In an effort to reduce the effects of regulatory lag and the need for more frequent rate cases, the Company is adjusting Advances in Aid of Construction (AIAC) for known and measurable refunds to be paid in the period post test year and prior to expected implementation of rates from this current case. Refunds for 2020 are calculated based on refunds issued in 2019 and consider terms left on each contract.

1 AIAC Refunds Paid Post Test Year

2
3 In an effort to reduce the effects of regulatory lag and the need for more frequent rate cases, the Company is adjusting Advances in Aid of Construction (AIAC) for known and
4 measurable refunds to be paid in the period post test year and prior to expected implementation of rates from this current case. Refunds for 2020 are calculated based on refunds
5 issued in 2019 and consider terms left on each contract.

1 Removal of CIAC not in Plant in Service

2
3 At the end of the Test Year, some contributed plant remained in Construction Work in Progress and as such, has not been included in Plant in Service or Rate Base. This
4 adjustment removes the contributed balance from CWIP and CIAC until such time as it is transferred to Plant in Service.

In an effort to reduce the effects of regulatory lag and the need for more frequent rate cases, the Company is adjusting Advances in Aid of Construction (AIAC) for known and measurable refunds to be paid in the period post test year and prior to expected implementation of rates from this current case. Refunds for 2020 are calculated based on refunds issued in 2019 and consider terms left on each contract.

1 Removal of CIAC not in Plant in Service

2
3 At the end of the Test Year, some contributed plant remained in Construction Work in Progress and as such, has not been included in Plant in Service or Rate Base. This
4 adjustment removes the contributed balance from CWIP and CIAC until such time as it is transferred to Plant in Service.

1 Remove Wastewater Vector Truck

2
 3 Vector and Sludge Trucks are exclusively used in Wastewater Operations. This adjustment removes all Vector and Sludge Trucks from the water allocation and allocates the
 4 amounts to the Wastewater districts.

1 AIAC Refunds Paid Post Test Year

2
3 In an effort to reduce the effects of regulatory lag and the need for more frequent rate cases, the Company is adjusting Advances in Aid of Construction (AIAC) for known and
4 measurable refunds to be paid in the period post test year and prior to expected implementation of rates from this current case. Refunds for 2020 are calculated based on refunds
5 issued in 2019 and consider terms left on each contract.

1 AIAC Refunds Paid Post Test Year

2
3 In an effort to reduce the effects of regulatory lag and the need for more frequent rate cases, the Company is adjusting Advances in Aid of Construction (AIAC) for known and
4 measurable refunds to be paid in the period post test year and prior to expected implementation of rates from this current case. Refunds for 2020 are calculated based on refunds
5 issued in 2019 and consider terms left on each contract.

In an effort to reduce the effects of regulatory lag and the need for more frequent rate cases, the Company is adjusting Advances in Aid of Construction (AIAC) for known and measurable refunds to be paid in the period post test year and prior to expected implementation of rates from this current case. Refunds for 2020 are calculated based on refunds issued in 2019 and consider terms left on each contract.

In an effort to reduce the effects of regulatory lag and the need for more frequent rate cases, the Company is adjusting Advances in Aid of Construction (AIAC) for known and measurable refunds to be paid in the period post test year and prior to expected implementation of rates from this current case. Refunds for 2020 are calculated based on refunds issued in 2019 and consider terms left on each contract.

In an effort to reduce the effects of regulatory lag and the need for more frequent rate cases, the Company is adjusting Advances in Aid of Construction (AIAC) for known and measurable refunds to be paid in the period post test year and prior to expected implementation of rates from this current case. Refunds for 2020 are calculated based on refunds issued in 2019 and consider terms left on each contract.

1 AIAC Refunds Paid Post Test Year

2
3
4 In an effort to reduce the effects of regulatory lag and the need for more frequent rate cases, the Company is adjusting Advances in Aid of Construction (AIAC) for known and
5 measurable refunds to be paid in the period post test year and prior to expected implementation of rates from this current case. Refunds for 2020 are calculated based on refunds
6 issued in 2019 and consider terms left on each contract.

In an effort to reduce the effects of regulatory lag and the need for more frequent rate cases, the Company is adjusting Advances in Aid of Construction (AIAC) for known and measurable refunds to be paid in the period post test year and prior to expected implementation of rates from this current case. Refunds for 2020 are calculated based on refunds issued in 2019 and consider terms left on each contract.

	<u>Property Tax Expense</u>	<u>Property Tax Expense For Conversion Factor</u>
1 <u>Adjust Property Taxes to Reflect Proposed Revenues</u>		
2 Property Taxes are based, in part, on the average of the prior three year's		
3 revenues. The 2019 property tax expense requires a conforming		
4 adjustment to bring property taxes in line with proposed changes in		
5 revenue.		
6 Additionally, the Company has experienced known and measurable		
7 changes in property tax rates from year to year. Accordingly, conforming		
8 property tax rates have been adjusted by the average change in property		
9 tax rates over the last three years to account for known and measurable		
10 historical trends in tax rates.

EPCOR Water Arizona Inc.
Test Year Ended December 31, 2019
Income Statement Adjustment ADJ JPB-IS4

Line No.	Agua Fria Water	Bad Debt <u>Adjustment</u>
1	<u>Bad Debt Expense</u>	
2	The 2019 Test Year Bad Debt Expense was calculated based on total	
3	Arizona accounts receivable which was allocated to the districts.	
4		
5	Included in that calculation were recoveries of write-offs originally thought	
6	to be uncollectible from prior years and adjustments to account receivable	
7	balances.	
8		
9	In order to accurately reflect the impact of bad debt expense on 2019	
10	expenses, the allocation and adjustments from prior years were removed	
11	and replaced with actual activity determined to be uncollectible and	
12	written-off in 2019 for each district.	
13		
14		
15	The difference between the unadjusted expense amount as allocated and	
16	the actual write-offs by district is computed below and included as a	
17	proforma adjustment to the test year expense for each district.

1 Annualization/Normalization of Revenues and Expenses

2
 3
 4
 5
 6
 7

Due to the seasonality of residents in the Phoenix area and growth during 2019 in certain districts, it is appropriate to annualize revenues and certain customer related expenses for the average customer population during the year, rather than the year-end count. At December 31, 2019, the customer population is at its highest, and does not properly reflect the experiences of the Company.

1 Removal of Disallowable Items

2

The Company has removed expenses that would typically be disallowed for ratemaking purposes, such as charitable and civic contributions and other miscellaneous expenses that are normally not recoverable from customers. While the Company still believes these expenses should be recoverable through rates, they have been removed to minimize issues in dispute. Also removed are non-Arizona related expenses from corporate allocations.

1 Removal of 10% of Performance Based Compensation

2
 3 The Performance Based Compensation program contains metrics designed to incentivize employees to 1) work safely by requiring achievement of an
 4 annual OSHA Recordable Incident Rate or lower, 2) achieve specified operational efficiency measures regarding water loss statistics and setting reduction
 5 targets, as well as obtaining targets for completing capital projects on time and at or under budget, and 3) meet or exceed goals for providing excellent
 6 customer service and accurate and timely customer billing. Each of these 3 targets is weighted at 30 percent with the remaining 10 percent based upon
 7 achieving a financial target focused on earning the authorized rate of return. This pro forma adjustment removes this financial component which
 8 represents 10 percent of the target for Performance Based Compensation Plan.

9
 10 This pro forma adjustment is similar to what was adopted by the Commission in Decision Nos. 78268 and 76162 and 74147.

Customer Care and Billing charges are costs associated with Third Party Billing, Call Centers, and Work Order Management. Costs billed to the Company are on a per bill per month basis and adjusted annually. This adjustment includes an adjustment for inflation based on the Consumer Price Index for the city of Phoenix. An adjustment for 2020 and 2021 is necessary to account for known and measurable increases in costs through the time any new rates resulting from this rate application will be effective.

2

Operating expenses are expected to increase in each of the future years due to inflation and other increasing costs factors. To compensate for regulatory lag, EPCOR proposes an increase for 2020 and 2021 correlated with the consumer price index for the Phoenix metropolitan area for all operating expenses where a pro forma adjustment has not already been proposed.

Corporate Allocation as of 12/31/19 has been annualized for one year with this adjustment. Corporate Allocations are costs associated with operational services provided by EPCOR Utilities, Inc. ("EUI") including Human Resources, Accounting and Reporting Functions, Legal, and Treasury Management Services. This adjustment removes Public and Governmental Affairs costs as well as the 10% financial component associated with the Performance Based Compensation plan and also adjusts labor costs by 3% for 2020 and 2021.

1 Tank Maintenance

2

3

Tank maintenance expenses are often large and vary from year to year. To levelize tank maintenance expenses for the test year, the Company has adjusted the expenses to reflect the average cost of tank maintenance over a planned maintenance program. The program maps out the anticipated frequency and amount of the costs on a district level by storage tank. Costs are then averaged over each district's approved maintenance program.

1 Insurance Other Than Group

2

3 Insurance Other Than Group consists of 16 separate components. Annually, the Company reports certain business statistics to its insuring agencies 4 including Revenues, Plant Balances, Employee Count, Total Payroll and Vehicle Counts. Each of the 16 components is adjusted annually based on these 5 statistics. This adjustment is updating the premiums to the 2020 levels.

Income Statement Adjustment ADJ JPB-IS4

Line No.	Anthem Water	Bad Debt <u>Adjustment</u>
1	<u>Bad Debt Expense</u>	
2	The 2019 Test Year Bad Debt Expense was calculated based on total	
3	Arizona accounts receivable which was allocated to the districts.	
4		
5	Included in that calculation were recoveries of write-offs originally thought	
6	to be uncollectible from prior years and adjustments to account receivable	
7	balances.	
8		
9	In order to accurately reflect the impact of bad debt expense on 2019	
10	expenses, the allocation and adjustments from prior years were removed	
11	and replaced with actual activity determined to be uncollectible and	
12	written-off in 2019 for each district.	
13		
14		
15	The difference between the unadjusted expense amount as allocated and	
16	the actual write-offs by district is computed below and included as a	
17	proforma adjustment to the test year expense for each district.

1 Annualization/Normalization of Revenues and Expenses

2
 3
 4
 5
 6

Due to the seasonality of residents in the Phoenix area and growth during 2019 in certain districts, it is appropriate to annualize revenues and certain customer related expenses for the average customer population during the year, rather than the year-end count. At December 31, 2019, the customer population is at its highest, and does not properly reflect the experiences of the Company.

1 Removal of Disallowable Items

2

3

The Company has removed expenses that would typically be disallowed for ratemaking purposes, such as charitable and civic contributions and other miscellaneous expenses that are normally not recoverable from customers. While the Company still believes these expenses should be recoverable through rates, they have been removed to minimize issues in dispute. Also removed are non-Arizona related expenses from corporate allocations.

2
 3
 4
 5
 6
 7

The Company has adjusted labor costs to reflect 12 months of costs to annualize for certain positions that were created or filled during the test year as well as known increases to labor costs of 3%. This adjustment also annualizes the various employee benefit-related items including group insurance, 401(k), and pension expense. Group Insurance includes premiums for life insurance, medical insurance, dental insurance, long-term disability insurance and short-term disability. Also included is the annualization of the Company's contribution to its employees' 401(k) retirement savings program.

1 Removal of 10% of Performance Based Compensation

2
 3
 4
 5
 6
 7
 8
 9
 10
 11
 12
 13

The Performance Based Compensation program contains metrics designed to incentivize employees to 1) work safely by requiring achievement of an annual OSHA Recordable Incident Rate or lower, 2) achieve specified operational efficiency measures regarding water loss statistics and setting reduction targets, as well as obtaining targets for completing capital projects on time and at or under budget, and 3) meet or exceed goals for providing excellent customer service and accurate and timely customer billing. Each of these 3 targets is weighted at 30 percent with the remaining 10 percent based upon achieving a financial target focused on earning the authorized rate of return. This pro forma adjustment removes this financial component which represents 10 percent of the target for Performance Based Compensation Plan.

This pro forma adjustment is similar to what was adopted by the Commission in Decision Nos. 78268 and 76162 and 74147.

Customer Care and Billing charges are costs associated with Third Party Billing, Call Centers, and Work Order Management. Costs billed to the Company are on a per bill per month basis and adjusted annually. This adjustment includes an adjustment for inflation based on the Consumer Price Index for the city of Phoenix. An adjustment for 2020 and 2021 is necessary to account for known and measurable increases in costs through the time any new rates resulting from this rate application will be effective.

2

3

Operating expenses are expected to increase in each of the future years due to inflation and other increasing costs factors. To compensate for regulatory lag, EPCOR proposes an increase for 2020 and 2021 correlated with the consumer price index for the Phoenix metropolitan area for all operating expenses where a pro forma adjustment has not already been proposed.

1 Adjust Corporate Allocations

2

3

Corporate Allocation as of 12/31/19 has been annualized for one year with this adjustment. Corporate Allocations are costs associated with operational services provided by EPCOR Utilities, Inc. ("EUI") including Human Resources, Accounting and Reporting Functions, Legal, and Treasury Management Services. This adjustment removes Public and Governmental Affairs costs as well as the 10% financial component associated with the Performance Based Compensation plan and also adjusts labor costs by 3% for 2020 and 2021.

1 Tank Maintenance

2
 3
 4
 5
 6

Tank maintenance expenses are often large and vary from year to year. To levelize tank maintenance expenses for the test year, the Company has adjusted the expenses to reflect the average cost of tank maintenance over a planned maintenance program. The program maps out the anticipated frequency and amount of the costs on a district level by storage tank. Costs are then averaged over each district's approved maintenance program.

1 Insurance Other Than Group

2

3

Insurance Other Than Group consists of 16 separate components. Annually, the Company reports certain business statistics to its insuring agencies including Revenues, Plant Balances, Employee Count, Total Payroll and Vehicle Counts. Each of the 16 components is adjusted annually based on these statistics. This adjustment is updating the premiums to the 2020 levels.

1 Annualization/Normalization of Revenues and Expenses

2
 3
 4
 5
 6
 7

Due to the seasonality of residents in the Phoenix area and growth during 2019 in certain districts, it is appropriate to annualize revenues and certain customer related expenses for the average customer population during the year, rather than the year-end count. At December 31, 2019, the customer population is at its highest, and does not properly reflect the experiences of the Company.

1 Removal of Disallowable Items

2

3

4

5

6

7

The Company has removed expenses that would typically be disallowed for ratemaking purposes, such as charitable and civic contributions and other miscellaneous expenses that are normally not recoverable from customers. While the Company still believes these expenses should be recoverable through rates, they have been removed to minimize issues in dispute. Also removed are non-Arizona related expenses from corporate allocations.

1 Removal of 10% of Performance Based Compensation

2
 3 The Performance Based Compensation program contains metrics designed to incentivize employees to 1) work safely by requiring achievement of an
 4 annual OSHA Recordable Incident Rate or lower, 2) achieve specified operational efficiency measures regarding water loss statistics and setting reduction
 5 targets, as well as obtaining targets for completing capital projects on time and at or under budget, and 3) meet or exceed goals for providing excellent
 6 customer service and accurate and timely customer billing. Each of these 3 targets is weighted at 30 percent with the remaining 10 percent based upon
 7 achieving a financial target focused on earning the authorized rate of return. This pro forma adjustment removes this financial component which
 8 represents 10 percent of the target for Performance Based Compensation Plan.

9
 10 This pro forma adjustment is similar to what was adopted by the Commission in Decision Nos. 78268 and 76162 and 74147.

1 Customer Care and Billing Services

2
 3 Customer Care and Billing charges are costs associated with Third Party Billing, Call Centers, and Work Order Management. Costs billed to the Company
 4 are on a per bill per month basis and adjusted annually. This adjustment includes an adjustment for inflation based on the Consumer Price Index for the
 5 city of Phoenix. An adjustment for 2020 and 2021 is necessary to account for known and measurable increases in costs through the time any new rates
 6 resulting from this rate application will be effective.

1 Tank Maintenance

2

Tank maintenance expenses are often large and vary from year to year. To levelize tank maintenance expenses for the test year, the Company has adjusted the expenses to reflect the average cost of tank maintenance over a planned maintenance program. The program maps out the anticipated frequency and amount of the costs on a district level by storage tank. Costs are then averaged over each district's approved maintenance program.

1 Annualization/Normalization of Revenues and Expenses

2
 3
 4
 5
 6

Due to the seasonality of residents in the Phoenix area and growth during 2019 in certain districts, it is appropriate to annualize revenues and certain customer related expenses for the average customer population during the year, rather than the year-end count. At December 31, 2019, the customer population is at its highest, and does not properly reflect the experiences of the Company.

The Company has removed expenses that would typically be disallowed for ratemaking purposes, such as charitable and civic contributions and other miscellaneous expenses that are normally not recoverable from customers. While the Company still believes these expenses should be recoverable through rates, they have been removed to minimize issues in dispute. Also removed are non-Arizona related expenses from corporate allocations.

 7

The Company has adjusted labor costs to reflect 12 months of costs to annualize for certain positions that were created or filled during the test year as well as known increases to labor costs of 3%. This adjustment also annualizes the various employee benefit-related items including group insurance, 401(k), and pension expense. Group Insurance includes premiums for life insurance, medical insurance, dental insurance, long-term disability insurance and short-term disability. Also included is the annualization of the Company's contribution to its employees' 401(k) retirement savings program.

1 Removal of 10% of Performance Based Compensation

2
 3
 4
 5
 6
 7
 8
 9
 10
 11
 12
 13

The Performance Based Compensation program contains metrics designed to incentivize employees to 1) work safely by requiring achievement of an annual OSHA Recordable Incident Rate or lower, 2) achieve specified operational efficiency measures regarding water loss statistics and setting reduction targets, as well as obtaining targets for completing capital projects on time and at or under budget, and 3) meet or exceed goals for providing excellent customer service and accurate and timely customer billing. Each of these 3 targets is weighted at 30 percent with the remaining 10 percent based upon achieving a financial target focused on earning the authorized rate of return. This pro forma adjustment removes this financial component which represents 10 percent of the target for Performance Based Compensation Plan.

This pro forma adjustment is similar to what was adopted by the Commission in Decision Nos. 78268 and 76162 and 74147.

 5
 6
 7
 8
 9
 10
 11

Customer Care and Billing charges are costs associated with Third Party Billing, Call Centers, and Work Order Management. Costs billed to the Company are on a per bill per month basis and adjusted annually. This adjustment includes an adjustment for inflation based on the Consumer Price Index for the city of Phoenix. An adjustment for 2020 and 2021 is necessary to account for known and measurable increases in costs through the time any new rates resulting from this rate application will be effective.

 3
 4
 5
 6

Operating expenses are expected to increase in each of the future years due to inflation and other increasing costs factors. To compensate for regulatory lag, EPCOR proposes an increase for 2020 and 2021 correlated with the consumer price index for the Phoenix metropolitan area for all operating expenses where a pro forma adjustment has not already been proposed.

1 Adjust Corporate Allocations

2

3

Corporate Allocation as of 12/31/19 has been annualized for one year with this adjustment. Corporate Allocations are costs associated with operational services provided by EPCOR Utilities, Inc. ("EUI") including Human Resources, Accounting and Reporting Functions, Legal, and Treasury Management Services. This adjustment removes Public and Governmental Affairs costs as well as the 10% financial component associated with the Performance Based Compensation plan and also adjusts labor costs by 3% for 2020 and 2021.

1 Tank Maintenance

2
 3
 4
 5
 6

Tank maintenance expenses are often large and vary from year to year. To levelize tank maintenance expenses for the test year, the Company has adjusted the expenses to reflect the average cost of tank maintenance over a planned maintenance program. The program maps out the anticipated frequency and amount of the costs on a district level by storage tank. Costs are then averaged over each district's approved maintenance program.

EPCOR Water Arizona Inc.
Test Year Ended December 31, 2019
Income Statement Adjustment ADJ JPB-IS4

Line No.	Mohave Water	Bad Debt <u>Adjustment</u>
1	<u>Bad Debt Expense</u>	
2	The 2019 Test Year Bad Debt Expense was calculated based on total	
3	Arizona accounts receivable which was allocated to the districts.	
4		
5	Included in that calculation were recoveries of write-offs originally thought	
6	to be uncollectible from prior years and adjustments to account receivable	
7	balances.	
8		
9	In order to accurately reflect the impact of bad debt expense on 2019	
10	expenses, the allocation and adjustments from prior years were removed	
11	and replaced with actual activity determined to be uncollectible and	
12	written-off in 2019 for each district.	
13		
14		
15	The difference between the unadjusted expense amount as allocated and	
16	the actual write-offs by district is computed below and included as a	
17	proforma adjustment to the test year expense for each district.

Due to the seasonality of residents in the Phoenix area and growth during 2019 in certain districts, it is appropriate to annualize revenues and certain customer related expenses for the average customer population during the year, rather than the year-end count. At December 31, 2019, the customer population is at its highest, and does not properly reflect the experiences of the Company.

1 Removal of Disallowable Items

2

3

The Company has removed expenses that would typically be disallowed for ratemaking purposes, such as charitable and civic contributions and other miscellaneous expenses that are normally not recoverable from customers. While the Company still believes these expenses should be recoverable through rates, they have been removed to minimize issues in dispute. Also removed are non-Arizona related expenses from corporate allocations.

1 Removal of 10% of Performance Based Compensation

2

The Performance Based Compensation program contains metrics designed to incentivize employees to 1) work safely by requiring achievement of an annual OSHA Recordable Incident Rate or lower, 2) achieve specified operational efficiency measures regarding water loss statistics and setting reduction targets, as well as obtaining targets for completing capital projects on time and at or under budget, and 3) meet or exceed goals for providing excellent customer service and accurate and timely customer billing. Each of these 3 targets is weighted at 30 percent with the remaining 10 percent based upon achieving a financial target focused on earning the authorized rate of return. This pro forma adjustment removes this financial component which represents 10 percent of the target for Performance Based Compensation Plan.

9

This pro forma adjustment is similar to what was adopted by the Commission in Decision Nos. 78268 and 76162 and 74147.

1 Customer Care and Billing Services

2

3

Customer Care and Billing charges are costs associated with Third Party Billing, Call Centers, and Work Order Management. Costs billed to the Company are on a per bill per month basis and adjusted annually. This adjustment includes an adjustment for inflation based on the Consumer Price Index for the city of Phoenix. An adjustment for 2020 and 2021 is necessary to account for known and measurable increases in costs through the time any new rates resulting from this rate application will be effective.

3

Operating expenses are expected to increase in each of the future years due to inflation and other increasing costs factors. To compensate for regulatory lag, EPCOR proposes an increase for 2020 and 2021 correlated with the consumer price index for the Phoenix metropolitan area for all operating expenses where a pro forma adjustment has not already been proposed.

1 Adjust Corporate Allocations

2

Corporate Allocation as of 12/31/19 has been annualized for one year with this adjustment. Corporate Allocations are costs associated with operational services provided by EPCOR Utilities, Inc. ("EUI") including Human Resources, Accounting and Reporting Functions, Legal, and Treasury Management Services. This adjustment removes Public and Governmental Affairs costs as well as the 10% financial component associated with the Performance Based Compensation plan and also adjusts labor costs by 3% for 2020 and 2021.

1 Water System Acquisition Amortization

2

Decision Number 74174 approved the transfer of North Mohave Valley Corporation's assets to EPCOR Water Arizona Inc. Page 5 lines 1 to 3 state that recovery of the rate base premium would be better determined in the context of a general rate case. In Docket No. WS-01303A-17-0257, which did not result in a final decision, the Company was directed to file a request for interim rates. The interim rate decision required this filing so the Company is seeking recovery of the rate base premium in this application.

7

The Purchase Agreement for the acquisition of North Mohave Valley Corporation's assets includes a provision for EPCOR to seek recovery of an amount in addition to the 10% acquisition premium paid over the rate base of NMVC. The additional \$950,000 premium represents additional value of the NMVC's assets but enabled EPCOR to avoid additional investment in the Mohave Water District and accordingly should be paid by Mohave Water customers. These facilities otherwise would have been built by EPCOR for use by the Mohave Water District customers at a substantially higher cost. Please see the Direct Testimony of Jeffrey W. Stuck.

Tank maintenance expenses are often large and vary from year to year. To levelize tank maintenance expenses for the test year, the Company has adjusted the expenses to reflect the average cost of tank maintenance over a planned maintenance program. The program maps out the anticipated frequency and amount of the costs on a district level by storage tank. Costs are then averaged over each district's approved maintenance program.

Line No.	North Mohave Water	Bad Debt <u>Adjustment</u>
1	<u>Bad Debt Expense</u>	
2	The 2019 Test Year Bad Debt Expense was calculated based on total	
3	Arizona accounts receivable which was allocated to the districts.	
4		
5	Included in that calculation were recoveries of write-offs originally thought	
6	to be uncollectible from prior years and adjustments to account receivable	
7	balances.	
8		
9	In order to accurately reflect the impact of bad debt expense on 2019	
10	expenses, the allocation and adjustments from prior years were removed	
11	and replaced with actual activity determined to be uncollectible and	
12	written-off in 2019 for each district.	
13		
14		
15	The difference between the unadjusted expense amount as allocated and	
16	the actual write-offs by district is computed below and included as a	
17	proforma adjustment to the test year expense for each district.

1 Annualization/Normalization of Revenues and Expenses

2
 3 Due to the seasonality of residents in the Phoenix area and growth during 2019 in certain districts, it is appropriate to annualize revenues and certain
 4 customer related expenses for the average customer population during the year, rather than the year-end count. At December 31, 2019, the customer
 5 population is at its highest, and does not properly reflect the experiences of the Company.

1 Removal of Disallowable Items

2

3

The Company has removed expenses that would typically be disallowed for ratemaking purposes, such as charitable and civic contributions and other miscellaneous expenses that are normally not recoverable from customers. While the Company still believes these expenses should be recoverable through rates, they have been removed to minimize issues in dispute. Also removed are non-Arizona related expenses from corporate allocations.

1	<u>Annualize Labor & Labor Related Expenses</u>							
		4 Factor	North Mohave Water		1.0142%			
2								
3	The Company has adjusted labor costs to reflect 12 months of costs to annualize for certain positions that were created or filled during the test year as well as known increases to labor costs of 3%. This adjustment also annualizes the various employee benefit-related items including group insurance, 401(k), and pension expense. Group Insurance includes premiums for life insurance, medical insurance, dental insurance, long-term disability insurance and short-term disability. Also included is the annualization of the Company's contribution to its employees' 401(k) retirement savings program.

1 Removal of 10% of Performance Based Compensation
 2

3 The Performance Based Compensation program contains metrics designed to incentivize employees to 1) work safely by requiring achievement of an
 4 annual OSHA Recordable Incident Rate or lower, 2) achieve specified operational efficiency measures regarding water loss statistics and setting reduction
 5 targets, as well as obtaining targets for completing capital projects on time and at or under budget, and 3) meet or exceed goals for providing excellent
 6 customer service and accurate and timely customer billing. Each of these 3 targets is weighted at 30 percent with the remaining 10 percent based upon
 7 achieving a financial target focused on earning the authorized rate of return. This pro forma adjustment removes this financial component which
 8 represents 10 percent of the target for Performance Based Compensation Plan.

9
 10 This pro forma adjustment is similar to what was adopted by the Commission in Decision Nos. 78268 and 76162 and 74147.

1 Customer Care and Billing Services

2
 3
 4
 5
 6

Customer Care and Billing charges are costs associated with Third Party Billing, Call Centers, and Work Order Management. Costs billed to the Company are on a per bill per month basis and adjusted annually. This adjustment includes an adjustment for inflation based on the Consumer Price Index for the city of Phoenix. An adjustment for 2020 and 2021 is necessary to account for known and measurable increases in costs through the time any new rates resulting from this rate application will be effective.

1 Adjust Corporate Allocations

2

3

Corporate Allocation as of 12/31/19 has been annualized for one year with this adjustment. Corporate Allocations are costs associated with operational services provided by EPCOR Utilities, Inc. ("EUI") including Human Resources, Accounting and Reporting Functions, Legal, and Treasury Management Services. This adjustment removes Public and Governmental Affairs costs as well as the 10% financial component associated with the Performance Based Compensation plan and also adjusts labor costs by 3% for 2020 and 2021.

2

3 Decision Number 74174 approved the transfer of North Mohave Valley Corporation's assets to EPCOR Water Arizona Inc. Page 5 lines 1 to 3
 4 state that recovery of the rate base premium would be better determined in the context of a general rate case. In Docket No. WS-01303A-17-
 5 0257, which did not result in a final decision, the Company was directed to file a request for interim rates. The interim rate decision required
 6 this filing so the Company is seeking recovery of the rate base premium in this application.

7

8 EPCOR is seeking recovery of the 10% premium initially paid for the North Mohave system from North Mohave customers. An additional
 9 \$950,000 premium attributable to the avoidance of investment in the Mohave Water District should be paid by Mohave Water customers.
 10 These facilities otherwise would have been built by EPCOR for use by the Mohave Water District customers at a substantially higher cost.
 11 Please see the Direct Testimony of Jeffrey W. Stuck.

1 Tank Maintenance

2

Tank maintenance expenses are often large and vary from year to year. To levelize tank maintenance expenses for the test year, the Company has adjusted the expenses to reflect the average cost of tank maintenance over a planned maintenance program. The program maps out the anticipated frequency and amount of the costs on a district level by storage tank. Costs are then averaged over each district's approved maintenance program.

1 Insurance Other Than Group

2

3 Insurance Other Than Group consists of 16 separate components. Annually, the Company reports certain business statistics to its insuring agencies
 4 including Revenues, Plant Balances, Employee Count, Total Payroll and Vehicle Counts. Each of the 16 components is adjusted annually based on these
 5 statistics. This adjustment is updating the premiums to the 2020 levels.

1 Annualization/Normalization of Revenues and Expenses

2
 3 Due to the seasonality of residents in the Phoenix area and growth during 2019 in certain districts, it is appropriate to annualize revenues and certain
 4 customer related expenses for the average customer population during the year, rather than the year-end count. At December 31, 2019, the customer
 5 population is at its highest, and does not properly reflect the experiences of the Company.

1 Removal of Disallowable Items

2

3

4

5

6

7

The Company has removed expenses that would typically be disallowed for ratemaking purposes, such as charitable and civic contributions and other miscellaneous expenses that are normally not recoverable from customers. While the Company still believes these expenses should be recoverable through rates, they have been removed to minimize issues in dispute. Also removed are non-Arizona related expenses from corporate allocations.

1 Removal of 10% of Performance Based Compensation

2

The Performance Based Compensation program contains metrics designed to incentivize employees to 1) work safely by requiring achievement of an annual OSHA Recordable Incident Rate or lower, 2) achieve specified operational efficiency measures regarding water loss statistics and setting reduction targets, as well as obtaining targets for completing capital projects on time and at or under budget, and 3) meet or exceed goals for providing excellent customer service and accurate and timely customer billing. Each of these 3 targets is weighted at 30 percent with the remaining 10 percent based upon achieving a financial target focused on earning the authorized rate of return. This pro forma adjustment removes this financial component which represents 10 percent of the target for Performance Based Compensation Plan.

9

This pro forma adjustment is similar to what was adopted by the Commission in Decision Nos. 78268 and 76162 and 74147.

 5
 6

Customer Care and Billing charges are costs associated with Third Party Billing, Call Centers, and Work Order Management. Costs billed to the Company are on a per bill per month basis and adjusted annually. This adjustment includes an adjustment for inflation based on the Consumer Price Index for the city of Phoenix. An adjustment for 2020 and 2021 is necessary to account for known and measurable increases in costs through the time any new rates resulting from this rate application will be effective.

1 Adjust Corporate Allocations

2

3 Corporate Allocation as of 12/31/19 has been annualized for one year with this adjustment. Corporate Allocations are costs associated with operational
 4 services provided by EPCOR Utilities, Inc. ("EUI") including Human Resources, Accounting and Reporting Functions, Legal, and Treasury Management
 5 Services. This adjustment removes Public and Governmental Affairs costs as well as the 10% financial component associated with the Performance Based
 6 Compensation plan and also adjusts labor costs by 3% for 2020 and 2021.

Tank maintenance expenses are often large and vary from year to year. To levelize tank maintenance expenses for the test year, the Company has adjusted the expenses to reflect the average cost of tank maintenance over a planned maintenance program. The program maps out the anticipated frequency and amount of the costs on a district level by storage tank. Costs are then averaged over each district's approved maintenance program.

	<u>Property Tax Expense</u>	<u>Property Tax Expense For Conversion Factor</u>
1 <u>Adjust Property Taxes to Reflect Proposed Revenues</u>		
2 Property Taxes are based, in part, on the average of the prior three year's		
3 revenues. The 2019 property tax expense requires a conforming		
4 adjustment to bring property taxes in line with proposed changes in		
5 revenue.		
6 Additionally, the Company has experienced known and measurable		
7 changes in property tax rates from year to year. Accordingly, conforming		
8 property tax rates have been adjusted by the average change in property		
9 tax rates over the last three years to account for known and measurable		
10 historical trends in tax rates.

Line No.	Sun City Water	Bad Debt <u>Adjustment</u>
1 <u>Bad Debt Expense</u>		
2 The 2019 Test Year Bad Debt Expense was calculated based on total		
3 Arizona accounts receivable which was allocated to the districts.		
4		
5 Included in that calculation were recoveries of write-offs originally thought		
6 to be uncollectible from prior years and adjustments to account receivable		
7 balances.		
8		
9 In order to accurately reflect the impact of bad debt expense on 2019		
10 expenses, the allocation and adjustments from prior years were removed		
11 and replaced with actual activity determined to be uncollectible and		
12 written-off in 2019 for each district.		
13		
14		
15 The difference between the unadjusted expense amount as allocated and		
16 the actual write-offs by district is computed below and included as a		
17 proforma adjustment to the test year expense for each district.

1 Annualization/Normalization of Revenues and Expenses

2
 3
 4
 5
 6
 7

Due to the seasonality of residents in the Phoenix area and growth during 2019 in certain districts, it is appropriate to annualize revenues and certain customer related expenses for the average customer population during the year, rather than the year-end count. At December 31, 2019, the customer population is at its highest, and does not properly reflect the experiences of the Company.

The Company has removed expenses that would typically be disallowed for ratemaking purposes, such as charitable and civic contributions and other miscellaneous expenses that are normally not recoverable from customers. While the Company still believes these expenses should be recoverable through rates, they have been removed to minimize issues in dispute. Also removed are non-Arizona related expenses from corporate allocations.

1	<u>Annualize Labor & Labor Related Expenses</u>	4 Factor	Sun City Water	10.7817%		
2						
3	The Company has adjusted labor costs to reflect 12 months of costs to annualize for certain positions that were created or filled during the test year as well as known increases to labor costs of 3%. This adjustment also annualizes the various employee benefit-related items including group insurance, 401(k), and pension expense. Group Insurance includes premiums for life insurance, medical insurance, dental insurance, long-term disability insurance and short-term disability. Also included is the annualization of the Company's contribution to its employees' 401(k) retirement savings program.

1 Removal of 10% of Performance Based Compensation

2

The Performance Based Compensation program contains metrics designed to incentivize employees to 1) work safely by requiring achievement of an annual OSHA Recordable Incident Rate or lower, 2) achieve specified operational efficiency measures regarding water loss statistics and setting reduction targets, as well as obtaining targets for completing capital projects on time and at or under budget, and 3) meet or exceed goals for providing excellent customer service and accurate and timely customer billing. Each of these 3 targets is weighted at 30 percent with the remaining 10 percent based upon achieving a financial target focused on earning the authorized rate of return. This pro forma adjustment removes this financial component which represents 10 percent of the target for Performance Based Compensation Plan.

9

This pro forma adjustment is similar to what was adopted by the Commission in Decision Nos. 78268 and 76162 and 74147.

1 Customer Care and Billing Services

2
 3
 4
 5
 6

Customer Care and Billing charges are costs associated with Third Party Billing, Call Centers, and Work Order Management. Costs billed to the Company are on a per bill per month basis and adjusted annually. This adjustment includes an adjustment for inflation based on the Consumer Price Index for the city of Phoenix. An adjustment for 2020 and 2021 is necessary to account for known and measurable increases in costs through the time any new rates resulting from this rate application will be effective.

1 Adjust Corporate Allocations

2
 3 Corporate Allocation as of 12/31/19 has been annualized for one year with this adjustment. Corporate Allocations are costs associated with operational
 4 services provided by EPCOR Utilities, Inc. ("EUI") including Human Resources, Accounting and Reporting Functions, Legal, and Treasury Management
 5 Services. This adjustment removes Public and Governmental Affairs costs as well as the 10% financial component associated with the Performance Based
 6 Compensation plan and also adjusts labor costs by 3% for 2020 and 2021.

Tank maintenance expenses are often large and vary from year to year. To levelize tank maintenance expenses for the test year, the Company has adjusted the expenses to reflect the average cost of tank maintenance over a planned maintenance program. The program maps out the anticipated frequency and amount of the costs on a district level by storage tank. Costs are then averaged over each district's approved maintenance program.

1 Insurance Other Than Group

2

3 Insurance Other Than Group consists of 16 separate components. Annually, the Company reports certain business statistics to its insuring agencies
 4 including Revenues, Plant Balances, Employee Count, Total Payroll and Vehicle Counts. Each of the 16 components is adjusted annually based on these
 5 statistics. This adjustment is updating the premiums to the 2020 levels.

	<u>Property Tax Expense</u>	<u>Property Tax Expense For Conversion Factor</u>
1 <u>Adjust Property Taxes to Reflect Proposed Revenues</u>		
2 Property Taxes are based, in part, on the average of the prior three year's		
3 revenues. The 2019 property tax expense requires a conforming		
4 adjustment to bring property taxes in line with proposed changes in		
5 revenue.		
6 Additionally, the Company has experienced known and measurable		
7 changes in property tax rates from year to year. Accordingly, conforming		
8 property tax rates have been adjusted by the average change in property		
9 tax rates over the last three years to account for known and measurable		
10 historical trends in tax rates.

EPCOR Water Arizona Inc.
Test Year Ended December 31, 2019
Income Statement Adjustment ADJ JPB-IS4

Line No.	Sun City West Water	Bad Debt <u>Adjustment</u>
1	<u>Bad Debt Expense</u>	
2	The 2019 Test Year Bad Debt Expense was calculated based on total	
3	Arizona accounts receivable which was allocated to the districts.	
4		
5	Included in that calculation were recoveries of write-offs originally thought	
6	to be uncollectible from prior years and adjustments to account receivable	
7	balances.	
8		
9	In order to accurately reflect the impact of bad debt expense on 2019	
10	expenses, the allocation and adjustments from prior years were removed	
11	and replaced with actual activity determined to be uncollectible and	
12	written-off in 2019 for each district.	
13		
14		
15	The difference between the unadjusted expense amount as allocated and	
16	the actual write-offs by district is computed below and included as a	
17	proforma adjustment to the test year expense for each district.

Annualization/Normalization of Revenues and Expenses

Due to the seasonality of residents in the Phoenix area and growth during 2019 in certain districts, it is appropriate to annualize revenues and certain customer related expenses for the average customer population during the year, rather than the year-end count. At December 31, 2019, the customer population is at its highest, and does not properly reflect the experiences of the Company.

Removal of Disallowable Items

The Company has removed expenses that would typically be disallowed for ratemaking purposes, such as charitable and civic contributions and other miscellaneous expenses that are normally not recoverable from customers. While the Company still believes these expenses should be recoverable through rates, they have been removed to minimize issues in dispute. Also removed are non-Arizona related expenses from corporate allocations.

Annualize Labor & Labor Related Expenses		4 Factor	Sun City West Water	5.5595%		
<p>The Company has adjusted labor costs to reflect 12 months of costs to annualize for certain positions that were created or filled during the test year as well as known increases to labor costs of 3%. This adjustment also annualizes the various employee benefit-related items including group insurance, 401(k), and pension expense. Group Insurance includes premiums for life insurance, medical insurance, dental insurance, long-term disability insurance and short-term disability. Also included is the annualization of the Company's contribution to its employees' 401(k) retirement savings program.</p>

1 Removal of 10% of Performance Based Compensation

2
 3 The Performance Based Compensation program contains metrics designed to incentivize employees to 1) work safely by requiring achievement of an
 4 annual OSHA Recordable Incident Rate or lower, 2) achieve specified operational efficiency measures regarding water loss statistics and setting reduction
 5 targets, as well as obtaining targets for completing capital projects on time and at or under budget, and 3) meet or exceed goals for providing excellent
 6 customer service and accurate and timely customer billing. Each of these 3 targets is weighted at 30 percent with the remaining 10 percent based upon
 7 achieving a financial target focused on earning the authorized rate of return. This pro forma adjustment removes this financial component which
 8 represents 10 percent of the target for Performance Based Compensation Plan.

9
 10 This pro forma adjustment is similar to what was adopted by the Commission in Decision Nos. 78268 and 76162 and 74147.

CPI Adjustment

4 Factor	Sun City West Water	5.5595%
----------	---------------------	---------

Operating expenses are expected to increase in each of the future years due to inflation and other increasing costs factors. To compensate for regulatory lag, EPCOR proposes an increase for 2020 and 2021 correlated with the consumer price index for the Phoenix metropolitan area for all operating expenses where a pro forma adjustment has not already been proposed.

Adjust Corporate Allocations

Corporate Allocation as of 12/31/19 has been annualized for one year with this adjustment. Corporate Allocations are costs associated with operational services provided by EPCOR Utilities, Inc. ("EUI") including Human Resources, Accounting and Reporting Functions, Legal, and Treasury Management Services. This adjustment removes Public and Governmental Affairs costs as well as the 10% financial component associated with the Performance Based Compensation plan and also adjusts labor costs by 3% for 2020 and 2021.

Tank Maintenance

1
2
3
4
5
6
7

Tank maintenance expenses are often large and vary from year to year. To levelize tank maintenance expenses for the test year, the Company has adjusted the expenses to reflect the average cost of tank maintenance over a planned maintenance program. The program maps out the anticipated frequency and amount of the costs on a district level by storage tank. Costs are then averaged over each district's approved maintenance program.

	<u>Property Tax Expense</u>	<u>Property Tax Expense For Conversion Factor</u>
1 <u>Adjust Property Taxes to Reflect Proposed Revenues</u>		
2 Property Taxes are based, in part, on the average of the prior three year's		
3 revenues. The 2019 property tax expense requires a conforming		
4 adjustment to bring property taxes in line with proposed changes in		
5 revenue.		
6 Additionally, the Company has experienced known and measurable		
7 changes in property tax rates from year to year. Accordingly, conforming		
8 property tax rates have been adjusted by the average change in property		
9 tax rates over the last three years to account for known and measurable		
10 historical trends in tax rates.

Line No.	Tubac Water	Bad Debt <u>Adjustment</u>
1	<u>Bad Debt Expense</u>	
2	The 2019 Test Year Bad Debt Expense was calculated based on total	
3	Arizona accounts receivable which was allocated to the districts.	
4		
5	Included in that calculation were recoveries of write-offs originally thought	
6	to be uncollectible from prior years and adjustments to account receivable	
7	balances.	
8		
9	In order to accurately reflect the impact of bad debt expense on 2019	
10	expenses, the allocation and adjustments from prior years were removed	
11	and replaced with actual activity determined to be uncollectible and	
12	written-off in 2019 for each district.	
13		
14		
15	The difference between the unadjusted expense amount as allocated and	
16	the actual write-offs by district is computed below and included as a	
17	proforma adjustment to the test year expense for each district.

Due to the seasonality of residents in the Phoenix area and growth during 2019 in certain districts, it is appropriate to annualize revenues and certain customer related expenses for the average customer population during the year, rather than the year-end count. At December 31, 2019, the customer population is at its highest, and does not properly reflect the experiences of the Company.

1 Removal of Disallowable Items

2

The Company has removed expenses that would typically be disallowed for ratemaking purposes, such as charitable and civic contributions and other miscellaneous expenses that are normally not recoverable from customers. While the Company still believes these expenses should be recoverable through rates, they have been removed to minimize issues in dispute. Also removed are non-Arizona related expenses from corporate allocations.

1 Removal of 10% of Performance Based Compensation

2
 3 The Performance Based Compensation program contains metrics designed to incentivize employees to 1) work safely by requiring achievement of an
 4 annual OSHA Recordable Incident Rate or lower, 2) achieve specified operational efficiency measures regarding water loss statistics and setting reduction
 5 targets, as well as obtaining targets for completing capital projects on time and at or under budget, and 3) meet or exceed goals for providing excellent
 6 customer service and accurate and timely customer billing. Each of these 3 targets is weighted at 30 percent with the remaining 10 percent based upon
 7 achieving a financial target focused on earning the authorized rate of return. This pro forma adjustment removes this financial component which
 8 represents 10 percent of the target for Performance Based Compensation Plan.

9
 10 This pro forma adjustment is similar to what was adopted by the Commission in Decision Nos. 78268 and 76162 and 74147.

1 Customer Care and Billing Services

2
 3 Customer Care and Billing charges are costs associated with Third Party Billing, Call Centers, and Work Order Management. Costs billed to the Company
 4 are on a per bill per month basis and adjusted annually. This adjustment includes an adjustment for inflation based on the Consumer Price Index for the
 5 city of Phoenix. An adjustment for 2020 and 2021 is necessary to account for known and measurable increases in costs through the time any new rates
 6 resulting from this rate application will be effective.

---	----------------	----------	-------------	---------

2

Operating expenses are expected to increase in each of the future years due to inflation and other increasing costs factors. To compensate for regulatory lag, EPCOR proposes an increase for 2020 and 2021 correlated with the consumer price index for the Phoenix metropolitan area for all operating expenses where a pro forma adjustment has not already been proposed.

Corporate Allocation as of 12/31/19 has been annualized for one year with this adjustment. Corporate Allocations are costs associated with operational services provided by EPCOR Utilities, Inc. ("EUI") including Human Resources, Accounting and Reporting Functions, Legal, and Treasury Management Services. This adjustment removes Public and Governmental Affairs costs as well as the 10% financial component associated with the Performance Based Compensation plan and also adjusts labor costs by 3% for 2020 and 2021.

Tank maintenance expenses are often large and vary from year to year. To levelize tank maintenance expenses for the test year, the Company has adjusted the expenses to reflect the average cost of tank maintenance over a planned maintenance program. The program maps out the anticipated frequency and amount of the costs on a district level by storage tank. Costs are then averaged over each district's approved maintenance program.

1 Insurance Other Than Group

2

3 Insurance Other Than Group consists of 16 separate components. Annually, the Company reports certain business statistics to its insuring agencies
 4 including Revenues, Plant Balances, Employee Count, Total Payroll and Vehicle Counts. Each of the 16 components is adjusted annually based on these
 5 statistics. This adjustment is updating the premiums to the 2020 levels.

Income Statement Adjustment ADJ JPB-IS4

Line No.	Willow Valley Water	Bad Debt <u>Adjustment</u>
1	<u>Bad Debt Expense</u>	
2	The 2019 Test Year Bad Debt Expense was calculated based on total	
3	Arizona accounts receivable which was allocated to the districts.	
4		
5	Included in that calculation were recoveries of write-offs originally thought	
6	to be uncollectible from prior years and adjustments to account receivable	
7	balances.	
8		
9	In order to accurately reflect the impact of bad debt expense on 2019	
10	expenses, the allocation and adjustments from prior years were removed	
11	and replaced with actual activity determined to be uncollectible and	
12	written-off in 2019 for each district.	
13		
14		
15	The difference between the unadjusted expense amount as allocated and	
16	the actual write-offs by district is computed below and included as a	
17	proforma adjustment to the test year expense for each district.

Due to the seasonality of residents in the Phoenix area and growth during 2019 in certain districts, it is appropriate to annualize revenues and certain customer related expenses for the average customer population during the year, rather than the year-end count. At December 31, 2019, the customer population is at its highest, and does not properly reflect the experiences of the Company.

1 Removal of Disallowable Items

2

3

The Company has removed expenses that would typically be disallowed for ratemaking purposes, such as charitable and civic contributions and other miscellaneous expenses that are normally not recoverable from customers. While the Company still believes these expenses should be recoverable through rates, they have been removed to minimize issues in dispute. Also removed are non-Arizona related expenses from corporate allocations.

1 Removal of 10% of Performance Based Compensation

2

The Performance Based Compensation program contains metrics designed to incentivize employees to 1) work safely by requiring achievement of an annual OSHA Recordable Incident Rate or lower, 2) achieve specified operational efficiency measures regarding water loss statistics and setting reduction targets, as well as obtaining targets for completing capital projects on time and at or under budget, and 3) meet or exceed goals for providing excellent customer service and accurate and timely customer billing. Each of these 3 targets is weighted at 30 percent with the remaining 10 percent based upon achieving a financial target focused on earning the authorized rate of return. This pro forma adjustment removes this financial component which represents 10 percent of the target for Performance Based Compensation Plan.

9

This pro forma adjustment is similar to what was adopted by the Commission in Decision Nos. 78268 and 76162 and 74147.

1 Customer Care and Billing Services

2
 3
 4
 5
 6

Customer Care and Billing charges are costs associated with Third Party Billing, Call Centers, and Work Order Management. Costs billed to the Company are on a per bill per month basis and adjusted annually. This adjustment includes an adjustment for inflation based on the Consumer Price Index for the city of Phoenix. An adjustment for 2020 and 2021 is necessary to account for known and measurable increases in costs through the time any new rates resulting from this rate application will be effective.

Corporate Allocation as of 12/31/19 has been annualized for one year with this adjustment. Corporate Allocations are costs associated with operational services provided by EPCOR Utilities, Inc. ("EUI") including Human Resources, Accounting and Reporting Functions, Legal, and Treasury Management Services. This adjustment removes Public and Governmental Affairs costs as well as the 10% financial component associated with the Performance Based Compensation plan and also adjusts labor costs by 3% for 2020 and 2021.

Decision Number 75484 approved the transfer of Willow Valley Water Co, Inc.'s assets to EPCOR Water Arizona Inc. Page 16 line 5 states that ".... Any acquisition premium or similar adjustment should be based on EPCOR's ability to demonstrate that clear, quantifiable and substantial net benefits have been realized by Willow Valley rate papers... which would not have been realized had the transaction not occurred." On Page 16 Line 21, the Commission further states that "... it is reasonable and appropriate to defer consideration for recovery of the Acquisition Premium through the proposed AAM until Willow Valley's next rate case."

EPCOR believes it has met the burden of demonstration of quantifiable and substantial benefits, and is therefore requesting recover of the acquisition premium paid of the Willow Valley Assets. The Premium may be recovered in 1 of two ways. Either through inclusion of a regulatory asset in rate base, and amortization of that asset, or through a surcharge mechanism, demonstrated in SMC Rb-1. Please see the Direct Testimony of Jeff Stuck for discussion of Willow Valley benefits.

1 Tank Maintenance

2

Tank maintenance expenses are often large and vary from year to year. To levelize tank maintenance expenses for the test year, the Company has adjusted the expenses to reflect the average cost of tank maintenance over a planned maintenance program. The program maps out the anticipated frequency and amount of the costs on a district level by storage tank. Costs are then averaged over each district's approved maintenance program.

1 Insurance Other Than Group

2

3 Insurance Other Than Group consists of 16 separate components. Annually, the Company reports certain business statistics to its insuring agencies
 4 including Revenues, Plant Balances, Employee Count, Total Payroll and Vehicle Counts. Each of the 16 components is adjusted annually based on these
 5 statistics. This adjustment is updating the premiums to the 2020 levels.

FACTORS FOR ALLOCATING COST OF SERVICE TO CUSTOMER CLASS

FACTOR A. ALLOCATION OF COMMODITY COSTS.

Factors are based on the pro forma test year average daily consumption for each customer classification.

Classification (1)	Average Daily Consumption, 1000 Gallons (2)	Allocation Factor (5)
Residential	13,582	0.6816
Commercial	4,540	0.2278
Other Public Authority	640	0.0321
Private Fire	0	0.0000
Irrigation	6	0.0003
Raw Water	1,158	0.0581
Total	19,926	0.9999

FACTOR B. ALLOCATION OF MAXIMUM DAY DEMAND COSTS - TREATMENT AND PUMPING.

Factors are based on the maximum day demand for each customer classification.

Customer Classification (1)	Average Daily Consumption, 1000 Gallons (2)	Peak Day Factor (3)	Rate of Flow, 1000 Gallons Per Day (4)=(2)x(3)	Allocation Factor (5)
Residential	13,582	1.76	23,937	0.6699
Commercial	4,540	1.83	8,328	0.2331
Other Public Authority	640	1.42	910	0.0255
Private Fire	0	0.00	0	0.0000
Irrigation	6	2.31	13	0.0004
Raw Water	1,158	2.20	2,543	0.0712
Total	19,926		35,731	1.0001

FACTOR C. ALLOCATION OF MAXIMUM HOUR DEMAND COSTS.

Factors are based on the maximum hour demand for each customer classification.

Customer Classification (1)	Average Hourly Consumption, 1000 Gallons (2)	Peak Hour Factor (3)	Rate of Flow, 1000 Gallons Per Hour (4)=(2)x(3)	Allocation Factor (5)
Residential	566	2.92	1,651	0.6699
Commercial	189	3.04	574	0.2331
Other Public Authority	27	2.35	63	0.0255
Private Fire	0	0.00	0	-
Irrigation	0	3.82	1	0.0004
Raw Water	48	3.64	175	0.0712
Total	830		2,464	1.0001

EPCOR WATER ARIZONA INC.
AGUA FRIA WATER DISTRICT
FACTORS FOR ALLOCATING COST OF SERVICE TO CUSTOMER CLASS

FACTOR D. ALLOCATION OF COSTS ASSOCIATED WITH METERS

Factors are based on the relative cost of meters by size and customer classification

<u>Customer Classification</u> (1)	<u>5/8" Equivalents</u> (2)	<u>Allocation Factor</u> (3)
Residential	49,976	0.9458
Commercial	2,813	0.0532
Other Public Authority	16	0.0003
Private Fire	0	0.0000
Irrigation	2	0.0000
Raw Water	32	0.0006
Total	<u>52,839</u>	<u>0.9999</u>

FACTOR E. ALLOCATION OF COSTS ASSOCIATED WITH SERVICES

Factors are based on the relative cost of meters by size and customer classification

<u>Customer Classification</u> (1)	<u>3/4" Equivalents</u> (2)	<u>Allocation Factor</u> (3)
Residential	47,493	0.9661
Commercial	1,233	0.0251
Other Public Authority	2	0.0000
Private Fire	425	0.0086
Irrigation	1	0.0000
Raw Water	3	0.0001
Total	<u>49,157</u>	<u>0.9999</u>

FACTOR F. ALLOCATION OF BILLING AND COLLECTING COSTS.

Factors are based on the total number of customers.

<u>Customer Classification</u> (1)	<u>Total Customers</u> (2)	<u>Allocation Factor</u> (3)
Residential	47,493	0.9662
Commercial	1,233	0.0251
Other Public Authority	2	0.0000
Private Fire	425	0.0086
Irrigation	1	0.0000
Raw Water	3	0.0001
Total	<u>49,157</u>	<u>1.0000</u>

GENERAL WATER RATE
(continued)

Terms and Conditions

Water service provided under this rate schedule is subject to this District's Rules and Regulations applicable to Water Service and may be subject to this District's Service Charges set forth in Rate Schedule Service Charges and adjustor mechanisms included in the Company's tariffs on file with the Arizona Corporation Commission.

Water service under this Schedule is for the exclusive use of the Customer and water shall not be resold or provided to others, except for water sold to Arizona Water under the Arizona Water Contract.

In addition to the collection of regular rates, the utility will collect from its customers a proportionate share of any privilege, sales, use and franchise tax, per Commission Rule 14-2-409.D.5.

A 1½% late payment penalty will be applied to account balances not paid within fifteen (15) days after the postmark date of the bill in accordance with Arizona Administrative Code R14-2-310.C.

Low Income Program- Monthly Low Income Credit of \$10.00 is available in the Agua Fria Water district. Requires the completion of a Low Income Program Application. Program is restricted to the first 1,000 eligible residential customers on 5/8 x 3/4 inch meters in the Agua Fria Water district. Applicants must swear that he/she has annual income below the threshold. The threshold is below 150% of the federal low income guidelines as periodically revised. Applicant may not be claimed as a dependent on another person's tax return. Applicant must reapply each time moving residences. Refusal or failure to provide acceptable documentation of eligibility, upon request, shall result in removal from the low income program. Rebilling of customers under the otherwise applicable rate schedule may occur for periods of ineligibility previously billed under the low income tariff. Annual income means the value of all money and non-cash benefits available for living expenses, from all sources, both taxable and non-taxable, before deductions, for all people who live with the applicant.

WATER SERVICES TERMINATION AGREEMENT
WITH THE CITY OF SURPRISE
WSTA-1

EPCOR Water Arizona Inc. ("Company") has been granted a variance from Arizona Corporation Commission Rule A.A.C. R14-2-410.A.2 for the limited purpose of entering into a Water Services Termination Agreement ("Agreement") with the City of Surprise ("City"), a municipal provider of wastewater service, for common customers purchasing water from the Company and wastewater from the City. The purpose of this Tariff, and the authorized variance from A.A.C. R14-2-410.A.2, is to assist the City in collecting delinquent payments for wastewater utility service provided to common customers of the Company.

The Company shall comply with the terms and conditions of the Agreement.

The Agreement with the City is attached to and incorporated into this tariff.

CUSTOMER WATER CONSUMPTION INFORMATION SHARING
WITH CITY OF SURPRISE, WASTEWATER PROVIDER

EPCOR Water Arizona Inc. ("EWAZ" or "Company") is authorized to share water consumption information of individual customers with the City of Surprise ("the City"), a municipal provider of wastewater service for common customers purchasing water from EWAZ and wastewater from the City. The purpose of this Tariff, and the authorized provision of customer water consumption information, is to assist the City in billing for wastewater utility services. City agrees that it is only authorized to use such water consumption information for purposes of wastewater services billing and is not authorized to disclose such information to any other party except as may be required by law.

EWAZ entered into an Agreement with the City for providing individual water consumption data, in a form materially similar to the standard form agreement. The Agreement was subject to Arizona Corporation Commission ("Commission") review as set forth in Section 6 of the agreement.

EWAZ shall notify all water utility customers affected by the agreement between the Company and the City pursuant to this Tariff, by means of a billing insert during the first billing cycle immediately after said tariff is approved.

NON-POTABLE IRRIGATION WATER SERVICE

Availability

Available to large turf and landscape irrigators for use on golf courses, lakes, school grounds, park lands, right of ways, and similar large open spaces. Available to industry for non-potable industrial process water. Also available to land developers and their contractors and sub-contractors for use on large construction projects which require significant amounts of dirt moving, grading, trenching or other water intensive construction activities.

Rate

All Consumption

	Commodity Rate (per 1,000 gallons)
Untreated Groundwater (i.e., Corte Bella Golf)	\$ 0.9200
Raw Surface water (i.e., DMB White Tank)	\$ 1.0900

Special Conditions

The water provided under this tariff is only untreated groundwater or raw surface water and is not suitable for human consumption or bodily contact. Water provided under this tariff should be used only for irrigation or non-potable industrial process water. Water will be made available for construction uses only to the extent it is not needed to serve other classes of customers.

Treated effluent is not available under this tariff. (See wastewater tariffs where applicable.)

Each customer shall be required to enter into a Non-potable Irrigation Water Service Agreement with the Company prior to establishment of service in accordance with Rule No. 12 of EPCOR Water Arizona, Inc.'s Agua Fria Water District Rules and Regulations.

Terms and Conditions

Water service provided under this rate schedule is subject to this District's Rules and Regulations applicable to Water Service and may be subject to this District's Service Charges set forth in Rate Schedule Service Charges and adjustor mechanisms included in the Company's tariff on file with the Arizona Corporation Commission.

Water service under this Schedule is for the exclusive use of the Customer and water shall not be resold or provided to others.

In addition to the collection of regular rates, the utility will collect from its customers a proportionate share of any privilege, sales, use and franchise tax, per Commission Rule 14-2-409(D)(5),

A 1-1/2% late payment penalty will be applied to account balances not paid within fifteen (15) days after the postmark date of the bill in accordance with Arizona Administrative Code R14-2-310.C.

COMMON FACILITIES HOOK-UP FEE

I. Purpose and Applicability

The purpose of the Common Facilities hook-up fee payable to EPCOR Water Arizona, Inc. (“the Company”) pursuant to this tariff is to equitably apportion the costs of constructing additional common water facility infrastructure to provide water production, delivery, treatment, storage and pressure among all new service connections. These charges are applicable to all new service connections established after the effective date of this tariff. The charges are one-time charges and are payable as a condition to the Company’s establishment of service, as more particularly provided below.

II. Definitions

Unless the context otherwise requires, the definitions set forth in R-14-2-401 of the Arizona Corporation Commission’s (“Commission”) rules and regulations governing water utilities shall apply interpreting this tariff schedule.

“Applicant” means any party entering into an agreement with the Company for the installation of water facilities to serve new service connections, and may include developers and/or builders of new residential subdivisions.

“Main Extension Agreement” means any agreement whereby an Applicant, Developer and/or Builder agrees to advance the costs of the installation of water facilities, which may include Common Facilities, to the Company to serve new service connections, or install water facilities to serve new service connections and transfer ownership of such water facilities to the Company, in either case which agreement shall require the approval of the Commission pursuant to A.A.C. R-14-2-406, and shall have the same meaning as “Water Facilities Agreement” or “Line Extension Agreement.”

“Common Facilities” means all wells, storage tanks, production, treatment, booster pumps, pressure tanks, transmission mains and related appurtenances, including engineering and design costs, constructed for the benefit of the entire water system and not for the exclusive use of the Applicant’s development.

“Service Connection” means and includes all service connections for single-family residential or other uses, regardless of meter size.

COMMON FACILITIES HOOK-UP FEE
(continued)

III. Common Facilities Water Hook-up Fee

For each new service connection, the Company shall collect a Common Facilities hook-up fee derived from the following table:

COMMON FACILITIES HOOK-UP FEE TABLE				
Meter Size	Size Factor			Total Fee
5/8" x 3/4"	1			\$1,680.00
3/4"	1.5			\$2,520.00
1"	2.5			\$4,200.00
1-1/2"	5			\$8,400.00
2"	8			\$13,440.00
3"	16			\$26,880.00
4"	25			\$42,000.00
6" or larger	50			\$84,000.00

IV. Terms and Conditions

(A) Assessment of One Time Common Facilities Hook-up Fee: The Common Facilities hook-up fee may be assessed only once per parcel, service connection, or lot within a subdivision (similar to meter and service line installation charge).

(B) Use of Common Facilities Hook-up Fee: Common Facilities hook-up fees may only be used to pay for capital items of Common Facilities, or for repayment of loans obtained for installation of Common Facilities. Common Facilities hook-up fees shall not be used for repairs, maintenance, or operational purposes.

(C) Time of Payment:

1) In the event that the Applicant that will be constructing improvements is required to enter into a Main Extension Agreement, payment of the Common Facilities hook-up fees required hereunder shall be made by the Applicant no later than within 15 calendar days after receipt of notification from the Company that the Utilities Division of the Arizona Corporation Commission has approved the Main Extension Agreement in accordance with R-14-2-406(M).

COMMON FACILITIES HOOK-UP FEE
(continued)

2) In the event that the Applicant for service is not required to enter into a Main Extension Agreement, the charges hereunder shall be due and payable at the time the meter and service line installation fee is due and payable.

(D) Common Facilities Construction by Developer: The Company and Applicant may agree to construction of Common Facilities necessary to serve a particular development by Applicant which facilities are then conveyed to the Company. In that event, Company shall credit the total cost of such Common Facilities as an offset to the Common Facilities hook-up fees due under this Tariff. If the total cost of the Common Facilities constructed by Applicant and conveyed to Company is less than the applicable Common Facilities hook-up fee due under this Tariff, Applicant shall pay the remaining amount of the Common Facilities hook-up fees owed hereunder. If the total cost of the Common Facilities contributed by Applicant, Developer or Builder and conveyed to Company is more than the applicable Common Facilities hook-up fees under this Tariff, Applicant shall be refunded the difference upon acceptance of the Common Facilities by the Company. The refund may be paid in installments over a period of time pursuant to an agreement between the Company and the developer on a case by case basis. The Company and Applicant may agree to construction of additional facilities that are not Common Facilities, the cost of which shall not be subject to off-set under this paragraph IV.D, but which will be subject to refund under R14-2-406(D).

(E) Failure to Pay Charges; Delinquent Payments: The Company will not be obligated to provide water service to any Applicant or other applicant for service in the event that such Applicant or other applicant for service has not paid in full all charges hereunder. Under no circumstances will the Company set a meter or otherwise allow service to be established if the entire amount of any payment has not been paid.

(F) Large Subdivision Projects: In the event that the Applicant is engaged in the development of a residential subdivision containing more than 150 lots, and is a party to a Main Extension Agreement with the Company for such development, the Company may, in its discretion, agree to payment of the Common Facilities hook-up fees in installments. Such installments may be based on the residential subdivision development's phasing, and should attempt to equitably apportion the payment of charges hereunder based on the Applicant's construction schedule and water service requirements.

(G) Common Facilities Hook-Up Fees Non-refundable: The amounts collected by the Company pursuant to the Common Facilities hook-up fee tariff shall be non-refundable contributions in aid of construction.

Decision No. XXXXX

COMMON FACILITIES HOOK-UP FEE)
(continued)

(H) Use of Common Facilities Hook-Up Fees Received: All funds collected by the Company as Common Facilities hook-up fees shall be deposited into a separate interest bearing trust account and used solely for the purposes of paying for the costs of the Common Facilities, including repayment of loans obtained for the installation of Common Facilities that will benefit the entire water system.

(I) Common Facilities Hook-up Fee in Addition to On-site Facilities: The Common Facilities hook-up fee shall be in addition to any costs associated with the construction of on-site facilities or other additional facilities under Paragraph IV.D, above, under a Main Extension Agreement.

(J) Disposition of Excess Funds: After all necessary and desirable Common Facilities are constructed utilizing funds collected pursuant to the Common Facilities hook-up fees, or if the Common Facilities hookup fee has been terminated by order of the Arizona Corporation Commission, any funds remaining in the trust shall be refunded. The manner of the refund shall be determined by the Commission at the time a refund becomes necessary.

(K) Fire Flow Requirements: In the event the Applicant has fire flow requirements that require additional facilities beyond those facilities whose costs were included in the Common Facilities hook-up fee, and which are contemplated to be constructed using the proceeds of the Common Facilities hook-up fee, the Company may require the Applicant to install such additional facilities as are required to meet those additional fire flow requirements, as a non-refundable contribution, in addition to paying the Common Facilities hook-up fee.

(L) Status Reporting Requirements to the Commission: The Company shall submit a calendar year Common Facilities hook-up fee status report each January 31 to Docket Control for the prior twelve (12) month period, beginning January 31, 2018, until the Common Facilities hook-up fee tariff is no longer in effect. This status report shall contain a list of all customers that have paid the Common Facilities hook-up fee tariff, the amount each has paid, the amount of money spent from the account, the amount of interest earned on the tariff account, and a list of all facilities that have been installed with the tariff funds during the 12-month period.

COMMON FACILITIES HOOK-UP FEE (WATER)

(continued)

LARGE WATER-USERS

Any development with a projected average daily water demand greater than 1,700 gallons per day per acre is considered to be a Large User. Large Users will be required to provide an additional renewable water supply source to Utility to meet the demands of the development that are greater than 1,700 gallons per day per acre. Examples of a renewable water supply source include surface water or a groundwater well with long-term storage credits. The renewable water supply source must be approved by Utility, and must have the appropriately allocated water rights that will be conveyed to Utility. The cost to provide a renewable water supply source to Utility will not be credited as an offset to the Common Facilities Hook-Up Fee because such costs will be due to the exclusive need for additional water by the Large User; however, the cost of that portion of a renewable water supply source that is in excess of the Large User's needs will be credited as an offset to the Common Facilities Hook-Up Fee.

Large Users may be required to enter into an agreement with Utility that will define terms and conditions, and will include fees that will be charged to Large Users for over usage. Fees will incur if Large Users use water in excess of the supply source provided, which will be reviewed by Utility on an annual basis. Continued excessive use could result in Utility requiring the Large User to develop and implement a water use reduction plan or, as a last resort, court action.

SERVICE CHARGES

This District is authorized to charge the following Service Charges:

As provided for in EPCOR Water Arizona, Inc.'s Agua Fria Water District Rules and Regulations, Rule No. 2 (D) the Company will charge the following rates for Water Utility service:

Establishment or Re-Establishment of Service (c)	\$35.00
Reconnection of Service (Delinquent)	\$35.00
Meter Test (if Correct)	\$35.00
Meter Reread (If Correct)	\$25.00
NSF Check	\$25.00
Automated Meter Opt Outs	
Establishment Fee	\$35.00
Monthly Manual Read Fee	\$25.00
Late Charge, per month	1.5%
Deferred Payment, per month	1.5%
Deposit Requirements (Residential)	(a)
Deposit Requirements (Non-Residential)	(a)
Deposit Interest	(a)
After Hours Service Charge (b)	\$35.00

(a) Per Commission Rules (R14-2-403.B)

(b) After Hours Service charge: After regular working hours, on Saturdays, Sundays, or holidays if at the customer's request or for the customer's convenience.

(c) Monthly minimum times number of months disconnected from the system at the same location where the same customer had ordered a service disconnection within the preceding 12-month period. In the event that customer is also a wastewater customer the customer will only be charged for water reconnection.

In addition to the collection of regular rates, the utility will collect from its customers a proportionate share of any privilege, sales, use and franchise tax. Per Commission Rule 14-2-409(D)(5).

SERVICE CHARGES
(continued)

Service Line and Meter Installation Charges

As provided for in EPCOR Water Arizona, Inc.'s Agua Fria Water District Rule No. 4 (B), the Company will charge the customer, as a refundable advance in aid of construction, an amount for each meter and service line as specified below:

Service Line and Meter Installation Charges:

Meter Size	Service Line Charge	Meter Installation Charge
5/8" x 3/4- inch Meter	\$4,000.00	\$165.00
3/4- inch Meter	\$4,000.00	\$185.00
1- inch Meter	\$4,000.00	\$220.00
1-1/2 - inch Meter	\$4,000.00	\$325.00
2- inch Turbine Meter	\$4,000.00	\$385.00
2- inch Compound Meter	\$4,000.00	\$1,050.00
3- inch Turbine Meter	\$4,000.00	\$1,065.00
3- inch Compound Meter	\$4,000.00	\$1,665.00
4- inch Turbine Meter	\$4,000.00	\$1,335.00
4- inch Compound Meter	\$4,000.00	\$2,445.00
6- inch Turbine Meter	\$4,000.00	\$2,665.00
6- inch Compound Meter	\$4,000.00	\$3,700.00
Over 6" Meter	\$4,000.00	At Cost

Terms and Conditions

An applicant for water service shall pay to the Company, as a refundable advance in aid of construction the full cost to provide the new service line and meter.

In addition to the collection of regular rates, the Company will collect from its customers a proportionate share of any privilege, sales, use and franchise tax. Per Commission Rule 14-2-409.D.5.

All advances and/or contributions are to include labor, materials, overheads, and all applicable taxes, including all gross-up taxes for income taxes, if applicable.

CURTAILMENT TARIFF

CURTAILMENT PLAN FOR AGUA FRIA WATER DISTRICT

(Template 063004)

ADEQ Public Water System No: 04-07-695, 04-07-531

EPCOR Water Arizona, Inc. ("Company"), is authorized to curtail water service to all customers within its certificated area under the terms and conditions listed in this tariff.

This curtailment plan shall become part of the Arizona Department of Environmental Quality Emergency Operations Plan for the Company.

The Company shall notify its customers of this new tariff as part of its next regularly scheduled billing after the effective date of the tariff or no later than sixty (60) days after the effective date of the tariff.

The Company shall provide a copy of the curtailment tariff to any customer, upon request.

Stage 1 Exists When:

Company is able to maintain water storage in the system at 100 percent of capacity and there are no known problems with its well production or water storage in the system.

Restrictions: Under Stage 1, Company is deemed to be operating normally and no curtailment is necessary.

Notice Requirements: Under Stage 1, no notice is necessary.

Stage 2 Exists When:

a. Company's water storage or well production has been less than 80 percent of capacity for at least 48 consecutive hours, and

b. Company has identified issues such as a steadily declining water table, increased draw down threatening pump operations, or poor water production, creating a reasonable belief the Company will be unable to meet anticipated water demand on a sustained basis.

Restrictions: Under Stage 2, the Company may request the customers to voluntarily employ water conservation measures to reduce water consumption by approximately 50 percent. Outside watering should be limited to essential water, dividing outside watering on some uniform basis (such as even and odd days) and eliminating outside watering on weekends and holidays.

CURTAILMENT TARIFF
(continued)

Notice Requirements: Under Stage 2, the Company is required to notify customers by delivering written notice door to door at each service address, or by United States first class mail to the billing address or, at the Company's option, both. Such notice shall notify the customers of the general nature of the problem and the need to conserve water.

Stage 3 Exists When:

- a. Company's total water storage or well production has been less than 50 percent of capacity for at least 24 consecutive hours, and
- b. Company has identified issues such as a steadily declining water table, increased draw down threatening pump operations, or poor water production, creating a reasonable belief the Company will be unable to meet anticipated water demand on a sustained basis.

Restrictions: Under Stage 3, Company shall request the customers to voluntarily employ water conservation measures to reduce daily consumption by approximately 50 percent. All outside watering should be eliminated, except livestock, and indoor water conservation techniques should be employed whenever possible. Standpipe service shall be suspended.

Notice Requirements:

1. Company is required to notify customers by delivering written notice to each service address, or by United States first class mail to the billing address or, at the Company's option, both. Such Notice shall notify the customers of the general nature of the problem and the need to conserve water.
2. Beginning with Stage 3, Company shall post at least five (5) signs showing the curtailment stage. Signs shall be posted at the well and/or pump sites located within the Agua Fria Water District.
3. Company shall notify the Consumer Services Section of the Utilities Division of the Corporation Commission at least 12 hours prior to entering Stage 3.

Once Stage 3 has been reached, the Company must begin to augment the supply of water by either hauling or through an emergency interconnect with an approved water supply in an attempt to maintain the curtailment at a level no higher than Stage 3 until a permanent solution has been implemented.

(continued on next page)

CURTAILMENT TARIFF
(continued)

Stage 4 Exists When:

- a. Company's total water storage or well production has been less than 25 percent of capacity for at least 12 consecutive hours, and
- b. Company has identified issues such as a steadily declining water table, increased draw down threatening pump operations, or poor water production, creating a reasonable belief the Company will be unable to meet anticipated water demand on a sustained basis.

Restrictions: Under Stage 4, Company shall inform the customers of a mandatory restriction to employ water conservation measures to reduce daily consumption. Failure to comply will result in customer disconnection. The following uses of water shall be prohibited:

- ◆ Irrigation of outdoor lawns, trees, shrubs, or any plant life is prohibited
- ◆ Washing of any vehicle is prohibited
- ◆ The use of water for dust control or any outdoor cleaning uses is prohibited
- ◆ The use of drip or misting systems of any kind is prohibited
- ◆ The filling of any swimming pool, spas, fountains or ornamental pools is prohibited
- ◆ The use of construction water is prohibited
- ◆ Restaurant patrons shall be served water only upon request
- ◆ Any other water intensive activity is prohibited

The Company's operation of its standpipe service is prohibited. The addition of new service lines and meter installations is prohibited.

Notice Requirements:

- 1. Company is required to notify customers by delivering written notice to each service address, or by United States first class mail to the billing address or, at the Company's option, both. Such notice shall notify the customers of the general nature of the problem and the need to conserve water.
- 2. Beginning with Stage 4, Company shall post at least eight (8) signs showing the curtailment stage. Signs shall be posted at the well and/or pump sites located within the Agua Fria Water District
- 3. Company shall notify the Consumer Services Section of the Utilities Division of the Corporation Commission at least 12 hours prior to entering Stage 4.

CURTAILMENT TARIFF
(continued)

Customers who fail to comply with the above restrictions will be given a written notice to end all outdoor use. Failure to comply within two (2) working days of receipt of the notice will result in temporary loss of service until an agreement can be made to end unauthorized use of outdoor water. To restore service, the customer shall be required to pay all authorized reconnection fees.

If a customer believes he/she has been disconnected in error, the customer may contact the Commission's Consumer Services Section at 1-800-222-7000 to initiate an investigation.

Once Stage 4 has been reached, the Company must augment the supply of water by hauling or through an emergency interconnect from an approved supply or must otherwise provide emergency drinking water for its customers until a permanent solution has been implemented.

Local and/or Regional Messaging Program Tariff – BMP 1.1

PURPOSE

A program for the Company to actively participate in a water conservation campaign with local or regional advertizing (Modified Non-Per Capita Conservation Program BMP Category 1: Public Awareness/Public Relations 1.1: Local and/or Regional Messaging Program).

REQUIREMENTS

The requirements of this tariff are governed by Rules of the Arizona Corporation Commission and were adapted from the Arizona Department of Water Resources' Required Public Education Program and Best Management Practices in the Modified Non-Per Capita Conservation Program.

- 1. The Company or designated representative shall actively participate in water conservation campaign with local and/or regional advertising.
- 2. The campaign shall promote ways for customers to save water.
- 3. The Company shall facilitate the campaign through one or more of the following avenues (not an all inclusive list):
 - a. Television commercials
 - b. Radio commercials
 - c. Websites
 - d. Promotional materials
 - e. Vehicle signs
 - f. Bookmarks
 - g. Magnets
- 4. The Company shall keep a record of the following information and make it available to the Commission upon request:
 - a. A description of the messaging program implemented and program dates.
 - b. The number of customers reached (or an estimate).
 - c. Costs of Program implementation.

Youth Conservation Education Program Tariff – BMP 2.2

PURPOSE

A program for the Company to promote water conservation by increasing students' understanding of water resources and the need to conserve (Modified Non-Per Capita Conservation Program BMP Category 2: Conservation Education and Training 2.2: Youth Conservation Education Program).

REQUIREMENTS

The requirements of this tariff are governed by Rules of the Arizona Corporation Commission and were adapted from the Arizona Department of Water Resources' Required Public Education Program and Best Management Practices in the Modified Non-Per Capita Conservation Program.

1. The Company or designated representative shall work with schools in its service area to increase students' understanding of water resources and to promote water conservation.
2. The Company shall provide a combination of instructional assistance, education materials, teacher education, classroom presentations, and field trips to water related facilities.
3. The Company shall provide the following teacher resources.
 - a. Offer Project WET (Water Education for Teachers) workshops to teachers twice yearly. In lieu of Project WET the Company may market its Water Conservation Assembly Program to all schools within its service area. The Water Conservation Assembly Program will focus on teaching students about water resources and water conservation. The assembly itself will be an interactive water conservation discussion.
 - b. Provide free resource materials and information upon request.
 - c. Provide in-classroom presentations upon request.
4. The Company shall make available free take home educational materials for elementary school students.
5. The Company shall keep a record of the following information and make it available upon request.
 - a. A description of the youth conservation education process implemented.
 - b. The number of students reached (or an estimate).
 - c. A description of the written water conservation material provided free to students.
 - d. Costs of the Youth Conservation Education Program implementation.

Xeriscape Demonstration Garden Tariff – BMP 2.4

PURPOSE

A program for the Company to install and maintain a water efficient demonstration garden for the purpose of educating its customer base on low water-use landscaping (Modified Non-Per Capita Conservation Program BMP Category 2: Conservation Education and Training 2.4: Xeriscape Demonstration Garden).

REQUIREMENTS

The requirements of this tariff are governed by Rules of the Arizona Corporation Commission and were adapted from the Arizona Department of Water Resources' Required Public Education Program and Best Management Practices in the Modified Non-Per Capita Conservation Program.

- 1. The Company shall design, construct and maintain a demonstration garden that shall include a large variety of low water use and native plants, shrubs and shade trees.
- 2. The demonstration garden shall include a walkway throughout the site and include interpretive signage and literature about low water use plants and water efficient landscape techniques.
- 3. The demonstration garden shall be open, free of charge, to the public during normal business hours and every Saturday of each month.
- 4. Maps providing driving directions to the demonstration garden shall be available at the Company office, on the Company web-site, and the Company shall notify each customer through bill inserts or text messages of the demonstration garden.
- 5. The Company shall work with the schools, including the universities, to continually upgrade the site with additional technologies and techniques.

Residential Audit Program Tariff – BMP 3.1

PURPOSE

A program for the Company to promote water conservation by providing customers with information on performing water audits to determine conservation opportunities at their residence (Modified Non-Per Capita Conservation Program BMP Category 3: Outreach Services 3.1: Residential Audit Program).

REQUIREMENTS

The requirements of this tariff are governed by Rules of the Arizona Corporation Commission and were adapted from the Arizona Department of Water Resources' Required Public Education Program and Best Management Practices in the Modified Non-Per Capita Conservation Program.

- 1. The Company shall offer self-audit information.
- 2. The Company or designated representative shall provide all customers that request them with a self-audit kit.
- 3. The kit shall include detailed instructions and tools for completing the water audit including information on how to check their water meter. The audit kit shall include but not be limited to information on checking the following components: irrigation system, pool, water features, toilets, faucets and shower.
- 4. If requested, the Company shall assist the customer in a self-water audit and assist the customer in determining what might be causing high water usage as well as supply customer with information regarding water conservation and landscape watering guidelines. As part of the water audit, and if requested to do so by the customer, the Company shall confirm the accuracy of the customer meter (applicable meter testing fees shall apply).
- 5. The Company shall keep a record of the following information and make it available to the Commission upon request:
 - a. A description of the water conservation material provided in the kit.
 - b. The number of kits provided to customers.
 - c. Implementation costs of the Residential Audit Program.

Residential Interior Retrofit Program Tariff – BMP 3.4

PURPOSE

A program for the Company to promote water conservation by providing residential customers free or low cost plumbing fixtures for their residence (Modified Non-Per Capita Conservation Program BMP Category 3: Outreach Services 3.4: Residential Interior Retrofit Program).

REQUIREMENTS

The requirements of this tariff are governed by Rules of the Arizona Corporation Commission and were adapted from the Arizona Department of Water Resources' Required Public Education Program and Best Management Practices in the Modified Non-Per Capita Conservation Program.

- 1. The Company or designated representative shall provide to residential customers that request them that live in homes built prior to the adoption of the 1990 Uniform Plumbing Code free or low cost low water use fixtures such as faucets, faucet aerators, low flow shower heads, toilets and toilet dams. The Company must offer the fixtures/fixture retrofits to all residential customers meeting the above criteria unless the Company can demonstrate that targeting certain portions of its water service area is likely to yield the highest participation and/or potential water savings.
- 2. The fixtures or retrofit kit shall include detailed instructions for installing the retrofit fixtures.
- 3. The Company shall select appropriate communications channels to advertize the program.
- 4. The Company shall keep a record of the following information and make it available to the Commission upon request:
 - a. A description of the Residential Interior Retrofit Program including a description of the fixtures provided to customers and estimated water savings as a result of Program implementation.
 - b. The number of retrofit fixtures requested by customers and the number of fixtures provided.
 - c. Costs of the Residential Interior Retrofit Program.

A program for the Company to assist its customers with their high water-use inquiries and complaints (Modified Non-Per Capita Conservation Program BMP Category 3: Outreach Services 3.6: Customer High Water Use Inquiry Resolution).

REQUIREMENTS

The requirements of this tariff are governed by Rules of the Arizona Corporation Commission and were adapted from the Arizona Department of Water Resources' Required Public Education Program and Best Management Practices in the Modified Non-Per Capita Conservation Program.

1. The Company shall handle high water use inquiries as calls are received.
2. Calls shall be taken by a customer service representative who has been trained on typical causes of high water consumption as well as leak detection procedures that customers can perform themselves.
3. Upon request by the customer or when the Company determines it is warranted, a trained Field Technician shall be sent to the customer's residence to verify consumption and conduct a leak detection inspection and further assist the customer with water conservation measures.
4. The Company shall follow up on every customer inquiry or complaint and keep a record of inquiries and follow-up activities. The Company shall make this information available to the Commission upon request.

Customer High Water Use Notification Tariff – BMP 3.7

PURPOSE

A program for the Company to monitor and notify customers when water use seems to be abnormally high and provide information that could benefit those customers and promote water conservation (Modified Non-Per Capita Conservation Program BMP Category 3: Outreach Services Program 3.7: Customer High Water Use Notification).

REQUIREMENTS

The requirements of this tariff are governed by Rules of the Arizona Corporation Commission and were adapted from the Arizona Department of Water Resources' Required Public Education Program and Best Management Practices in the Modified Non-Per Capita Conservation Program.

1. The Company shall track water usage for each customer and notify the customer if water use seems excessive for that particular billing for that time of the year.
2. The Company shall identify customers with high consumption, verify the high consumption, and investigate each instance to determine the possible cause.
3. The Company shall contact the high water use customers via telephone, email, by mail or in person. The Company shall contact the customer as soon as practical in order to minimize the possible loss of water. The customer will not be required to do anything to receive this notification.
4. In the notification the Company shall explain some of the most common water usage problems and common solutions and points of contact for dealing with the issues.
5. In the notification, the customer will be reminded of possible high water-consumption occurrences, such as:
 - a. Leaks, running toilets, or valves or flappers that need to be replaced.
 - b. Irrigation system valves or sprinkler heads which may be leaking.
 - c. Sprinklers that may be watering the house, sidewalk, or street, etc. increasing irrigation requirements.
 - d. Leaking pool or spas and possible leaks around pumps.
 - e. More people in the home than usual taking baths and showers.
 - f. Doing more loads of laundry than usual.
 - g. Doing a landscape project or starting a new lawn.
 - h. Washing vehicles more often than usual.

Meter Repair and/or Replacement Tariff – BMP 4.2

PURPOSE

A program for the Company to systematically assess all in-service water meters (including Company production meters) in its water service area to identify under-registering meters and to repair or replace them (Modified Non-Per Capita Conservation Program Best Management Practice Category 4: Physical System Evaluation and Improvement 4.2 Meter Repair and/or Replacement Program).

REQUIREMENTS

The requirements of this tariff are governed by Rules of the Arizona Corporation Commission and were adapted from the Arizona Department of Water Resources’ Required Public Education Program and Best Management Practices in the Modified Non-Per Capita Conservation Program.

- 1. On a systematic basis, the Company will replace all 2-inch and smaller in-service water meters at least once every twelve years.
- 2. The Company will test all meters that have caused a meter reading complaint to be filed with the Arizona Corporation Commission.
- 3. Meters larger than 2-inch shall be tested for one of the following reasons:
 - a. A meter reading complaint is filed with the Company by a customer or Arizona Corporation Commission Staff,
 - b. A meter has been in service for five years.
- 4. The test will be accomplished by one of the following:
 - a. Having the meter pulled and having a Company Technician physically inspect each meter and its fittings for leaks, registers which may have become loose or are not properly attached to the meter and could be under-registering or other broken parts which need repair.
 - b. Utilizing equipment to verify that all electronic components are within manufacturer specifications and are operating properly.
- 5. In addition, meters shall be randomly selected for flow testing utilizing a flow through detector testing meter.
- 6. All replacement water meters shall register in gallons:
 - a. All new 1-inch and smaller meters that are installed will register usage in 1 gallon increments,
 - b. All new 1-1/2-inch through 4-inch meters that are installed will register in 10 gallon increments, and
 - c. All new 6-inch and larger meters that are installed will register in 100 gallon increments.
- 7. The Company shall keep records on the number of meters that were replaced and make this information available to the Commission upon request.

Water System Tampering Tariff – BMP 5.2

PURPOSE

The purpose of this tariff is to promote the conservation of groundwater by enabling the Company to bring an action for damages or to enjoin any activity against a person who tampers with the water system.

REQUIREMENTS:

The requirements of this tariff are governed by Rules of the Arizona Corporation Commission, specifically Arizona Administrative Code (“AAC”) R14-2-410 and the Arizona Department of Water Resources’ Required Public Education Program and Best Management Practices in the Modified Non-Per Capita Conservation Program.

1. In support of the Company’s water conservation goals, the Company may bring an action for damages or to enjoin any activity against a person who: (1) makes a connection or reconnection with property owned or used by the Company to provide utility service without the Company’s authorization or consent; (2) prevents a Company meter or other device used to determine the charge for utility services from accurately performing its measuring function; (3) tampers with property owned or used by the Company; or (4) uses or receives the Company’s services without the authorization or consent of the Company and knows or has reason to know of the unlawful diversion, tampering or connection. If the Company’s action is successful, the Company may recover as damages three times the amount of actual damages.
2. Compliance with the provisions of this tariff will be a condition of service.
3. The Company shall make available to all its customers a complete copy of this tariff and AAC R14-2-410. The customers shall follow and abide by this tariff.
4. If a customer is connected to the Company water system and the Company discovers that the customer has taken any of the actions listed in No. 1 above, the Company may terminate service per AAC R14-2-410.
5. If a customer believes he/she has been disconnected in error, the customer may contact the Commission’s Consumer Services Section at 1-800-222-7000 to initiate an investigation.

CROSS-CONNECTION OR BACKFLOW TARIFF

PURPOSE:

The purpose of this tariff is to protect EPCOR Water Arizona, Inc.'s Agua Fria Water District's ("Company") water from the possibility of contamination caused by the backflow of contaminants that may be present on the customer's premises by requiring the installation and periodic testing of backflow prevention assemblies pursuant to the provisions of the Arizona Administrative Code ("A.A.C.") R14-2-405.B.6 and A.A.C. R18-4-215.

REQUIREMENTS:

In compliance with the Rules of the Arizona Corporation Commission ("Commission") and the Arizona Department of Environmental Quality ("ADEQ"), specifically A.A.C. R14-2-405.B.6 and A.A.C. R18-4-215 relating to backflow prevention:

1. The Company may require a customer to pay for and to have installed a backflow-prevention assembly if A.A.C. R18-4-215.B or C applies.
2. A backflow-prevention assembly required to be installed by the customer under Paragraph 1 of this tariff shall comply with the requirements set forth in A.A.C. R18-4-215.D and E.
3. Subject to the provisions of A.A.C. R14-2-407 and 410, and in accordance with Paragraphs 1 and 7 of this tariff, the Company may terminate service or may deny service to a customer who fails to install a backflow-prevention assembly as required by this tariff.
4. The Company shall give any existing customer who is required to install a backflow-prevention assembly written notice of said requirement. If A.A.C. R14-2-410.B.1.a. is **not** applicable, the customer shall be given thirty (30) days from the time such written notice is received in which to comply with this notice. If the customer can show good cause as to why he cannot install the backflow-prevention assembly within thirty (30) days, the Company or Commission Staff may suspend this requirement for a reasonable period of time.

CROSS-CONNECTION OR BACKFLOW TARIFF
(continued)

- 5. Testing shall be in conformance with the requirements of A.A.C. R18-4-215.F. The Company may require the customer to pay to have the backflow-prevention assembly tested as long as the Company does not require an unreasonable number of tests.
- 6. The customer shall provide the Company with records of installation and testing. For each backflow-prevention assembly, these records shall include:
 - a. assembly identification number and description;
 - b. location
 - c. date(s) of test(s);
 - d. description of repairs and recommendations for repairs made by tester; and
 - e. the tester's name and certificate number.
- 7. In the event the backflow-prevention assembly does not function properly or fails any test, and an obvious hazard as contemplated under A.A.C. R14-2-410.B.1.a. exists, the Company may terminate service immediately and without notice. The backflow-prevention assembly shall be repaired or replaced by the customer and retested.
- 8. In the event the backflow-prevention assembly does not function properly or fails any test, or in the event that a customer fails to comply with the testing requirement, and A.A.C. R14-2-410.B.1.a. is **not** applicable, the backflow prevention assembly shall be repaired or replaced within fourteen (14) days of the initial discovery of the deficiency in the assembly or its function. Failure to remedy the deficiency or dysfunction of the assembly, or failure to retest, shall be grounds for termination of water service in accordance with A.A.C R14-2-410.

ADJUSTOR MECHANISMS

PURCHASED WATER ADJUSTOR MECHANISM ("PWAM")

The PWAM allows the Company to pass through purchased water costs incurred by the Company to its customers. Details can be found in the Company's Purchased Water Adjustor Mechanism Plan of Administration.

Applicability

Applicable to all customers served by this service area.

PWAM Surcharge Rate for all Customers:

All usage per 1,000 gallons per month \$X.XXXX *

* Rate consists of \$X.XXXX per 1,000 gallons of usage to recover the over/under collection of prior years' surcharge and \$X.XXXX per 1,000 gallons of usage for the collection of current annual purchased water charges.

Terms and Conditions

The Company will annually file with the Commission by March 1 the proposed annual PWAM surcharge for the current calendar year. The filing shall contain a summary of all purchased water costs, total collections from the surcharge, and the updated surcharge amounts. All documentation to support the proposed surcharge will be included.

As part of each annual filing, the Company will perform a reconciliation for the prior reporting period comparing the amounts recovered from / refunded to customers to the amount of increase / decrease in water expenses due to changes in rates for that same period resulting in either an under / (over) recovery. This true-up will be included in the annual calculation.

The annual PWAM surcharge will be calculated based on the historic consumption of the applicable customers from the previous twelve months.

The revised PWAM surcharge will be effective on June 1 of each year.

The PWAM surcharge will appear on each applicable customer's bill as a separate line item.

All rates in this Schedule shall be subject to their proportionate part of any taxes or other governmental imposts that are assessed directly or indirectly on the basis of revenues derived from this Schedule.

ADJUSTOR MECHANISMS
(continued)

POWER COST ADJUSTOR MECHANISM ("PCAM")

The PCAM allows the Company to pass through purchase power costs for any gas or electric service provider supplying retail service to the Company to its customers. Details can be found in the Company's Power Cost Adjustor Mechanism Plan of Administration.

Applicability

Applicable to all customers served by this service area.

PCAM Surcharge Rate for all Customers:

All usage per 1,000 gallons per month \$X.XXXX *

* Rate consists of \$X.XXXX per 1,000 gallons of usage to recover the over/under collection of prior years' surcharge and \$X.XXXX per 1,000 gallons of usage for the collection of current power charges.

Terms and Conditions

The Company will annually file with the Commission by March 1 the proposed annual PCAM surcharge for the current calendar year. The filing shall contain a summary of all gas and electrical costs, total collections from the surcharge, and the updated surcharge amount. All documentation to support the proposed surcharge will be included.

As part of each annual filing, the Company will perform a reconciliation for the prior reporting period comparing the amounts recovered from/refunded to customers to the amount of increase/decrease in power expenses due to changes in rates for that same period resulting in either an under / (over) recovery. This true-up will be included in the annual calculation.

The annual PCAM surcharge will be calculated based on the historic consumption of the applicable customers from the previous twelve months.

The revised PCAM surcharge will be effective on June 1 of each year.

The PCAM surcharge will appear on each applicable customer bill as a separate line item.

All rates in this Schedule shall be subject to their proportionate part of any taxes or other governmental imposts that are assessed directly or indirectly on the basis of revenues derived from this Schedule.

ADJUSTOR MECHANISMS
(continued)

SYSTEM IMPROVEMENT BENEFIT MECHANISM ("SIB")

The SIB provides for recovery of the capital costs (return on investment, income taxes and depreciation expense) associated with distribution system improvement projects listed in SIB Plant Table I that have been verified to be complete, net of associated retirements and placed in service per SIB Table II. Details can be found in the Company's System Improvement Benefit Mechanism Plan of Administration.

Availability

Applicable to all customers served by this service area.

Schedule of Charges:

Meter Size	SIB Surcharge	SIB Efficiency Credit	NET SIB Surcharge
5/8" x 3/4" meter	\$ x.xx	\$ (x.xx)	\$ x.xx
3/4" meter	\$ x.xx	\$ (x.xx)	\$ x.xx
1" meter	\$ x.xx	\$ (x.xx)	\$ x.xx
1½" meter	\$ x.xx	\$ (x.xx)	\$ x.xx
2" meter	\$ x.xx	\$ (x.xx)	\$ x.xx
3" meter	\$ x.xx	\$ (x.xx)	\$ x.xx
4" meter	\$ x.xx	\$ (x.xx)	\$ x.xx
6" meter	\$ x.xx	\$ (x.xx)	\$ x.xx
8" meter	\$ x.xx	\$ (x.xx)	\$ x.xx
10" meter	\$ x.xx	\$ (x.xx)	\$ x.xx

Terms and Conditions

Once a SIB is approved in a decision, the Company must file with Docket Control semi-annual status reports.

The annual SIB surcharge will be calculated based on the historic system improvements of the eligible projects from the previous twelve months.

Once a SIB surcharge is implemented the Company must file annually to true-up its SIB Surcharge collections over the preceding twelve months with the SIB Authorized Revenues for that period and establish a surcharge or credit to true up over or under collections. Filings dates for these annual true-ups shall be as established in the Decision.

The SIB surcharge, SIB efficiency credit and net SIB surcharge will all appear as separate line items on each applicable customer bill.

All rates in this Schedule shall be subject to their proportionate part of any taxes or other governmental imposts that are assessed directly or indirectly on the basis of revenues derived from this Schedule.

ADJUSTOR MECHANISMS
(continued)

PROPERTY TAX ADJUSTOR MECHANISM ("PTAM")

The PTAM allows the Company to pass through to its customers the increases or decreases in property tax expenses that result from changes to the assessment ratio or property tax rate. Pass through costs will be divided equally between residential and non-residential customer classes to collect the total increase over a 12-month period. Details can be found in the Company's Property Tax Adjustor Mechanism Plan of Administration.

Applicability

Applicable to all customers served by this service area.

PTAM Surcharge Rate for all Customers:

All usage per 1,000 gallons per month \$X.XXXX *

* Rate consists of \$X.XXXX per 1,000 gallons of usage to recover the over/under collection of prior years' surcharge and \$X.XXXX per 1,000 gallons of usage for the collection of current power charges.

Terms and Conditions

The Company will annually file with the Commission by March 1 the proposed annual PTAM surcharge for the current calendar year. The filing shall detail how the Company's property tax expenses were calculated by parcel by year. These calculations will include full cash value, assessment ratio, and tax rates by parcel. All documentation to support the proposed surcharge will be included.

As part of each annual filing, the Company will perform a reconciliation for the prior reporting period comparing the amounts recovered from/refunded to customers to the amount of increase/decrease in property tax expenses due to changes in rates for that same period resulting in either an under / (over) recovery. This true-up will be included in the annual calculation.

The revised PTAM surcharge will be effective on June 1 of each year.

The PTAM surcharge will appear on each applicable customer bill as a separate line item.

All rates in this Schedule shall be subject to their proportionate part of any taxes or other governmental imposts that are assessed directly or indirectly on the basis of revenues derived from this Schedule.

BILLING ADJUSTMENT TARIFF

1. PURPOSE

1.1. To outline EPCOR's general procedure on adjusting customer water utility bills.

2. SCOPE

2.1. This procedure pertains to billing adjustments for accounts with lost meters, stopped meters, and other situations where usage has been identified or service received but not billed (or under billed). Parameters within this procedure do not necessarily apply to situations where customer tampering, theft, or other actions that prevent access to the water meter are involved.

3. PROCEDURE

3.1. **Timeframe** – In cases where accounts have been identified as having water usage but have not been billed (or have been under billed), EPCOR will adjust the bill for the period identified not to exceed two years from the point of customer notification or adjustment generation. Customers will be provided the ability to spread their payments for the adjustment amount over the same time period for which the usage occurred. EPCOR will have the option of spreading the payment term beyond the original usage period, depending on the circumstances, with approval from the Customer Service Manager or Customer Service Director.

3.2. **Estimated Usage for Stopped Meters** – Usage for stopped meters will generally be calculated based on historical usage for similar timeframes. If the customer has had changes in their usage pattern based on conservation efforts, economic factors, leak repairs, or changes to the number of occupants, these *may* be considered in adjusting the usage estimate from historical data. There may be cases where the usage is monitored or a period of time after the meter has been replaced to determine the appropriate billing adjustment amount.

3.3. **Meter Accuracy Corrections** – If any meter after testing is found to be more than 3% inaccurate, either fast or slow, proper correction between 3% and the amount of the error shall be made of previous readings and adjusted bills shall be rendered according to the following terms:

3.3.1. For the period of 3 months immediately preceding the removal of such meter from service for test or from the time the meter was in service since last tested, but not exceeding 3 months since the meter shall have been shown to be in error by such test, or

3.3.2. From the date the error occurred, if the date of the cause can be definitely fixed.

3.3.3. No adjustment shall be made by the utility except to the customer last served by the meter tested.

BILLING ADJUSTMENT TARIFF
(continued)

- 3.4. **Managing Large and/or Extended Adjustments** – Bill adjustment amounts over \$2,500 that extend beyond two billing cycles will be reviewed by EPCOR and communication with the customer will be attempted prior to posting the bill to the customer account. Three unsuccessful attempts to contact the customer via the contact means provided on the customer account shall release the bill to the customer's account for posting.
- 3.5. **Customer Appeals** – Customers may appeal adjustment decisions in writing or by contacting a customer care representative the appeal will be escalated to the appropriate party and a determination will be made within 90 days.
- 3.6. **Exceptions** – It is recognized that there may be specific situations or unique circumstances where there is a management decision not to adjust a customer or group of customers.

GENERAL WATER RATE
(continued)

Terms and Conditions

Water service provided under this rate schedule is subject to this District's Rules and Regulations applicable to Water Service and may be subject to this District's Service Charges set forth in Rate Schedule Service Charges and adjustor mechanisms included in the Company's tariffs on file with the Arizona Corporation Commission.

Water service under this Schedule is for the exclusive use of the Customer and water shall not be resold or provided to others, except for water sold to Arizona Water under the Arizona Water Contract.

In addition to the collection of regular rates, the utility will collect from its customers a proportionate share of any privilege, sales, use and franchise tax, per Commission Rule 14-2-409.D.5.

A 1½% late payment penalty will be applied to account balances not paid within ~~fifteen~~twenty-five (1525) days after the postmark date of the bill in accordance with Arizona Administrative Code R14-2-310.C Rule 8 (H) of EPCOR Water Arizona, Inc.'s Agua Fria Water District Rules and Regulations.

Low Income Program- Monthly Low Income Credit of ~~\$7.50~~10.00 is available in the Agua Fria Water district. Requires the completion of a Low Income Program Application. Program is restricted to the first 1,000 eligible residential customers on 5/8 x 3/4 inch meters in the Agua Fria Water district. Applicants must swear that he/she has annual income below the threshold. The threshold is below 150% of the federal low income guidelines as periodically revised. Applicant may not be claimed as a dependent on another person's tax return. Applicant must reapply each time moving residences. Refusal or failure to provide acceptable documentation of eligibility, upon request, shall result in removal from the low income program. Rebilling of customers under the otherwise applicable rate schedule may occur for periods of ineligibility previously billed under the low income tariff. Annual income means the value of all money and non-cash benefits available for living expenses, from all sources, both taxable and non-taxable, before deductions, for all people who live with the applicant.

WATER SERVICES TERMINATION AGREEMENT
WITH THE CITY OF SURPRISE
WSTA-1

EPCOR Water Arizona Inc. (“Company”) has been granted a variance from Arizona Corporation Commission Rule A.A.C. R14-2-410.A.2 for the limited purpose of entering into a Water Services Termination Agreement (“Agreement”) with the City of Surprise (“City”), a municipal provider of wastewater service, for common customers purchasing water from the Company and wastewater from the City. The purpose of this Tariff, and the authorized variance from A.A.C. R14-2-410.A.2, is to assist the City in collecting delinquent payments for wastewater utility service provided to common customers of the Company.

The Company shall comply with the terms and conditions of the Agreement.

The Agreement with the City is attached to and incorporated into this tariff.

ISSUED: MAY 26, 2016

**RESERVED REVENUE CREDITS OF THE REVENUE REQUIREMENT EQUIVALENT OF
NON-REFUNDABLE WHITE TANK HOOK-UP FEES**

Availability

~~Agua Fria water district customers eligible for revenue credits are Residential, Commercial, Other Public Authority and Potable Irrigation. Customers ineligible include those jurisdictional customers receiving a rate reduction under the Settlement Agreement (i.e. Private Fire, Misc Fee Commercial Water Sales customers, non-potable DMB White Tank and non-potable Corte Bella Golf), plus off-system entities.~~

Purpose

~~To credit customers with the revenue requirement equivalent of non-refundable hook-up fees actually collected under its existing White Tank Hook-Up Fee Tariff Part B.~~

Terms and Conditions

~~The amount of the credit shall be based on the prior 12 month actual non-refundable payments and be shown as a special line item on customer bills. The formula for such credit is set forth in Exhibit B of the Settlement Agreement. While the credit will be determined annually, it will be applied to customer's monthly bills. The credits will become effective on July 1, 2013. The Company shall file its proposed monthly revenue credit rate design not later than the anniversary of the effective date of new rates in the Settlement. The proposed monthly revenue credit rates shall automatically become effective on the anniversary date. The calculated revenue credits for each annual period shall be true-up in each subsequent annual filing.~~

RESERVED

CUSTOMER CREDIT FOR SALES OF WHITE TANKS PLANT NON-FIRM TREATMENT SERVICES [SLM1]

Purpose

~~The purpose of this section is to provide Agua Fria Water customers with a credit from the sales of treatment services using the existing White Tanks Water Treatment Plant. The credit will be based on incremental revenues from sales minus expenses in excess of amounts in rates as described in Exhibit C of the Settlement Agreement.~~

Period

~~July 1, 2013 to June 30, 2014.~~

Availability

~~New 3rd-party purchasers of treatment services from the White Tank Water Treatment Plant who have used treatment services any time during the period January 1, 2012 through June 30, 2013. These purchasers of treatment services exclude customers in EPCOR Water Arizona, Inc's certified service territory who are receiving water service pursuant to existing tariff rates.~~

Period

~~July 1, 2014 to June 30, 2015 and each subsequent year until new rates are approved.~~

Availability

~~New 3rd-party purchasers of treatment services from the White Tank Water Treatment Plant who have used treatment services any time during the period July 1, 2013 through June 30, 2014. These purchasers of treatment services exclude customers in EPCOR Water Arizona, Inc's certified service territory who are receiving water service pursuant to existing tariff rates.~~

Terms and Conditions

Calculation of Benefit:

[1] ~~Additional revenue from 3rd Party = (\$/Kgal contracted treatment rate) x (Kgal delivered as measured by delivery meter)~~

[2] ~~Cost of treatment services = (\$/Kgal average cost of treatment services during period of delivery) x (Kgal delivered as measured by delivery meter)~~

[3] ~~Amount credited to customers = [1] - [2]~~

~~The credit will be determined annually; however, it will be applied to customers' monthly bills.~~

**CUSTOMER WATER CONSUMPTION INFORMATION SHARING
WITH CITY OF SURPRISE, WASTEWATER PROVIDER**

EPCOR Water Arizona Inc. ("EWAZ" or "Company") is authorized to share water consumption information of individual customers with the City of Surprise ("the City"), a municipal provider of wastewater service for common customers purchasing water from EWAZ and wastewater from the City. The purpose of this Tariff, and the authorized provision of customer water consumption information, is to assist the City in billing for wastewater utility services. City agrees that it is only authorized to use such water consumption information for purposes of wastewater services billing and is not authorized to disclose such information to any other party except as may be required by law.

EWAZ entered into an Agreement with the City for providing individual water consumption data, in a form materially similar to the standard form agreement. The Agreement was subject to Arizona Corporation Commission ("Commission") review as set forth in Section 6 of the agreement.

EWAZ shall notify all water utility customers affected by the agreement between the Company and the City pursuant to this Tariff, by means of a billing insert during the first billing cycle immediately after said tariff is approved.

NON-POTABLE IRRIGATION WATER SERVICE

Availability

Available to large turf and landscape irrigators for use on golf courses, lakes, school grounds, park lands, right of ways, and similar large open spaces. Available to industry for non-potable industrial process water. Also available to land developers and their contractors and sub-contractors for use on large construction projects which require significant amounts of dirt moving, grading, trenching or other water intensive construction activities.

Rate

All Consumption

	Commodity Rate (per 1,000 gallons)
Untreated Groundwater (i.e., Corte Bella Golf)	\$ 0.92000 <u>0.9200</u>
Raw Surface water (i.e., DMB White Tank)	\$ 1.09000 <u>1.0900</u>

Special Conditions

The water provided under this tariff is only untreated groundwater ~~(i.e., Corte Bella Golf)~~ or raw surface water ~~(i.e., DMB White Tank)~~ and is not suitable for human consumption or bodily contact. Water provided under this tariff should be used only for irrigation or non-potable industrial process water. Water will be made available for construction uses only to the extent it is not needed to serve other classes of customers.

Treated effluent is not available under this tariff. (See wastewater tariffs where applicable.)

Each customer shall be required to enter into a Non-potable Irrigation Water Service Agreement with the Company prior to establishment of service in accordance with Rule No. 12 of EPCOR Water Arizona, Inc.'s Agua Fria Water District Rules and Regulations.

Terms and Conditions

Water service provided under this rate schedule is subject to this District's Rules and Regulations applicable to Water Service and may be subject to this District's Service Charges set forth in Rate Schedule Service Charges and adjustor mechanisms included in the Company's tariff on file with the Arizona Corporation Commission.

Water service under this Schedule is for the exclusive use of the Customer and water shall not be resold or provided to others.

All rates in this Schedule shall be subject to their proportionate part of any taxes or other governmental imposts which are assessed directly or indirectly on the basis of revenues derived from service under this Schedule, or on

COMMON FACILITIES HOOK-UP FEE

I. Purpose and Applicability

The purpose of the Common Facilities hook-up fee payable to EPCOR Water Arizona, Inc. (“the Company”) pursuant to this tariff is to equitably apportion the costs of constructing additional common water facility infrastructure, ~~including the White Tanks Surface Water Treatment Facility,~~ to provide water production, delivery, treatment, storage and pressure among all new service connections. These charges are applicable to all new service connections established after the effective date of this tariff. The charges are one-time charges and are payable as a condition to the Company’s establishment of service, as more particularly provided below.

II. Definitions

Unless the context otherwise requires, the definitions set forth in R-14-2-401 of the Arizona Corporation Commission’s (“Commission”) rules and regulations governing water utilities shall apply interpreting this tariff schedule.

“Applicant” means any party entering into an agreement with the Company for the installation of water facilities to serve new service connections, and may include developers and/or builders of new residential subdivisions.

“Main Extension Agreement” means any agreement whereby an Applicant, Developer and/or Builder agrees to advance the costs of the installation of water facilities, which may include Common Facilities, to the Company to serve new service connections, or install water facilities to serve new service connections and transfer ownership of such water facilities to the Company, in either case which agreement shall require the approval of the Commission pursuant to A.A.C. R-14-2-406, and shall have the same meaning as “Water Facilities Agreement” or “Line Extension Agreement.”

“Common Facilities” means ~~(i)~~-all wells, ~~including engineering and design costs, and~~ ~~(ii)~~-storage tanks, production, treatment, booster pumps, pressure tanks, transmission mains and related appurtenances, including engineering and design costs, constructed for the benefit of the entire water system and not for the exclusive use of the Applicant’s development.

“Service Connection” means and includes all service connections for single-family residential or other uses, regardless of meter size.

6" or larger	50	\$57,500.00	\$106,500.00	\$164,000.00 <u>84,000.00</u>

IV. Terms and Conditions

(A) Assessment of One Time Common Facilities Hook-up Fee: The Common Facilities hook-up fee may be assessed only once per parcel, service connection, or lot within a subdivision (similar to meter and service line installation charge).

(B) Use of Common Facilities Hook-up Fee: Common Facilities hook-up fees may only be used to pay for capital items of Common Facilities, or for repayment of loans obtained for installation of Common Facilities. Common Facilities hook-up fees shall not be used for repairs, maintenance, or operational purposes.

(C) Time of Payment:

1) In the event that the Applicant that will be constructing improvements is required to enter into a Main Extension Agreement, payment of the Common Facilities hook-up fees required hereunder shall be made by the Applicant no later than within 15 calendar days after receipt of notification from the Company that the Utilities Division of the Arizona Corporation Commission has approved the Main Extension Agreement in accordance with R-14-2-406(M).

COMMON FACILITIES HOOK-UP FEE
(continued)

2) In the event that the Applicant for service is not required to enter into a Main Extension Agreement, the charges hereunder shall be due and payable at the time the meter and service line installation fee is due and payable.

(D) Common Facilities Construction by Developer: The Company and Applicant may agree to construction of Common Facilities necessary to serve a particular development by Applicant which facilities are then conveyed to the Company. In that event, Company shall credit the total cost of such Common Facilities as an offset to ~~Component A of~~ the Common Facilities hook-up fees due under this Tariff. If the total cost of the Common Facilities constructed by Applicant and conveyed to Company is less than the applicable ~~Component A of the~~ Common Facilities hook-up fee due under this Tariff, Applicant shall pay the remaining amount ~~of Component A~~ of the Common Facilities hook-up fees owed hereunder. If the total cost of the Common Facilities contributed by Applicant, Developer or Builder and conveyed to Company is more than the applicable ~~Component A of the~~ Common Facilities hook-up fees under this Tariff, Applicant shall be refunded the difference upon acceptance of the Common Facilities by the Company. The refund may be paid in installments over a period of time pursuant to an agreement between the Company and the developer on a case by case basis. The Company and Applicant may agree to construction of additional facilities that are not Common Facilities, the cost of which shall not be subject to off-set under this paragraph IV.D, but which will be subject to refund under R14-2-406(D).

(E) Failure to Pay Charges; Delinquent Payments: The Company will not be obligated to provide water service to any Applicant or other applicant for service in the event that such Applicant or other applicant for service has not paid in full all charges hereunder. Under no circumstances will the Company set a meter or otherwise allow service to be established if the entire amount of any payment has not been paid.

(F) Large Subdivision Projects: In the event that the Applicant is engaged in the development of a residential subdivision containing more than 150 lots, and is a party to a Main Extension Agreement with the Company for such development, the Company may, in its discretion, agree to payment of the Common Facilities hook-up fees in installments. Such installments may be based on the residential subdivision development's phasing, and should attempt to equitably apportion the payment of charges hereunder based on the Applicant's construction schedule and water service requirements.

(G) Common Facilities Hook-Up Fees Non-refundable: The amounts collected by the Company pursuant to the Common Facilities hook-up fee tariff shall be non-refundable contributions in aid of construction.

COMMON FACILITIES HOOK-UP FEE)
(continued)

(H) Use of Common Facilities Hook-Up Fees Received: All funds collected by the Company as Common Facilities hook-up fees shall be deposited into a separate interest bearing trust account and used solely for the purposes of paying for the costs of the Common Facilities, including repayment of loans obtained for the installation of Common Facilities that will benefit the entire water system.

(I) Common Facilities Hook-up Fee in Addition to On-site Facilities: The Common Facilities hook-up fee shall be in addition to any costs associated with the construction of on-site facilities or other additional facilities under Paragraph IV.D, above, under a Main Extension Agreement.

(J) Disposition of Excess Funds: After all necessary and desirable Common Facilities are constructed utilizing funds collected pursuant to the Common Facilities hook-up fees, or if the Common Facilities hookup fee has been terminated by order of the Arizona Corporation Commission, any funds remaining in the trust shall be refunded. The manner of the refund shall be determined by the Commission at the time a refund becomes necessary.

(K) Fire Flow Requirements: In the event the Applicant has fire flow requirements that require additional facilities beyond those facilities whose costs were included in the Common Facilities hook-up fee, and which are contemplated to be constructed using the proceeds of the Common Facilities hook-up fee, the Company may require the Applicant to install such additional facilities as are required to meet those additional fire flow requirements, as a non-refundable contribution, in addition to paying the Common Facilities hook-up fee.

(L) Status Reporting Requirements to the Commission: The Company shall submit a calendar year Common Facilities hook-up fee status report each January 31 to Docket Control for the prior twelve (12) month period, beginning January 31, 2014^s~~8~~, until the Common Facilities hook-up fee tariff is no longer in effect. This status report shall contain a list of all customers that have paid the Common Facilities hook-up fee tariff, the amount each has paid, the amount of money spent from the account, the amount of interest earned on the tariff account, and a list of all facilities that have been installed with the tariff funds during the 12~~-~~month period.

COMMON FACILITIES HOOK-UP FEE (WATER)

(continued)

LARGE WATER-USERS

Any development with a projected average daily water demand greater than 1,700 gallons per day per acre is considered to be a Large User. Large Users will be required to provide an additional renewable water supply source to Utility to meet the demands of the development that are greater than 1,700 gallons per day per acre. Examples of a renewable water supply source include surface water or a groundwater well with long-term storage credits. The renewable water supply source must be approved by Utility, and must have the appropriately allocated water rights that will be conveyed to Utility. The cost to provide a renewable water supply source to Utility will not be credited as an offset to the Common Facilities Hook-Up Fee because such costs will be due to the exclusive need for additional water by the Large User; however, the cost of that portion of a renewable water supply source that is in excess of the Large User's needs will be credited as an offset to the Common Facilities Hook-Up Fee.

Large Users may be required to enter into an agreement with Utility that will define terms and conditions, and will include fees that will be charged to Large Users for over usage. Fees will incur if Large Users use water in excess of the supply source provided, which will be reviewed by Utility on an annual basis. Continued excessive use could result in Utility requiring the Large User to develop and implement a water use reduction plan or, as a last resort, court action.

CURTAILMENT TARIFF

CURTAILMENT PLAN FOR AGUA FRIA WATER DISTRICT
(Template 063004)

ADEQ Public Water System No: 04-07-695099, 04-07-531

EPCOR Water Arizona, Inc. ("Company"), is authorized to curtail water service to all customers within its certificated area under the terms and conditions listed in this tariff.

This curtailment plan shall become part of the Arizona Department of Environmental Quality Emergency Operations Plan for the Company.

The Company shall notify its customers of this new tariff as part of its next regularly scheduled billing after the effective date of the tariff or no later than sixty (60) days after the effective date of the tariff.

The Company shall provide a copy of the curtailment tariff to any customer, upon request.

Stage 1 Exists When:

Company is able to maintain water storage in the system at 100 percent of capacity and there are no known problems with its well production or water storage in the system.

Restrictions: Under Stage 1, Company is deemed to be operating normally and no curtailment is necessary.

Notice Requirements: Under Stage 1, no notice is necessary.

Stage 2 Exists When:

- a. Company's water storage or well production has been less than 80 percent of capacity for at least 48 consecutive hours, and
- b. Company has identified issues such as a steadily declining water table, increased draw down threatening pump operations, or poor water production, creating a reasonable belief the Company will be unable to meet anticipated water demand on a sustained basis.

Restrictions: Under Stage 2, the Company may request the customers to voluntarily employ water conservation measures to reduce water consumption by approximately 50 percent. Outside watering should be limited to essential water, dividing outside watering on some uniform basis (such as even and odd days) and eliminating outside watering on weekends and holidays.

CURTAILMENT TARIFF
(continued)

Notice Requirements: Under Stage 2, the Company is required to notify customers by delivering written notice door to door at each service address, or by United States first class mail to the billing address or, at the Company's option, both. Such notice shall notify the customers of the general nature of the problem and -the need to conserve water.

Stage 3 Exists When:

- a. Company's total water storage or well production has been less than 50 percent of capacity for at least 24 consecutive hours, and
- b. Company has identified issues such as a steadily declining water table, increased draw down threatening pump operations, or poor water production, creating a reasonable belief the Company will be unable to meet anticipated -water demand on a sustained basis.

Restrictions: Under Stage 3, Company shall request the customers to voluntarily employ water conservation measures to reduce daily consumption by approximately 50 percent. All outside watering should be eliminated, except livestock, and indoor water conservation techniques should be employed whenever possible. Standpipe service shall be suspended.

Notice Requirements:

1. Company is required to notify customers by delivering written notice to each service address, or by United- States first class mail to the billing address or, at the Company's option, both. Such Notice shall notify the customers of the general nature of the problem and the need to conserve water.
2. Beginning with Stage 3, Company shall post at least five (5) signs showing the curtailment stage. Signs shall be posted at the well and/or pump sites located within the Agua Fria Water District.
3. Company shall notify the Consumer Services Section of the Utilities Division of the Corporation Commission at least 12 hours prior to entering Stage 3.

Once Stage 3 has been reached, the Company must begin to augment the supply of water by either hauling or through an emergency interconnect with an approved water supply in an attempt to maintain the curtailment at a level no higher than Stage 3 until a permanent solution has been implemented.

CURTAILMENT TARIFF
(continued)

Stage 4 Exists When:

- a. Company's total water storage or well production has been less than 25 percent of capacity for at least 12 consecutive hours, and
- b. Company has identified issues such as a steadily declining water table, increased draw down threatening pump operations, or poor water production, creating a reasonable belief the Company will be unable to meet anticipated water demand on a sustained basis.

Restrictions: Under Stage 4, Company shall inform the customers of a mandatory restriction to employ water conservation measures to reduce daily consumption. Failure to comply will result in customer disconnection. The following uses of water shall be prohibited:

- ◆ Irrigation of outdoor lawns, trees, shrubs, or any plant life is prohibited
- ◆ Washing of any vehicle is prohibited
- ◆ The use of water for dust control or any outdoor cleaning uses is prohibited
- ◆ The use of drip or misting systems of any kind is prohibited
- ◆ The filling of any swimming pool, spas, fountains or ornamental pools is prohibited
- ◆ The use of construction water is prohibited
- ◆ Restaurant patrons shall be served water only upon request
- ◆ Any other water intensive activity is prohibited

The Company's operation of its standpipe service is prohibited. The addition of new service lines and meter installations is prohibited.

Notice Requirements:

1. Company is required to notify customers by delivering written notice to each service address, or by United States first class mail to the billing address or, at the Company's option, both. Such notice shall notify the customers of the general nature of the problem and the need to conserve water.
2. Beginning with Stage 4, Company shall post at least eight (8) signs showing the curtailment stage. Signs shall be posted at the well and/or pump sites located within the Agua Fria Water District
3. Company shall notify the Consumer Services Section of the Utilities Division of the Corporation Commission at least 12 hours prior to entering Stage 4.

CURTAILMENT TARIFF
(continued)

Customers who fail to comply with the above restrictions will be given a written notice to end all outdoor use. Failure to comply within two (2) working days of receipt of the notice will result in temporary loss of service until an agreement can be made to end unauthorized use of outdoor water. To restore service, the customer shall be required to pay all authorized reconnection fees.

If a customer believes he/she has been disconnected in error, the customer may contact the Commission's Consumer Services Section at 1-800-222-7000 to initiate an investigation.

Once Stage 4 has been reached, the Company must augment the supply of water by hauling or through an emergency interconnect from an approved supply or must otherwise provide emergency drinking water for its customers until a permanent solution has been implemented.

Youth Conservation Education Program Tariff – BMP 2.2

PURPOSE

A program for the Company to promote water conservation by increasing students' understanding of water resources and the need to conserve (Modified Non-Per Capita Conservation Program BMP Category 2: Conservation Education and Training 2.2: Youth Conservation Education Program).

REQUIREMENTS

The requirements of this tariff are governed by Rules of the Arizona Corporation Commission and were adapted from the Arizona Department of Water Resources' Required Public Education Program and Best Management Practices in the Modified Non-Per Capita Conservation Program.

1. The Company or designated representative shall work with schools in its service area to increase students' understanding of water resources and to promote water conservation.
2. The Company shall provide a combination of instructional assistance, education materials, teacher education, classroom presentations, and field trips to water related facilities.
3. The Company shall provide the following teacher resources.
 - a. Offer Project WET (Water Education for Teachers) workshops to teachers twice yearly. In lieu of Project WET the Company may market its Water Conservation Assembly Program to all schools within its service area. The Water Conservation Assembly Program will focus on teaching students about water resources and water conservation. The assembly itself will be an interactive water conservation discussion.
 - b. Provide free resource materials and information upon request.
 - c. Provide in-classroom presentations upon request.
4. The Company shall make available free take home educational materials for elementary school students.
5. The Company shall keep a record of the following information and make it available upon request.
 - a. A description of the youth conservation education process implemented.
 - b. The number of students reached (or an estimate).
 - c. A description of the written water conservation material provided free to students.
 - d. Costs of the Youth Conservation Education Program implementation.

New Homeowner Landscape Information Tariff – BMP 2.3

PURPOSE

A program for the Company to promote the conservation of water by providing a landscape information package for the purpose of educating its new customers about low water use landscaping (Modified Non-Per Capita Conservation Program BMP Category 2: Conservation Education and Training 2.3: New Homeowner Landscape Information).

REQUIREMENTS:

The requirements of this tariff are governed by Rules of the Arizona Corporation Commission and were adapted from the Arizona Department of Water Resources' Required Public Education Program and Best Management Practices in the Modified Non-Per Capita Conservation Program.

1. Upon establishment of water service the Company shall offer and make available upon request a free "Homeowner Landscape Packet" to each new customer in the Company's service area. The packet will include at a minimum: a cover letter describing the water conservation expectations for all customers in the Company's service area, applicable rate tariffs, a basic interior/exterior water saving pamphlet, xeriscape landscape information, a list of low water use trees, plants, shrubs, etc., watering guidelines, and a rain water harvesting pamphlet.
2. Upon customer request, the Company shall provide:
 - a. On-site consultations on low water use landscaping and efficient watering practices.
 - b. A summary of water saving options.
3. The Company shall keep a record of the number of packets provided to new customers and make it available to the Commission upon request.

Xeriscape Demonstration Garden Tariff – BMP 2.4

PURPOSE

A program for the Company to install and maintain a water efficient demonstration garden for the purpose of educating its customer base on low water-use landscaping (Modified Non-Per Capita Conservation Program BMP Category 2: Conservation Education and Training 2.4: Xeriscape Demonstration Garden).

REQUIREMENTS

The requirements of this tariff are governed by Rules of the Arizona Corporation Commission and were adapted from the Arizona Department of Water Resources' Required Public Education Program and Best Management Practices in the Modified Non-Per Capita Conservation Program.

1. The Company shall design, construct and maintain a demonstration garden that shall include a large variety of low water use and native plants, shrubs and shade trees.
2. The demonstration garden shall include a walkway throughout the site and include interpretive signage and literature about low water use plants and water efficient landscape techniques.
3. The demonstration garden shall be open, free of charge, to the public during normal business hours and every Saturday of each month.
4. Maps providing driving directions to the demonstration garden shall be available at the Company office, on the Company web-site, and the Company shall notify each customer through bill inserts or text messages of the demonstration garden.
5. The Company shall work with the schools, including the universities, to continually upgrade the site with additional technologies and techniques.

Residential Interior Retrofit Program Tariff – BMP 3.4

PURPOSE

A program for the Company to promote water conservation by providing residential customers free or low cost plumbing fixtures for their residence (Modified Non-Per Capita Conservation Program BMP Category 3: Outreach Services 3.4: Residential Interior Retrofit Program).

REQUIREMENTS

The requirements of this tariff are governed by Rules of the Arizona Corporation Commission and were adapted from the Arizona Department of Water Resources' Required Public Education Program and Best Management Practices in the Modified Non-Per Capita Conservation Program.

- 2.1.** The Company or designated representative shall provide to residential customers that request them that live in homes built prior to the adoption of the 1990 Uniform Plumbing Code free or low cost low water use fixtures such as faucets, faucet aerators, low flow shower heads, toilets and toilet dams. The Company must offer the fixtures/fixture retrofits to all residential customers meeting the above criteria unless the Company can demonstrate that targeting certain portions of its water service area is likely to yield the highest participation and/or potential water savings.
- 2. The fixtures or retrofit kit shall include detailed instructions for installing the retrofit fixtures.
- 3. The Company shall select appropriate communications channels to advertize the program.
- 4. The Company shall keep a record of the following information and make it available to the Commission upon request:
 - a. A description of the Residential Interior Retrofit Program including a description of the fixtures provided to customers and estimated water savings as a result of Program implementation.
 - b. The number of retrofit fixtures requested by customers and the number of fixtures provided.
 - c. Costs of the Residential Interior Retrofit Program.

Customer High Water Use Inquiry Resolution Tariff – BMP 3.6

PURPOSE

A program for the Company to assist its customers with their high water-use inquiries and complaints (Modified Non-Per Capita Conservation Program BMP Category 3: Outreach Services 3.6: Customer High Water Use Inquiry Resolution).

REQUIREMENTS

The requirements of this tariff are governed by Rules of the Arizona Corporation Commission and were adapted from the Arizona Department of Water Resources' Required Public Education Program and Best Management Practices in the Modified Non-Per Capita Conservation Program.

1. The Company shall handle high water use inquiries as calls are received.
2. Calls shall be taken by a customer service representative who has been trained on typical causes of high water consumption as well as leak detection procedures that customers can perform themselves.
3. Upon request by the customer or when the Company determines it is warranted, a trained Field Technician shall be sent to the customer's residence to verify consumption and conduct a leak detection inspection and further assist the customer with water conservation measures.
4. The Company shall follow up on every customer inquiry or complaint and keep a record of inquiries and follow-up activities. The Company shall make this information available to the Commission upon request.

Customer High Water Use Notification Tariff – BMP 3.7

PURPOSE

A program for the Company to monitor and notify customers when water use seems to be abnormally high and provide information that could benefit those customers and promote water conservation (Modified Non-Per Capita Conservation Program BMP Category 3: Outreach Services Program 3.7: Customer High Water Use Notification).

REQUIREMENTS

The requirements of this tariff are governed by Rules of the Arizona Corporation Commission and were adapted from the Arizona Department of Water Resources' Required Public Education Program and Best Management Practices in the Modified Non-Per Capita Conservation Program.

1. The Company shall track water usage for each customer and notify the customer if water use seems excessive for that particular billing for that time of the year.
2. The Company shall identify customers with high consumption, verify the high consumption, and investigate each instance to determine the possible cause.
3. The Company shall contact the high water use customers via telephone, email, by mail or in person. The Company shall contact the customer as soon as practical in order to minimize the possible loss of water. The customer will not be required to do anything to receive this notification.
4. In the notification the Company shall explain some of the most common water usage problems and common solutions and points of contact for dealing with the issues.
5. In the notification, the customer will be reminded of possible high water-consumption occurrences, such as:
 - a. Leaks, running toilets, or valves or flappers that need to be replaced.
 - b. Irrigation system valves or sprinkler heads which may be leaking.
 - c. Sprinklers that may be watering the house, sidewalk, or street, etc. increasing irrigation requirements.
 - d. Leaking pool or spas and possible leaks around pumps.
 - e. More people in the home than usual taking baths and showers.
 - f. Doing more loads of laundry than usual.
 - g. Doing a landscape project or starting a new lawn.
 - h. Washing vehicles more often than usual.

Meter Repair and/or Replacement Tariff – BMP 4.2

PURPOSE

A program for the Company to systematically assess all in-service water meters (including Company production meters) in its water service area to identify under-registering meters and to repair or replace them (Modified Non-Per Capita Conservation Program Best Management Practice Category 4: Physical System Evaluation and Improvement 4.2 Meter Repair and/or Replacement Program).

REQUIREMENTS

The requirements of this tariff are governed by Rules of the Arizona Corporation Commission and were adapted from the Arizona Department of Water Resources' Required Public Education Program and Best Management Practices in the Modified Non-Per Capita Conservation Program.

1. On a systematic basis, the Company will replace all 2-inch and smaller in-service water meters at least once every ~~fifteen~~twelve years.
2. The Company will test all meters that have caused a meter reading complaint to be filed with the Arizona Corporation Commission.
3. Meters larger than 2-inch shall be tested for one of the following reasons:
 - a. A meter reading complaint is filed with the Company by a customer or Arizona Corporation Commission Staff,
 - b. A meter has been in service for five years.
4. The test will be accomplished by one of the following:
 - a. Having the meter pulled and having a Company Technician physically inspect each meter and its fittings for leaks, registers which may have become loose or are not properly attached to the meter and could be under-registering or other broken parts which need repair.
 - b. Utilizing equipment to verify that all electronic components are within manufacturer specifications and are operating properly.
5. In addition, meters shall be randomly selected for flow testing utilizing a flow through detector testing meter.
6. All replacement water meters shall register in gallons:
 - a. All new 1-inch and smaller meters that are installed will register usage in 1 gallon increments,
 - b. All new 1-1/2-inch through 4-inch meters that are installed will register in 10 gallon increments, and
 - c. All new 6-inch and larger meters that are installed will register in 100 gallon increments.
7. The Company shall keep records on the number of meters that were replaced and make this information available to the Commission upon request.

Water System Tampering Tariff **ATER SYSTEM TAMPERING TARIFF – BMP 5.2**

PURPOSE

The purpose of this tariff is to promote the conservation of groundwater by enabling the Company to bring an action for damages or to enjoin any activity against a person who tampers with the water system.

REQUIREMENTS:

The requirements of this tariff are governed by Rules of the Arizona Corporation Commission, specifically Arizona Administrative Code (“AAC”) R14-2-410 and the Arizona Department of Water Resources’ Required Public Education Program and Best Management Practices in the Modified Non-Per Capita Conservation Program.

1. In support of the Company’s water conservation goals, the Company may bring an action for damages or to enjoin any activity against a person who: (1) makes a connection or reconnection with property owned or used by the Company to provide utility service without the Company’s authorization or consent; (2) prevents a Company meter or other device used to determine the charge for utility services from accurately performing its measuring function; (3) tampers with property owned or used by the Company; or (4) uses or receives the Company’s services without the authorization or consent of the Company and knows or has reason to know of the unlawful diversion, tampering or connection. If the Company’s action is successful, the Company may recover as damages three times the amount of actual damages.
2. Compliance with the provisions of this tariff will be a condition of service.
3. The Company shall make available to all its customers a complete copy of this tariff and AAC R14-2-410. The customers shall follow and abide by this tariff.
4. If a customer is connected to the Company water system and the Company discovers that the customer has taken any of the actions listed in No. 1 above, the Company may terminate service per AAC R14-2-410.
5. If a customer believes he/she has been disconnected in error, the customer may contact the Commission’s Consumer Services Section at 1-800-222-7000 to initiate an investigation.

CROSS-CONNECTION OR BACKFLOW TARIFF

PURPOSE:

The purpose of this tariff is to protect EPCOR Water Arizona, Inc.'s Agua Fria Water District's ("Company") water from the possibility of contamination caused by the backflow of contaminants that may be present on the customer's premises by requiring the installation and periodic testing of backflow prevention assemblies pursuant to the provisions of the Arizona Administrative Code ("A.A.C.") R14-2-405.B.6 and A.A.C. R18-4-215.

REQUIREMENTS:

In compliance with the Rules of the Arizona Corporation Commission ("Commission") and the Arizona Department of Environmental Quality ("ADEQ"), specifically A.A.C. R14-2-405.B.6 and A.A.C. R18-4-215 relating to backflow prevention:

1. The Company may require a customer to pay for and to have installed a backflow-prevention assembly if A.A.C. R18-4-215.B or C applies.
2. A backflow-prevention assembly required to be installed by the customer under Paragraph 1 of this tariff shall comply with the requirements set forth in A.A.C. R18-4-215.D and E.
3. Subject to the provisions of A.A.C. R14-2-407 and 410, and in accordance with Paragraphs 1 and 7 of this tariff, the Company may terminate service or may deny service to a customer who fails to install a backflow-prevention assembly as required by this tariff.
4. The Company shall give any existing customer who is required to install a backflow-prevention assembly written notice of said requirement. If A.A.C. R14-2-410.B.1.a. is **not** applicable, the customer shall be given thirty (30) days from the time such written notice is received in which to comply with this notice. If the customer can show good cause as to why he cannot install the backflow-prevention assembly within thirty (30) days, the Company or Commission Staff may suspend this requirement for a reasonable period of time.

5. Testing shall be in conformance with the requirements of A.A.C. R18-4-215.F. The Company may require the customer to pay to have the backflow-prevention assembly tested as long as the Company does not require an unreasonable number of tests.
6. The customer shall provide the Company with records of installation and testing. For each backflow-prevention assembly, these records shall include:
 - a. assembly identification number and description;
 - b. location
 - c. date(s) of test(s);
 - d. description of repairs and recommendations for repairs made by tester; and
 - e. the tester's name and certificate number.
7. In the event the backflow-prevention assembly does not function properly or fails any test, and an obvious hazard as contemplated under A.A.C. R14-2-410.B.1.a. exists, the Company may terminate service immediately and without notice. The backflow-prevention assembly shall be repaired or replaced by the customer and retested.
8. In the event the backflow-prevention assembly does not function properly or fails any test, or in the event that a customer fails to comply with the testing requirement, and A.A.C. R14-2-410.B.1.a. is **not** applicable, the backflow prevention assembly shall be repaired or replaced within fourteen (14) days of the initial discovery of the deficiency in the assembly or its function. Failure to remedy the deficiency or dysfunction of the assembly, or failure to retest, shall be grounds for termination of water service in accordance with A.A.C. R14-2-410.

ADJUSTOR MECHANISMS

PURCHASED WATER ADJUSTOR MECHANISM ("PWAM")

The PWAM allows the Company to pass through purchased water costs incurred by the Company to its customers. Details can be found in the Company's Purchased Water Adjustor Mechanism Plan of Administration.

Applicability

Applicable to all customers served by this service area.

PWAM Surcharge Rate for all Customers:
All usage per 1,000 gallons per month \$X.XXXX *

* Rate consists of \$X.XXXX per 1,000 gallons of usage to recover the over/under collection of prior years' surcharge and \$X.XXXX per 1,000 gallons of usage for the collection of current annual purchased water charges.

Terms and Conditions

The Company will annually file with the Commission by March 1 the proposed annual PWAM surcharge for the current calendar year. The filing shall contain a summary of all purchased water costs, total collections from the surcharge, and the updated surcharge amounts. All documentation to support the proposed surcharge will be included.

As part of each annual filing, the Company will perform a reconciliation for the prior reporting period comparing the amounts recovered from / refunded to customers to the amount of increase / decrease in water expenses due to changes in rates for that same period resulting in either an under / (over) recovery. This true-up will be included in the annual calculation.

The annual PWAM surcharge will be calculated based on the historic consumption of the applicable customers from the previous twelve months.

The revised PWAM surcharge will be effective on June 1 of each year.

The PWAM surcharge will appear on each applicable customer's bill as a separate line item.

All rates in this Schedule shall be subject to their proportionate part of any taxes or other governmental imposts that are assessed directly or indirectly on the basis of revenues derived from this Schedule.

POWER COST ADJUSTOR MECHANISM ("PCAM")

The PCAM allows the Company to pass through purchase power costs for any gas or electric service provider supplying retail service to the Company to its customers. Details can be found in the Company's Power Cost Adjustor Mechanism Plan of Administration.

Applicability

Applicable to all customers served by this service area.

PCAM Surcharge Rate for all Customers:

All usage per 1,000 gallons per month \$X.XXXX *

* Rate consists of \$X.XXXX per 1,000 gallons of usage to recover the over/under collection of prior years' surcharge and \$X.XXXX per 1,000 gallons of usage for the collection of current power charges.

Terms and Conditions

The Company will annually file with the Commission by March 1 the proposed annual PCAM surcharge for the current calendar year. The filing shall contain a summary of all gas and electrical costs, total collections from the surcharge, and the updated surcharge amount. All documentation to support the proposed surcharge will be included.

As part of each annual filing, the Company will perform a reconciliation for the prior reporting period comparing the amounts recovered from/refunded to customers to the amount of increase/decrease in power expenses due to changes in rates for that same period resulting in either an under / (over) recovery. This true-up will be included in the annual calculation.

The annual PCAM surcharge will be calculated based on the historic consumption of the applicable customers from the previous twelve months.

The revised PCAM surcharge will be effective on June 1 of each year.

The PCAM surcharge will appear on each applicable customer bill as a separate line item.

All rates in this Schedule shall be subject to their proportionate part of any taxes or other governmental imposts that are assessed directly or indirectly on the basis of revenues derived from this Schedule.

<u>10" meter</u>	<u>\$ x.xx</u>	<u>\$ (x.xx)</u>	<u>\$ x.xx</u>

Terms and Conditions

Once a SIB is approved in a decision, the Company must file with Docket Control semi-annual status reports.

The annual SIB surcharge will be calculated based on the historic system improvements of the eligible projects from the previous twelve months.

Once a SIB surcharge is implemented the Company must file annually to true-up its SIB Surcharge collections over the preceding twelve months with the SIB Authorized Revenues for that period and establish a surcharge or credit to true up over or under collections. Filings dates for these annual true-ups shall be as established in the Decision.

The SIB surcharge, SIB efficiency credit and net SIB surcharge will all appear as separate line items on each applicable customer bill.

All rates in this Schedule shall be subject to their proportionate part of any taxes or other governmental imposts that are assessed directly or indirectly on the basis of revenues derived from this Schedule.

ADJUSTOR MECHANISMS
(continued)

PROPERTY TAX ADJUSTOR MECHANISM ("PTAM")

The PTAM allows the Company to pass through to its customers the increases or decreases in property tax expenses that result from changes to the assessment ratio or property tax rate. Pass through costs will be divided equally between residential and non-residential customer classes to collect the total increase over a 12-month period. Details can be found in the Company's Property Tax Adjustor Mechanism Plan of Administration.

Applicability

Applicable to all customers served by this service area.

PTAM Surcharge Rate for all Customers:

All usage per 1,000 gallons per month \$X.XXXX *

* Rate consists of \$X.XXXX per 1,000 gallons of usage to recover the over/under collection of prior years' surcharge and \$X.XXXX per 1,000 gallons of usage for the collection of current power charges.

Terms and Conditions

The Company will annually file with the Commission by March 1 the proposed annual PTAM surcharge for the current calendar year. The filing shall detail how the Company's property tax expenses were calculated by parcel by year. These calculations will include full cash value, assessment ratio, and tax rates by parcel. All documentation to support the proposed surcharge will be included.

As part of each annual filing, the Company will perform a reconciliation for the prior reporting period comparing the amounts recovered from/refunded to customers to the amount of increase/decrease in property tax expenses due to changes in rates for that same period resulting in either an under / (over) recovery. This true-up will be included in the annual calculation.

The revised PTAM surcharge will be effective on June 1 of each year.

The PTAM surcharge will appear on each applicable customer bill as a separate line item.

All rates in this Schedule shall be subject to their proportionate part of any taxes or other governmental imposts that are assessed directly or indirectly on the basis of revenues derived from this Schedule.

BILLING ADJUSTMENT TARIFF

1. PURPOSE

1.1. To outline EPCOR's general procedure on adjusting customer water utility bills.

2. SCOPE

2.1. This procedure pertains to billing adjustments for accounts with lost meters, stopped meters, and other situations where usage has been identified or service received but not billed (or under billed). Parameters within this procedure do not necessarily apply to situations where customer tampering, theft, or other actions that prevent access to the water meter are involved.

3. PROCEDURE

3.1. **Timeframe** – In cases where accounts have been identified as having water usage but have not been billed (or have been under billed), EPCOR will adjust the bill for the period identified not to exceed two years from the point of customer notification or adjustment generation. Customers will be provided the ability to spread their payments for the adjustment amount over the same time period for which the usage occurred. EPCOR will have the option of spreading the payment term beyond the original usage period, depending on the circumstances, with approval from the Customer Service Manager or Customer Service Director.

3.2. **Estimated Usage for Stopped Meters** – Usage for stopped meters will generally be calculated based on historical usage for similar timeframes. If the customer has had changes in their usage pattern based on conservation efforts, economic factors, leak repairs, or changes to the number of occupants, these *may* be considered in adjusting the usage estimate from historical data. There may be cases where the usage is monitored or a period of time after the meter has been replaced to determine the appropriate billing adjustment amount.

3.3. **Meter Accuracy Corrections** – If any meter after testing is found to be more than 3% inaccurate, either fast or slow, proper correction between 3% and the amount of the error shall be made of previous readings and adjusted bills shall be rendered according to the following terms:

3.3.1. For the period of 3 months immediately preceding the removal of such meter from service for test or from the time the meter was in service since last tested, but not exceeding 3 months since the meter shall have been shown to be in error by such test, or

3.3.2. From the date the error occurred, if the date of the cause can be definitely fixed.

3.3.3. No adjustment shall be made by the utility except to the customer last served by the meter tested.

BILLING ADJUSTMENT TARIFF
(continued)

3.4. Managing Large and/or Extended Adjustments – Bill adjustment amounts over \$2,500 that extend beyond two billing cycles will be reviewed by EPCOR and communication with the customer will be attempted prior to posting the bill to the customer account. Three unsuccessful attempts to contact the customer via the contact means provided on the customer account shall release the bill to the customer's account for posting.

3.5. Customer Appeals – Customers may appeal adjustment decisions in writing or by contacting a customer care representative the appeal will be escalated to the appropriate party and a determination will be made within 90 days.

4.1.3.6. Exceptions – It is recognized that there may be specific situations or unique circumstances where there is a management decision not to adjust a customer or group of customers.

FACTORS FOR ALLOCATING COST OF SERVICE TO CUSTOMER CLASS

FACTOR A. ALLOCATION OF COMMODITY COSTS.

Factors are based on the pro forma test year average daily consumption for each customer classification.

Classification	Average Daily Consumption, 1000 Gallons	Allocation Factor
(1)	(2)	(5)
Residential	2,212	0.8137
Commercial	506	0.1863
Private Fire	0	0.0000
Total	<u>2,718</u>	<u>1.0000</u>

FACTOR B. ALLOCATION OF MAXIMUM DAY DEMAND COSTS - TREATMENT AND PUMPING.

Factors are based on the maximum day demand for each customer classification.

Customer Classification	Average Daily Consumption, 1000 Gallons	Peak Day Factor	Rate of Flow, 1000 Gallons Per Day	Allocation Factor
(1)	(2)	(3)	(4)=(2)x(3)	(5)
Residential	2,212	2.28	5,052	0.8121
Commercial	506	2.31	1,169	0.1879
Private Fire	0	0.00	0	0.0000
Total	<u>2,718</u>		<u>6,221</u>	<u>1.0000</u>

FACTOR C. ALLOCATION OF MAXIMUM HOUR DEMAND COSTS.

Factors are based on the maximum hour demand for each customer classification.

Customer Classification	Average Hourly Consumption, 1000 Gallons	Peak Hour Factor	Rate of Flow, 1000 Gallons Per Hour	Allocation Factor
(1)	(2)	(3)	(4)=(2)x(3)	(5)
Residential	92	3.78	348	0.8119
Commercial	21	3.82	81	0.1881
Private Fire	0	0.00	0	-
Total	<u>113</u>		<u>429</u>	<u>1.0000</u>

EPCOR WATER ARIZONA INC.
ANTHEM WATER DISTRICT
FACTORS FOR ALLOCATING COST OF SERVICE TO CUSTOMER CLASS

FACTOR D. ALLOCATION OF COSTS ASSOCIATED WITH METERS

Factors are based on the relative cost of meters by size and customer classification

Customer Classification <u>(1)</u>	5/8" Equivalents <u>(2)</u>	Allocation Factor <u>(3)</u>
Residential	9,788	0.9494
Commercial	522	0.0506
Private Fire	0	0.0000
Total	<u>10,310</u>	<u>1.0000</u>

FACTOR E. ALLOCATION OF COSTS ASSOCIATED WITH SERVICES

Factors are based on the relative cost of meters by size and customer classification

Customer Classification <u>(1)</u>	3/4" Equivalents <u>(2)</u>	Allocation Factor <u>(3)</u>
Residential	8,891	0.9661
Commercial	250	0.0272
Private Fire	62	0.0067
Total	<u>9,203</u>	<u>1.0000</u>

FACTOR F. ALLOCATION OF BILLING AND COLLECTING COSTS.

Factors are based on the total number of customers.

Customer Classification <u>(1)</u>	Total Customers <u>(2)</u>	Allocation Factor <u>(3)</u>
Residential	8,891	0.9661
Commercial	250	0.0272
Private Fire	62	0.0067
Total	<u>9,203</u>	<u>1.0000</u>

Terms and Conditions

Water service provided under this rate schedule is subject to this District's Rules and Regulations applicable to Water Service and may be subject to this District's Service Charges set forth in Rate Schedule MISC-1 and adjustor mechanisms included in the Company's tariffs on file with the Arizona Corporation Commission.

Water service under this Schedule is for the exclusive use of the Customer and water shall not be resold or provided to others.

In addition to the collection of regular rates, the utility will collect from its customers a proportionate share of any privilege, sales, use and franchise tax, per Commission Rule 14-2-409.D.5.

A 1½% late payment penalty will be applied to account balances not paid within fifteen (15) days after the postmark date of the bill in accordance with Arizona Administrative Code R14-2-310.C.

Low Income Program: Monthly Low Income Credit of \$10.00 is available in the Anthem Water District. Requires the completion of a Low Income Program Application. Program is restricted to the first 100 eligible residential customers on 5/8 x ¾ inch meters in the Anthem Water district. Applicants must swear that he/she has annual income below the threshold. The threshold is below 150% of the federal low income guidelines as periodically revised. Applicant may not be claimed as a dependent on another person's tax return. Applicant must reapply each time moving residences. Refusal or failure to provide acceptable documentation of eligibility, upon request, shall result in removal from the low income program. Rebilling of customers under the otherwise applicable rate schedule may occur for periods of ineligibility previously billed under the low income tariff. Annual income means the value of all money and non-cash benefits available for living expenses, from all sources, both taxable and non-taxable, before deductions, for all people who live with the applicant.

Local and/or Regional Messaging Program Tariff – BMP 1.1

PURPOSE

A program for the Company to actively participate in a water conservation campaign with local or regional advertising (Modified Non-Per Capita Conservation Program BMP Category 1: Public Awareness/Public Relations 1.1: Local and/or Regional Messaging Program).

REQUIREMENTS

The requirements of this tariff are governed by Rules of the Arizona Corporation Commission and were adapted from the Arizona Department of Water Resources' Required Public Education Program and Best Management Practices in the Modified Non-Per Capita Conservation Program.

1. The Company or designated representative shall actively participate in water conservation campaign with local and/or regional advertising.
2. The campaign shall promote ways for customers to save water.
3. The Company shall facilitate the campaign through one or more of the following avenues (not an all inclusive list):
 - a. Television commercials
 - b. Radio commercials
 - c. Websites
 - d. Promotional materials
 - e. Vehicle signs
 - f. Bookmarks
 - g. Magnets
4. The Company shall keep a record of the following information and make it available to the Commission upon request:
 - a. A description of the messaging program implemented and program dates.
 - b. The number of customers reached (or an estimate).
 - c. Costs of Program implementation.

New Homeowner Landscape Information Tariff – BMP 2.3

PURPOSE

A program for the Company to promote the conservation of water by providing a landscape information package for the purpose of educating its new customers about low water use landscaping (Modified Non-Per Capita Conservation Program BMP Category 2: Conservation Education and Training 2.3: New Homeowner Landscape Information).

REQUIREMENTS:

The requirements of this tariff are governed by Rules of the Arizona Corporation Commission and were adapted from the Arizona Department of Water Resources’ Required Public Education Program and Best Management Practices in the Modified Non-Per Capita Conservation Program.

- 1. Upon establishment of water service the Company shall offer and make available upon request a free “Homeowner Landscape Packet” to each new customer in the Company’s service area. The packet will include at a minimum: a cover letter describing the water conservation expectations for all customers in the Company’s service area, applicable rate tariffs, a basic interior/exterior water saving pamphlet, xeriscape landscape information, a list of low water use trees, plants, shrubs, etc., watering guidelines, and a rain water harvesting pamphlet.
- 2. Upon customer request, the Company shall provide:
 - a. On-site consultations on low water use landscaping and efficient watering practices.
 - b. A summary of water saving options.
- 3. The Company shall keep a record of the number of packets provided to new customers and make it available to the Commission upon request.

Residential Audit Program Tariff – BMP 3.1

PURPOSE

A program for the Company to promote water conservation by providing customers with information on performing water audits to determine conservation opportunities at their residence (Modified Non-Per Capita Conservation Program BMP Category 3: Outreach Services 3.1: Residential Audit Program).

REQUIREMENTS

The requirements of this tariff are governed by Rules of the Arizona Corporation Commission and were adapted from the Arizona Department of Water Resources' Required Public Education Program and Best Management Practices in the Modified Non-Per Capita Conservation Program.

1. The Company shall offer self-audit information.
2. The Company or designated representative shall provide all customers that request them with a self-audit kit.
3. The kit shall include detailed instructions and tools for completing the water audit including information on how to check their water meter. The audit kit shall include but not be limited to information on checking the following components: irrigation system, pool, water features, toilets, faucets and shower.
4. If requested, the Company shall assist the customer in a self-water audit and assist the customer in determining what might be causing high water usage as well as supply customer with information regarding water conservation and landscape watering guidelines. As part of the water audit, and if requested to do so by the customer, the Company shall confirm the accuracy of the customer meter (applicable meter testing fees shall apply).
5. The Company shall keep a record of the following information and make it available to the Commission upon request:
 - a. A description of the water conservation material provided in the kit.
 - b. The number of kits provided to customers.
 - c. Implementation costs of the Residential Audit Program.

Residential Interior Retrofit Program Tariff – BMP 3.4**PURPOSE**

A program for the Company to promote water conservation by providing residential customers free or low cost plumbing fixtures for their residence (Modified Non-Per Capita Conservation Program BMP Category 3: Outreach Services 3.4: Residential Interior Retrofit Program).

REQUIREMENTS

The requirements of this tariff are governed by Rules of the Arizona Corporation Commission and were adapted from the Arizona Department of Water Resources' Required Public Education Program and Best Management Practices in the Modified Non-Per Capita Conservation Program.

1. The Company or designated representative shall provide to residential customers that request them that live in homes built prior to the adoption of the 1990 Uniform Plumbing Code free or low cost low water use fixtures such as faucets, faucet aerators, low flow shower heads, toilets and toilet dams. The Company must offer the fixtures/fixture retrofits to all residential customers meeting the above criteria unless the Company can demonstrate that targeting certain portions of its water service area is likely to yield the highest participation and/or potential water savings.
2. The fixtures or retrofit kit shall include detailed instructions for installing the retrofit fixtures.
3. The Company shall select appropriate communications channels to advertize the program.
4. The Company shall keep a record of the following information and make it available to the Commission upon request:
 - a. A description of the Residential Interior Retrofit Program including a description of the fixtures provided to customers and estimated water savings as a result of Program implementation.
 - b. The number of retrofit fixtures requested by customers and the number of fixtures provided.
 - c. Costs of the Residential Interior Retrofit Program.

Customer High Water Use Inquiry Resolution Tariff – BMP 3.6

PURPOSE

A program for the Company to assist its customers with their high water-use inquiries and complaints (Modified Non-Per Capita Conservation Program BMP Category 3: Outreach Services 3.6: Customer High Water Use Inquiry Resolution).

REQUIREMENTS

The requirements of this tariff are governed by Rules of the Arizona Corporation Commission and were adapted from the Arizona Department of Water Resources' Required Public Education Program and Best Management Practices in the Modified Non-Per Capita Conservation Program.

1. The Company shall handle high water use inquiries as calls are received.
2. Calls shall be taken by a customer service representative who has been trained on typical causes of high water consumption as well as leak detection procedures that customers can perform themselves.
3. Upon request by the customer or when the Company determines it is warranted, a trained Field Technician shall be sent to the customer's residence to verify consumption and conduct a leak detection inspection and further assist the customer with water conservation measures.
4. The Company shall follow up on every customer inquiry or complaint and keep a record of inquiries and follow-up activities. The Company shall make this information available to the Commission upon request.

Customer High Water Use Notification Tariff – BMP 3.7**PURPOSE**

A program for the Company to monitor and notify customers when water use seems to be abnormally high and provide information that could benefit those customers and promote water conservation (Modified Non-Per Capita Conservation Program BMP Category 3: Outreach Services Program 3.7: Customer High Water Use Notification).

REQUIREMENTS

The requirements of this tariff are governed by Rules of the Arizona Corporation Commission and were adapted from the Arizona Department of Water Resources' Required Public Education Program and Best Management Practices in the Modified Non-Per Capita Conservation Program.

1. The Company shall track water usage for each customer and notify the customer if water use seems excessive for that particular billing for that time of the year.
2. The Company shall identify customers with high consumption, verify the high consumption, and investigate each instance to determine the possible cause.
3. The Company shall contact the high water use customers via telephone, email, by mail or in person. The Company shall contact the customer as soon as practical in order to minimize the possible loss of water. The customer will not be required to do anything to receive this notification.
4. In the notification the Company shall explain some of the most common water usage problems and common solutions and points of contact for dealing with the issues.
5. In the notification, the customer will be reminded of possible high water-consumption occurrences, such as:
 - a. Leaks, running toilets, or valves or flappers that need to be replaced.
 - b. Irrigation system valves or sprinkler heads which may be leaking.
 - c. Sprinklers that may be watering the house, sidewalk, or street, etc. increasing irrigation requirements.
 - d. Leaking pool or spas and possible leaks around pumps.
 - e. More people in the home than usual taking baths and showers.
 - f. Doing more loads of laundry than usual.
 - g. Doing a landscape project or starting a new lawn.
 - h. Washing vehicles more often than usual.
6. The Company shall offer water conservation information that could benefit the customer, such as, but not limited to, audit programs, publications, and rebate programs.
7. The Company shall assist the customer in determining what might be causing the high water usage as well as offer the customer information regarding water conservation and landscape watering guidelines. The Company shall confirm the accuracy of the customer meter if requested to do so by the customer (applicable meter testing fees shall apply).
8. The type of notification, the timing of the notification (i.e., how long after high water use was discovered by the Company), and the criteria used for determining which customers are notified shall be recorded. The Company shall make this information available to the Commission upon request.

WATER SYSTEM TAMPERING TARIFF – BMP 5.2**PURPOSE**

The purpose of this tariff is to promote the conservation of groundwater by enabling the Company to bring an action for damages or to enjoin any activity against a person who tampers with the water system.

REQUIREMENTS:

The requirements of this tariff are governed by Rules of the Arizona Corporation Commission, specifically Arizona Administrative Code ("AAC") R14-2-410 and the Arizona Department of Water Resources' Required Public Education Program and Best Management Practices in the Modified Non-Per Capita Conservation Program.

1. In support of the Company's water conservation goals, the Company may bring an action for damages or to enjoin any activity against a person who: (1) makes a connection or reconnection with property owned or used by the Company to provide utility service without the Company's authorization or consent; (2) prevents a Company meter or other device used to determine the charge for utility services from accurately performing its measuring function; (3) tampers with property owned or used by the Company; or (4) uses or receives the Company's services without the authorization or consent of the Company and knows or has reason to know of the unlawful diversion, tampering or connection. If the Company's action is successful, the Company may recover as damages three times the amount of actual damages.
2. Compliance with the provisions of this tariff will be a condition of service.
3. The Company shall make available to all its customers a complete copy of this tariff and AAC R14-2-410. The customers shall follow and abide by this tariff.
4. If a customer is connected to the Company water system and the Company discovers that the customer has taken any of the actions listed in No. 1 above, the Company may terminate service per AAC R14-2-410.
5. If a customer believes he/she has been disconnected in error, the customer may contact the Commission's Consumer Services Section at 1-800-222-7000 to initiate an investigation.

Large Landscape Conservation Program Tariff – BMP 6.12

PURPOSE

A program for the Company to promote water conservation measures by providing non-residential customers with support and incentives to improve their landscape water use efficiency (Modified Non-Per Capita Conservation Program BMP Category 6: Rebates/Incentives 6.12: Large Landscape Conservation Program).

REQUIREMENTS:

The requirements of this tariff are governed by Rules of the Arizona Corporation Commission and were adapted from the Arizona Department of Water Resources’ Required Public Education Program and Best Management Practices in the Modified Non-Per Capita Conservation Program.

1. As an incentive to reduce water use for its non-residential customers with landscape watering needs, the Company shall offer to work with the customer or the customer’s contracted landscape company to collect and analyze up to 3 years of historical information for their irrigation meters, analyze past consumption patterns and compare usage between years. The Company will analyze past consumption patterns and compare meter size with consumption rates that might suggest meter over-sizing or meter/valve/backflow malfunctions. This analysis shall be presented in both raw data and graphically with recommendations for potential meter resizing when appropriate and identification of high consumption situations and potential malfunctions of landscape watering equipment.
2. No less frequently than every three years, or upon customer request, the Company shall provide its non-residential customers with landscape watering needs, a historical consumption analysis study as described above in item #1 for their respective irrigation meters within the Company’s service area.
3. Company service shall be offered using an inverted block rate structure, the interruptible, or effluent tariffs.
4. Upon customer request, the Company shall provide:
 - a. On-site consultations on low water use landscaping and efficient watering practices.
 - b. A summary of water saving options and a month-by-month outdoor water budget.

CROSS-CONNECTION OR BACKFLOW TARIFF
(continued)

5. Testing shall be in conformance with the requirements of A.A.C. R18-4-215.F. The Company may require the customer to pay to have the backflow-prevention assembly tested as long as the Company does not require an unreasonable number of tests.
6. The customer shall provide the Company with records of installation and testing. For each backflow-prevention assembly, these records shall include:
 - a. assembly identification number and description;
 - b. location
 - c. date(s) of test(s);
 - d. description of repairs and recommendations for repairs made by tester; and
 - e. the tester's name and certificate number.
7. In the event the backflow-prevention assembly does not function properly or fails any test, and an obvious hazard as contemplated under A.A.C. R14-2-410.B.1.a. exists, the Company may terminate service immediately and without notice. The backflow-prevention assembly shall be repaired or replaced by the customer and retested.
8. In the event the backflow-prevention assembly does not function properly or fails any test, or in the event that a customer fails to comply with the testing requirement, and A.A.C. R14-2-410.B.1.a. is **not** applicable, the backflow prevention assembly shall be repaired or replaced within fourteen (14) days of the initial discovery of the deficiency in the assembly or its function. Failure to remedy the deficiency or dysfunction of the assembly, or failure to retest, shall be grounds for termination of water service in accordance with A.A.C R14-2-410.

CURTAILMENT TARIFF [SLM1]

CURTAILMENT PLAN FOR ANTHEM WATER DISTRICT
(Template 063004)

ADEQ Public Water System No: 04-07-504

EPCOR Water Arizona, Inc. ("Company"), is authorized to curtail water service to all customers within its certificated area under the terms and conditions listed in this tariff.

This curtailment plan shall become part of the Arizona Department of Environmental Quality Emergency Operations Plan for the Company.

The Company shall notify its customers of this new tariff as part of its next regularly scheduled billing after the effective date of the tariff or no later than sixty (60) days after the effective date of the tariff.

The Company shall provide a copy of the curtailment tariff to any customer, upon request.

Stage 1 Exists When:

Company is able to maintain water storage in the system at 100 percent of capacity and there are no known problems with its well production or water storage in the system.

Restrictions: Under Stage 1, Company is deemed to be operating normally and no curtailment is necessary.

Notice Requirements: Under Stage 1, no notice is necessary.

Stage 2 Exists When:

- a. Company's water storage or well production has been less than 80 percent of capacity for at least 48 consecutive hours, and
- b. Company has identified issues such as a steadily declining water table, increased draw down threatening pump operations, or poor water production, creating a reasonable belief the Company will be unable to meet anticipated water demand on a sustained basis.

Restrictions: Under Stage 2, the Company may request the customers to voluntarily employ water conservation measures to reduce water consumption by approximately 50 percent. Outside watering should be limited to essential water, dividing outside watering on some uniform basis (such as even and odd days) and eliminating outside watering on weekends and holidays.

CURTAILMENT TARIFF
(continued)

Notice Requirements: Under Stage 2, the Company is required to notify customers by delivering written notice door to door at each service address, or by United States first class mail to the billing address or, at the Company's option, both. Such notice shall notify the customers of the general nature of the problem and the need to conserve water.

Stage 3 Exists When:

- a. Company's total water storage or well production has been less than 50 percent of capacity for at least 24 consecutive hours, and
- b. Company has identified issues such as a steadily declining water table, increased draw down threatening pump operations, or poor water production, creating a reasonable belief the Company will be unable to meet anticipated water demand on a sustained basis.

Restrictions: Under Stage 3, Company shall request the customers to voluntarily employ water conservation measures to reduce daily consumption by approximately 50 percent. All outside watering should be eliminated, except livestock, and indoor water conservation techniques should be employed whenever possible. Standpipe service shall be suspended.

Notice Requirements:

1. Company is required to notify customers by delivering written notice to each service address, or by United States first class mail to the billing address or, at the Company's option, both. Such Notice shall notify the customers of the general nature of the problem and the need to conserve water.
2. Beginning with Stage 3, Company shall post at least five (5) signs showing the curtailment stage. Signs shall be posted at the well and/or pump sites located within the Agua Fria Water District.
3. Company shall notify the Consumer Services Section of the Utilities Division of the Corporation Commission at least 12 hours prior to entering Stage 3.

Once Stage 3 has been reached, the Company must begin to augment the supply of water by either hauling or through an emergency interconnect with an approved water supply in an attempt to maintain the curtailment at a level no higher than Stage 3 until a permanent solution has been implemented.

CURTAILMENT TARIFF
(continued)

Stage 4 Exists When:

- a. Company's total water storage or well production has been less than 25 percent of capacity for at least 12 consecutive hours, and
- b. Company has identified issues such as a steadily declining water table, increased draw down threatening pump operations, or poor water production, creating a reasonable belief the Company will be unable to meet anticipated water demand on a sustained basis.

Restrictions: Under Stage 4, Company shall inform the customers of a mandatory restriction to employ water conservation measures to reduce daily consumption. Failure to comply will result in customer disconnection. The following uses of water shall be prohibited:

- ◆ Irrigation of outdoor lawns, trees, shrubs, or any plant life is prohibited
- ◆ Washing of any vehicle is prohibited
- ◆ The use of water for dust control or any outdoor cleaning uses is prohibited
- ◆ The use of drip or misting systems of any kind is prohibited
- ◆ The filling of any swimming pool, spas, fountains or ornamental pools is prohibited
- ◆ The use of construction water is prohibited
- ◆ Restaurant patrons shall be served water only upon request
- ◆ Any other water intensive activity is prohibited

The Company's operation of its standpipe service is prohibited. The addition of new service lines and meter installations is prohibited.

Notice Requirements:

1. Company is required to notify customers by delivering written notice to each service address, or by United States first class mail to the billing address or, at the Company's option, both. Such notice shall notify the customers of the general nature of the problem and the need to conserve water.
2. Beginning with Stage 4, Company shall post at least eight (8) signs showing the curtailment stage. Signs shall be posted at the well and/or pump sites located within the Agua Fria Water District
3. Company shall notify the Consumer Services Section of the Utilities Division of the Corporation Commission at least 12 hours prior to entering Stage 4.

CURTAILMENT TARIFF
(continued)

Customers who fail to comply with the above restrictions will be given a written notice to end all outdoor use. Failure to comply within two (2) working days of receipt of the notice will result in temporary loss of service until an agreement can be made to end unauthorized use of outdoor water. To restore service, the customer shall be required to pay all authorized reconnection fees.

If a customer believes he/she has been disconnected in error, the customer may contact the Commission's Consumer Services Section at 1-800-222-7000 to initiate an investigation.

Once Stage 4 has been reached, the Company must augment the supply of water by hauling or through an emergency interconnect from an approved supply or must otherwise provide emergency drinking water for its customers until a permanent solution has been implemented.

ADJUSTOR MECHANISMS

PURCHASED WATER ADJUSTOR MECHANISM (“PWAM”)

The PWAM allows the Company to pass through purchased water costs incurred by the Company to its customers. Details can be found in the Company’s Purchased Water Adjustor Mechanism Plan of Administration.

Applicability

Applicable to all customers served by this service area.

PWAM Surcharge Rate for all Customers:

All usage per 1,000 gallons per month \$X.XXXX *

* Rate consists of \$X.XXXX per 1,000 gallons of usage to recover the over/under collection of prior years’ surcharge and \$X.XXXX per 1,000 gallons of usage for the collection of current annual purchased water charges.

Terms and Conditions

The Company will annually file with the Commission by March 1 the proposed annual PWAM surcharge for the current calendar year. The filing shall contain a summary of all purchased water costs, total collections from the surcharge, and the updated surcharge amounts. All documentation to support the proposed surcharge will be included.

As part of each annual filing, the Company will perform a reconciliation for the prior reporting period comparing the amounts recovered from / refunded to customers to the amount of increase / decrease in water expenses due to changes in rates for that same period resulting in either an under / (over) recovery. This true-up will be included in the annual calculation.

The annual PWAM surcharge will be calculated based on the historic consumption of the applicable customers from the previous twelve months.

The revised PWAM surcharge will be effective on June 1 of each year.

The PWAM surcharge will appear on each applicable customer’s bill as a separate line item.

All rates in this Schedule shall be subject to their proportionate part of any taxes or other governmental imposts that are assessed directly or indirectly on the basis of revenues derived from this Schedule.

ADJUSTOR MECHANISMS
(continued)

POWER COST ADJUSTOR MECHANISM ("PCAM")

The PCAM allows the Company to pass through purchase power costs for any gas or electric service provider supplying retail service to the Company to its customers. Details can be found in the Company's Power Cost Adjustor Mechanism Plan of Administration.

Applicability

Applicable to all customers served by this service area.

PCAM Surcharge Rate for all Customers:

All usage per 1,000 gallons per month \$X.XXXX *

* Rate consists of \$X.XXXX per 1,000 gallons of usage to recover the over/under collection of prior years' surcharge and \$X.XXXX per 1,000 gallons of usage for the collection of current power charges.

Terms and Conditions

The Company will annually file with the Commission by March 1 the proposed annual PCAM surcharge for the current calendar year. The filing shall contain a summary of all gas and electrical costs, total collections from the surcharge, and the updated surcharge amount. All documentation to support the proposed surcharge will be included.

As part of each annual filing, the Company will perform a reconciliation for the prior reporting period comparing the amounts recovered from/refunded to customers to the amount of increase/decrease in power expenses due to changes in rates for that same period resulting in either an under / (over) recovery. This true-up will be included in the annual calculation.

The annual PCAM surcharge will be calculated based on the historic consumption of the applicable customers from the previous twelve months.

The revised PCAM surcharge will be effective on June 1 of each year.

The PCAM surcharge will appear on each applicable customer bill as a separate line item.

All rates in this Schedule shall be subject to their proportionate part of any taxes or other governmental imposts that are assessed directly or indirectly on the basis of revenues derived from this Schedule.

(continued)

ADJUSTOR MECHANISMS
(continued)

SYSTEM IMPROVEMENT BENEFIT MECHANISM ("SIB")

The SIB provides for recovery of the capital costs (return on investment, income taxes and depreciation expense) associated with distribution system improvement projects listed in SIB Plant Table I that have been verified to be complete, net of associated retirements and placed in service per SIB Table II. Details can be found in the Company's System Improvement Benefit Mechanism Plan of Administration.

Availability
Applicable to all customers served by this service area.

Schedule of Charges:

Meter Size	SIB Surcharge	SIB Efficiency Credit	NET SIB Surcharge
5/8" x 3/4" meter	\$ x.xx	\$ (x.xx)	\$ x.xx
3/4" meter	\$ x.xx	\$ (x.xx)	\$ x.xx
1" meter	\$ x.xx	\$ (x.xx)	\$ x.xx
1½" meter	\$ x.xx	\$ (x.xx)	\$ x.xx
2" meter	\$ x.xx	\$ (x.xx)	\$ x.xx
3" meter	\$ x.xx	\$ (x.xx)	\$ x.xx
4" meter	\$ x.xx	\$ (x.xx)	\$ x.xx
6" meter	\$ x.xx	\$ (x.xx)	\$ x.xx
8" meter	\$ x.xx	\$ (x.xx)	\$ x.xx
10" meter	\$ x.xx	\$ (x.xx)	\$ x.xx

Terms and Conditions
Once a SIB is approved in a decision, the Company must file with Docket Control semi-annual status reports.

The annual SIB surcharge will be calculated based on the historic system improvements of the eligible projects from the previous twelve months.

Once a SIB surcharge is implemented the Company must file annually to true-up its SIB Surcharge collections over the preceding twelve months with the SIB Authorized Revenues for that period and establish a surcharge or credit to true up over or under collections. Filings dates for these annual true-ups shall be as established in the Decision.

The SIB surcharge, SIB efficiency credit and net SIB surcharge will all appear as separate line items on each applicable customer bill.

All rates in this Schedule shall be subject to their proportionate part of any taxes or other governmental imposts that are assessed directly or indirectly on the basis of revenues derived from this Schedule.

ADJUSTOR MECHANISMS
(continued)

PROPERTY TAX ADJUSTOR MECHANISM ("PTAM")

The PTAM allows the Company to pass through to its customers the increases or decreases in property tax expenses that result from changes to the assessment ratio or property tax rate. Pass through costs will be divided equally between residential and non-residential customer classes to collect the total increase over a 12-month period. Details can be found in the Company's Property Tax Adjustor Mechanism Plan of Administration.

Applicability

Applicable to all customers served by this service area.

PTAM Surcharge Rate for all Customers:

All usage per 1,000 gallons per month \$X.XXXX *

* Rate consists of \$X.XXXX per 1,000 gallons of usage to recover the over/under collection of prior years' surcharge and \$X.XXXX per 1,000 gallons of usage for the collection of current power charges.

Terms and Conditions

The Company will annually file with the Commission by March 1 the proposed annual PTAM surcharge for the current calendar year. The filing shall detail how the Company's property tax expenses were calculated by parcel by year. These calculations will include full cash value, assessment ratio, and tax rates by parcel. All documentation to support the proposed surcharge will be included.

As part of each annual filing, the Company will perform a reconciliation for the prior reporting period comparing the amounts recovered from/refunded to customers to the amount of increase/decrease in property tax expenses due to changes in rates for that same period resulting in either an under / (over) recovery. This true-up will be included in the annual calculation.

The revised PTAM surcharge will be effective on June 1 of each year.

The PTAM surcharge will appear on each applicable customer bill as a separate line item.

All rates in this Schedule shall be subject to their proportionate part of any taxes or other governmental imposts that are assessed directly or indirectly on the basis of revenues derived from this Schedule.

BILLING ADJUSTMENT TARIFF

1. PURPOSE

1.1. To outline EPCOR's general procedure on adjusting customer water utility bills.

2. SCOPE

2.1. This procedure pertains to billing adjustments for accounts with lost meters, stopped meters, and other situations where usage has been identified or service received but not billed (or under billed). Parameters within this procedure do not necessarily apply to situations where customer tampering, theft, or other actions that prevent access to the water meter are involved.

3. PROCEDURE

3.1. **Timeframe** – In cases where accounts have been identified as having water usage but have not been billed (or have been under billed), EPCOR will adjust the bill for the period identified not to exceed two years from the point of customer notification or adjustment generation. Customers will be provided the ability to spread their payments for the adjustment amount over the same time period for which the usage occurred. EPCOR will have the option of spreading the payment term beyond the original usage period, depending on the circumstances, with approval from the Customer Service Manager or Customer Service Director.

3.2. **Estimated Usage for Stopped Meters** – Usage for stopped meters will generally be calculated based on historical usage for similar timeframes. If the customer has had changes in their usage pattern based on conservation efforts, economic factors, leak repairs, or changes to the number of occupants, these *may* be considered in adjusting the usage estimate from historical data. There may be cases where the usage is monitored or a period of time after the meter has been replaced to determine the appropriate billing adjustment amount.

3.3. **Meter Accuracy Corrections** – If any meter after testing is found to be more than 3% inaccurate, either fast or slow, proper correction between 3% and the amount of the error shall be made of previous readings and adjusted bills shall be rendered according to the following terms:

3.3.1. For the period of 3 months immediately preceding the removal of such meter from service for test or from the time the meter was in service since last tested, but not exceeding 3 months since the meter shall have been shown to be in error by such test, or

3.3.2. From the date the error occurred, if the date of the cause can be definitely fixed.

3.3.3. No adjustment shall be made by the utility except to the customer last served by the meter tested.

BILLING ADJUSTMENT TARIFF
(continued)

- 3.4. **Managing Large and/or Extended Adjustments** – Bill adjustment amounts over \$2,500 that extend beyond two billing cycles will be reviewed by EPCOR and communication with the customer will be attempted prior to posting the bill to the customer account. Three unsuccessful attempts to contact the customer via the contact means provided on the customer account shall release the bill to the customer’s account for posting.
- 3.5. **Customer Appeals** – Customers may appeal adjustment decisions in writing or by contacting a customer care representative the appeal will be escalated to the appropriate party and a determination will be made within 90 days.
- 3.6. **Exceptions** – It is recognized that there may be specific situations or unique circumstances where there is a management decision not to adjust a customer or group of customers.

COMMON FACILITIES HOOK-UP FEE

I. Purpose and Applicability

The purpose of the Common Facilities hook-up fee payable to EPCOR Water Arizona, Inc. (“the Company”) pursuant to this tariff is to equitably apportion the costs of constructing additional common water facility infrastructure to provide water production, delivery, treatment, storage and pressure among all new service connections. These charges are applicable to all new service connections established after the effective date of this tariff. The charges are one-time charges and are payable as a condition to the Company’s establishment of service, as more particularly provided below.

II. Definitions

Unless the context otherwise requires, the definitions set forth in R-14-2-401 of the Arizona Corporation Commission’s (“Commission”) rules and regulations governing water utilities shall apply interpreting this tariff schedule.

“Applicant” means any party entering into an agreement with the Company for the installation of water facilities to serve new service connections, and may include developers and/or builders of new residential subdivisions.

“Main Extension Agreement” means any agreement whereby an Applicant, Developer and/or Builder agrees to advance the costs of the installation of water facilities, which may include Common Facilities, to the Company to serve new service connections, or install water facilities to serve new service connections and transfer ownership of such water facilities to the Company, in either case which agreement shall require the approval of the Commission pursuant to A.A.C. R-14-2-406, and shall have the same meaning as “Water Facilities Agreement” or “Line Extension Agreement.”

“Common Facilities” means all wells, storage tanks, production, treatment, booster pumps, pressure tanks, transmission mains and related appurtenances, including engineering and design costs, constructed for the benefit of the entire water system and not for the exclusive use of the Applicant’s development.

“Service Connection” means and includes all service connections for single-family residential or other uses, regardless of meter size.

COMMON FACILITIES HOOK-UP FEE
(continued)

III. Common Facilities Water Hook-up Fee

For each new service connection, the Company shall collect a Common Facilities hook-up fee derived from the following table:

COMMON FACILITIES HOOK-UP FEE TABLE		
Meter Size	Size Factor	Total Fee
5/8" x 3/4"	1	\$1,680.00
3/4"	1.5	\$2,520.00
1"	2.5	\$4,200.00
1-1/2"	5	\$8,400.00
2"	8	\$13,440.00
3"	16	\$26,880.00
4"	25	\$42,000.00
6" or larger	50	\$84,000.00

IV. Terms and Conditions

(A) Assessment of One Time Common Facilities Hook-up Fee: The Common Facilities hook-up fee may be assessed only once per parcel, service connection, or lot within a subdivision (similar to meter and service line installation charge).

(B) Use of Common Facilities Hook-up Fee: Common Facilities hook-up fees may only be used to pay for capital items of Common Facilities, or for repayment of loans obtained for installation of Common Facilities. Common Facilities hook-up fees shall not be used for repairs, maintenance, or operational purposes.

(C) Time of Payment:

1) In the event that the Applicant that will be constructing improvements is required to enter into a Main Extension Agreement, payment of the Common Facilities hook-up fees required hereunder shall be made by the Applicant no later than within 15 calendar days after receipt of notification from the Company that the Utilities Division of the Arizona Corporation Commission has approved the Main Extension Agreement in accordance with R-14-2-406(M).

COMMON FACILITIES HOOK-UP FEE
(continued)

(H) Use of Common Facilities Hook-Up Fees Received: All funds collected by the Company as Common Facilities hook-up fees shall be deposited into a separate interest bearing trust account and used solely for the purposes of paying for the costs of the Common Facilities, including repayment of loans obtained for the installation of Common Facilities that will benefit the entire water system.

(I) Common Facilities Hook-up Fee in Addition to On-site Facilities: The Common Facilities hook-up fee shall be in addition to any costs associated with the construction of on-site facilities or other additional facilities under Paragraph IV.D, above, under a Main Extension Agreement.

(J) Disposition of Excess Funds: After all necessary and desirable Common Facilities are constructed utilizing funds collected pursuant to the Common Facilities hook-up fees, or if the Common Facilities hookup fee has been terminated by order of the Arizona Corporation Commission, any funds remaining in the trust shall be refunded. The manner of the refund shall be determined by the Commission at the time a refund becomes necessary.

(K) Fire Flow Requirements: In the event the Applicant has fire flow requirements that require additional facilities beyond those facilities whose costs were included in the Common Facilities hook-up fee, and which are contemplated to be constructed using the proceeds of the Common Facilities hook-up fee, the Company may require the Applicant to install such additional facilities as are required to meet those additional fire flow requirements, as a non-refundable contribution, in addition to paying the Common Facilities hook-up fee.

(L) Status Reporting Requirements to the Commission: The Company shall submit a calendar year Common Facilities hook-up fee status report each January 31 to Docket Control for the prior twelve (12) month period, beginning January 31, 2018, until the Common Facilities hook-up fee tariff is no longer in effect. This status report shall contain a list of all customers that have paid the Common Facilities hook-up fee tariff, the amount each has paid, the amount of money spent from the account, the amount of interest earned on the tariff account, and a list of all facilities that have been installed with the tariff funds during the 12-month period.

LARGE WATER-USERS

Any development with a projected average daily water demand greater than 1,700 gallons per day per acre is considered to be a Large User. Large Users will be required to provide an additional renewable water supply source to Utility to meet the demands of the development that are greater than 1,700 gallons per day per acre. Examples of a renewable water supply source include surface water or a groundwater well with long-term storage credits. The renewable water supply source must be approved by Utility, and must have the appropriately allocated water rights that will be conveyed to Utility. The cost to provide a renewable water supply source to Utility will not be credited as an offset to the Common Facilities Hook-Up Fee because such costs will be due to the exclusive need for additional water by the Large User; however, the cost of that portion of a renewable water supply source that is in excess of the Large User's needs will be credited as an offset to the Common Facilities Hook-Up Fee.

Large Users may be required to enter into an agreement with Utility that will define terms and conditions, and will include fees that will be charged to Large Users for over usage. Fees will incur if Large Users use water in excess of the supply source provided, which will be reviewed by Utility on an annual basis. Continued excessive use could result in Utility requiring the Large User to develop and implement a water use reduction plan or, as a last resort, court action.

General Water Rate G-1
(Continued)

Terms and Conditions

~~The General Water Rates presented on SHEET NO. 1 of this tariff apply to calendar year 2011 only.~~

Water service provided under this rate schedule is subject to this District's Rules and Regulations applicable to Water Service and may be subject to this District's ~~miscellaneous~~ Service ~~Charges~~ set forth in Rate Schedule MISC-1 and adjustor mechanisms included in the Company's tariffs on file with the Arizona Corporation Commission.

Water service under this Schedule is for the exclusive use of the Customer and water shall not be resold or provided to others.

In addition to the collection of regular rates, the utility will collect from its customers a proportionate share of any privilege, sales, use and franchise tax, per Commission Rule 14-2-409.D.5.

~~All rates in this Schedule shall be subject to their proportionate part of any taxes or other governmental imposts which are assessed directly or indirectly on the basis of revenues derived from service under this Schedule, or on the basis of the service provided or the volume of water produced, purchased or sold~~

A 1½% late payment penalty will be applied to account balances not paid within ~~fifteen~~twenty-five (25) days after the postmark date of the bill in accordance with Arizona Administrative Code R14-2-310.C Rule 8 (H) of EPCOR Water Arizona, Inc.'s Anthem Water District's Rules and Regulations.

Low Income Program: Monthly Low Income Credit of \$10.00 is available in the Anthem Water District. Requires the completion of a Low Income Program Application. Program is restricted to the first 100 eligible residential customers on 5/8 x 3/4 inch meters in the Anthem Water district. Applicants must swear that he/she has annual income below the threshold. The threshold is below 150% of the federal low income guidelines as periodically revised. Applicant may not be claimed as a dependent on another person's tax return. Applicant must reapply each time moving residences. Refusal or failure to provide acceptable documentation of eligibility, upon request, shall result in removal from the low income program. Rebilling of customers under the otherwise applicable rate schedule may occur for periods of ineligibility previously billed under the low income tariff. Annual income means the value of all money and non-cash benefits available for living expenses, from all sources, both taxable and non-taxable, before deductions, for all people who live with the applicant.

Wheeled Water	\$0.5828

Terms and Conditions

Water service provided under this rate schedule is subject to this District's Rules and Regulations applicable to Water Service and may be subject to this District's Miscellaneous Service Charges set forth in Rate Schedule MISC-1.

All rates in this Schedule shall be subject to their proportionate part of any taxes or other governmental imposts which are assessed directly or indirectly on the basis of revenues derived from service under this Schedule, or on the basis of the service provided or the volume of water produced, purchased or sold.

A 1½% late payment penalty will be applied to account balances not paid within twenty five (25) days after the postmark date of the bill in accordance with Rule 8 (H) of EPCOR Water Arizona, Inc.'s Anthem Water District's Rules and Regulations.

Local and/or Regional Messaging Program Tariff – BMP 1.1

PURPOSE

A program for the Company to actively participate in a water conservation campaign with local or regional advertising (Modified Non-Per Capita Conservation Program BMP Category 1: Public Awareness/Public Relations 1.1: Local and/or Regional Messaging Program).

REQUIREMENTS

The requirements of this tariff are governed by Rules of the Arizona Corporation Commission and were adapted from the Arizona Department of Water Resources’ Required Public Education Program and Best Management Practices in the Modified Non-Per Capita Conservation Program.

- 1. The Company or designated representative shall actively participate in water conservation campaign with local and/or regional advertising.
- 2. The campaign shall promote ways for customers to save water.
- 3. The Company shall facilitate the campaign through one or more of the following avenues (not an all inclusive list):
 - a. Television commercials
 - b. Radio commercials
 - c. Websites
 - d. Promotional materials
 - e. Vehicle signs
 - f. Bookmarks
 - g. Magnets
- 4. The Company shall keep a record of the following information and make it available to the Commission upon request:
 - a. A description of the messaging program implemented and program dates.
 - b. The number of customers reached (or an estimate).
 - c. Costs of Program implementation.

Youth Conservation Education Program Tariff – BMP 2.2

PURPOSE

A program for the Company to promote water conservation by increasing students' understanding of water resources and the need to conserve (Modified Non-Per Capita Conservation Program BMP Category 2: Conservation Education and Training 2.2: Youth Conservation Education Program).

REQUIREMENTS

The requirements of this tariff are governed by Rules of the Arizona Corporation Commission and were adapted from the Arizona Department of Water Resources' Required Public Education Program and Best Management Practices in the Modified Non-Per Capita Conservation Program.

1. The Company or designated representative shall work with schools in its service area to increase students' understanding of water resources and to promote water conservation.
2. The Company shall provide a combination of instructional assistance, education materials, teacher education, classroom presentations, and field trips to water related facilities.
3. The Company shall provide the following teacher resources.
 - a. Offer Project WET (Water Education for Teachers) workshops to teachers twice yearly. In lieu of Project WET the Company may market its Water Conservation Assembly Program to all schools within its service area. The Water Conservation Assembly Program will focus on teaching students about water resources and water conservation. The assembly itself will be an interactive water conservation discussion.
 - b. Provide free resource materials and information upon request.
 - c. Provide in-classroom presentations upon request.
4. The Company shall make available free take home educational materials for elementary school students.
5. The Company shall keep a record of the following information and make it available upon request.
 - a. A description of the youth conservation education process implemented.
 - b. The number of students reached (or an estimate).
 - c. A description of the written water conservation material provided free to students.
 - d. Costs of the Youth Conservation Education Program implementation.

New Homeowner Landscape Information Tariff – BMP 2.3

PURPOSE

A program for the Company to promote the conservation of water by providing a landscape information package for the purpose of educating its new customers about low water use landscaping (Modified Non-Per Capita Conservation Program BMP Category 2: Conservation Education and Training 2.3: New Homeowner Landscape Information).

REQUIREMENTS:

The requirements of this tariff are governed by Rules of the Arizona Corporation Commission and were adapted from the Arizona Department of Water Resources' Required Public Education Program and Best Management Practices in the Modified Non-Per Capita Conservation Program.

1. Upon establishment of water service the Company shall offer and make available upon request a free "Homeowner Landscape Packet" to each new customer in the Company's service area. The packet will include at a minimum: a cover letter describing the water conservation expectations for all customers in the Company's service area, applicable rate tariffs, a basic interior/exterior water saving pamphlet, xeriscape landscape information, a list of low water use trees, plants, shrubs, etc., watering guidelines, and a rain water harvesting pamphlet.
2. Upon customer request, the Company shall provide:
 - a. On-site consultations on low water use landscaping and efficient watering practices.
 - b. A summary of water saving options.
3. The Company shall keep a record of the number of packets provided to new customers and make it available to the Commission upon request.

Residential Audit Program Tariff – BMP 3.1

PURPOSE

A program for the Company to promote water conservation by providing customers with information on performing water audits to determine conservation opportunities at their residence (Modified Non-Per Capita Conservation Program BMP Category 3: Outreach Services 3.1: Residential Audit Program).

REQUIREMENTS

The requirements of this tariff are governed by Rules of the Arizona Corporation Commission and were adapted from the Arizona Department of Water Resources' Required Public Education Program and Best Management Practices in the Modified Non-Per Capita Conservation Program.

1. The Company shall offer self-audit information.
2. The Company or designated representative shall provide all customers that request them with a self-audit kit.
3. The kit shall include detailed instructions and tools for completing the water audit including information on how to check their water meter. The audit kit shall include but not be limited to information on checking the following components: irrigation system, pool, water features, toilets, faucets and shower.
4. If requested, the Company shall assist the customer in a self-water audit and assist the customer in determining what might be causing high water usage as well as supply customer with information regarding water conservation and landscape watering guidelines. As part of the water audit, and if requested to do so by the customer, the Company shall confirm the accuracy of the customer meter (applicable meter testing fees shall apply).
5. The Company shall keep a record of the following information and make it available to the Commission upon request:
 - a. A description of the water conservation material provided in the kit.
 - b. The number of kits provided to customers.
 - c. Implementation costs of the Residential Audit Program.

Customer High Water Use Inquiry Resolution Tariff – BMP 3.6

PURPOSE

A program for the Company to assist its customers with their high water-use inquiries and complaints (Modified Non-Per Capita Conservation Program BMP Category 3: Outreach Services 3.6: Customer High Water Use Inquiry Resolution).

REQUIREMENTS

The requirements of this tariff are governed by Rules of the Arizona Corporation Commission and were adapted from the Arizona Department of Water Resources' Required Public Education Program and Best Management Practices in the Modified Non-Per Capita Conservation Program.

1. The Company shall handle high water use inquiries as calls are received.
2. Calls shall be taken by a customer service representative who has been trained on typical causes of high water consumption as well as leak detection procedures that customers can perform themselves.
3. Upon request by the customer or when the Company determines it is warranted, a trained Field Technician shall be sent to the customer's residence to verify consumption and conduct a leak detection inspection and further assist the customer with water conservation measures.
4. The Company shall follow up on every customer inquiry or complaint and keep a record of inquiries and follow-up activities. The Company shall make this information available to the Commission upon request.

Customer High Water Use Notification Tariff – BMP 3.7

PURPOSE

A program for the Company to monitor and notify customers when water use seems to be abnormally high and provide information that could benefit those customers and promote water conservation (Modified Non-Per Capita Conservation Program BMP Category 3: Outreach Services Program 3.7: Customer High Water Use Notification).

REQUIREMENTS

The requirements of this tariff are governed by Rules of the Arizona Corporation Commission and were adapted from the Arizona Department of Water Resources' Required Public Education Program and Best Management Practices in the Modified Non-Per Capita Conservation Program.

1. The Company shall track water usage for each customer and notify the customer if water use seems excessive for that particular billing for that time of the year.
2. The Company shall identify customers with high consumption, verify the high consumption, and investigate each instance to determine the possible cause.
3. The Company shall contact the high water use customers via telephone, email, by mail or in person. The Company shall contact the customer as soon as practical in order to minimize the possible loss of water. The customer will not be required to do anything to receive this notification.
4. In the notification the Company shall explain some of the most common water usage problems and common solutions and points of contact for dealing with the issues.
5. In the notification, the customer will be reminded of possible high water-consumption occurrences, such as:
 - a. Leaks, running toilets, or valves or flappers that need to be replaced.
 - b. Irrigation system valves or sprinkler heads which may be leaking.
 - c. Sprinklers that may be watering the house, sidewalk, or street, etc. increasing irrigation requirements.
 - d. Leaking pool or spas and possible leaks around pumps.
 - e. More people in the home than usual taking baths and showers.
 - f. Doing more loads of laundry than usual.
 - g. Doing a landscape project or starting a new lawn.
 - h. Washing vehicles more often than usual.
6. The Company shall offer water conservation information that could benefit the customer, such as, but not limited to, audit programs, publications, and rebate programs.
7. The Company shall assist the customer in determining what might be causing the high water usage as well as offer the customer information regarding water conservation and landscape watering guidelines. The Company shall confirm the accuracy of the customer meter if requested to do so by the customer (applicable meter testing fees shall apply).
8. The type of notification, the timing of the notification (i.e., how long after high water use was discovered by the Company), and the criteria used for determining which customers are notified shall be recorded. The Company shall make this information available to the Commission upon request.

Meter Repair and/or Replacement Tariff – BMP 4.2

PURPOSE

A program for the Company to systematically assess all in-service water meters (including Company production meters) in its water service area to identify under-registering meters and to repair or replace them (Modified Non-Per Capita Conservation Program Best Management Practice Category 4: Physical System Evaluation and Improvement 4.2 Meter Repair and/or Replacement Program).

REQUIREMENTS

The requirements of this tariff are governed by Rules of the Arizona Corporation Commission and were adapted from the Arizona Department of Water Resources' Required Public Education Program and Best Management Practices in the Modified Non-Per Capita Conservation Program.

1. On a systematic basis, the Company will replace all 2-inch and smaller in-service water meters at least once every ~~fifteen~~twelve years.
2. The Company will test all meters that have caused a meter reading complaint to be filed with the Arizona Corporation Commission.
3. Meters larger than 2-inch shall be tested for one of the following reasons:
 - a. A meter reading complaint is filed with the Company by a customer or Arizona Corporation Commission Staff,
 - b. A meter has been in service for five years.
4. The test will be accomplished by one of the following:
 - a. Having the meter pulled and having a Company Technician physically inspect each meter and its fittings for leaks, registers which may have become loose or are not properly attached to the meter and could be under-registering or other broken parts which need repair.
 - b. Utilizing equipment to verify that all electronic components are within manufacturer specifications and are operating properly.
5. In addition, meters shall be randomly selected for flow testing utilizing a flow through detector testing meter.
6. All replacement water meters shall register in gallons:
 - a. All new 1-inch and smaller meters that are installed will register usage in 1 gallon increments,
 - b. All new 1-1/2-inch through 4-inch meters that are installed will register in 10 gallon increments, and
 - c. All new 6-inch and larger meters that are installed will register in 100 gallon increments.
7. The Company shall keep records on the number of meters that were replaced and make this information available to the Commission upon request.

WATER SYSTEM TAMPERING TARIFF – BMP 5.2

PURPOSE

The purpose of this tariff is to promote the conservation of groundwater by enabling the Company to bring an action for damages or to enjoin any activity against a person who tampers with the water system.

REQUIREMENTS:

The requirements of this tariff are governed by Rules of the Arizona Corporation Commission, specifically Arizona Administrative Code (“AAC”) R14-2-410 and the Arizona Department of Water Resources’ Required Public Education Program and Best Management Practices in the Modified Non-Per Capita Conservation Program.

1. In support of the Company’s water conservation goals, the Company may bring an action for damages or to enjoin any activity against a person who: (1) makes a connection or reconnection with property owned or used by the Company to provide utility service without the Company’s authorization or consent; (2) prevents a Company meter or other device used to determine the charge for utility services from accurately performing its measuring function; (3) tampers with property owned or used by the Company; or (4) uses or receives the Company’s services without the authorization or consent of the Company and knows or has reason to know of the unlawful diversion, tampering or connection. If the Company’s action is successful, the Company may recover as damages three times the amount of actual damages.
2. Compliance with the provisions of this tariff will be a condition of service.
3. The Company shall make available to all its customers a complete copy of this tariff and AAC R14-2-410. The customers shall follow and abide by this tariff.
4. If a customer is connected to the Company water system and the Company discovers that the customer has taken any of the actions listed in No. 1 above, the Company may terminate service per AAC R14-2-410.
5. If a customer believes he/she has been disconnected in error, the customer may contact the Commission’s Consumer Services Section at 1-800-222-7000 to initiate an investigation.

Large Landscape Conservation Program Tariff – BMP 6.12

PURPOSE

A program for the Company to promote water conservation measures by providing non-residential customers with support and incentives to improve their landscape water use efficiency (Modified Non-Per Capita Conservation Program BMP Category 6: Rebates/Incentives 6.12: Large Landscape Conservation Program).

REQUIREMENTS:

The requirements of this tariff are governed by Rules of the Arizona Corporation Commission and were adapted from the Arizona Department of Water Resources' Required Public Education Program and Best Management Practices in the Modified Non-Per Capita Conservation Program.

1. As an incentive to reduce water use for its non-residential customers with landscape watering needs, the Company shall offer to work with the customer or the customer's contracted landscape company to collect and analyze up to 3 years of historical information for their irrigation meters, analyze past consumption patterns and compare usage between years. The Company will analyze past consumption patterns and compare meter size with consumption rates that might suggest meter over-sizing or meter/valve/backflow malfunctions. This analysis shall be presented in both raw data and graphically with recommendations for potential meter resizing when appropriate and identification of high consumption situations and potential malfunctions of landscape watering equipment.
2. No less frequently than every three years, or upon customer request, the Company shall provide its non-residential customers with landscape watering needs, a historical consumption analysis study as described above in item #1 for their respective irrigation meters within the Company's service area.
3. Company service shall be offered using an inverted block rate structure, the interruptible, or effluent tariffs.
4. Upon customer request, the Company shall provide:
 - a. On-site consultations on low water use landscaping and efficient watering practices.
 - b. A summary of water saving options and a month-by-month outdoor water budget.

CROSS-CONNECTION OR BACKFLOW TARIFF

PURPOSE:

The purpose of this tariff is to protect EPCOR Water Arizona, Inc.'s Anthem Water District's ("Company") water from the possibility of contamination caused by the backflow of contaminants that may be present on the customer's premises by requiring the installation and periodic testing of backflow prevention assemblies pursuant to the provisions of the Arizona Administrative Code ("A.A.C.") R14-2-405.B.6 and A.A.C. R18-4-215.

REQUIREMENTS:

In compliance with the Rules of the Arizona Corporation Commission ("Commission") and the Arizona Department of Environmental Quality ("ADEQ"), specifically A.A.C. R14-2-405.B.6 and A.A.C. R18-4-215 relating to backflow prevention:

1. The Company may require a customer to pay for and to have installed a backflow-prevention assembly if A.A.C. R18-4-215.B or C applies.
2. A backflow-prevention assembly required to be installed by the customer under Paragraph 1 of this tariff shall comply with the requirements set forth in A.A.C. R18-4-215.D and E.
3. Subject to the provisions of A.A.C. R14-2-407 and 410, and in accordance with Paragraphs 1 and 7 of this tariff, the Company may terminate service or may deny service to a customer who fails to install a backflow-prevention assembly as required by this tariff.
4. The Company shall give any existing customer who is required to install a backflow-prevention assembly written notice of said requirement. If A.A.C. R14-2-410.B.1.a. is **not** applicable, the customer shall be given thirty (30) days from the time such written notice is received in which to comply with this notice. If the customer can show good cause as to why he cannot install the backflow-prevention assembly within thirty (30) days, the Company or Commission Staff may suspend this requirement for a reasonable period of time.

CROSS-CONNECTION OR BACKFLOW TARIFF

(continued)

5. Testing shall be in conformance with the requirements of A.A.C. R18-4-215.F. The Company may require the customer to pay to have the backflow-prevention assembly tested as long as the Company does not require an unreasonable number of tests.
6. The customer shall provide the Company with records of installation and testing. For each backflow-prevention assembly, these records shall include:
 - a. assembly identification number and description;
 - b. location
 - c. date(s) of test(s);
 - d. description of repairs and recommendations for repairs made by tester; and
 - e. the tester's name and certificate number.
7. In the event the backflow-prevention assembly does not function properly or fails any test, and an obvious hazard as contemplated under A.A.C. R14-2-410.B.1.a. exists, the Company may terminate service immediately and without notice. The backflow-prevention assembly shall be repaired or replaced by the customer and retested.
8. In the event the backflow-prevention assembly does not function properly or fails any test, or in the event that a customer fails to comply with the testing requirement, and A.A.C. R14-2-410.B.1.a. is **not** applicable, the backflow prevention assembly shall be repaired or replaced within fourteen (14) days of the initial discovery of the deficiency in the assembly or its function. Failure to remedy the deficiency or dysfunction of the assembly, or failure to retest, shall be grounds for termination of water service in accordance with A.A.C. R14-2-410.

CURTAILMENT TARIFF
(continued)

Notice Requirements: Under Stage 2, the Company is required to notify customers by delivering written notice door to door at each service address, or by United States first class mail to the billing address or, at the Company's option, both. Such notice shall notify the customers of the general nature of the problem and -the need to conserve water.

Stage 3 Exists When:

- a. Company's total water storage or well production has been less than 50 percent of capacity for at least 24 consecutive hours, and
- b. Company has identified issues such as a steadily declining water table, increased draw down threatening pump operations, or poor water production, creating a reasonable belief the Company will be unable to meet anticipated -water demand on a sustained basis.

Restrictions: Under Stage 3, Company shall request the customers to voluntarily employ water conservation measures to reduce daily consumption by approximately 50 percent. All outside watering should be eliminated, except livestock, and indoor water conservation techniques should be employed whenever possible. Standpipe service shall be suspended.

Notice Requirements:

1. Company is required to notify customers by delivering written notice to each service address, or by United- States first class mail to the billing address or, at the Company's option, both. Such Notice shall notify the customers of the general nature of the problem and the need to conserve water.
2. Beginning with Stage 3, Company shall post at least five (5) signs showing the curtailment stage. Signs shall be posted at the well and/or pump sites located within the Agua Fria Water District.
3. Company shall notify the Consumer Services Section of the Utilities Division of the Corporation Commission at least 12 hours prior to entering Stage 3.

Once Stage 3 has been reached, the Company must begin to augment the supply of water by either hauling or through an emergency interconnect with an approved water supply in an attempt to maintain the curtailment at a level no higher than Stage 3 until a permanent solution has been implemented.

CURTAILMENT TARIFF
(continued)

Stage 4 Exists When:

a. Company's total water storage or well production has been less than 25 percent of capacity for at least 12 consecutive hours, and

b. Company has identified issues such as a steadily declining water table, increased draw down threatening pump operations, or poor water production, creating a reasonable belief the Company will be unable to meet anticipated water demand on a sustained basis.

Restrictions: Under Stage 4, Company shall inform the customers of a mandatory restriction to employ water conservation measures to reduce daily consumption. Failure to comply will result in customer disconnection. The following uses of water shall be prohibited:

- ◆ Irrigation of outdoor lawns, trees, shrubs, or any plant life is prohibited
- ◆ Washing of any vehicle is prohibited
- ◆ The use of water for dust control or any outdoor cleaning uses is prohibited
- ◆ The use of drip or misting systems of any kind is prohibited
- ◆ The filling of any swimming pool, spas, fountains or ornamental pools is prohibited
- ◆ The use of construction water is prohibited
- ◆ Restaurant patrons shall be served water only upon request
- ◆ Any other water intensive activity is prohibited

The Company's operation of its standpipe service is prohibited. The addition of new service lines and meter installations is prohibited.

Notice Requirements:

1. Company is required to notify customers by delivering written notice to each service address, or by United States first class mail to the billing address or, at the Company's option, both. Such notice shall notify the customers of the general nature of the problem and the need to conserve water.
2. Beginning with Stage 4, Company shall post at least eight (8) signs showing the curtailment stage. Signs shall be posted at the well and/or pump sites located within the Agua Fria Water District
3. Company shall notify the Consumer Services Section of the Utilities Division of the Corporation Commission at least 12 hours prior to entering Stage 4.

ADJUSTOR MECHANISMS

PURCHASED WATER ADJUSTOR MECHANISM ("PWAM")

The PWAM allows the Company to pass through purchased water costs incurred by the Company to its customers. Details can be found in the Company's Purchased Water Adjustor Mechanism Plan of Administration.

Applicability
Applicable to all customers served by this service area.

PWAM Surcharge Rate for all Customers:
All usage per 1,000 gallons per month \$X.XXXX *

* Rate consists of \$X.XXXX per 1,000 gallons of usage to recover the over/under collection of prior years' surcharge and \$X.XXXX per 1,000 gallons of usage for the collection of current annual purchased water charges.

Terms and Conditions

The Company will annually file with the Commission by March 1 the proposed annual PWAM surcharge for the current calendar year. The filing shall contain a summary of all purchased water costs, total collections from the surcharge, and the updated surcharge amounts. All documentation to support the proposed surcharge will be included.

As part of each annual filing, the Company will perform a reconciliation for the prior reporting period comparing the amounts recovered from / refunded to customers to the amount of increase / decrease in water expenses due to changes in rates for that same period resulting in either an under / (over) recovery. This true-up will be included in the annual calculation.

The annual PWAM surcharge will be calculated based on the historic consumption of the applicable customers from the previous twelve months.

The revised PWAM surcharge will be effective on June 1 of each year.

The PWAM surcharge will appear on each applicable customer's bill as a separate line item.

All rates in this Schedule shall be subject to their proportionate part of any taxes or other governmental imposts that are assessed directly or indirectly on the basis of revenues derived from this Schedule.

POWER COST ADJUSTOR MECHANISM ("PCAM")

The PCAM allows the Company to pass through purchase power costs for any gas or electric service provider supplying retail service to the Company to its customers. Details can be found in the Company's Power Cost Adjustor Mechanism Plan of Administration.

Applicability
Applicable to all customers served by this service area.

PCAM Surcharge Rate for all Customers:
All usage per 1,000 gallons per month \$X.XXXX *

* Rate consists of \$X.XXXX per 1,000 gallons of usage to recover the over/under collection of prior years' surcharge and \$X.XXXX per 1,000 gallons of usage for the collection of current power charges.

Terms and Conditions

The Company will annually file with the Commission by March 1 the proposed annual PCAM surcharge for the current calendar year. The filing shall contain a summary of all gas and electrical costs, total collections from the surcharge, and the updated surcharge amount. All documentation to support the proposed surcharge will be included.

As part of each annual filing, the Company will perform a reconciliation for the prior reporting period comparing the amounts recovered from/refunded to customers to the amount of increase/decrease in power expenses due to changes in rates for that same period resulting in either an under / (over) recovery. This true-up will be included in the annual calculation.

The annual PCAM surcharge will be calculated based on the historic consumption of the applicable customers from the previous twelve months.

The revised PCAM surcharge will be effective on June 1 of each year.

The PCAM surcharge will appear on each applicable customer bill as a separate line item.

All rates in this Schedule shall be subject to their proportionate part of any taxes or other governmental imposts that are assessed directly or indirectly on the basis of revenues derived from this Schedule.

ADJUSTOR MECHANISMS
(continued)

SYSTEM IMPROVEMENT BENEFIT MECHANISM ("SIB")

The SIB provides for recovery of the capital costs (return on investment, income taxes and depreciation expense) associated with distribution system improvement projects listed in SIB Plant Table I that have been verified to be complete, net of associated retirements and placed in service per SIB Table II. Details can be found in the Company's System Improvement Benefit Mechanism Plan of Administration.

Availability
Applicable to all customers served by this service area.

Schedule of Charges:

<u>Meter Size</u>	<u>SIB Surcharge</u>	<u>SIB Efficiency Credit</u>	<u>NET SIB Surcharge</u>
<u>5/8" x 3/4" meter</u>	<u>\$ x.xx</u>	<u>\$ (x.xx)</u>	<u>\$ x.xx</u>
<u>3/4" meter</u>	<u>\$ x.xx</u>	<u>\$ (x.xx)</u>	<u>\$ x.xx</u>
<u>1" meter</u>	<u>\$ x.xx</u>	<u>\$ (x.xx)</u>	<u>\$ x.xx</u>
<u>1½" meter</u>	<u>\$ x.xx</u>	<u>\$ (x.xx)</u>	<u>\$ x.xx</u>
<u>2" meter</u>	<u>\$ x.xx</u>	<u>\$ (x.xx)</u>	<u>\$ x.xx</u>
<u>3" meter</u>	<u>\$ x.xx</u>	<u>\$ (x.xx)</u>	<u>\$ x.xx</u>
<u>4" meter</u>	<u>\$ x.xx</u>	<u>\$ (x.xx)</u>	<u>\$ x.xx</u>
<u>6" meter</u>	<u>\$ x.xx</u>	<u>\$ (x.xx)</u>	<u>\$ x.xx</u>
<u>8" meter</u>	<u>\$ x.xx</u>	<u>\$ (x.xx)</u>	<u>\$ x.xx</u>
<u>10" meter</u>	<u>\$ x.xx</u>	<u>\$ (x.xx)</u>	<u>\$ x.xx</u>

Terms and Conditions
Once a SIB is approved in a decision, the Company must file with Docket Control semi-annual status reports.

The annual SIB surcharge will be calculated based on the historic system improvements of the eligible projects from the previous twelve months.

Once a SIB surcharge is implemented the Company must file annually to true-up its SIB Surcharge collections over the preceding twelve months with the SIB Authorized Revenues for that period and establish a surcharge or credit to true up over or under collections. Filings dates for these annual true-ups shall be as established in the Decision.

The SIB surcharge, SIB efficiency credit and net SIB surcharge will all appear as separate line items on each applicable customer bill.

All rates in this Schedule shall be subject to their proportionate part of any taxes or other governmental imposts that are assessed directly or indirectly on the basis of revenues derived from this Schedule.

ADJUSTOR MECHANISMS
(continued)

PROPERTY TAX ADJUSTOR MECHANISM ("PTAM")

The PTAM allows the Company to pass through to its customers the increases or decreases in property tax expenses that result from changes to the assessment ratio or property tax rate. Pass through costs will be divided equally between residential and non-residential customer classes to collect the total increase over a 12-month period. Details can be found in the Company's Property Tax Adjustor Mechanism Plan of Administration.

Applicability

Applicable to all customers served by this service area.

PTAM Surcharge Rate for all Customers:

All usage per 1,000 gallons per month \$X.XXXX *

* Rate consists of \$X.XXXX per 1,000 gallons of usage to recover the over/under collection of prior years' surcharge and \$X.XXXX per 1,000 gallons of usage for the collection of current power charges.

Terms and Conditions

The Company will annually file with the Commission by March 1 the proposed annual PTAM surcharge for the current calendar year. The filing shall detail how the Company's property tax expenses were calculated by parcel by year. These calculations will include full cash value, assessment ratio, and tax rates by parcel. All documentation to support the proposed surcharge will be included.

As part of each annual filing, the Company will perform a reconciliation for the prior reporting period comparing the amounts recovered from/refunded to customers to the amount of increase/decrease in property tax expenses due to changes in rates for that same period resulting in either an under / (over) recovery. This true-up will be included in the annual calculation.

The revised PTAM surcharge will be effective on June 1 of each year.

The PTAM surcharge will appear on each applicable customer bill as a separate line item.

All rates in this Schedule shall be subject to their proportionate part of any taxes or other governmental imposts that are assessed directly or indirectly on the basis of revenues derived from this Schedule.

BILLING ADJUSTMENT TARIFF

1. PURPOSE

1.1. To outline EPCOR's general procedure on adjusting customer water utility bills.

2. SCOPE

2.1. This procedure pertains to billing adjustments for accounts with lost meters, stopped meters, and other situations where usage has been identified or service received but not billed (or under billed). Parameters within this procedure do not necessarily apply to situations where customer tampering, theft, or other actions that prevent access to the water meter are involved.

3. PROCEDURE

3.1. **Timeframe** – In cases where accounts have been identified as having water usage but have not been billed (or have been under billed), EPCOR will adjust the bill for the period identified not to exceed two years from the point of customer notification or adjustment generation. Customers will be provided the ability to spread their payments for the adjustment amount over the same time period for which the usage occurred. EPCOR will have the option of spreading the payment term beyond the original usage period, depending on the circumstances, with approval from the Customer Service Manager or Customer Service Director.

3.2. **Estimated Usage for Stopped Meters** – Usage for stopped meters will generally be calculated based on historical usage for similar timeframes. If the customer has had changes in their usage pattern based on conservation efforts, economic factors, leak repairs, or changes to the number of occupants, these *may* be considered in adjusting the usage estimate from historical data. There may be cases where the usage is monitored or a period of time after the meter has been replaced to determine the appropriate billing adjustment amount.

3.3. **Meter Accuracy Corrections** – If any meter after testing is found to be more than 3% inaccurate, either fast or slow, proper correction between 3% and the amount of the error shall be made of previous readings and adjusted bills shall be rendered according to the following terms:

3.3.1. For the period of 3 months immediately preceding the removal of such meter from service for test or from the time the meter was in service since last tested, but not exceeding 3 months since the meter shall have been shown to be in error by such test, or

3.3.2. From the date the error occurred, if the date of the cause can be definitely fixed.

3.3.3. No adjustment shall be made by the utility except to the customer last served by the meter tested.

BILLING ADJUSTMENT TARIFF
(continued)

3.4. Managing Large and/or Extended Adjustments – Bill adjustment amounts over \$2,500 that extend beyond two billing cycles will be reviewed by EPCOR and communication with the customer will be attempted prior to posting the bill to the customer account. Three unsuccessful attempts to contact the customer via the contact means provided on the customer account shall release the bill to the customer’s account for posting.

3.5. Customer Appeals – Customers may appeal adjustment decisions in writing or by contacting a customer care representative the appeal will be escalated to the appropriate party and a determination will be made within 90 days.

3.6. Exceptions – It is recognized that there may be specific situations or unique circumstances where there is a management decision not to adjust a customer or group of customers.

COMMON FACILITIES HOOK-UP FEE

I. Purpose and Applicability

The purpose of the Common Facilities hook-up fee payable to EPCOR Water Arizona, Inc. ("the Company") pursuant to this tariff is to equitably apportion the costs of constructing additional common water facility infrastructure to provide water production, delivery, treatment, storage and pressure among all new service connections. These charges are applicable to all new service connections established after the effective date of this tariff. The charges are one-time charges and are payable as a condition to the Company's establishment of service, as more particularly provided below.

II. Definitions

Unless the context otherwise requires, the definitions set forth in R-14-2-401 of the Arizona Corporation Commission's ("Commission") rules and regulations governing water utilities shall apply interpreting this tariff schedule.

"Applicant" means any party entering into an agreement with the Company for the installation of water facilities to serve new service connections, and may include developers and/or builders of new residential subdivisions.

"Main Extension Agreement" means any agreement whereby an Applicant, Developer and/or Builder agrees to advance the costs of the installation of water facilities, which may include Common Facilities, to the Company to serve new service connections, or install water facilities to serve new service connections and transfer ownership of such water facilities to the Company, in either case which agreement shall require the approval of the Commission pursuant to A.A.C. R-14-2-406, and shall have the same meaning as "Water Facilities Agreement" or "Line Extension Agreement."

"Common Facilities" means all wells, storage tanks, production, treatment, booster pumps, pressure tanks, transmission mains and related appurtenances, including engineering and design costs, constructed for the benefit of the entire water system and not for the exclusive use of the Applicant's development.

"Service Connection" means and includes all service connections for single-family residential or other uses, regardless of meter size.

COMMON FACILITIES HOOK-UP FEE

(continued)

III. Common Facilities Water Hook-up Fee

For each new service connection, the Company shall collect a Common Facilities hook-up fee derived from the following table:

<u>COMMON FACILITIES HOOK-UP FEE TABLE</u>		
<u>Meter Size</u>	<u>Size Factor</u>	<u>Total Fee</u>
<u>5/8" x 3/4"</u>	<u>1</u>	<u>\$3,280.001,680.00</u>
<u>3/4"</u>	<u>1.5</u>	<u>\$4,920.002,520.00</u>
<u>1"</u>	<u>2.5</u>	<u>\$8,200.004,200.00</u>
<u>1-1/2"</u>	<u>5</u>	<u>\$16,400.008,400.00</u>
<u>2"</u>	<u>8</u>	<u>\$26,240.0013,440.00</u>
<u>3"</u>	<u>16</u>	<u>\$52,480.0026,880.00</u>
<u>4"</u>	<u>25</u>	<u>\$82,000.0042,000.00</u>
<u>6" or larger</u>	<u>50</u>	<u>\$164,000.0084,000.00</u>

IV. Terms and Conditions

(A) Assessment of One Time Common Facilities Hook-up Fee: The Common Facilities hook-up fee may be assessed only once per parcel, service connection, or lot within a subdivision (similar to meter and service line installation charge).

(B) Use of Common Facilities Hook-up Fee: Common Facilities hook-up fees may only be used to pay for capital items of Common Facilities, or for repayment of loans obtained for installation of Common Facilities. Common Facilities hook-up fees shall not be used for repairs, maintenance, or operational purposes.

(C) Time of Payment:

1) In the event that the Applicant that will be constructing improvements is required to enter into a Main Extension Agreement, payment of the Common Facilities hook-up fees required hereunder shall be made by the Applicant no later than within 15 calendar days after receipt of notification from the Company that the Utilities Division of the Arizona Corporation Commission has approved the Main Extension Agreement in accordance with R-14-2-406(M).

COMMON FACILITIES HOOK-UP FEE

(continued)

2) In the event that the Applicant for service is not required to enter into a Main Extension Agreement, the charges hereunder shall be due and payable at the time the meter and service line installation fee is due and payable.

(D) Common Facilities Construction by Developer: The Company and Applicant may agree to construction of Common Facilities necessary to serve a particular development by Applicant which facilities are then conveyed to the Company. In that event, Company shall credit the total cost of such Common Facilities as an offset to the Common Facilities hook-up fees due under this Tariff. If the total cost of the Common Facilities constructed by Applicant and conveyed to Company is less than the applicable Common Facilities hook-up fee due under this Tariff, Applicant shall pay the remaining amount of the Common Facilities hook-up fees owed hereunder. If the total cost of the Common Facilities contributed by Applicant, Developer or Builder and conveyed to Company is more than the applicable Common Facilities hook-up fees under this Tariff, Applicant shall be refunded the difference upon acceptance of the Common Facilities by the Company. The refund may be paid in installments over a period of time pursuant to an agreement between the Company and the developer on a case by case basis. The Company and Applicant may agree to construction of additional facilities that are not Common Facilities, the cost of which shall not be subject to off-set under this paragraph IV.D, but which will be subject to refund under R14-2-406(D).

(E) Failure to Pay Charges; Delinquent Payments: The Company will not be obligated to provide water service to any Applicant or other applicant for service in the event that such Applicant or other applicant for service has not paid in full all charges hereunder. Under no circumstances will the Company set a meter or otherwise allow service to be established if the entire amount of any payment has not been paid.

(F) Large Subdivision Projects: In the event that the Applicant is engaged in the development of a residential subdivision containing more than 150 lots, and is a party to a Main Extension Agreement with the Company for such development, the Company may, in its discretion, agree to payment of the Common Facilities hook-up fees in installments. Such installments may be based on the residential subdivision development's phasing, and should attempt to equitably apportion the payment of charges hereunder based on the Applicant's construction schedule and water service requirements.

(G) Common Facilities Hook-Up Fees Non-refundable: The amounts collected by the Company pursuant to the Common Facilities hook-up fee tariff shall be non-refundable contributions in aid of construction.

COMMON FACILITIES HOOK-UP FEE
(continued)

(H) Use of Common Facilities Hook-Up Fees Received: All funds collected by the Company as Common Facilities hook-up fees shall be deposited into a separate interest bearing trust account and used solely for the purposes of paying for the costs of the Common Facilities, including repayment of loans obtained for the installation of Common Facilities that will benefit the entire water system.

(I) Common Facilities Hook-up Fee in Addition to On-site Facilities: The Common Facilities hook-up fee shall be in addition to any costs associated with the construction of on-site facilities or other additional facilities under Paragraph IV.D, above, under a Main Extension Agreement.

(J) Disposition of Excess Funds: After all necessary and desirable Common Facilities are constructed utilizing funds collected pursuant to the Common Facilities hook-up fees, or if the Common Facilities hookup fee has been terminated by order of the Arizona Corporation Commission, any funds remaining in the trust shall be refunded. The manner of the refund shall be determined by the Commission at the time a refund becomes necessary.

(K) Fire Flow Requirements: In the event the Applicant has fire flow requirements that require additional facilities beyond those facilities whose costs were included in the Common Facilities hook-up fee, and which are contemplated to be constructed using the proceeds of the Common Facilities hook-up fee, the Company may require the Applicant to install such additional facilities as are required to meet those additional fire flow requirements, as a non-refundable contribution, in addition to paying the Common Facilities hook-up fee.

(L) Status Reporting Requirements to the Commission: The Company shall submit a calendar year Common Facilities hook-up fee status report each January 31^s to Docket Control for the prior twelve (12) month period, beginning January 31, 2014⁸, until the Common Facilities hook-up fee tariff is no longer in effect. This status report shall contain a list of all customers that have paid the Common Facilities hook-up fee tariff, the amount each has paid, the amount of money spent from the account, the amount of interest earned on the tariff account, and a list of all facilities that have been installed with the tariff funds during the 12-month period.

LARGE WATER-USERS

Any development with a projected average daily water demand greater than 1,700 gallons per day per acre is considered to be a Large User. Large Users will be required to provide an additional renewable water supply source to Utility to meet the demands of the development that are greater than 1,700 gallons per day per acre. Examples of a renewable water supply source include surface water or a groundwater well with long-term storage credits. The renewable water supply source must be approved by Utility, and must have the appropriately allocated water rights that will be conveyed to Utility. The cost to provide a renewable water supply source to Utility will not be credited as an offset to the Common Facilities Hook-Up Fee because such costs will be due to the exclusive need for additional water by the Large User; however, the cost of that portion of a renewable water supply source that is in excess of the Large User's needs will be credited as an offset to the Common Facilities Hook-Up Fee.

Large Users may be required to will enter into an agreement with Utility that will define terms and conditions, and will include fees that will be charged to Large Users for over usage. Fees will incur if Large Users use water in excess of the supply source provided, which will be reviewed by Utility on an annual basis. Continued excessive use could result in Utility requiring the Large User to develop and implement a water use reduction plan or, as a last resort, court action.

EPCOR WATER ARIZONA INC.
CHAPARRAL CITY WATER DISTRICT
FACTORS FOR ALLOCATING COST OF SERVICE TO CUSTOMER CLASS

FACTOR A. ALLOCATION OF COMMODITY COSTS.

Factors are based on the pro forma test year average daily consumption for each customer classification.

Classification	Average Daily Consumption, 1000 Gallons	Allocation Factor
(1)	(2)	(5)
Residential	3,527	0.7814
Commercial	432	0.0957
Hydrant	42	0.0093
Irrigation	513	0.1136
Total	<u>4,513</u>	<u>1.0000</u>

FACTOR B. ALLOCATION OF MAXIMUM DAY DEMAND COSTS - TREATMENT AND PUMPING.

Factors are based on the maximum day demand for each customer classification.

Customer Classification	Average Daily Consumption, 1000 Gallons	Peak Day Factor	Rate of Flow, 1000 Gallons Per Day	Allocation Factor
(1)	(2)	(3)	(4)=(2)x(3)	(5)
Residential	3,527	2.10	7,403	0.7650
Commercial	432	1.72	744	0.0769
Hydrant	42	3.61	152	0.0157
Irrigation	513	2.69	1,378	0.1424
Total	<u>4,513</u>		<u>9,677</u>	<u>1.0000</u>

FACTOR C. ALLOCATION OF MAXIMUM HOUR DEMAND COSTS.

Factors are based on the maximum hour demand for each customer classification.

Customer Classification	Average Hourly Consumption, 1000 Gallons	Peak Hour Factor	Rate of Flow, 1000 Gallons Per Hour	Allocation Factor
(1)	(2)	(3)	(4)=(2)x(3)	(5)
Residential	147	3.47	511	0.7650
Commercial	18	2.85	51	0.0769
Hydrant	2	5.97	11	0.0157
Irrigation	21	4.45	95	0.1424
Total	<u>188</u>		<u>667</u>	<u>1.0000</u>

EPCOR WATER ARIZONA INC.
CHAPARRAL CITY WATER DISTRICT
FACTORS FOR ALLOCATING COST OF SERVICE TO CUSTOMER CLASS

FACTOR D. ALLOCATION OF COSTS ASSOCIATED WITH METERS

Factors are based on the relative cost of meters by size and customer classification

<u>Customer Classification</u> (1)	<u>5/8" Equivalents</u> (2)	<u>Allocation Factor</u> (3)
Residential	14,704	0.9031
Commercial	776	0.0477
Hydrant	87	0.0053
Irrigation	715	0.0439
Total	<u>16,282</u>	<u>1.0000</u>

FACTOR E. ALLOCATION OF COSTS ASSOCIATED WITH SERVICES

Factors are based on the relative cost of meters by size and customer classification

<u>Customer Classification</u> (1)	<u>3/4" Equivalents</u> (2)	<u>Allocation Factor</u> (3)
Residential	13,088	0.9330
Commercial	451	0.0321
Hydrant	14	0.0010
Irrigation	475	0.0339
Total	<u>14,028</u>	<u>1.0000</u>

FACTOR F. ALLOCATION OF BILLING AND COLLECTING COSTS.

Factors are based on the total number of customers.

<u>Customer Classification</u> (1)	<u>Total Customers</u> (2)	<u>Allocation Factor</u> (3)
Residential	13,088	0.9330
Commercial	450	0.0321
Hydrant	14	0.0010
Irrigation	476	0.0339
Total	<u>14,028</u>	<u>1.0000</u>
