallons per month \$X.XXXX *

* Rate consists of \$X.XXXX per 1,000 gallons of usage to recover the over/under collection of prior years' surcharge and \$X.XXXX per 1,000 gallons of usage for the collection of current power charges.

Terms and Conditions

The Company will annually file with the Commission by March 1 the proposed annual PCAM surcharge for the current calendar year. The filing shall contain a summary of all gas and electrical costs, total collections from the surcharge, and the updated surcharge amount. All documentation to support the proposed surcharge will be included.

As part of each annual filing, the Company will perform a reconciliation for the prior reporting period comparing the amounts recovered from/refunded to customers to the amount of increase/decrease in power expenses due to changes in rates for that same period resulting in either an under / (over) recovery. This true-up will be included in the annual calculation.

The annual PCAM surcharge will be calculated based on the historic consumption of the applicable customers from the previous twelve months.

The revised PCAM surcharge will be effective on June 1 of each year.

The PCAM surcharge will appear on each applicable customer bill as a separate line item.

All rates in this Schedule shall be subject to their proportionate part of any taxes or other governmental imposts that are assessed directly or indirectly on the basis of revenues derived from this Schedule.

ADJUSTOR MECHANISMS
(continued)

SYSTEM IMPROVEMENT BENEFIT MECHANISM ("SIB")

The SIB provides for recovery of the capital costs (return on investment, income taxes and depreciation expense) associated with distribution system improvement projects listed in SIB Plant Table I that have been verified to be complete, net of associated retirements and placed in service per SIB Table II. Details can be found in the Company's System Improvement Benefit Mechanism Plan of Administration.

Availability

Applicable to all customers served by this service area.

Schedule of Charges:

Meter Size	SIB Surcharge	SIB Efficiency Credit	NET SIB Surcharge
5/8" x 3/4" meter	\$ x.xx	\$ (x.xx)	\$ x.xx
3/4" meter	\$ x.xx	\$ (x.xx)	\$ x.xx
1" meter	\$ x.xx	\$ (x.xx)	\$ x.xx
1½" meter	\$ x.xx	\$ (x.xx)	\$ x.xx
2" meter	\$ x.xx	\$ (x.xx)	\$ x.xx
3" meter	\$ x.xx	\$ (x.xx)	\$ x.xx
4" meter	\$ x.xx	\$ (x.xx)	\$ x.xx
6" meter	\$ x.xx	\$ (x.xx)	\$ x.xx
8" meter	\$ x.xx	\$ (x.xx)	\$ x.xx
10" meter	\$ x.xx	\$ (x.xx)	\$ x.xx

Terms and Conditions

Once a SIB is approved in a decision, the Company must file with Docket Control semi-annual status reports.

The annual SIB surcharge will be calculated based on the historic system improvements of the eligible projects from the previous twelve months.

Once a SIB surcharge is implemented the Company must file annually to true-up its SIB Surcharge collections over the preceding twelve months with the SIB Authorized Revenues for that period and establish a surcharge or credit to true up over or under collections. Filings dates for these annual true-ups shall be as established in the Decision.

The SIB surcharge, SIB efficiency credit and net SIB surcharge will all appear as separate line items on each applicable customer bill.

All rates in this Schedule shall be subject to their proportionate part of any taxes or other governmental imposts that are assessed directly or indirectly on the basis of revenues derived from this Schedule.

ADJUSTOR MECHANISMS
(continued)

PROPERTY TAX ADJUSTOR MECHANISM ("PTAM")

The PTAM allows the Company to pass through to its customers the increases or decreases in property tax expenses that result from changes to the assessment ratio or property tax rate. Pass through costs will be divided equally between residential and non-residential customer classes to collect the total increase over a 12-month period. Details can be found in the Company's Property Tax Adjustor Mechanism Plan of Administration.

Applicability

Applicable to all customers served by this service area.

PTAM Surcharge Rate for all Customers:

All usage per 1,000 gallons per month \$X.XXXX *

* Rate consists of \$X.XXXX per 1,000 gallons of usage to recover the over/under collection of prior years' surcharge and \$X.XXXX per 1,000 gallons of usage for the collection of current power charges.

Terms and Conditions

The Company will annually file with the Commission by March 1 the proposed annual PTAM surcharge for the current calendar year. The filing shall detail how the Company's property tax expenses were calculated by parcel by year. These calculations will include full cash value, assessment ratio, and tax rates by parcel. All documentation to support the proposed surcharge will be included.

As part of each annual filing, the Company will perform a reconciliation for the prior reporting period comparing the amounts recovered from/refunded to customers to the amount of increase/decrease in property tax expenses due to changes in rates for that same period resulting in either an under / (over) recovery. This true-up will be included in the annual calculation.

The revised PTAM surcharge will be effective on June 1 of each year.

The PTAM surcharge will appear on each applicable customer bill as a separate line item.

All rates in this Schedule shall be subject to their proportionate part of any taxes or other governmental imposts that are assessed directly or indirectly on the basis of revenues derived from this Schedule.

Mohave Water District
(Name of Service Area)

BILLING ADJUSTMENT TARIFF

1. PURPOSE

1.1. To outline EPCOR's general procedure on adjusting customer water utility bills.

2. SCOPE

2.1. This procedure pertains to billing adjustments for accounts with lost meters, stopped meters, and other situations where usage has been identified or service received but not billed (or under billed). Parameters within this procedure do not necessarily apply to situations where customer tampering, theft, or other actions that prevent access to the water meter are involved.

3. PROCEDURE

3.1. **Timeframe** – In cases where accounts have been identified as having water usage but have not been billed (or have been under billed), EPCOR will adjust the bill for the period identified not to exceed two years from the point of customer notification or adjustment generation. Customers will be provided the ability to spread their payments for the adjustment amount over the same time period for which the usage occurred. EPCOR will have the option of spreading the payment term beyond the original usage period, depending on the circumstances, with approval from the Customer Service Manager or Customer Service Director.

3.2. **Estimated Usage for Stopped Meters** – Usage for stopped meters will generally be calculated based on historical usage for similar timeframes. If the customer has had changes in their usage pattern based on conservation efforts, economic factors, leak repairs, or changes to the number of occupants, these *may* be considered in adjusting the usage estimate from historical data. There may be cases where the usage is monitored or a period of time after the meter has been replaced to determine the appropriate billing adjustment amount.

3.3. **Meter Accuracy Corrections** – If any meter after testing is found to be more than 3% inaccurate, either fast or slow, proper correction between 3% and the amount of the error shall be made of previous readings and adjusted bills shall be rendered according to the following terms:

3.3.1. For the period of 3 months immediately preceding the removal of such meter from service for test or from the time the meter was in service since last tested, but not exceeding 3 months since the meter shall have been shown to be in error by such test, or

3.3.2. From the date the error occurred, if the date of the cause can be definitely fixed.

3.3.3. No adjustment shall be made by the utility except to the customer last served by the meter tested.

BILLING ADJUSTMENT TARIFF
(continued)

- 3.4. **Managing Large and/or Extended Adjustments** – Bill adjustment amounts over \$2,500 that extend beyond two billing cycles will be reviewed by EPCOR and communication with the customer will be attempted prior to posting the bill to the customer account. Three unsuccessful attempts to contact the customer via the contact means provided on the customer account shall release the bill to the customer’s account for posting.
- 3.5. **Customer Appeals** – Customers may appeal adjustment decisions in writing or by contacting a customer care representative the appeal will be escalated to the appropriate party and a determination will be made within 90 days.
- 3.6. **Exceptions** – It is recognized that there may be specific situations or unique circumstances where there is a management decision not to adjust a customer or group of customers.

GENERAL WATER RATE
(continued)

Terms and Conditions

~~Water service under this Schedule is for the exclusive use of the Customer and water shall not be resold or provided to others.~~

Water service provided under this rate schedule is subject to ~~the Company's~~ this District's Rules and Regulations applicable to Water Service and may be subject to ~~the Company's~~ this District's Miscellaneous Service Charges set forth in Rate Schedule Service Charges and adjustor mechanisms included in the Company's tariff on file with the Arizona Corporation Commission.

~~Water service under this Schedule is for the exclusive use of the Customer and water shall not be resold or provided to others.~~

~~All advances and/or contributions are to include labor, materials, overheads, and all applicable taxes, including all gross-up taxes for income taxes, if applicable.~~

In addition to the collection of regular rates, the utility will collect from its customers a proportionate share of any privilege, sales, use, and franchise tax. Per Commission Rule 14-2-409D(5).

~~A 1½% late payment penalty will be applied to account balances not paid within fifteen (15) days after the postmark date of the bill in accordance with Arizona Administrative Code R14-2-310.C.~~

** Low Income Program – Monthly Low Income Credit of \$~~10.00~~5.84 is available in the Mohave Water ~~District~~bringing the basic service charge down from \$14.61 to \$8.77. Requires the completion of a Low Income Program Application. Program is restricted to the first ~~4,000~~475 eligible residential customers on 5/8 x 3/4 inch meters in the Mohave Water district. Applicants must swear that he/she has annual income below the threshold. The threshold is below 150% of the federal low income guidelines as periodically revised. Applicant may not be claimed as a dependent on another person's tax return. Applicant must reapply each time moving residences. Refusal or failure to provide acceptable documentation of eligibility, upon request, shall result in removal from the low income program. Rebilling of customers under the otherwise applicable rate schedule may occur for periods of ineligibility previously billed under the low income tariff. Annual income means the value of all money and non-cash benefits available for living expenses, from all sources, both taxable and non-taxable, before deductions, for all people who live with the applicant.

Other Public Authority (OPA) - National, state, or local governmental agencies or public schools.

Terms and Conditions (continued)

3. The maximum diameter of the service connection will not be more than the diameter of the main to which the service is connected. The maximum diameter of a fire hydrant connection will not be more than the diameter of the main to which the fire hydrant is connected.
4. The customer's installation must be such as to separate effectively the fire sprinkler system from that of the customer's regular water service. As a part of the sprinkler service installation, there shall be a detector check or other similar device acceptable to the Company that will indicate the use of water. Any unauthorized use will be charged for at the regular established rate for general metered service, and may be grounds for the Company's discontinuing the fire sprinkler service without liability to the Company.
5. There shall be no cross-connection between the fire sprinkler system supplied by water through the Company's fire sprinkler service to any other source of supply without the specific approval of the Company. This specific approval will require, at the customer's expense, a special double check valve installation or other device acceptable to the Company. Any such unauthorized cross-connection may be grounds for immediately discontinuing the sprinkler system service without liability to the Company.
6. The Company will supply only such water at such pressure as may be available from time to time as the result of its normal operations of the system. The Company shall not be liable to any party at any time under any circumstances for any damages resulting from high or low water pressure, failure of water supply or malfunction, failure or inadequacy of equipment, regardless of the cause of any such pressure, malfunction, failure or inadequacy.
7. Other Public Authority (OPA) National, state, or local governmental agencies or public schools.

COMMON FACILITIES HOOK-UP FEE

I. Purpose and Applicability

~~The purpose of the Common Facilities hook-up fee payable to EPCOR Water Arizona, Inc. ("the Company") pursuant to this tariff is to equitably apportion the costs of constructing additional common water facility infrastructure to provide water production, delivery, treatment, storage and pressure among all new service connections. These charges are applicable to all new service connections established after the effective date of this tariff. The charges are one-time charges and are payable as a condition to the Company's establishment of service, as more particularly provided below.~~

II. Definitions

~~Unless the context otherwise requires, the definitions set forth in R-14-2-401 of the Arizona Corporation Commission's ("Commission") rules and regulations governing water utilities shall apply interpreting this tariff schedule.~~

~~"Applicant" means any party entering into an agreement with the Company for the installation of water facilities to serve new service connections, and may include developers and/or builders of new residential subdivisions.~~

~~"Main Extension Agreement" means any agreement whereby an Applicant, Developer and/or Builder agrees to advance the costs of the installation of water facilities, which may include Common Facilities, to the Company to serve new service connections, or install water facilities to serve new service connections and transfer ownership of such water facilities to the Company, in either case which agreement shall require the approval of the Commission pursuant to A.A.C. R-14-2-406, and shall have~~

the same meaning as "Water Facilities Agreement" or "Line Extension Agreement."

"Common Facilities" means all wells, storage tanks, production, treatment, booster pumps, pressure tanks, transmission mains and related appurtenances, including engineering and design costs, constructed for the benefit of the entire water system and not for the exclusive use of the Applicant's development.

"Service Connection" means and includes all service connections for single-family residential or other uses, regardless of meter size.

COMMON FACILITIES HOOK-UP FEE
(continued)

III. Common Facilities Water Hook-up Fee

For each new service connection, the Company shall collect a Common Facilities hook-up fee derived from the following table:

<u>COMMON FACILITIES HOOK-UP FEE TABLE</u>		
<u>Meter Size</u>	<u>Size Factor</u>	<u>Total Fee</u>
<u>5/8" x 3/4"</u>	<u>1</u>	<u>\$3,280.001,680.00</u>
<u>3/4"</u>	<u>1.5</u>	<u>\$4,920.002,520.00</u>

<u>3"</u>	<u>16</u>	<u>\$52,480.0026,880.00</u>
<u>4"</u>	<u>25</u>	<u>\$82,000.0042,000.00</u>
<u>6" or larger</u>	<u>50</u>	<u>\$164,000.0084,000.00</u>

IV. Terms and Conditions

(A) Assessment of One Time Common Facilities Hook-up Fee: The Common Facilities hook-up fee may be assessed only once per parcel, service connection, or lot within a subdivision (similar to meter and service line installation charge).

(B) Use of Common Facilities Hook-up Fee: Common Facilities hook-up fees may only be used to pay for capital items of Common Facilities, or for repayment of loans obtained for installation of Common Facilities. Common Facilities hook-up fees shall not be used for repairs, maintenance, or operational purposes.

(C) Time of Payment:

1) In the event that the Applicant that will be constructing improvements is required to enter into a Main Extension Agreement, payment of the Common Facilities hook-up fees required hereunder shall be made by the Applicant no later than within 15 calendar days after receipt of notification from the Company that the Utilities Division of the Arizona Corporation Commission has approved the Main Extension Agreement in accordance with R-14-2-406(M).

COMMON FACILITIES HOOK-UP FEE
(continued)

2) In the event that the Applicant for service is not required to enter into a Main Extension Agreement, the charges hereunder shall be due and payable at the time the meter and service line installation fee is due and payable.

(D) Common Facilities Construction by Developer: The Company and Applicant may agree to construction of Common Facilities necessary to serve a particular development by Applicant which facilities are then conveyed to the Company. In that event, Company shall credit the total cost of such Common Facilities as an offset to the Common Facilities hook-up fees due under this Tariff. If the total cost of the Common Facilities constructed by Applicant and conveyed to Company is less than the applicable Common Facilities hook-up fee due under this Tariff, Applicant shall pay the remaining amount of the Common Facilities hook-up fees owed hereunder. If the total cost of the Common Facilities contributed by Applicant, Developer or Builder and conveyed to Company is more than the applicable Common Facilities hook-up fees under this Tariff, Applicant shall be refunded the difference upon acceptance of the Common Facilities by the Company. The refund may be paid in installments over a period of time pursuant to an agreement between the Company and the developer on a case by case basis. The Company and Applicant may agree to construction of additional facilities that are not Common Facilities, the cost of which shall not be subject to off-set under this paragraph IV.D, but which will be subject to refund under R14-2-406(D).

(E) Failure to Pay Charges; Delinquent Payments: The Company will not be obligated to provide water service to any Applicant or other applicant for service in the event that such Applicant or other applicant for service has not paid in full all charges hereunder. Under no circumstances will the Company set a meter or otherwise allow service to be established if the entire amount of any payment has not been paid.

(F) Large Subdivision Projects: In the event that the Applicant is engaged in the development of a residential subdivision containing more than 150 lots, and is a party to a Main Extension Agreement with the Company for such development, the Company may, in its discretion, agree to payment of the Common Facilities hook-up fees in installments. Such installments may be based on the residential subdivision development's phasing, and should attempt to equitably apportion the payment of charges hereunder based on the Applicant's construction schedule and water service requirements.

(G) Common Facilities Hook-Up Fees Non-refundable: The amounts collected by the Company pursuant to the Common Facilities hook-up fee tariff shall be non-refundable contributions in aid of construction.

COMMON FACILITIES HOOK-UP FEE
(continued)

(H) Use of Common Facilities Hook-Up Fees Received: All funds collected by the Company as Common Facilities hook-up fees shall be deposited into a separate interest bearing trust account and used solely for the purposes of paying for the costs of the Common Facilities, including repayment of loans obtained for the installation of Common Facilities that will benefit the entire water system.

(I) Common Facilities Hook-up Fee in Addition to On-site Facilities: The Common Facilities hook-up fee shall be in addition to any costs associated with the construction of on-site facilities or other additional facilities under Paragraph IV.D, above, under a Main Extension Agreement.

(J) Disposition of Excess Funds: After all necessary and desirable Common Facilities are constructed utilizing funds collected pursuant to the Common Facilities hook-up fees, or if the Common Facilities hookup fee has been terminated by order of the Arizona Corporation Commission, any funds remaining in the trust shall be refunded. The manner of the refund shall be determined by the Commission at the time a refund becomes necessary.

(K) Fire Flow Requirements: In the event the Applicant has fire flow requirements that require additional facilities beyond those facilities whose costs were included in the Common Facilities hook-up fee, and which are contemplated to be constructed using the proceeds of the Common Facilities hook-up fee, the Company may require the Applicant to install such additional facilities as are required to meet those additional fire flow requirements, as a non-refundable contribution, in addition to paying the Common Facilities hook-up fee.

(L) Status Reporting Requirements to the Commission: The Company shall submit a calendar year Common Facilities hook-up fee status report each January 31^s to Docket Control for the prior twelve (12) month period, beginning January 31, 2014⁸, until the Common Facilities hook-up fee tariff is no longer in effect. This status report shall contain a list of all customers that have paid the Common Facilities hook-up fee tariff, the amount each has paid, the amount of money spent from the account, the amount of interest earned on the tariff account, and a list of all facilities that have been installed with the tariff funds during the 12-month period.

COMMON FACILITIES HOOK-UP FEE

(continued)

LARGE WATER-USERS

Any development with a projected average daily water demand greater than 1,700 gallons per day per acre is considered to be a Large User. Large Users will be required to provide an additional renewable water supply source to Utility to meet the demands of the development that are greater than 1,700 gallons per day per acre. Examples of a renewable water supply source include surface water or a groundwater well with long-term storage credits. The renewable water supply source must be approved by Utility, and must have the appropriately allocated water rights that will be conveyed to Utility. The cost to provide a renewable water supply source to Utility will not be credited as an offset to the Common Facilities Hook-Up Fee because such costs will be due to the exclusive need for additional water by the Large User; however, the cost of that portion of a renewable water supply source that is in excess of the Large User's needs will be credited as an offset to the Common Facilities Hook-Up Fee.

Large Users may be required to enter into an agreement with Utility that will define terms and conditions, and will include fees that will be charged to Large Users for over usage. Fees will incur if Large Users use water in excess of the supply source provided, which will be reviewed by Utility on an annual basis. Continued excessive use could result in Utility requiring the Large User to develop and implement a water use reduction plan or, as a last resort, court action.

CURTAILMENT TARIFF
(continued)

Notice Requirements: Under Stage 2, the Company is required to notify customers by delivering written notice door to door at each service address, or by United States first class mail to the billing address or, at the Company's option, both. Such notice shall notify the customers of the general nature of the problem and the need to conserve water.

Stage 3 Exists When:

- a. Company's total water storage or well production has been less than 50 percent of capacity for at least 24 consecutive hours, and
- b. Company has identified issues such as a steadily declining water table, increased draw down threatening pump operations, or poor water production, creating a reasonable belief the Company will be unable to meet anticipated water demand on a sustained basis.

Restrictions: Under Stage 3, Company shall request the customers to voluntarily employ water conservation measures to reduce daily consumption by approximately 50 percent. All outside watering should be eliminated, except livestock, and indoor water conservation techniques should be employed whenever possible. Standpipe service shall be suspended.

Notice Requirements:

- 1. Company is required to notify customers by delivering written notice to each service address, or by United States first class mail to the billing address or, at the Company's option, both. Such Notice shall notify the customers of the general nature of the problem and the need to conserve water.
- 2. Beginning with Stage 3, Company shall post at least four (4) signs showing the curtailment stage. Signs shall be posted at the well and/or pump sites located within the Mohave Water District.
- 3. Company shall notify the Consumer Services Section of the Utilities Division of the Corporation Commission at least 12 hours prior to entering Stage 3.

Once Stage 3 has been reached, the Company must begin to augment the supply of water by either hauling or through an emergency interconnect with an approved water supply in an attempt to maintain the curtailment at a level no higher than Stage 3 until a permanent solution has been implemented.

Local and/or Regional Messaging Program Tariff – BMP 1.1**PURPOSE**

A program for the Company to actively participate in a water conservation campaign with local or regional advertising (Modified Non-Per Capita Conservation Program BMP Category 1: Public Awareness/Public Relations 1.1: Local and/or Regional Messaging Program).

REQUIREMENTS

The requirements of this tariff are governed by Rules of the Arizona Corporation Commission and were adapted from the Arizona Department of Water Resources' Required Public Education Program and Best Management Practices in the Modified Non-Per Capita Conservation Program.

1. The Company or designated representative shall actively participate in water conservation campaign with local and/or regional advertising.
2. The campaign shall promote ways for customers to save water.
3. The Company shall facilitate the campaign through one or more of the following avenues (not an all inclusive list):
 - a. Television commercials
 - b. Radio commercials
 - c. Websites
 - d. Promotional materials
 - e. Vehicle signs
 - f. Bookmarks
 - g. Magnets
4. The Company shall keep a record of the following information and make it available to the Commission upon request:
 - a. A description of the messaging program implemented and program dates.
 - b. The number of customers reached (or an estimate).
 - c. Costs of Program implementation.

Youth Conservation Education Program Tariff – BMP 2.2

PURPOSE

A program for the Company to promote water conservation by increasing students’ understanding of water resources and the need to conserve (Modified Non-Per Capita Conservation Program BMP Category 2: Conservation Education and Training 2.2: Youth Conservation Education Program).

REQUIREMENTS

The requirements of this tariff are governed by Rules of the Arizona Corporation Commission and were adapted from the Arizona Department of Water Resources’ Required Public Education Program and Best Management Practices in the Modified Non-Per Capita Conservation Program.

- 1. The Company or designated representative shall work with schools in its service area to increase students’ understanding of water resources and to promote water conservation.
- 2. The Company shall provide a combination of instructional assistance, education materials, teacher education, classroom presentations, and field trips to water related facilities.
- 3. The Company shall provide the following teacher resources.
 - a. Offer Project WET (Water Education for Teachers) workshops to teachers twice yearly. In lieu of Project WET the Company may market its Water Conservation Assembly Program to all schools within its service area. The Water Conservation Assembly Program will focus on teaching students about water resources and water conservation. The assembly itself will be an interactive water conservation discussion.
 - b. Provide free resource materials and information upon request.
 - c. Provide in-classroom presentations upon request.
- 4. The Company shall make available free take home educational materials for elementary school students.
- 5. The Company shall keep a record of the following information and make it available upon request.
 - a. A description of the youth conservation education process implemented.
 - b. The number of students reached (or an estimate).
 - c. A description of the written water conservation material provided free to students.
 - d. Costs of the Youth Conservation Education Program implementation.

New Homeowner Landscape Information Tariff – BMP 2.3

PURPOSE

A program for the Company to promote the conservation of water by providing a landscape information package for the purpose of educating its new customers about low water use landscaping (Modified Non-Per Capita Conservation Program BMP Category 2: Conservation Education and Training 2.3: New Homeowner Landscape Information).

REQUIREMENTS:

The requirements of this tariff are governed by Rules of the Arizona Corporation Commission and were adapted from the Arizona Department of Water Resources' Required Public Education Program and Best Management Practices in the Modified Non-Per Capita Conservation Program.

- 1. Upon establishment of water service the Company shall offer and make available upon request a free "Homeowner Landscape Packet" to each new customer in the Company's service area. The packet will include at a minimum: a cover letter describing the water conservation expectations for all customers in the Company's service area, applicable rate tariffs, a basic interior/exterior water saving pamphlet, xeriscape landscape information, a list of low water use trees, plants, shrubs, etc., watering guidelines, and a rain water harvesting pamphlet.
- 2. Upon customer request, the Company shall provide:
 - a. On-site consultations on low water use landscaping and efficient watering practices.
 - b. A summary of water saving options.
- 3. The Company shall keep a record of the number of packets provided to new customers and make it available to the Commission upon request.

Residential Audit Program Tariff – BMP 3.1

PURPOSE

A program for the Company to promote water conservation by providing customers with information on performing water audits to determine conservation opportunities at their residence (Modified Non-Per Capita Conservation Program BMP Category 3: Outreach Services 3.1: Residential Audit Program).

REQUIREMENTS

The requirements of this tariff are governed by Rules of the Arizona Corporation Commission and were adapted from the Arizona Department of Water Resources' Required Public Education Program and Best Management Practices in the Modified Non-Per Capita Conservation Program.

1. The Company shall offer self-audit information.
2. The Company or designated representative shall provide all customers that request them with a self-audit kit.
3. The kit shall include detailed instructions and tools for completing the water audit including information on how to check their water meter. The audit kit shall include but not be limited to information on checking the following components: irrigation system, pool, water features, toilets, faucets and shower.
4. If requested, the Company shall assist the customer in a self-water audit and assist the customer in determining what might be causing high water usage as well as supply customer with information regarding water conservation and landscape watering guidelines. As part of the water audit, and if requested to do so by the customer, the Company shall confirm the accuracy of the customer meter (applicable meter testing fees shall apply).
5. The Company shall keep a record of the following information and make it available to the Commission upon request:
 - a. A description of the water conservation material provided in the kit.
 - b. The number of kits provided to customers.
 - c. Implementation costs of the Residential Audit Program.

Residential Interior Retrofit Program Tariff – BMP 3.4

PURPOSE

A program for the Company to promote water conservation by providing residential customers free or low cost plumbing fixtures for their residence (Modified Non-Per Capita Conservation Program BMP Category 3: Outreach Services 3.4: Residential Interior Retrofit Program).

REQUIREMENTS

The requirements of this tariff are governed by Rules of the Arizona Corporation Commission and were adapted from the Arizona Department of Water Resources' Required Public Education Program and Best Management Practices in the Modified Non-Per Capita Conservation Program.

1. The Company or designated representative shall provide to residential customers that request them that live in homes built prior to the adoption of the 1990 Uniform Plumbing Code free or low cost low water use fixtures such as faucets, faucet aerators, low flow shower heads, toilets and toilet dams. The Company must offer the fixtures/fixture retrofits to all residential customers meeting the above criteria unless the Company can demonstrate that targeting certain portions of its water service area is likely to yield the highest participation and/or potential water savings.

2. The fixtures or retrofit kit shall include detailed instructions for installing the retrofit fixtures.

3. The Company shall select appropriate communications channels to advertize the program.

4. The Company shall keep a record of the following information and make it available to the Commission upon request:
 - a. A description of the Residential Interior Retrofit Program including a description of the fixtures provided to customers and estimated water savings as a result of Program implementation.
 - b. The number of retrofit fixtures requested by customers and the number of fixtures provided.
 - c. Costs of the Residential Interior Retrofit Program.

Customer High Water Use Inquiry Resolution Tariff – BMP 3.6

PURPOSE

A program for the Company to assist its customers with their high water-use inquiries and complaints (Modified Non-Per Capita Conservation Program BMP Category 3: Outreach Services 3.6: Customer High Water Use Inquiry Resolution).

REQUIREMENTS

The requirements of this tariff are governed by Rules of the Arizona Corporation Commission and were adapted from the Arizona Department of Water Resources' Required Public Education Program and Best Management Practices in the Modified Non-Per Capita Conservation Program.

1. The Company shall handle high water use inquiries as calls are received.
2. Calls shall be taken by a customer service representative who has been trained on typical causes of high water consumption as well as leak detection procedures that customers can perform themselves.
3. Upon request by the customer or when the Company determines it is warranted, a trained Field Technician shall be sent to the customer's residence to verify consumption and conduct a leak detection inspection and further assist the customer with water conservation measures.
4. The Company shall follow up on every customer inquiry or complaint and keep a record of inquiries and follow-up activities. The Company shall make this information available to the Commission upon request.

Customer High Water Use Notification Tariff – BMP 3.7**PURPOSE**

A program for the Company to monitor and notify customers when water use seems to be abnormally high and provide information that could benefit those customers and promote water conservation (Modified Non-Per Capita Conservation Program BMP Category 3: Outreach Services Program 3.7: Customer High Water Use Notification).

REQUIREMENTS

The requirements of this tariff are governed by Rules of the Arizona Corporation Commission and were adapted from the Arizona Department of Water Resources' Required Public Education Program and Best Management Practices in the Modified Non-Per Capita Conservation Program.

1. The Company shall track water usage for each customer and notify the customer if water use seems excessive for that particular billing for that time of the year.
2. The Company shall identify customers with high consumption, verify the high consumption, and investigate each instance to determine the possible cause.
3. The Company shall contact the high water use customers via telephone, email, by mail or in person. The Company shall contact the customer as soon as practical in order to minimize the possible loss of water. The customer will not be required to do anything to receive this notification.
4. In the notification the Company shall explain some of the most common water usage problems and common solutions and points of contact for dealing with the issues.
5. In the notification, the customer will be reminded of possible high water-consumption occurrences, such as:
 - a. Leaks, running toilets, or valves or flappers that need to be replaced.
 - b. Irrigation system valves or sprinkler heads which may be leaking.
 - c. Sprinklers that may be watering the house, sidewalk, or street, etc. increasing irrigation requirements.
 - d. Leaking pool or spas and possible leaks around pumps.
 - e. More people in the home than usual taking baths and showers.
 - f. Doing more loads of laundry than usual.
 - g. Doing a landscape project or starting a new lawn.
 - h. Washing vehicles more often than usual.

Leak Detection Program Tariff – BMP 4.1

PURPOSE

A program for the Company to systematically evaluate its water distribution system to identify and repair leaks (Modified Non-Per Capita Conservation Program Best Management Practice Category 4: Physical System Evaluation and Improvement 4.1 Leak Detection Program).

REQUIREMENTS

The requirements of this tariff are governed by Rules of the Arizona Corporation Commission and were adapted from the Arizona Department of Water Resources' Required Public Education Program and Best Management Practices in the Modified Non-Per Capita Conservation Program.

On a systematic basis, the Company shall perform leak detection inspections of its distribution system to identify and fix leaks.

This program shall be implemented through a strategy of targeting certain portions of the water service area which will yield the highest potential for water savings first.

1. The Company shall implement a comprehensive leak detection and repair program to attain and maintain a goal of less than 10 percent unaccounted for water loss in its system(s). The program must include auditing procedures, in-field leak detection and repair efforts. The Company shall take whatever practical steps are necessary to ensure that its water system is operating at optimal efficiency.
2. On a systematic basis, at least every two years (annually for smaller systems), the Company shall visually inspect its above ground water distribution system (to include hydrants, valves, tanks, pumps, etc. in the distribution system) to identify and repair leaks. Detection shall be followed by repair or in some cases replacement. Repair vs. replacement will depend upon site-specific leakage rates and costs.
3. Leak Detection efforts should focus on the portion of the distribution system with the greatest expected problems, including:
 - a. areas with a history of excessive leak and break rates;
 - b. areas where leaks and breaks can result in the heaviest property damage;
 - c. areas where system pressure is high;
 - d. areas exposed to stray current and traffic vibration;
 - e. areas near stream crossings; and,
 - f. areas where loads on pipe may exceed design loads.

Leak Detection Program Tariff – BMP 4.1**(continued)**

4. The Company shall keep accurate and detailed records concerning its leak detection and repair/rehabilitation program and the associated costs. Records of repairs shall include: possible causes of leak; estimated amount of water lost; and date of repair. These records shall be made available to the Commission upon request.
5. The Company shall maintain a complete set of updated distribution system maps.
6. The Company shall conduct a water audit annually which includes the following steps to determine how efficient each water system is operating and where the losses might be.
 - a. Use coordinated monthly source and service meter readings to calculate how much water enters and leaves the system during the 12 month review period.
 - b. Track and estimate any unmetered authorized uses.
 - c. Calculate the total amount of leakage using the following formula:

$$\text{Unaccounted for water (\%)} = [(\text{Production and/or purchased water minus metered use \& estimated authorized un-metered use}) / (\text{Production and/or purchased water})] \times 100\%$$
 - d. Authorized un-metered uses may include firefighting, main flushing, process water for water treatment plants, etc. Water losses include all water that is not identified as authorized metered water use or authorized un-metered use.
 - e. Determine possible reasons for leakage, including physical leaks and unauthorized uses.
 - f. Analyze results to determine the improvements needed, such as, better accounting practices, leak survey or replacing old distribution pipes.
7. The Company shall keep accurate and detailed records concerning its annual water audit results. These records shall be made available to the Commission upon request.

Meter Repair and/or Replacement Tariff – BMP 4.2

PURPOSE

A program for the Company to systematically assess all in-service water meters (including Company production meters) in its water service area to identify under-registering meters and to repair or replace them (Modified Non-Per Capita Conservation Program Best Management Practice Category 4: Physical System Evaluation and Improvement 4.2 Meter Repair and/or Replacement Program).

REQUIREMENTS

The requirements of this tariff are governed by Rules of the Arizona Corporation Commission and were adapted from the Arizona Department of Water Resources' Required Public Education Program and Best Management Practices in the Modified Non-Per Capita Conservation Program.

1. On a systematic basis, the Company will replace all 2-inch and smaller in-service water meters at least once every ~~fifteen~~twelve years.
2. The Company will test all meters that have caused a meter reading complaint to be filed with the Arizona Corporation Commission.
3. Meters larger than 2-inch shall be tested for one of the following reasons:
 - a. A meter reading complaint is filed with the Company by a customer or Arizona Corporation Commission Staff,
 - b. A meter has been in service for five years.
4. The test will be accomplished by one of the following:
 - a. Having the meter pulled and having a Company Technician physically inspect each meter and its fittings for leaks, registers which may have become loose or are not properly attached to the meter and could be under-registering or other broken parts which need repair.
 - b. Utilizing equipment to verify that all electronic components are within manufacturer specifications and are operating properly.
5. In addition, meters shall be randomly selected for flow testing utilizing a flow through detector testing meter.
6. All replacement water meters shall register in gallons:
 - a. All new 1-inch and smaller meters that are installed will register usage in 1 gallon increments,
 - b. All new 1-1/2-inch through 4-inch meters that are installed will register in 10 gallon increments, and
 - c. All new 6-inch and larger meters that are installed will register in 100 gallon increments.
7. The Company shall keep records on the number of meters that were replaced and make this information available to the Commission upon request.

Water System Tampering Tariff~~**ATER SYSTEM TAMPERING TARIFF**~~ – **BMP 5.2****PURPOSE**

The purpose of this tariff is to promote the conservation of groundwater by enabling the Company to bring an action for damages or to enjoin any activity against a person who tampers with the water system.

REQUIREMENTS:

The requirements of this tariff are governed by Rules of the Arizona Corporation Commission, specifically Arizona Administrative Code ("AAC") R14-2-410 and the Arizona Department of Water Resources' Required Public Education Program and Best Management Practices in the Modified Non-Per Capita Conservation Program.

1. In support of the Company's water conservation goals, the Company may bring an action for damages or to enjoin any activity against a person who: (1) makes a connection or reconnection with property owned or used by the Company to provide utility service without the Company's authorization or consent; (2) prevents a Company meter or other device used to determine the charge for utility services from accurately performing its measuring function; (3) tampers with property owned or used by the Company; or (4) uses or receives the Company's services without the authorization or consent of the Company and knows or has reason to know of the unlawful diversion, tampering or connection. If the Company's action is successful, the Company may recover as damages three times the amount of actual damages.
2. Compliance with the provisions of this tariff will be a condition of service.
3. The Company shall make available to all its customers a complete copy of this tariff and AAC R14-2-410. The customers shall follow and abide by this tariff.
4. If a customer is connected to the Company water system and the Company discovers that the customer has taken any of the actions listed in No. 1 above, the Company may terminate service per AAC R14-2-410.
5. If a customer believes he/she has been disconnected in error, the customer may contact the Commission's Consumer Services Section at 1-800-222-7000 to initiate an investigation.

TARIFF**WATER SERVICES TERMINATION AGREEMENT
WITH THE CITY OF BULLHEAD CITY**

EPCOR Water Arizona Inc. ("Company") has been granted a variance from Arizona Corporation Commission Rule A.A.C. R14-2-410.A.2 for the limited purpose of entering into a Water Service Termination Agreement ("Agreement") with the City of Bullhead City ("City"), a municipal provider of wastewater service, for common customers purchasing water from the Company and wastewater from the City. The purpose of this Tariff, and the authorized variance from A.A.C. R14-2-410.A.2, is to assist the City in collecting delinquent payments for wastewater utility service provided to common customers of the Company.

The Company shall comply with the terms and conditions of the Agreement.

The Agreement with the City is attached to and incorporated into this tariff.

CROSS-CONNECTION OR BACKFLOW TARIFF

PURPOSE:

The purpose of this tariff is to protect EPCOR Water Arizona, Inc.'s Mohave Water District's ("Company") water from the possibility of contamination caused by the backflow of contaminants that may be present on the customer's premises by requiring the installation and periodic testing of backflow prevention assemblies pursuant to the provisions of the Arizona Administrative Code ("A.A.C.") R14-2-405.B.6 and A.A.C. R18-4-215.

REQUIREMENTS:

In compliance with the Rules of the Arizona Corporation Commission ("Commission") and the Arizona Department of Environmental Quality ("ADEQ"), specifically A.A.C. R14-2-405.B.6 and A.A.C. R18-4-215 relating to backflow prevention:

1. The Company may require a customer to pay for and to have installed a backflow-prevention assembly if A.A.C. R18-4-215.B or C applies.
2. A backflow-prevention assembly required to be installed by the customer under Paragraph 1 of this tariff shall comply with the requirements set forth in A.A.C. R18-4-215.D and E.
3. Subject to the provisions of A.A.C. R14-2-407 and 410, and in accordance with Paragraphs 1 and 7 of this tariff, the Company may terminate service or may deny service to a customer who fails to install a backflow-prevention assembly as required by this tariff.
4. The Company shall give any existing customer who is required to install a backflow-prevention assembly written notice of said requirement. If A.A.C. R14-2-410.B.1.a. is **not** applicable, the customer shall be given thirty (30) days from the time such written notice is received in which to comply with this notice. If the customer can show good cause as to why he cannot install the backflow-prevention assembly within thirty (30) days, the Company or Commission Staff may suspend this requirement for a reasonable period of time.

ADJUSTOR MECHANISMS

PURCHASED WATER ADJUSTOR MECHANISM ("PWAM")

The PWAM allows the Company to pass through purchased water costs incurred by the Company to its customers. Details can be found in the Company's Purchased Water Adjustor Mechanism Plan of Administration.

Applicability

Applicable to all customers served by this service area.

PWAM Surcharge Rate for all Customers:

All usage per 1,000 gallons per month \$X.XXXX *

* Rate consists of \$X.XXXX per 1,000 gallons of usage to recover the over/under collection of prior years' surcharge and \$X.XXXX per 1,000 gallons of usage for the collection of current annual purchased water charges.

Terms and Conditions

The Company will annually file with the Commission by March 1 the proposed annual PWAM surcharge for the current calendar year. The filing shall contain a summary of all purchased water costs, total collections from the surcharge, and the updated surcharge amounts. All documentation to support the proposed surcharge will be included.

As part of each annual filing, the Company will perform a reconciliation for the prior reporting period comparing the amounts recovered from / refunded to customers to the amount of increase / decrease in water expenses due to changes in rates for that same period resulting in either an under / (over) recovery. This true-up will be included in the annual calculation.

The annual PWAM surcharge will be calculated based on the historic consumption of the applicable customers from the previous twelve months.

The revised PWAM surcharge will be effective on June 1 of each year.

The PWAM surcharge will appear on each applicable customer's bill as a separate line item.

All rates in this Schedule shall be subject to their proportionate part of any taxes or other governmental imposts that are assessed directly or indirectly on the basis of revenues derived from this Schedule.

POWER COST ADJUSTOR MECHANISM ("PCAM")

The PCAM allows the Company to pass through purchase power costs for any gas or electric service provider supplying retail service to the Company to its customers. Details can be found in the Company's Power Cost Adjustor Mechanism Plan of Administration.

Applicability

Applicable to all customers served by this service area.

PCAM Surcharge Rate for all Customers:
All usage per 1,000 gallons per month \$X.XXXX *

* Rate consists of \$X.XXXX per 1,000 gallons of usage to recover the over/under collection of prior years' surcharge and \$X.XXXX per 1,000 gallons of usage for the collection of current power charges.

Terms and Conditions

The Company will annually file with the Commission by March 1 the proposed annual PCAM surcharge for the current calendar year. The filing shall contain a summary of all gas and electrical costs, total collections from the surcharge, and the updated surcharge amount. All documentation to support the proposed surcharge will be included.

As part of each annual filing, the Company will perform a reconciliation for the prior reporting period comparing the amounts recovered from/refunded to customers to the amount of increase/decrease in power expenses due to changes in rates for that same period resulting in either an under / (over) recovery. This true-up will be included in the annual calculation.

The annual PCAM surcharge will be calculated based on the historic consumption of the applicable customers from the previous twelve months.

The revised PCAM surcharge will be effective on June 1 of each year.

The PCAM surcharge will appear on each applicable customer bill as a separate line item.

All rates in this Schedule shall be subject to their proportionate part of any taxes or other governmental imposts that are assessed directly or indirectly on the basis of revenues derived from this Schedule.

ADJUSTOR MECHANISMS
(continued)

SYSTEM IMPROVEMENT BENEFIT MECHANISM ("SIB")

The SIB provides for recovery of the capital costs (return on investment, income taxes and depreciation expense) associated with distribution system improvement projects listed in SIB Plant Table I that have been verified to be complete, net of associated retirements and placed in service per SIB Table II. Details can be found in the Company's System Improvement Benefit Mechanism Plan of Administration.

Availability

Applicable to all customers served by this service area.

Schedule of Charges:

<u>Meter Size</u>	<u>SIB Surcharge</u>	<u>SIB Efficiency Credit</u>	<u>NET SIB Surcharge</u>
<u>5/8" x 3/4" meter</u>	<u>\$ x.xx</u>	<u>\$ (x.xx)</u>	<u>\$ x.xx</u>
<u>3/4" meter</u>	<u>\$ x.xx</u>	<u>\$ (x.xx)</u>	<u>\$ x.xx</u>
<u>1" meter</u>	<u>\$ x.xx</u>	<u>\$ (x.xx)</u>	<u>\$ x.xx</u>
<u>1½" meter</u>	<u>\$ x.xx</u>	<u>\$ (x.xx)</u>	<u>\$ x.xx</u>
<u>2" meter</u>	<u>\$ x.xx</u>	<u>\$ (x.xx)</u>	<u>\$ x.xx</u>
<u>3" meter</u>	<u>\$ x.xx</u>	<u>\$ (x.xx)</u>	<u>\$ x.xx</u>
<u>4" meter</u>	<u>\$ x.xx</u>	<u>\$ (x.xx)</u>	<u>\$ x.xx</u>
<u>6" meter</u>	<u>\$ x.xx</u>	<u>\$ (x.xx)</u>	<u>\$ x.xx</u>
<u>8" meter</u>	<u>\$ x.xx</u>	<u>\$ (x.xx)</u>	<u>\$ x.xx</u>
<u>10" meter</u>	<u>\$ x.xx</u>	<u>\$ (x.xx)</u>	<u>\$ x.xx</u>

Terms and Conditions

Once a SIB is approved in a decision, the Company must file with Docket Control semi-annual status reports.

The annual SIB surcharge will be calculated based on the historic system improvements of the eligible projects from the previous twelve months.

Once a SIB surcharge is implemented the Company must file annually to true-up its SIB Surcharge collections over the preceding twelve months with the SIB Authorized Revenues for that period and establish a surcharge or credit to true up over or under collections. Filings dates for these annual true-ups shall be as established in the Decision.

The SIB surcharge, SIB efficiency credit and net SIB surcharge will all appear as separate line items on each applicable customer bill.

All rates in this Schedule shall be subject to their proportionate part of any taxes or other governmental imposts that are assessed directly or indirectly on the basis of revenues derived from this Schedule.

ADJUSTOR MECHANISMS
(continued)

PROPERTY TAX ADJUSTOR MECHANISM ("PTAM")

The PTAM allows the Company to pass through to its customers the increases or decreases in property tax expenses that result from changes to the assessment ratio or property tax rate. Pass through costs will be divided equally between residential and non-residential customer classes to collect the total increase over a 12-month period. Details can be found in the Company's Property Tax Adjustor Mechanism Plan of Administration.

Applicability

Applicable to all customers served by this service area.

PTAM Surcharge Rate for all Customers:

All usage per 1,000 gallons per month \$X.XXXX *

* Rate consists of \$X.XXXX per 1,000 gallons of usage to recover the over/under collection of prior years' surcharge and \$X.XXXX per 1,000 gallons of usage for the collection of current power charges.

Terms and Conditions

The Company will annually file with the Commission by March 1 the proposed annual PTAM surcharge for the current calendar year. The filing shall detail how the Company's property tax expenses were calculated by parcel by year. These calculations will include full cash value, assessment ratio, and tax rates by parcel. All documentation to support the proposed surcharge will be included.

As part of each annual filing, the Company will perform a reconciliation for the prior reporting period comparing the amounts recovered from/refunded to customers to the amount of increase/decrease in property tax expenses due to changes in rates for that same period resulting in either an under / (over) recovery. This true-up will be included in the annual calculation.

The revised PTAM surcharge will be effective on June 1 of each year.

The PTAM surcharge will appear on each applicable customer bill as a separate line item.

All rates in this Schedule shall be subject to their proportionate part of any taxes or other governmental imposts that are assessed directly or indirectly on the basis of revenues derived from this Schedule.

BILLING ADJUSTMENT TARIFF

1. PURPOSE

1.1. To outline EPCOR's general procedure on adjusting customer water utility bills.

2. SCOPE

2.1. This procedure pertains to billing adjustments for accounts with lost meters, stopped meters, and other situations where usage has been identified or service received but not billed (or under billed). Parameters within this procedure do not necessarily apply to situations where customer tampering, theft, or other actions that prevent access to the water meter are involved.

3. PROCEDURE

3.1. **Timeframe** – In cases where accounts have been identified as having water usage but have not been billed (or have been under billed), EPCOR will adjust the bill for the period identified not to exceed two years from the point of customer notification or adjustment generation. Customers will be provided the ability to spread their payments for the adjustment amount over the same time period for which the usage occurred. EPCOR will have the option of spreading the payment term beyond the original usage period, depending on the circumstances, with approval from the Customer Service Manager or Customer Service Director.

3.2. **Estimated Usage for Stopped Meters** – Usage for stopped meters will generally be calculated based on historical usage for similar timeframes. If the customer has had changes in their usage pattern based on conservation efforts, economic factors, leak repairs, or changes to the number of occupants, these *may* be considered in adjusting the usage estimate from historical data. There may be cases where the usage is monitored or a period of time after the meter has been replaced to determine the appropriate billing adjustment amount.

3.3. **Meter Accuracy Corrections** – If any meter after testing is found to be more than 3% inaccurate, either fast or slow, proper correction between 3% and the amount of the error shall be made of previous readings and adjusted bills shall be rendered according to the following terms:

3.3.1. For the period of 3 months immediately preceding the removal of such meter from service for test or from the time the meter was in service since last tested, but not exceeding 3 months since the meter shall have been shown to be in error by such test, or

3.3.2. From the date the error occurred, if the date of the cause can be definitely fixed.

3.3.3. No adjustment shall be made by the utility except to the customer last served by the meter tested.

BILLING ADJUSTMENT TARIFF
(continued)

3.4. Managing Large and/or Extended Adjustments – Bill adjustment amounts over \$2,500 that extend beyond two billing cycles will be reviewed by EPCOR and communication with the customer will be attempted prior to posting the bill to the customer account. Three unsuccessful attempts to contact the customer via the contact means provided on the customer account shall release the bill to the customer’s account for posting.

3.5. Customer Appeals – Customers may appeal adjustment decisions in writing or by contacting a customer care representative the appeal will be escalated to the appropriate party and a determination will be made within 90 days.

3.6. Exceptions – It is recognized that there may be specific situations or unique circumstances where there is a management decision not to adjust a customer or group of customers.

EPCOR WATER ARIZONA INC.
NORTH MOHAVE WATER DISTRICT
FACTORS FOR ALLOCATING COST OF SERVICE TO CUSTOMER CLASS

FACTOR A. ALLOCATION OF COMMODITY COSTS.

Factors are based on the pro forma test year average daily consumption for each customer classification.

Classification (1)	Average Daily Consumption, 1000 Gallons (2)	Allocation Factor (5)
Residential	652	0.8499
Commercial	115	0.1501
Total	768	1.0000

FACTOR B. ALLOCATION OF MAXIMUM DAY DEMAND COSTS - TREATMENT AND PUMPING.

Factors are based on the maximum day demand for each customer classification.

Customer Classification (1)	Average Daily Consumption, 1000 Gallons (2)	Peak Day Factor (3)	Rate of Flow, 1000 Gallons Per Day (4)=(2)x(3)	Allocation Factor (5)
Residential	652	3.00	1,954	0.8723
Commercial	115	2.48	286	0.1277
Total	768		2,240	1.0000

FACTOR C. ALLOCATION OF MAXIMUM HOUR DEMAND COSTS.

Factors are based on the maximum hour demand for each customer classification.

Customer Classification (1)	Average Hourly Consumption, 1000 Gallons (2)	Peak Hour Factor (3)	Rate of Flow, 1000 Gallons Per Hour (4)=(2)x(3)	Allocation Factor (5)
Residential	27	4.96	135	0.8725
Commercial	5	4.11	20	0.1275
Total	32		155	1.0000

EPCOR WATER ARIZONA INC.
 NORTH MOHAVE WATER DISTRICT
 FACTORS FOR ALLOCATING COST OF SERVICE TO CUSTOMER CLASS

FACTOR D. ALLOCATION OF COSTS ASSOCIATED WITH METERS

Factors are based on the relative cost of meters by size and customer classification

Customer Classification <u>(1)</u>	5/8" Equivalents <u>(2)</u>	Allocation Factor <u>(3)</u>
Residential	2,088	0.9297
Commercial	158	0.0703
Total	<u>2,246</u>	<u>1.0000</u>

FACTOR E. ALLOCATION OF COSTS ASSOCIATED WITH SERVICES

Factors are based on the relative cost of meters by size and customer classification

Customer Classification <u>(1)</u>	3/4" Equivalents <u>(2)</u>	Allocation Factor <u>(3)</u>
Residential	2,025	0.9584
Commercial	88	0.0416
Total	<u>2,113</u>	<u>1.0000</u>

FACTOR F. ALLOCATION OF BILLING AND COLLECTING COSTS.

Factors are based on the total number of customers.

Customer Classification <u>(1)</u>	Total Customers <u>(2)</u>	Allocation Factor <u>(3)</u>
Residential	2,025	0.9582
Commercial	88	0.0418
Total	<u>2,113</u>	<u>1.0000</u>

EPCOR WATER ARIZONA INC.
 NORTH MOHAVE WATER DISTRICT

Factor G - ALLOCATION OF DIRECT FIRE

Decision No. XXXXX

North Mohave Water District
(Name of Service Area)

GENERAL WATER SERVICE
(continued)

Terms and Conditions

Water service provided under this rate schedule is subject to this District's Rules and Regulations applicable to Water Service and may be subject to this District's Service Charges set forth in Rate Schedule Service Charges and adjustor mechanisms included in the Company's tariffs on file with the Arizona Corporation Commission.

Water service under this Schedule is for the exclusive use of the Customer and water shall not be resold or provided to others.

In addition to the collection of regular rates, the utility will collect from its customers a proportionate share of any privilege, sales, use and franchise tax. Per Commission Rule 14-2-409.D.5.

A 1½% late payment penalty will be applied to account balances not paid within fifteen (15) days after the postmark date of the bill in accordance with Arizona Administrative Code R14-2-310.C.

Low Income Program- Monthly Low Income Credit of \$10.00 is available in the North Mohave Water district. Requires the completion of a Low Income Program Application. Program is restricted to the first 100 eligible residential customers on 5/8 x 3/4 inch meters in the North Mohave Water district. Applicants must swear that he/she has annual income below the threshold. The threshold is below 150% of the federal low income guidelines as periodically revised. Applicant may not be claimed as a dependent on another person's tax return. Applicant must reapply each time moving residences. Refusal or failure to provide acceptable documentation of eligibility, upon request, shall result in removal from the low income program. Rebilling of customers under the otherwise applicable rate schedule may occur for periods of ineligibility previously billed under the low income tariff. Annual income means the value of all money and non-cash benefits available for living expenses, from all sources, both taxable and non-taxable, before deductions, for all people who live with the applicant.

Local and/or Regional Messaging Program Tariff – BMP 1.1**PURPOSE**

A program for the Company to actively participate in a water conservation campaign with local or regional advertising (Modified Non-Per Capita Conservation Program BMP Category 1: Public Awareness/Public Relations 1.1: Local and/or Regional Messaging Program).

REQUIREMENTS

The requirements of this tariff are governed by Rules of the Arizona Corporation Commission and were adapted from the Arizona Department of Water Resources' Required Public Education Program and Best Management Practices in the Modified Non-Per Capita Conservation Program.

1. The Company or designated representative shall actively participate in water conservation campaign with local and/or regional advertising.
2. The campaign shall promote ways for customers to save water.
3. The Company shall facilitate the campaign through one or more of the following avenues (not an all inclusive list):
 - a. Television commercials
 - b. Radio commercials
 - c. Websites
 - d. Promotional materials
 - e. Vehicle signs
 - f. Bookmarks
 - g. Magnets
4. The Company shall keep a record of the following information and make it available to the Commission upon request:
 - a. A description of the messaging program implemented and program dates.
 - b. The number of customers reached (or an estimate).
 - c. Costs of Program implementation.

Youth Conservation Education Program Tariff – BMP 2.2**PURPOSE**

A program for the Company to promote water conservation by increasing students' understanding of water resources and the need to conserve (Modified Non-Per Capita Conservation Program BMP Category 2: Conservation Education and Training 2.2: Youth Conservation Education Program).

REQUIREMENTS

The requirements of this tariff are governed by Rules of the Arizona Corporation Commission and were adapted from the Arizona Department of Water Resources' Required Public Education Program and Best Management Practices in the Modified Non-Per Capita Conservation Program.

1. The Company or designated representative shall work with schools in its service area to increase students' understanding of water resources and to promote water conservation.
2. The Company shall provide a combination of instructional assistance, education materials, teacher education, classroom presentations, and field trips to water related facilities.
3. The Company shall provide the following teacher resources.
 - a. Offer Project WET (Water Education for Teachers) workshops to teachers twice yearly. In lieu of Project WET the Company may market its Water Conservation Assembly Program to all schools within its service area. The Water Conservation Assembly Program will focus on teaching students about water resources and water conservation. The assembly itself will be an interactive water conservation discussion.
 - b. Provide free resource materials and information upon request.
 - c. Provide in-classroom presentations upon request.
4. The Company shall make available free take home educational materials for elementary school students.
5. The Company shall keep a record of the following information and make it available upon request.
 - a. A description of the youth conservation education process implemented.
 - b. The number of students reached (or an estimate).
 - c. A description of the written water conservation material provided free to students.
 - d. Costs of the Youth Conservation Education Program implementation.

New Homeowner Landscape Information Tariff – BMP 2.3**PURPOSE**

A program for the Company to promote the conservation of water by providing a landscape information package for the purpose of educating its new customers about low water use landscaping (Modified Non-Per Capita Conservation Program BMP Category 2: Conservation Education and Training 2.3: New Homeowner Landscape Information).

REQUIREMENTS:

The requirements of this tariff are governed by Rules of the Arizona Corporation Commission and were adapted from the Arizona Department of Water Resources' Required Public Education Program and Best Management Practices in the Modified Non-Per Capita Conservation Program.

1. Upon establishment of water service the Company shall offer and make available upon request a free "Homeowner Landscape Packet" to each new customer in the Company's service area. The packet will include at a minimum: a cover letter describing the water conservation expectations for all customers in the Company's service area, applicable rate tariffs, a basic interior/exterior water saving pamphlet, xeriscape landscape information, a list of low water use trees, plants, shrubs, etc., watering guidelines, and a rain water harvesting pamphlet.
2. Upon customer request, the Company shall provide:
 - a. On-site consultations on low water use landscaping and efficient watering practices.
 - b. A summary of water saving options.
3. The Company shall keep a record of the number of packets provided to new customers and make it available to the Commission upon request.

Residential Audit Program Tariff – BMP 3.1**PURPOSE**

A program for the Company to promote water conservation by providing customers with information on performing water audits to determine conservation opportunities at their residence (Modified Non-Per Capita Conservation Program BMP Category 3: Outreach Services 3.1: Residential Audit Program).

REQUIREMENTS

The requirements of this tariff are governed by Rules of the Arizona Corporation Commission and were adapted from the Arizona Department of Water Resources' Required Public Education Program and Best Management Practices in the Modified Non-Per Capita Conservation Program.

1. The Company shall offer self-audit information.
2. The Company or designated representative shall provide all customers that request them with a self-audit kit.
3. The kit shall include detailed instructions and tools for completing the water audit including information on how to check their water meter. The audit kit shall include but not be limited to information on checking the following components: irrigation system, pool, water features, toilets, faucets and shower.
4. If requested, the Company shall assist the customer in a self-water audit and assist the customer in determining what might be causing high water usage as well as supply customer with information regarding water conservation and landscape watering guidelines. As part of the water audit, and if requested to do so by the customer, the Company shall confirm the accuracy of the customer meter (applicable meter testing fees shall apply).
5. The Company shall keep a record of the following information and make it available to the Commission upon request:
 - a. A description of the water conservation material provided in the kit.
 - b. The number of kits provided to customers.
 - c. Implementation costs of the Residential Audit Program.

Residential Interior Retrofit Program Tariff – BMP 3.4**PURPOSE**

A program for the Company to promote water conservation by providing residential customers free or low cost plumbing fixtures for their residence (Modified Non-Per Capita Conservation Program BMP Category 3: Outreach Services 3.4: Residential Interior Retrofit Program).

REQUIREMENTS

The requirements of this tariff are governed by Rules of the Arizona Corporation Commission and were adapted from the Arizona Department of Water Resources' Required Public Education Program and Best Management Practices in the Modified Non-Per Capita Conservation Program.

1. The Company or designated representative shall provide to residential customers that request them that live in homes built prior to the adoption of the 1990 Uniform Plumbing Code free or low cost low water use fixtures such as faucets, faucet aerators, low flow shower heads, toilets and toilet dams. The Company must offer the fixtures/fixture retrofits to all residential customers meeting the above criteria unless the Company can demonstrate that targeting certain portions of its water service area is likely to yield the highest participation and/or potential water savings.
2. The fixtures or retrofit kit shall include detailed instructions for installing the retrofit fixtures.
3. The Company shall select appropriate communications channels to advertize the program.
4. The Company shall keep a record of the following information and make it available to the Commission upon request:
 - a. A description of the Residential Interior Retrofit Program including a description of the fixtures provided to customers and estimated water savings as a result of Program implementation.
 - b. The number of retrofit fixtures requested by customers and the number of fixtures provided.
 - c. Costs of the Residential Interior Retrofit Program.

Customer High Water Use Inquiry Resolution Tariff – BMP 3.6

PURPOSE

A program for the Company to assist its customers with their high water-use inquiries and complaints (Modified Non-Per Capita Conservation Program BMP Category 3: Outreach Services 3.6: Customer High Water Use Inquiry Resolution).

REQUIREMENTS

The requirements of this tariff are governed by Rules of the Arizona Corporation Commission and were adapted from the Arizona Department of Water Resources' Required Public Education Program and Best Management Practices in the Modified Non-Per Capita Conservation Program.

1. The Company shall handle high water use inquiries as calls are received.
2. Calls shall be taken by a customer service representative who has been trained on typical causes of high water consumption as well as leak detection procedures that customers can perform themselves.
3. Upon request by the customer or when the Company determines it is warranted, a trained Field Technician shall be sent to the customer's residence to verify consumption and conduct a leak detection inspection and further assist the customer with water conservation measures.
4. The Company shall follow up on every customer inquiry or complaint and keep a record of inquiries and follow-up activities. The Company shall make this information available to the Commission upon request.

Customer High Water Use Notification Tariff – BMP 3.7**PURPOSE**

A program for the Company to monitor and notify customers when water use seems to be abnormally high and provide information that could benefit those customers and promote water conservation (Modified Non-Per Capita Conservation Program BMP Category 3: Outreach Services Program 3.7: Customer High Water Use Notification).

REQUIREMENTS

The requirements of this tariff are governed by Rules of the Arizona Corporation Commission and were adapted from the Arizona Department of Water Resources' Required Public Education Program and Best Management Practices in the Modified Non-Per Capita Conservation Program.

1. The Company shall track water usage for each customer and notify the customer if water use seems excessive for that particular billing for that time of the year.
2. The Company shall identify customers with high consumption, verify the high consumption, and investigate each instance to determine the possible cause.
3. The Company shall contact the high water use customers via telephone, email, by mail or in person. The Company shall contact the customer as soon as practical in order to minimize the possible loss of water. The customer will not be required to do anything to receive this notification.
4. In the notification the Company shall explain some of the most common water usage problems and common solutions and points of contact for dealing with the issues.
5. In the notification, the customer will be reminded of possible high water-consumption occurrences, such as:
 - a. Leaks, running toilets, or valves or flappers that need to be replaced.
 - b. Irrigation system valves or sprinkler heads which may be leaking.
 - c. Sprinklers that may be watering the house, sidewalk, or street, etc. increasing irrigation requirements.
 - d. Leaking pool or spas and possible leaks around pumps.
 - e. More people in the home than usual taking baths and showers.
 - f. Doing more loads of laundry than usual.
 - g. Doing a landscape project or starting a new lawn.
 - h. Washing vehicles more often than usual.

Leak Detection Program Tariff – BMP 4.1**PURPOSE**

A program for the Company to systematically evaluate its water distribution system to identify and repair leaks (Modified Non-Per Capita Conservation Program Best Management Practice Category 4: Physical System Evaluation and Improvement 4.1 Leak Detection Program).

REQUIREMENTS

The requirements of this tariff are governed by Rules of the Arizona Corporation Commission and were adapted from the Arizona Department of Water Resources' Required Public Education Program and Best Management Practices in the Modified Non-Per Capita Conservation Program.

On a systematic basis, the Company shall perform leak detection inspections of its distribution system to identify and fix leaks.

This program shall be implemented through a strategy of targeting certain portions of the water service area which will yield the highest potential for water savings first.

1. The Company shall implement a comprehensive leak detection and repair program to attain and maintain a goal of less than 10 percent unaccounted for water loss in its system(s). The program must include auditing procedures, in-field leak detection and repair efforts. The Company shall take whatever practical steps are necessary to ensure that its water system is operating at optimal efficiency.
2. On a systematic basis, at least every two years (annually for smaller systems), the Company shall visually inspect its above ground water distribution system (to include hydrants, valves, tanks, pumps, etc. in the distribution system) to identify and repair leaks. Detection shall be followed by repair or in some cases replacement. Repair vs. replacement will depend upon site-specific leakage rates and costs.
3. Leak Detection efforts should focus on the portion of the distribution system with the greatest expected problems, including:
 - a. areas with a history of excessive leak and break rates;
 - b. areas where leaks and breaks can result in the heaviest property damage;
 - c. areas where system pressure is high;
 - d. areas exposed to stray current and traffic vibration;
 - e. areas near stream crossings; and,
 - f. areas where loads on pipe may exceed design loads.

Leak Detection Program Tariff – BMP 4.1**(Continued)**

4. The Company shall keep accurate and detailed records concerning its leak detection and repair/rehabilitation program and the associated costs. Records of repairs shall include: possible causes of leak; estimated amount of water lost; and date of repair. These records shall be made available to the Commission upon request.
5. The Company shall maintain a complete set of updated distribution system maps.
6. The Company shall conduct a water audit annually which includes the following steps to determine how efficient each water system is operating and where the losses might be.
 - a. Use coordinated monthly source and service meter readings to calculate how much water enters and leaves the system during the 12 month review period.
 - b. Track and estimate any unmetered authorized uses.
 - c. Calculate the total amount of leakage using the following formula:

$$\text{Unaccounted for water (\%)} = [(\text{Production and/or purchased water minus metered use \& estimated authorized un-metered use}) / (\text{Production and/or purchased water})] \times 100\%$$
 - d. Authorized un-metered uses may include firefighting, main flushing, process water for water treatment plants, etc. Water losses include all water that is not identified as authorized metered water use or authorized un-metered use.
 - e. Determine possible reasons for leakage, including physical leaks and unauthorized uses.
 - f. Analyze results to determine the improvements needed, such as, better accounting practices, leak survey or replacing old distribution pipes.
7. The Company shall keep accurate and detailed records concerning its annual water audit results. These records shall be made available to the Commission upon request.

Meter Repair and/or Replacement Tariff – BMP 4.2**PURPOSE**

A program for the Company to systematically assess all in-service water meters (including Company production meters) in its water service area to identify under-registering meters and to repair or replace them (Modified Non-Per Capita Conservation Program Best Management Practice Category 4: Physical System Evaluation and Improvement 4.2 Meter Repair and/or Replacement Program).

REQUIREMENTS

The requirements of this tariff are governed by Rules of the Arizona Corporation Commission and were adapted from the Arizona Department of Water Resources' Required Public Education Program and Best Management Practices in the Modified Non-Per Capita Conservation Program.

1. On a systematic basis, the Company will replace all 2-inch and smaller in-service water meters at least once every twelve years.
2. The Company will test all meters that have caused a meter reading complaint to be filed with the Arizona Corporation Commission.
3. Meters larger than 2-inch shall be tested for one of the following reasons:
 - a. A meter reading complaint is filed with the Company by a customer or Arizona Corporation Commission Staff,
 - b. A meter has been in service for five years.
4. The test will be accomplished by one of the following:
 - a. Having the meter pulled and having a Company Technician physically inspect each meter and its fittings for leaks, registers which may have become loose or are not properly attached to the meter and could be under-registering or other broken parts which need repair.
 - b. Utilizing equipment to verify that all electronic components are within manufacturer specifications and are operating properly.
5. In addition, meters shall be randomly selected for flow testing utilizing a flow through detector testing meter.
6. All replacement water meters shall register in gallons:
 - a. All new 1-inch and smaller meters that are installed will register usage in 1 gallon increments,
 - b. All new 1-1/2-inch through 4-inch meters that are installed will register in 10 gallon increments, and
 - c. All new 6-inch and larger meters that are installed will register in 100 gallon increments.
7. The Company shall keep records on the number of meters that were replaced and make this information available to the Commission upon request.

Water System Tampering Tariff – BMP 5.2**PURPOSE**

The purpose of this tariff is to promote the conservation of groundwater by enabling the Company to bring an action for damages or to enjoin any activity against a person who tampers with the water system.

REQUIREMENTS:

The requirements of this tariff are governed by Rules of the Arizona Corporation Commission, specifically Arizona Administrative Code ("AAC") R14-2-410 and the Arizona Department of Water Resources' Required Public Education Program and Best Management Practices in the Modified Non-Per Capita Conservation Program.

1. In support of the Company's water conservation goals, the Company may bring an action for damages or to enjoin any activity against a person who: (1) makes a connection or reconnection with property owned or used by the Company to provide utility service without the Company's authorization or consent; (2) prevents a Company meter or other device used to determine the charge for utility services from accurately performing its measuring function; (3) tampers with property owned or used by the Company; or (4) uses or receives the Company's services without the authorization or consent of the Company and knows or has reason to know of the unlawful diversion, tampering or connection. If the Company's action is successful, the Company may recover as damages three times the amount of actual damages.
2. Compliance with the provisions of this tariff will be a condition of service.
3. The Company shall make available to all its customers a complete copy of this tariff and AAC R14-2-410. The customers shall follow and abide by this tariff.
4. If a customer is connected to the Company water system and the Company discovers that the customer has taken any of the actions listed in No. 1 above, the Company may terminate service per AAC R14-2-410.
5. If a customer believes he/she has been disconnected in error, the customer may contact the Commission's Consumer Services Section at 1-800-222-7000 to initiate an investigation.

CURTAILMENT TARIFF

CURTAILMENT PLAN FOR NORTH MOHAVE WATER DISTRICT

(Template 063004)

ADEQ Public Water System No: 04-08-068

EPCOR Water Arizona, Inc. ("Company"), is authorized to curtail water service to all customers within its certificated area under the terms and conditions listed in this tariff.

This curtailment plan shall become part of the Arizona Department of Environmental Quality Emergency Operations Plan for the Company.

The Company shall notify its customers of this new tariff as part of its next regularly scheduled billing after the effective date of the tariff or no later than sixty (60) days after the effective date of the tariff.

The Company shall provide a copy of the curtailment tariff to any customer, upon request.

Stage 1 Exists When:

Company is able to maintain water storage in the system at 100 percent of capacity and there are no known problems with its well production or water storage in the system.

Restrictions: Under Stage 1, Company is deemed to be operating normally and no curtailment is necessary.

Notice Requirements: Under Stage 1, no notice is necessary.

Stage 2 Exists When:

a. Company's water storage or well production has been less than 80 percent of capacity for at least 48 consecutive hours, and

b. Company has identified issues such as a steadily declining water table, increased draw down threatening pump operations, or poor water production, creating a reasonable belief the Company will be unable to meet anticipated water demand on a sustained basis.

Restrictions: Under Stage 2, the Company may request the customers to voluntarily employ water conservation measures to reduce water consumption by approximately 50 percent. Outside watering should be limited to essential water, dividing outside watering on some uniform basis (such as even and odd days) and eliminating outside watering on weekends and holidays.

CURTAILMENT TARIFF

(Continued)

Notice Requirements: Under Stage 2, the Company is required to notify customers by delivering written notice door to door at each service address, or by United States first class mail to the billing address or, at the Company's option, both. Such notice shall notify the customers of the general nature of the problem and the need to conserve water.

Stage 3 Exists When:

- a. Company's total water storage or well production has been less than 50 percent of capacity for at least 24 consecutive hours, and
- b. Company has identified issues such as a steadily declining water table, increased draw down threatening pump operations, or poor water production, creating a reasonable belief the Company will be unable to meet anticipated water demand on a sustained basis.

Restrictions: Under Stage 3, Company shall request the customers to voluntarily employ water conservation measures to reduce daily consumption by approximately 50 percent.

All outside watering should be eliminated, except livestock, and indoor water conservation techniques should be employed whenever possible. Standpipe service shall be suspended.

Notice Requirements:

1. Company is required to notify customers by delivering written notice to each service address, or by United States first class mail to the billing address or, at the Company's option, both. Such Notice shall notify the customers of the general nature of the problem and the need to conserve water.
2. Beginning with Stage 3, Company shall post at least three (3) signs showing the curtailment stage. Signs shall be posted at the well and/or pump sites located within the Sun City Water District.
3. Company shall notify the Consumer Services Section of the Utilities Division of the Corporation Commission at least 12 hours prior to entering Stage 3.

Once Stage 3 has been reached, the Company must begin to augment the supply of water by either hauling or through an emergency interconnect with an approved water supply in an attempt to maintain the curtailment at a level no higher than Stage 3 until a permanent solution has been implemented.

CURTAILMENT TARIFF
(Continued)

Stage 4 Exists When:

- a. Company's total water storage or well production has been less than 25 percent of capacity for at least 12 consecutive hours, and
- b. Company has identified issues such as a steadily declining water table, increased draw down threatening pump operations, or poor water production, creating a reasonable belief the Company will be unable to meet anticipated water demand on a sustained basis.

Restrictions: Under Stage 4, Company shall inform the customers of a mandatory restriction to employ water conservation measures to reduce daily consumption. Failure to comply will result in customer disconnection. The following uses of water shall be prohibited:

- ◆ Irrigation of outdoor lawns, trees, shrubs, or any plant life is prohibited
- ◆ Washing of any vehicle is prohibited
- ◆ The use of water for dust control or any outdoor cleaning uses is prohibited
- ◆ The use of drip or misting systems of any kind is prohibited
- ◆ The filling of any swimming pool, spas, fountains or ornamental pools is prohibited
- ◆ The use of construction water is prohibited
- ◆ Restaurant patrons shall be served water only upon request
- ◆ Any other water intensive activity is prohibited

The Company's operation of its standpipe service is prohibited. The addition of new service lines and meter installations is prohibited.

Notice Requirements:

1. Company is required to notify customers by delivering written notice to each service address, or by United States first class mail to the billing address or, at the Company's option, both. Such notice shall notify the customers of the general nature of the problem and the need to conserve water.
2. Beginning with Stage 4, Company shall post at least six (6) signs showing the curtailment stage. Signs shall be posted at the well and/or pump sites located within the Sun City Water District
3. Company shall notify the Consumer Services Section of the Utilities Division of the Corporation Commission at least 12 hours prior to entering Stage 4.

Decision No. XXXXX

EPCOR Water Arizona, Inc.

(Name of Company)
(Name of Service Area)North Mohave Water District**CROSS-CONNECTION OR BACKFLOW TARIFF****PURPOSE:**

The purpose of this tariff is to protect EPCOR Water Arizona, Inc.'s North Mohave Water District's ("Company") water from the possibility of contamination caused by the backflow of contaminants that may be present on the customer's premises by requiring the installation and periodic testing of backflow prevention assemblies pursuant to the provisions of the Arizona Administrative Code ("A.A.C.") R14-2-405.B.6 and A.A.C. R18-4-215.

REQUIREMENTS:

In compliance with the Rules of the Arizona Corporation Commission ("Commission") and the Arizona Department of Environmental Quality ("ADEQ"), specifically A.A.C. R14-2-405.B.6 and A.A.C. R18-4-215 relating to backflow prevention:

1. The Company may require a customer to pay for and to have installed a backflow-prevention assembly if A.A.C. R18-4-215.B or C applies.
2. A backflow-prevention assembly required to be installed by the customer under Paragraph 1 of this tariff shall comply with the requirements set forth in A.A.C. R18-4-215.D and E.
3. Subject to the provisions of A.A.C. R14-2-407 and 410, and in accordance with Paragraphs 1 and 7 of this tariff, the Company may terminate service or may deny service to a customer who fails to install a backflow-prevention assembly as required by this tariff.
4. The Company shall give any existing customer who is required to install a backflow-prevention assembly written notice of said requirement. If A.A.C. R14-2-410.B.1.a. is **not** applicable, the customer shall be given thirty (30) days from the time such written notice is received in which to comply with this notice. If the customer can show good cause as to why he cannot install the backflow-prevention assembly within thirty (30) days, the Company or Commission Staff may suspend this requirement for a reasonable period of time.
5. Testing shall be in conformance with the requirements of A.A.C. R18-4-215.F. The Company may require the customer to pay to have the backflow-prevention assembly tested as long as the Company does not require an unreasonable number of tests.
6. The customer shall provide the Company with records of installation and testing. For each backflow-prevention assembly, these records shall include:
 - a. assembly identification number and description;
 - b. location
 - c. date(s) of test(s);
 - d. description of repairs and recommendations for repairs made by tester; and
 - e. the tester's name and certificate number.

CROSS-CONNECTION OR BACKFLOW TARIFF

(Continued)

- 7. In the event the backflow-prevention assembly does not function properly or fails any test, and an obvious hazard as contemplated under A.A.C. R14-2-410.B.1.a. exists, the Company may terminate service immediately and without notice. The backflow-prevention assembly shall be repaired or replaced by the customer and retested.

- 8. In the event the backflow-prevention assembly does not function properly or fails any test, or in the event that a customer fails to comply with the testing requirement, and A.A.C. R14-2-410.B.1.a. is **not** applicable, the backflow prevention assembly shall be repaired or replaced within fourteen (14) days of the initial discovery of the deficiency in the assembly or its function. Failure to remedy the deficiency or dysfunction of the assembly, or failure to retest, shall be grounds for termination of water service in accordance with A.A.C. R14-2-410.

TARIFF

WATER SERVICES TERMINATION AGREEMENT
WITH THE CITY OF BULLHEAD CITY

EPCOR Water Arizona, Inc. ("Company") has been granted a variance from Arizona Corporation Commission Rule A.A.C. R14-2-410.A.2 for the limited purpose of entering into a Water Service Termination Agreement ("Agreement") with the City of Bullhead City ("City"), a municipal provider of wastewater service, for common customers purchasing water from the Company and wastewater from the City. The purpose of this Tariff, and the authorized variance from A.A.C. R14-2-410.A.2, is to assist the City in collecting delinquent payments for wastewater utility service provided to common customers of the Company.

The Company shall comply with the terms and conditions of the Agreement.

The Agreement with the City is attached to and incorporated into this tariff.

ADJUSTOR MECHANISMS
(continued)

POWER COST ADJUSTOR MECHANISM ("PCAM")

The PCAM allows the Company to pass through purchase power costs for any gas or electric service provider supplying retail service to the Company to its customers. Details can be found in the Company's Power Cost Adjustor Mechanism Plan of Administration.

Applicability

Applicable to all customers served by this service area.

PCAM Surcharge Rate for all Customers:

All usage per 1,000 gallons per month \$X.XXXX *

* Rate consists of \$X.XXXX per 1,000 gallons of usage to recover the over/under collection of prior years' surcharge and \$X.XXXX per 1,000 gallons of usage for the collection of current power charges.

Terms and Conditions

The Company will annually file with the Commission by March 1 the proposed annual PCAM surcharge for the current calendar year. The filing shall contain a summary of all gas and electrical costs, total collections from the surcharge, and the updated surcharge amount. All documentation to support the proposed surcharge will be included.

As part of each annual filing, the Company will perform a reconciliation for the prior reporting period comparing the amounts recovered from/refunded to customers to the amount of increase/decrease in power expenses due to changes in rates for that same period resulting in either an under / (over) recovery. This true-up will be included in the annual calculation.

The annual PCAM surcharge will be calculated based on the historic consumption of the applicable customers from the previous twelve months.

The revised PCAM surcharge will be effective on June 1 of each year.

The PCAM surcharge will appear on each applicable customer bill as a separate line item.

All rates in this Schedule shall be subject to their proportionate part of any taxes or other governmental imposts that are assessed directly or indirectly on the basis of revenues derived from this Schedule.

ADJUSTOR MECHANISMS
(continued)

SYSTEM IMPROVEMENT BENEFIT MECHANISM ("SIB")

The SIB provides for recovery of the capital costs (return on investment, income taxes and depreciation expense) associated with distribution system improvement projects listed in SIB Plant Table I that have been verified to be complete, net of associated retirements and placed in service per SIB Table II. Details can be found in the Company's System Improvement Benefit Mechanism Plan of Administration.

Availability

Applicable to all customers served by this service area.

Schedule of Charges:

Meter Size	SIB Surcharge	SIB Efficiency Credit	NET SIB Surcharge
5/8" x 3/4" meter	\$ x.XX	\$ (x.XX)	\$ x.XX
3/4" meter	\$ x.XX	\$ (x.XX)	\$ x.XX
1" meter	\$ x.XX	\$ (x.XX)	\$ x.XX
1½" meter	\$ x.XX	\$ (x.XX)	\$ x.XX
2" meter	\$ x.XX	\$ (x.XX)	\$ x.XX
3" meter	\$ x.XX	\$ (x.XX)	\$ x.XX
4" meter	\$ x.XX	\$ (x.XX)	\$ x.XX
6" meter	\$ x.XX	\$ (x.XX)	\$ x.XX
8" meter	\$ x.XX	\$ (x.XX)	\$ x.XX
10" meter	\$ x.XX	\$ (x.XX)	\$ x.XX

Terms and Conditions

Once a SIB is approved in a decision, the Company must file with Docket Control semi-annual status reports.

The annual SIB surcharge will be calculated based on the historic system improvements of the eligible projects from the previous twelve months.

Once a SIB surcharge is implemented the Company must file annually to true-up its SIB Surcharge collections over the preceding twelve months with the SIB Authorized Revenues for that period and establish a surcharge or credit to true up over or under collections. Filings dates for these annual true-ups shall be as established in the Decision.

The SIB surcharge, SIB efficiency credit and net SIB surcharge will all appear as separate line items on each applicable customer bill.

All rates in this Schedule shall be subject to their proportionate part of any taxes or other governmental imposts that are assessed directly or indirectly on the basis of revenues derived from this Schedule.

ADJUSTOR MECHANISMS
(continued)

PROPERTY TAX ADJUSTOR MECHANISM ("PTAM")

The PTAM allows the Company to pass through to its customers the increases or decreases in property tax expenses that result from changes to the assessment ratio or property tax rate. Pass through costs will be divided equally between residential and non-residential customer classes to collect the total increase over a 12-month period. Details can be found in the Company's Property Tax Adjustor Mechanism Plan of Administration.

Applicability

Applicable to all customers served by this service area.

PTAM Surcharge Rate for all Customers:

All usage per 1,000 gallons per month \$X.XXXX *

* Rate consists of \$X.XXXX per 1,000 gallons of usage to recover the over/under collection of prior years' surcharge and \$X.XXXX per 1,000 gallons of usage for the collection of current power charges.

Terms and Conditions

The Company will annually file with the Commission by March 1 the proposed annual PTAM surcharge for the current calendar year. The filing shall detail how the Company's property tax expenses were calculated by parcel by year. These calculations will include full cash value, assessment ratio, and tax rates by parcel. All documentation to support the proposed surcharge will be included.

As part of each annual filing, the Company will perform a reconciliation for the prior reporting period comparing the amounts recovered from/refunded to customers to the amount of increase/decrease in property tax expenses due to changes in rates for that same period resulting in either an under / (over) recovery. This true-up will be included in the annual calculation.

The revised PTAM surcharge will be effective on June 1 of each year.

The PTAM surcharge will appear on each applicable customer bill as a separate line item.

All rates in this Schedule shall be subject to their proportionate part of any taxes or other governmental imposts that are assessed directly or indirectly on the basis of revenues derived from this Schedule.

BILLING ADJUSTMENT TARIFF

1. PURPOSE

1.1. To outline EPCOR's general procedure on adjusting customer water utility bills.

2. SCOPE

2.1. This procedure pertains to billing adjustments for accounts with lost meters, stopped meters, and other situations where usage has been identified or service received but not billed (or under billed). Parameters within this procedure do not necessarily apply to situations where customer tampering, theft, or other actions that prevent access to the water meter are involved.

3. PROCEDURE

3.1. **Timeframe** – In cases where accounts have been identified as having water usage but have not been billed (or have been under billed), EPCOR will adjust the bill for the period identified not to exceed two years from the point of customer notification or adjustment generation. Customers will be provided the ability to spread their payments for the adjustment amount over the same time period for which the usage occurred. EPCOR will have the option of spreading the payment term beyond the original usage period, depending on the circumstances, with approval from the Customer Service Manager or Customer Service Director.

3.2. **Estimated Usage for Stopped Meters** – Usage for stopped meters will generally be calculated based on historical usage for similar timeframes. If the customer has had changes in their usage pattern based on conservation efforts, economic factors, leak repairs, or changes to the number of occupants, these *may* be considered in adjusting the usage estimate from historical data. There may be cases where the usage is monitored or a period of time after the meter has been replaced to determine the appropriate billing adjustment amount.

3.3. **Meter Accuracy Corrections** – If any meter after testing is found to be more than 3% inaccurate, either fast or slow, proper correction between 3% and the amount of the error shall be made of previous readings and adjusted bills shall be rendered according to the following terms:

3.3.1. For the period of 3 months immediately preceding the removal of such meter from service for test or from the time the meter was in service since last tested, but not exceeding 3 months since the meter shall have been shown to be in error by such test, or

3.3.2. From the date the error occurred, if the date of the cause can be definitely fixed.

3.3.3. No adjustment shall be made by the utility except to the customer last served by the meter tested.

BILLING ADJUSTMENT TARIFF
(continued)

- 3.4. **Managing Large and/or Extended Adjustments** – Bill adjustment amounts over \$2,500 that extend beyond two billing cycles will be reviewed by EPCOR and communication with the customer will be attempted prior to posting the bill to the customer account. Three unsuccessful attempts to contact the customer via the contact means provided on the customer account shall release the bill to the customer’s account for posting.
- 3.5. **Customer Appeals** – Customers may appeal adjustment decisions in writing or by contacting a customer care representative the appeal will be escalated to the appropriate party and a determination will be made within 90 days.
- 3.6. **Exceptions** – It is recognized that there may be specific situations or unique circumstances where there is a management decision not to adjust a customer or group of customers.

COMMON FACILITIES HOOK-UP FEE

I. Purpose and Applicability

The purpose of the Common Facilities hook-up fee payable to EPCOR Water Arizona Inc. (“the Company”) pursuant to this tariff is to equitably apportion the costs of constructing additional common water facility infrastructure to provide water production, delivery, treatment, storage and pressure among all new service connections. These charges are applicable to all new service connections established after the effective date of this tariff. The charges are one-time charges and are payable as a condition to the Company’s establishment of service, as more particularly provided below.

II. Definitions

Unless the context otherwise requires, the definitions set forth in R-14-2-401 of the Arizona Corporation Commission’s (“Commission”) rules and regulations governing water utilities shall apply interpreting this tariff schedule.

“Applicant” means any party entering into an agreement with the Company for the installation of water facilities to serve new service connections, and may include developers and/or builders of new residential subdivisions.

“Main Extension Agreement” means any agreement whereby an Applicant, Developer and/or Builder agrees to advance the costs of the installation of water facilities, which may include Common Facilities, to the Company to serve new service connections, or install water facilities to serve new service connections and transfer ownership of such water facilities to the Company, in either case which agreement shall require the approval of the Commission pursuant to A.A.C. R-14-2-406, and shall have the same meaning as “Water Facilities Agreement” or “Line Extension Agreement.”

“Common Facilities” means all wells, storage tanks, production, treatment, booster pumps, pressure tanks, transmission mains and related appurtenances, including engineering and design costs, constructed for the benefit of the water system and not for the exclusive use of the Applicant’s development.

“Service Connection” means and includes all service connections for single-family residential or other uses, regardless of meter size.

COMMON FACILITIES HOOK-UP FEE

(continued)

III. Common Facilities Water Hook-up Fee

For each new service connection, the Company shall collect a Common Facilities hook-up fee derived from the following table:

COMMON FACILITIES HOOK-UP FEE TABLE		
Meter Size	Size Factor	Fee
5/8" x 3/4"	1	\$1,680.00
3/4"	1.5	\$2,520.00
1"	2.5	\$4,200.00
1-1/2"	5	\$8,400.00
2"	8	\$13,440.00
3"	16	\$26,880.00
4"	25	\$42,000.00
6" or larger	50	\$84,000.00

IV. Terms and Conditions

(A) Assessment of One Time Common Facilities Hook-up Fee: The Common Facilities hook-up fee may be assessed only once per parcel, service connection, or lot within a subdivision (similar to meter and service line installation charge).

(B) Use of Common Facilities Hook-up Fee: Common Facilities hook-up fees may only be used to pay for capital items of Common Facilities, or for repayment of loans obtained for installation of Common Facilities. Common Facilities hook-up fees shall not be used for repairs, maintenance, or operational purposes.

(C) Time of Payment:

1) In the event that the Applicant that will be constructing improvements is required to enter into a Main Extension Agreement, payment of the Common Facilities hook-up fees required hereunder shall be made by the Applicant no later than within 15 calendar days after receipt of notification from the Company that the Utilities Division of the Arizona Corporation Commission has approved the Main Extension Agreement in accordance with R-14-2-406(M).

ISSUED BY: Sheryl Hubbard, Director, Regulatory & Rates
2355 W. Pinnacle Peak Rd., Suite 300, Phoenix, AZ 85027

COMMON FACILITIES HOOK-UP FEE

(continued)

2) In the event that the Applicant for service is not required to enter into a Main Extension Agreement, the charges hereunder shall be due and payable at the time the meter and service line installation fee is due and payable.

(D) Common Facilities Construction by Developer: The Company and Applicant may agree to construction of Common Facilities necessary to serve a particular development by Applicant which facilities are then conveyed to the Company. In that event, Company shall credit the total cost of such Common Facilities as an offset to the Common Facilities hook-up fees due under this Tariff. If the total cost of the Common Facilities constructed by Applicant and conveyed to Company is less than the applicable Common Facilities hook-up fee due under this Tariff, Applicant shall pay the remaining amount of the Common Facilities hook-up fees owed hereunder. If the total cost of the Common Facilities contributed by Applicant, Developer or Builder and conveyed to Company is more than the applicable Common Facilities hook-up fees under this Tariff, Applicant shall be refunded the difference upon acceptance of the Common Facilities by the Company. The refund may be paid in installments over a period of time pursuant to an agreement between the Company and the developer on a case by case basis. The Company and Applicant may agree to construction of additional facilities that are not Common Facilities, the cost of which shall not be subject to off-set under this paragraph IV.D, but which will be subject to refund under R14-2-406(D).

(E) Failure to Pay Charges; Delinquent Payments: The Company will not be obligated to provide water service to any Applicant or other applicant for service in the event that such Applicant or other applicant for service has not paid in full all charges hereunder. Under no circumstances will the Company set a meter or otherwise allow service to be established if the entire amount of any payment has not been paid.

(F) Large Subdivision Projects: In the event that the Applicant is engaged in the development of a residential subdivision containing more than 150 lots, and is a party to a Main Extension Agreement with the Company for such development, the Company may, in its discretion, agree to payment of the Common Facilities hook-up fees in installments. Such installments may be based on the residential subdivision development's phasing, and should attempt to equitably apportion the payment of charges hereunder based on the Applicant's construction schedule and water service requirements.

(G) Common Facilities Hook-Up Fees Non-refundable: The amounts collected by the Company pursuant to the Common Facilities hook-up fee tariff shall be non-refundable contributions in aid of construction

COMMON FACILITIES HOOK-UP FEE

(continued)

(H) Use of Common Facilities Hook-Up Fees Received: All funds collected by the Company as Common Facilities hook-up fees shall be deposited into a separate interest bearing trust account and used solely for the purposes of paying for the costs of the Common Facilities, including repayment of loans obtained for the installation of Common Facilities that will benefit the entire water system.

(I) Common Facilities Hook-up Fee in Addition to On-site Facilities: The Common Facilities hook-up fee shall be in addition to any costs associated with the construction of on-site facilities or other additional facilities under Paragraph IV.D, above, under a Main Extension Agreement.

(J) Disposition of Excess Funds: After all necessary and desirable Common Facilities are constructed utilizing funds collected pursuant to the Common Facilities hook-up fees, or if the Common Facilities hookup fee has been terminated by order of the Arizona Corporation Commission, any funds remaining in the trust shall be refunded. The manner of the refund shall be determined by the Commission at the time a refund becomes necessary.

(K) Fire Flow Requirements: In the event the Applicant has fire flow requirements that require additional facilities beyond those facilities whose costs were included in the Common Facilities hook-up fee, and which are contemplated to be constructed using the proceeds of the Common Facilities hook-up fee, the Company may require the Applicant to install such additional facilities as are required to meet those additional fire flow requirements, as a non-refundable contribution, in addition to paying the Common Facilities hook-up fee.

(L) Status Reporting Requirements to the Commission: The Company shall submit a calendar year Common Facilities hook-up fee status report each January 31 to Docket Control for the prior twelve (12) month period, beginning January 31, 2018, until the Common Facilities hook-up fee tariff is no longer in effect. This status report shall contain a list of all customers that have paid the Common Facilities hook-up fee tariff, the amount each has paid, the amount of money spent from the account, the amount of interest earned on the tariff account, and a list of all facilities that have been installed with the tariff funds during the 12 month period.

LARGE WATER-USERS

Any development with a projected average daily water demand greater than 1,700 gallons per day per acre is considered to be a Large User. Large Users will be required to provide an additional renewable water supply source to Utility to meet the demands of the development that are greater than 1,700 gallons per day per acre. Examples of a renewable water supply source include surface water or a groundwater well with long-term storage credits. The renewable water supply source must be approved by Utility, and must have the appropriately allocated water rights that will be conveyed to Utility. The cost to provide a renewable water supply source to Utility will not be credited as an offset to the Common Facilities Hook-Up Fee because such costs will be due to the exclusive need for additional water by the Large User; however, the cost of that portion of a renewable water supply source that is in excess of the Large User's needs will be credited as an offset to the Common Facilities Hook-Up Fee.

Large Users may be required to enter into an agreement with Utility that will define terms and conditions, and will include fees that will be charged to Large Users for over usage. Fees will incur if Large Users use water in excess of the supply source provided, which will be reviewed by Utility on an annual basis. Continued excessive use could result in Utility requiring the Large User to develop and implement a water use reduction plan or, as a last resort, court action.

GENERAL WATER SERVICE
(continued)

Terms and Conditions

Water service provided under this rate schedule is subject to this District's Rules and Regulations applicable to Water Service and may be subject to this District's Service Charges set forth in Rate Schedule Service Charges and adjustor mechanisms included in the Company's tariffs on file with the Arizona Corporation Commission.

Water service under this Schedule is for the exclusive use of the Customer and water shall not be resold or provided to others.

~~Water service provided under this rate schedule is subject to the Company's Rules and Regulations applicable to Water Service and may be subject to the Company's Miscellaneous Service Charges set forth in Rate Schedule Service Charges.~~

~~All advances and/or contributions are to include labor, materials, overheads, and all applicable taxes, including all gross-up taxes for income taxes, if applicable.~~

In addition to the collection of regular rates, ~~the utility will collect from its customers a all rates on this schedule shall be subject to their~~ proportionate ~~sharepart~~ of any ~~privilege, sales, use and franchise taxes or other government imposts which are assessed directly or indirectly on the basis of revenues derived from service under this schedule, or on the basis of the service provided or the volume of water produced, purchased or sold.~~ Per Commission Rule 14-2-409.(D.)(5).

A 1½% late payment penalty will be applied to account balances not paid within fifteen (15) days after the postmark date of the bill in accordance with Arizona Administrative Code R14-2-310.C.

Low Income Program- Monthly Low Income Credit of \$10.00 is available in the North Mohave Water district. Requires the completion of a Low Income Program Application. Program is restricted to the first 100 eligible residential customers on 5/8 x 3/4 inch meters in the North Mohave Water district. Applicants must swear that he/she has annual income below the threshold. The threshold is below 150% of the federal low income guidelines as periodically revised. Applicant may not be claimed as a dependent on another person's tax return. Applicant must reapply each time moving residences. Refusal or failure to provide acceptable documentation of eligibility, upon request, shall result in removal from the low income program. Rebilling of customers under the otherwise applicable rate schedule may occur for periods of ineligibility previously billed under the low income tariff. Annual income means the value of all money and non-cash benefits available for living expenses, from all sources, both taxable and non-taxable, before deductions, for all people who live with the applicant.

Local and/or Regional Messaging Program Tariff – BMP 1.1

PURPOSE

A program for the Company to actively participate in a water conservation campaign with local or regional advertising (Modified Non-Per Capita Conservation Program BMP Category 1: Public Awareness/Public Relations 1.1: Local and/or Regional Messaging Program).

REQUIREMENTS

The requirements of this tariff are governed by Rules of the Arizona Corporation Commission and were adapted from the Arizona Department of Water Resources' Required Public Education Program and Best Management Practices in the Modified Non-Per Capita Conservation Program.

1. The Company or designated representative shall actively participate in water conservation campaign with local and/or regional advertising.
2. The campaign shall promote ways for customers to save water.
3. The Company shall facilitate the campaign through one or more of the following avenues (not an all inclusive list):
 - a. Television commercials
 - b. Radio commercials
 - c. Websites
 - d. Promotional materials
 - e. Vehicle signs
 - f. Bookmarks
 - g. Magnets
4. The Company shall keep a record of the following information and make it available to the Commission upon request:
 - a. A description of the messaging program implemented and program dates.
 - b. The number of customers reached (or an estimate).
 - c. Costs of Program implementation.

Youth Conservation Education Program Tariff – BMP 2.2

PURPOSE

A program for the Company to promote water conservation by increasing students' understanding of water resources and the need to conserve (Modified Non-Per Capita Conservation Program BMP Category 2: Conservation Education and Training 2.2: Youth Conservation Education Program).

REQUIREMENTS

The requirements of this tariff are governed by Rules of the Arizona Corporation Commission and were adapted from the Arizona Department of Water Resources' Required Public Education Program and Best Management Practices in the Modified Non-Per Capita Conservation Program.

1. The Company or designated representative shall work with schools in its service area to increase students' understanding of water resources and to promote water conservation.
2. The Company shall provide a combination of instructional assistance, education materials, teacher education, classroom presentations, and field trips to water related facilities.
3. The Company shall provide the following teacher resources.
 - a. Offer Project WET (Water Education for Teachers) workshops to teachers twice yearly. In lieu of Project WET the Company may market its Water Conservation Assembly Program to all schools within its service area. The Water Conservation Assembly Program will focus on teaching students about water resources and water conservation. The assembly itself will be an interactive water conservation discussion.
 - b. Provide free resource materials and information upon request.
 - c. Provide in-classroom presentations upon request.
4. The Company shall make available free take home educational materials for elementary school students.
5. The Company shall keep a record of the following information and make it available upon request.
 - a. A description of the youth conservation education process implemented.
 - b. The number of students reached (or an estimate).
 - c. A description of the written water conservation material provided free to students.
 - d. Costs of the Youth Conservation Education Program implementation.

New Homeowner Landscape Information Tariff – BMP 2.3

PURPOSE

A program for the Company to promote the conservation of water by providing a landscape information package for the purpose of educating its new customers about low water use landscaping (Modified Non-Per Capita Conservation Program BMP Category 2: Conservation Education and Training 2.3: New Homeowner Landscape Information).

REQUIREMENTS:

The requirements of this tariff are governed by Rules of the Arizona Corporation Commission and were adapted from the Arizona Department of Water Resources' Required Public Education Program and Best Management Practices in the Modified Non-Per Capita Conservation Program.

1. Upon establishment of water service the Company shall offer and make available upon request a free "Homeowner Landscape Packet" to each new customer in the Company's service area. The packet will include at a minimum: a cover letter describing the water conservation expectations for all customers in the Company's service area, applicable rate tariffs, a basic interior/exterior water saving pamphlet, xeriscape landscape information, a list of low water use trees, plants, shrubs, etc., watering guidelines, and a rain water harvesting pamphlet.
2. Upon customer request, the Company shall provide:
 - a. On-site consultations on low water use landscaping and efficient watering practices.
 - b. A summary of water saving options.
3. The Company shall keep a record of the number of packets provided to new customers and make it available to the Commission upon request.

Residential Audit Program Tariff – BMP 3.1**PURPOSE**

A program for the Company to promote water conservation by providing customers with information on performing water audits to determine conservation opportunities at their residence (Modified Non-Per Capita Conservation Program BMP Category 3: Outreach Services 3.1: Residential Audit Program).

REQUIREMENTS

The requirements of this tariff are governed by Rules of the Arizona Corporation Commission and were adapted from the Arizona Department of Water Resources' Required Public Education Program and Best Management Practices in the Modified Non-Per Capita Conservation Program.

1. The Company shall offer self-audit information.
2. The Company or designated representative shall provide all customers that request them with a self-audit kit.
3. The kit shall include detailed instructions and tools for completing the water audit including information on how to check their water meter. The audit kit shall include but not be limited to information on checking the following components: irrigation system, pool, water features, toilets, faucets and shower.
4. If requested, the Company shall assist the customer in a self-water audit and assist the customer in determining what might be causing high water usage as well as supply customer with information regarding water conservation and landscape watering guidelines. As part of the water audit, and if requested to do so by the customer, the Company shall confirm the accuracy of the customer meter (applicable meter testing fees shall apply).
5. The Company shall keep a record of the following information and make it available to the Commission upon request:
 - a. A description of the water conservation material provided in the kit.
 - b. The number of kits provided to customers.
 - c. Implementation costs of the Residential Audit Program.

Residential Interior Retrofit Program Tariff – BMP 3.4

PURPOSE

A program for the Company to promote water conservation by providing residential customers free or low cost plumbing fixtures for their residence (Modified Non-Per Capita Conservation Program BMP Category 3: Outreach Services 3.4: Residential Interior Retrofit Program).

REQUIREMENTS

The requirements of this tariff are governed by Rules of the Arizona Corporation Commission and were adapted from the Arizona Department of Water Resources' Required Public Education Program and Best Management Practices in the Modified Non-Per Capita Conservation Program.

- 1. The Company or designated representative shall provide to residential customers that request them that live in homes built prior to the adoption of the 1990 Uniform Plumbing Code free or low cost low water use fixtures such as faucets, faucet aerators, low flow shower heads, toilets and toilet dams. The Company must offer the fixtures/fixture retrofits to all residential customers meeting the above criteria unless the Company can demonstrate that targeting certain portions of its water service area is likely to yield the highest participation and/or potential water savings.

~~1. The Company or designated representative shall provide to residential customers~~

- 2. The fixtures or retrofit kit shall include detailed instructions for installing the retrofit fixtures.
- 3. The Company shall select appropriate communications channels to advertize the program.
- 4. The Company shall keep a record of the following information and make it available to the Commission upon request:
 - a. A description of the Residential Interior Retrofit Program including a description of the fixtures provided to customers and estimated water savings as a result of Program implementation.
 - b. The number of retrofit fixtures requested by customers and the number of fixtures provided.
 - c. Costs of the Residential Interior Retrofit Program.

Customer High Water Use Inquiry Resolution Tariff – BMP 3.6

PURPOSE

A program for the Company to assist its customers with their high water-use inquiries and complaints (Modified Non-Per Capita Conservation Program BMP Category 3: Outreach Services 3.6: Customer High Water Use Inquiry Resolution).

REQUIREMENTS

The requirements of this tariff are governed by Rules of the Arizona Corporation Commission and were adapted from the Arizona Department of Water Resources' Required Public Education Program and Best Management Practices in the Modified Non-Per Capita Conservation Program.

1. The Company shall handle high water use inquiries as calls are received.
2. Calls shall be taken by a customer service representative who has been trained on typical causes of high water consumption as well as leak detection procedures that customers can perform themselves.
3. Upon request by the customer or when the Company determines it is warranted, a trained Field Technician shall be sent to the customer's residence to verify consumption and conduct a leak detection inspection and further assist the customer with water conservation measures.
